Jacob Milliken, of Scarboro, Me., who lacks only a few months of being 100 years old, walked into a clothing store in Saco one day last week, and selected an outfit for next winter.

Information has been received at the treasury department that "filled" $20 gold pieces have appeared in Tennessee and other parts of the south.

For some years past Seabrook has had but one school committee man, Dr. Colcord. Of late the professional engagements of the doctor have demanded so much of his time that he has been unable to give as much attention to school matters as is desirable, hence the selectmen have voted to increase the board to three members, and Rev. William A. Rand and Edwin Eaton have been added.

The French Navy Superior to the English.

At the opening of the new house of the Junior Conservative Club of Liverpool a banquet was given to several gentlemen, among them Lord H. Lennox, who made a speech in which he lamented over the decline of the British navy. He said he would impress on his hearers the extreme importance of the supremacy of England in maritime power, and he asked if it should be acquiesced in that the British navy should be inferior, as statistics showed it to be, to the French navy in personnel and in guns. The French had made marvellous strides since 1872. They had, according to the latest statistics, thirty-seven effective battle ships, while we had forty-one, and this was too near to be pleasant, while in 1885 the French navy would be more modern than our own. This was a matter becoming too serious for casual observation only, for both in speed and in armor the French would also speedily outrun us. On the face of it, too, the French were beating us, for while we had 18,000 men only employed in the dockyards, and these engaged upon the repairs of the "lame duck" ships which came home, the French had 23,000 men engaged in the yards, not upon repairs, but upon construction. Then the French had 36,393 marines against out 12,400, and it must be remembered that the French marines did far more work than their English fellows, as the episode at Tonquin showed. —*Liverpool Courier.*

Lieut. Hubnit Winslow, of the Portsmouth, in a card in the *Herald* of the 26th says: "In the *Herald* of the 22nd it was stated that the Portsmouth got on shore on Gould's island while practicing squadron drill. It was telegraphed from Newport, and must have been sent through ignorance or maliciousness, as we never got ashore or came near doing so. Will you be kind enough to have it contradicted? The same statement also appeared in other New York papers." The lieutenant should not worry about such trifles. It is not uncommon for United States ships to go ashore. If his navigating is no better than his rhetoric, we are not surprised at his sensitiveness. —*Nautical Gazette.*

The Government Chemist Analyizes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

HAIR WORK!

I MANUFACTURE **Invisible Hair and Cap Nets**, made of **good strong hair** prepared by me especially for that purpose, and **never** use any refined or rotten hair. Prices from **5 cents** upward.

Combings Made into Switches for 50 Cts.

No. 1 Water street, Portsmouth, N. H.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possesses **WILL** ing all and even more than we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts **CONVINCE** all the machinery of your body into working order.

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO. Apothecaries, Lowell, Mass.

CATARRH **ELY'S CREAM BALM**

has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *Is not a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds,** large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

GEORGE F. THOMPSON, Manager.

GOSSIPS SAY

That more boating parties were on the river last Sunday than on any previous Sunday this season.

That the yacht Wm. H. Russell sailed on Saturday night last with a merry party of journalists and business men for a brief fishing trip.

That on Sunday morning, when the fog lifted, the yacht was discovered at anchor in the tideway between Wood island and Whalesback, where she had laid in the trough of the sea for ten hours.

That her passengers had a decidedly bilious appearance.

That it will take two streams from a steam fire engine to get that yacht in respectable condition for the next party.

That among the guests at Caswell's hotel, Smuttynose island, last Sunday, were Thomas Albert Ward, Eugene Sullivan and John Rose of this city.

That Beacham's large barge took three families to Gerrish's island picknicking on the 15th inst.

That the gas-light posts about the city are receiving a coat of paint.

That the fog on the river and outside the harbor for a week or more past has been more dense than ever before known in the experience of the steamboat men.

POLICE COURT--BATCHELDER, J

MONDAY, July 16th.

Rose Quinlan, for drunkenness, was fined $3, costs $6.31; jail in default of payment.

MEMORIAL.

The brief illness and sudden death of William A. D. Waldron has cast a deep gloom of sorrow upon this community, especially among the young who were his companions and acquaintances. The funeral services conducted by Rev. Mr. Hovey at St. John's church on Monday were very solemn and impressive, and attended by the entire Sabbbth school of which he was a devoted attendant. His former and recent teachers, and many of the pupils of the high school, were also present to express for him their high regard and personal affection. The pallbearers were seven of his classmates in the high school, and one other very dear young friend. The floral tributes were numerous and beautiful, and those offered by his classmates were especially appropriate and touching, and expressive of the universal esteem which he had won by his exemplary life. Indeed, his life was above reproach, and judged by human standards, seems to have been faultless. Refined in feelings, courteous in manners, strong in the defence of truth and right, an exceptional student, a brilliant scholar, a noble, manly boy, he gave promise of a career alike honorable to himself and friends and useful to the world. The expressions of sympathy for the widowed mother and surviving sisters, who are sorely stricken by this terrible grief, have been wide-spread and deep-felt, and we can but feel that we as well as they have sustained an irreparable loss. E. J. G.

THE FIREMEN'S MUSTER.

Quite a number of good subscriptions to the muster fund, ranging from ten to fifty dollars each, were secured by the committee last week, though the papers were hardly more than started in circulation; the boys reported that not a person applied to, up to Saturday night, had refused to give.

A new Silsbee engine costing $7500 will be sent here from Seneca Falls, N. Y., for exhibition during the muster.

Two engine companies of Amesbury, Mass., had committees in this city on Saturday to make arrangements for their accommodation during the muster.

Mr. M. J. Leary, formerly of the Boston *Star*, and foreman of the Dover *State Press*, is to publish the official journal for the muster.

The Sunday school of the Court street Christian church, in connection with the Christian Sunday school of Kittery, will hold a picnic at Pinkham's grove, Dover point, on Wednesday, July 18th. Price of tickets for round trip,—for adults, forty cents; for children under twelve years of age, twenty cents.

The steam yacht Marion, of Salem, Mass., arrived at the Shoals on Sunday in a disabled condition, having bursted four tubes in a new boiler; a telegram was sent to Gloucester for the tug Sam Jones, to tow the Marion home.

Dr. Gage, "the man so celebrated for his remarkable cures in New Hampshire," or words to that effect, was arrested at the Rockingham house in this city on Sunday on complaint of Thomas Entwistle, for practising medicine without a license from any state medical society. Calvin Page, Esq., acting as prosecuting attorney. The doctor was subsequently allowed to depart, as is alleged on his promise to appear at court Monday forenoon; but when the court was ready, the doctor wasn't there.

At the Shoals, on Sunday, there were 101 guests at the Oceanic, and 278 at the Appledore house.

The United States practice ship Dale, a 3d rate sailing vessel, [Commander Charles D. Sigsbee commanding, with cadets from the naval school at Annapolis, Md., on board, was at anchor off Odiorne's point Monday morning, and in the afternoon was towed in to an anchorage in the lower harbor by the tug Leyden, sent down from the navy yard by Commodore Wells for that purpose. The practice ship Constellation was also reported as off the harbor in the morning, but was not seen by the Leyden in the afternoon.

The Eastern Yacht Club squadron, including the schooners Latona, Fortuna, Halcyon, Actea, Lapwing and Phantom, sloops Effie and Viva, and steam yachts Ibis and Vedette—eighteen sailing yachts and three steamers, in all—was at the Shoals on Sunday last.

Some men out boating on Sunday picked up a piece of a large hawser, about twenty-five feet long, and stowed it in their boat. In making a landing afterward the piece of hawser interfered with the working of the boat, and she ran at good speed under a wharf, and had her mast carried away.

The Maine Central railroad will be able to run trains to Ellsworth in November. In 1884, the early traveller to Bar Harbor can leave Boston, and, going via the Eastern and Maine Central roads, arrive in time to take tea at Bar Harbor; or, leaving Bar Harbor at eleven o'clock in the forenoon, get down in Boston at tea time.

Sarah Green, (*nee* Lovely,) wife of Andrew J. Green of Kennebunk, was examined on the 9th inst. on a charge of adultery with Samuel W. Green at South Berwick. She pleaded guilty, and in default of bail was sent to Alfred jail to await the action of the grand jury.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

REPORTS OF GOVERNMENT CHEMISTS
As to Purity and Wholesomeness of the Royal Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it to be composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances. E. G. LOVE, Ph.D."

"It is a scientific fact that the Royal Baking Powder is absolutely pure." "H. A. MOTT, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious substance. HENRY MORTON, Ph.D., President of Stevens Institute of Technology."

"I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. DANA HAYES, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

NOTE.—The above DIAGRAM illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A one pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.

AT PORTSMOUTH, SATURDAY, JULY 21.

"The Great Inter-Ocean has firmly established itself as a conscientious show, and carries its advertisements out to the letter."—*Hartford (Conn.) Courant.*

AUCTION SALES.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT, WASHINGTON, *June 21, 1882.*

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Monday, September 24, 1883, at which time and place they will be opened, for the purchase of certain vessels which have been stricken from the Navy Register, under authority of an act of Congress approved August 5, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered, their appraised value and their locality are, the Congress, $25,407; Guard, $2,869; Kansas, $6,105; and Saline, $10,400; at Portsmouth, N. H. Iowa, $74,800; Niagara 29,000; and Ohio, $15,700, at Boston. Blue Light, $500, and Florida, $64,400, at New London, Conn. New Orleans, $200, (on the stocks), at Sackett's Harbor, N. Y. Susquehanna, $9,000, at New York. Burlington, $5,000; Chance, $400; Supply, $1,200; Sorrel, $300, and Dictator, $33,800; at League Island, Pa. Frolic, $8,600; and Relief, $1,000, at Washington, D. C. Worcester, $25,400; Shawmut, $5,300, and Savannah, $10,000, at Norfolk. Roanoke, $37,300, at Chester, Pa. Pawnee, $9,900, and Seaverel, $900, at Port Royal, S. C.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent., or any part thereof, within that time, said cash deposit of ten per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandants of the Yards.

The purchasers must remove the vessels purchased from the limits of the Yards or Stations within such reasonable time as may be fixed by the Department.

WILLIAM E. CHANDLER, *Secretary of the Navy.*

NOTICE.

Don't forget; LARRABEE has constantly on hand and for sale, a good assortment of WHIPS' SURCINGLES, HALTERS, BRUSHES, CURRY, COMB, BELLS, HARNESS SOAP, VACUUM and NEATSFOOT OILS, and all other articles usually found in a first-class Harness shop. Particular attention paid to Custom Work, and Harness and Trunk repairing. Trunks sent for and returned free of charge. Don't mistake the place, No. 25 Congress St., up stairs, over Freeman's Oyster House.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and uniformly dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 225 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the most extensive work on Physiology ever published. The nothing what ever that the reader may wish either require or wish to know for what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MORNING, ON DECK.

The twilight water seem s so old
At evening, dim, so gray and cold,
But now the sun is just rising clear
Someone have got impaloned there!

I watch the long sun s with light,
Or so, I dipped with wavering white,
O'er which a sea-gull soars or dips
Far f on you line of moveless ships,

Wan black hulls "as if secret
From man's wanderings everywhere,
Yet wait, with slumbrous sails, until
The auspicious winds fulfill

The promise of the balmy breeze
To waft them over spacious seas,
To Africa shores or lands supine
Beyond the vague horizon's line.

From the swift steamer's silvery track
I see the leaping sprays leap back,
Where ocean's deep-sing cur, onts flow,
Pris es a peak of phantom snow,

A distant barque with sails unfurled,
Seems anchored o'er a tideless world
Of water widening from my view,
And belted with ethereal blue.

W. H. HAYNE, *in Christian Union.*

"Rough on Corns."

Ask for Wells' "Rough on Corns," 15c. Quick, complete, permanent cure. Corns, warts, bunions.

Lieut. Gov. Ames and Executive Councillors Smith, Haskell, Wales, Maurice and Hall of Massachusetts, started Saturday on the yacht America as guests of Gov. Butler, for a three days' cruise along shore.

Good health is the greatest of fortunes; no remedy has so often restored this prize to the suffering, as Hood's Sarsaparilla. Try it.

Two New Haven (Ct.) merchants have been advertising by drawing on the sidewalk large pictures of trade dollars. They were complained of and ordered to desist, but one of them, Mr. Frank, proposes to contest his right in the courts.

Don't Give Up

because you feel blue and are troubled with that tired and all gone feeling. Do as I did, use a bottle of Sulphur Bitters it will make you feel like a new person; it did me.

JENNIE HOMES, 354 Tremont St. Boston.

Elijah J. Hayes and Ruff McConnell, two young men living near Paris, Tenn., quarrelled July 15th, and McConnell drew a pistol and fatally shot Hayes. McCoonell started for his home, but fell dead on the way from excitement and remorse.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

Barbara Miller (colored), on trial in the Henry county (Va.) court as an accomplice in the murder of her husband, Daniel Miller, by Charles Henry Lee, her paramour, has been found guilty of murder in the first degree, as an accessory before the fact.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

M. De Lesseps is seventy-eight years old. He was presented with a new-born son last week.

"Your Skin Cure is superexcellent. It is first curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The steamship Niagara, which took fire and was scuttled at Indian Key on the 14th inst., was raised and towed into Havana on the 15th, not much damaged.

From Messrs. E. G. Honors & Son, 222 Chestnut St. Lynn, Mass., comes the following: "Ellis's Spavin Cure cured one of our horses of a large Bone Spavin.

Lewis Armstrong of Readfield, Me., aged seventy-two years, fell from a load of hay Saturday and broke his spine. His body is entirely lifeless, and there is no hope of his recovery.

Dr. I. F. Mundy, Owenton, Ky.: "I found Brown's Iron Bitters one of the best tonics, and have prescribed it frequently."

Daily Chronicle.

MEMORIAL.

Capt. Andrew T. Milton, whose mortal life ended in Malden, Mass., on the 8th of June, was a native of Portsmouth, N. H., and a graduate from the high school, where he was fitted for the duties of manhood. At the age of fifteen he chose for his profession "a life on the ocean wave," and continued it up to his last sickness, serving with ability and satisfaction to his employers through every grade of office from cabin-boy to commander, and from thence to the ownership of the vessel he commanded. He successfully navigated all the oceans of the earth, and traded for many years between ports in the Indian ocean, and esteemed as far as New Zealand; to and from Hindoostan, British Burmah, Siam, China, Japan, Australia, Tasmania and ports of New Zealand, besides having much experience in the Atlantic ocean trade. Mrs. Milton was his companion for twenty years on shipboard. Their children, too,—two sons and one daughter,—made many voyages with their parents. In 1869 the writer of this sketch met with the sons in Melbourne, Australia, while they were getting their school education at that place during the time the parents, with their daughter, were making a voyage to China. Capt. Milton was a good navigator and thorough sailor, and dearly loved his profession. But above all this he was an honest man, a good husband, a kind father and a faithful friend. And now that his noble spirit has gone aloft to live another life in another sphere, may he rise higher and higher, and still more high, until he gains the mansions eternal in the heavens, where we hope to meet our friend again some time "in the sweet bye and bye," after our own voyage of life is ended, and all our interest blended in the righteous cause defended for universal good. J. M. HILL,

A sailor son of old Portsmouth.

MALDEN, MASS, June 20th.

Don't Die in the House.

"Rough on Rats" Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

Tennis shoes are fastened by large bows of bright colored ribbon.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Dresses almost entirely of rick-rack are worn over pink or blue satteen.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass

The standing English collars with turned-over points are quite generally worn.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three words—Take Hop Bitters.

White lace will be used for portieres instead of plush and silk during the heated term.

Old Stand, No. 68 State Street,

WILLIAM CONN.

Not Affected By Age.

Some old specimens of Royal Baking Powder that had been kept on the shelf of a grocery store for ten years were recently tested by Prof. Schedler of New York, for the purpose of measuring the loss of strength they had undergone. It was found that, although the powder had been exposed to atmospheric changes during all this time—for it was not in air-tight cans—its loss of raising power or strength was less than one per cent, the powder being practically as good as the day it was put up.

This is a most valuable quality in a baking powder, one which few possess. Most powders if not used when first made are found to be ineffective. If kept even a few weeks they lose their leavening power, become lumpy or caked, and are valueless.

This superior keeping quality in the "Royal" arises from the extraordinary care in its manufacture, and scientific principles employed in its combination. The articles used in its composition are thoroughly dried by heat before being compounded, and are so prepared and coated as to prevent the action of the acid upon the alkali prematurely, or except under the influence of heat or water necessarily used in cooking or baking.

The Royal is now used extensively in Australia, Africa, and other low latitudes, where it has been found to be the only baking powder that will withstand the hot, moist atmosphere without deterioration.

***"He that is discontented in one place will seldom be happy in another." People are constantly changing their homes from East to West and from North to South or *vice versa*, in search of a healthy State. If they would learn to be contented, and to use the celebrated Kidney-Wort when sick, they would be much better off. The whole system can be kept in a healthy state by this simple but effectual remedy.

The hair is still dressed high, with little curls about the neck, or braided and arranged in a Langtry knot.

TERRIBLE itching and scaly humors, ulcers, sores and scrofulous swellings cured by the Cuticura and Cuticura Soap (the great skin cures) externally, and Cuticura Resolvent (blood purifier) internally. Ask about them at your druggists.

Good taste and dame fashion agree that the wearing of bracelets outside of gloves is not to be countenanced.

CLEAR HEAD and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions brought about in catarrh by the use of Sandford's Radical Cure. Complete treatment for $1.

The stylish leather vests are very narrow and are sometimes set on like a border on the front of the jacket.

The complicated diseases brought on by intense study, thought, care, anxiety, etc., are often of the most serious nature. Heed such symptoms as loss of memory, universal lassitude, heart disease, kidney complaints, liver troubles and a general breaking down of health and strength. When thus afflicted, when the least exertion causes great fatigue, when life seems a burden, use the reliable strengthening tonic, Brown's Iron Bitters. It will afford you sure relief.

Commodore Nichols, acting secretary of the navy, has directed that the order as to new uniforms is not to take effect until after the officers shall have been notified. This is due to the extent of the opposition.

The Great Eastern has a capacity of 18,915 tons, or 5,000 tons larger than Noah's Ark. Even this Leviathan of the see hasn't room enough in which to stow the goods sold during the last thirty years and known as Dr. Graves' Heart Regulator. This preparation is a certain specific for heart disease, nervous prostration, and sleeplessness.

It is officially stated at the navy department that the disagreement between Commodore Mayo, commandant of the Norfolk yard, and Commander McGlensey, had no reference to the employment of two Mahone men in the yard as reported, and that no politics were connected with the trouble.

The public does not lack a genuine remedy for skin diseases in Glenn's Sulphur Soap.

"Hills Hair Dye," black or brown, 50c.

Colden's Liquid Beef Tonic is admirably adapted for females in delicate health. *Colden's, no other.* Of druggists.

Dr. Mary Walker has been removed from the pension office, but she says she will not be removed.

The *Hop Plasters* have a wonderful sale, and why! Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggists, 25 cts.

The dean of the journalistic fraternity of the United States is Mr. Knapp, senior editor of the St. Louis Republican, ninety-eight years old.

Mr. Geo. W. Knapp, of Waltham Mass., says: "I have removed an enlargement on my horse's knee which a V. S. pronounced incurable, by the use of Ellis's Spavin Cure. I think this is a very flattering testimonial." It's only one of many hundred, however. thanks; all the same.

"Andrews' Bazar" for August is by all odds the handsomest number ever published. It is evident that it has fallen into the hands of persons who know what the ladies want in a Fashion paper, and know how to publish it. Its low price (only $1 a year) places it within the reach of all, while its styles, stories and table of contents generally, compare very favorably with these of the high cost foreign and American publications of its class. Published by "The American Bazar Co.," 202 Broadway, N Y.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

The London *World* calls Henry James "a cultivated Yankee without imagination."

SLIGHT ODDS.

A Little Story with a Large Moral—One Man Who knew his own Business.

"No, my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the counter. "No, my dear, we haven't any red flannel, but we have some first rate New Orleans molasses." Softly hoping that she didn't think that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Have you BENSON'S CAPCINE PLASTERS?" asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as soon as it touches the skin."

"Not at present," replied the druggist, genially, "but we have lots of plasters just as good. There is Allcock's, the Capsicum and others—won't one of them do as well?"

"My dear sir," retorted the gentleman, with a slight show of temper, "I say nothing against those articles, but I am a business man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that sometime ago, for another disease, of which the Capcine has since cured me, I tried all those you mention, with no appreciable benefit. They are inefficient, every one of them, the meanest act of the proprietors of some of them being this: that they make plasters with similar sounding names to deceive the unwary into believing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day."

Be on your guard against imitations. The genuine has the word CAPCINE cut cleanly in the middle of the plaster.

Seabury & Johnson, Chemists, New York.

Dizziness, Liver and Kidney Complaint.

CINCINNATI, O.

H. R. Stevens—Dear Sir: I have received great benefit from the use of the Vegetine, and can safely recommend it for *Dizziness, Rush of Blood to the Head*, and a general blood purifier. It has also been used by other members of my family for *Liver and Kidney Complaints*. MRS. A. C. ULRICH, 200 Baymiller St.

PURIFIES THE BLOOD.

BOSTON, MASS.

MR. H. R. STEVENS—Dear Sir: I have been using Vegetine for some time with the greatest satisfaction, and can highly recommend it as a great cleanser and purifier of the blood. J. L. HANNAFORD, Pastor of Eglenton Square M. E. Church.

A MEDICINE FOR CHILDREN AND ADULTS.

I testify to the beneficial effects of VEGETINE, as used in my family for the past six years. We consider it invaluable as a blood medicine for both children and adults, and endeavor to always keep a supply on hand. Yours, &c., C. A. JACKSON, Business Manager South Boston Inquirer

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

58TH

Popular Monthly Drawing of the

COMMONWEALTH DISTRIBUTION CO.

In the city of Louisville, on

TUESDAY, JULY 31st, 1883.

These drawings occur on the last day of each month (Sundays excepted.) Repeated adjudication by State and United States Courts have placed this company beyond the controversy of the law. To this company belongs the sole honor of having inaugurated the only plan by which their drawings are proven honest and fair beyond question.

N. B.—The Company has now on hand a large capital and reserve fund. Read carefully the list of prizes for the

July Drawing.

PATENTS!

R. H. EDDY,

No. 76 State St., opposite Kilby, Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior abilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

☞"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1883. eodly

The Beautiful Green Melon.

A beautiful thing it was, and right green was young Mr. Green, who went down to the cellar about midnight and ate nearly half of it. The next day young Mr. Green said he didn't want any breakfast, and he thought he would not get to the store. He wished he hadn't seen that watermelon. By the prompt administration of Perry Davis' Pain Killer young Mr. Green's internal economy was reduced to a state of peace and comfort.

The state board of equalization has increased the valuation of real estate in Franklin $171,013 over that of the assessors.

Being entirely vegetable, no particular care is required while using Dr. Pierce's "Pleasant Purgative Pellets." They operate without disturbance to the constitution, diet, or occupation. For sick headache, constipation, impure blood, dizziness, sour eructations from the stomach, bad taste in the mouth, bilious attacks, pain in region of kidneys, internal fever, bloated feeling about stomach, rush of blood to head, take Dr. Pierce's "pellets." By druggists. c

A service in memory of Miss Sarah Carter, late matron of the Orphan home, was held in St. Paul's chapel at Millville on Sunday. The address was given by Rev. Henry A. Coit, D. D., rector of St. Paul's school at Concord.

SPRINGFIELD, MASS.,—The *Daily Union* makes the following public: "Our reporter in speaking with Mr. J. B. Weston, Supt. Car Works, Boston & Albany Rail Road, was informed by him and that he had rheumatism in the shoulder and could find no relief until he applied the great pain-banisher, St. Jacobs Oil. 'I must confess,' he said 'that I was greatly surprised at the good results.'"

Attorney General Tappan has prepared his report upon the Swedish mill employes' troubles at Suncook. The document is lengthy, containing a careful analysis of the whole subject. The conclusions arrived at are that all processes issued against the complainants were legal, that they are censurable for indolence in running heavily in debt and undertaking to avoid the payment of bills, and that the mill corporations are entirely blameless in the matter.

Miss Ida K. King, Goffstown, N. H., says: "Brown's Iron Bitters is the best medicine I ever used for dyspepsia. It helped me greatly."

George Boynton and Edward A. Cargill, boys about twelve years old, were drowned in Agawam river, Mass., July 11th, while bathing.

The cholera is spreading with great rapidity in Egypt, having appeared in Cairo and Alexandria.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

WEDNESDAY, JULY 18, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

The Senatorial Contest

At Concord still continues, and the end is not yet in sight. Mr. Rollins, the caucus nominee of the republicans, has withdrawn, it having become evident that he could not be elected. Ex-Senator Patterson, who had a small number of devoted adherents, withdrew before Mr. Rollins did; and Hon. Jeremiah Smith, of Dover, who last week loomed up with considerable prominence, has peremptorily declined to be considered a candidate, saying he would not accept the office if elected. Hon. Wm. E. Chandler's vote on the 17th reached sixty-five—the highest number yet cast for him, but not nearly enough to elect. Briggs, Marston and Stevens, the anti-caucus men to whom Rollins owes his defeat, still hold on; but none of them can probably be elected—certainly not without placing New Hampshire in the sure democratic column for 1884.

How the contest will turn out we would inform our readers but for one reason, and that is, we do not know. Of course any attempt to bind the republican members of the legislature by caucus (or "conference," which seems to be a more popular term just now) to vote for either of the anti caucus candidates, is too absurd to be considered; and they appear to be strong enough with their respective supporters, and each eager enough to win the police, to defeat a choice until the democrats shall step in to settle the matter, and this the latter as yet show no sign of doing, the democratic vote going solid for Bingham, the caucus candidate, every time.

The Telegraphers' Strike.

The demands of the telegraph operators were submitted to the managers of the Western Union company in New York, and to the managers of all the other telegraph lines in the United States and Canada at their respective general offices, on the 16th inst. The ultimatum contains the following demands: First, an increase of fifteen per cent on all salaries; second, that eight hours shall be a whole day's work, and seven hours a whole night's work; third, that all work on Sunday shall be paid for as extra; fourth, that all extra work shall be compensated for on the base of five hours for a day's work. No threats were made in case the demands were not complied with, but it was supposed the strike would occur on the 18th, at noon, Washington time, if at all. While the telegraph companies can afford to pay large dividends on immense quantities of water, the claim of the operators to reasonable compensation would seem to be just. But it is hard to estimate the injury to the business interests of the country from such a strike.

New Hampshire Legislature.

The vote on the 17th was:

Whole number of votes	220
Necessary for a choice	161
Bingham had	112
Chandler	65
Briggs	28
Tappan	34
Marston	22
Moore	12
Stevens	10
Gallinger	4
Scattering	13

And there was no choice.

A Grand Gala Day.

The parade of the "Great Inter-Ocean, Largest and Best Show on Earth," which exhibits here on Saturday, July 21st, is pronounced by the press to be the most superb spectacle ever seen upon the streets. It includes a representation of the most famous pageant recorded in ancient history, the triumphal re-entry of Semiramis, Queen of Assyria, into Babylon, after her successful conquest of the world. The queen is personated by a young lady of such wonderful beauty as to be known by no other name than the Empress of Loveliness. Another great feature is the open exposition of wild animals upon the streets without expense; there are ten cages of animals and serpents, which will be thrown open to public view, free of charge. This is a generous thing in Mr. Doris to do, but he can well afford to show these samples of the wealth of attractions in his menagerie. Space forbids a detailed description of what will be seen in the parade. The newspapers everywhere say that it excels in every respect any and all parades ever placed upon the street by any kind of a show. People in the country should start to town early to do their shopping before ten o'clock, and then devote the rest of the day to the parade and the show itself. It is not the custom of this paper to advise people to patronize any person or performance, except through its advertising columns, but in this instance so great is the reputation of the Great Inter-Ocean Show and its proprietor, John B. Doris, for faithfully fulfilling all promises and even showing more than it advertises, that a departure from the rule is taken, as we feel assured that people will receive their money's worth of entertainment and instruction by attending the Great Inter-Ocean Show.

PLACE OF INTEREST to visit while in Boston, is the Wareroom of Paine's Furniture Manufacturing Co., 48 Cambridge street, opposite Maine depot. There you will find many curious imported pieces, as well as the largest assortment of fine furniture, lace curtains, and rich upholstery goods to be found in America. If you wish a book of illustrations, send postal card to the above address, and a new illustrated book of designs will be sent you.

Demorvelle's Determination.

And it is a good crib for luck at lottery. At 10 o'clock A. M. on Wednesday, June 13th, the day after the 157th Monthly and 1st June Semi-Annual Grand Drawing of the Louisiana State Lottery, Mr. Jas. Demorvelle of Demorvelle & Cosachs, dealers in coffee (at retail) presented at the Company's office one-half of his ticket, No. 25,131, which had won the first capital prize of $150,000, and was promptly paid in full. He is 23 years of age, and has been in business since he was 22 years old. He has been long here, and has been at the head of the coffee retail firms, succeeding in earning a comfortable income. His father and grandfather were all born in New Orleans, and is one of the oldest Creole families, descendants of De Vernay, one of the pioneers of the colony founded by Iberville.—*New Orleans Picayune, June 17th.*

STATED MEETINGS.

CITY GOVERNMENT.

RELIEF ASSOCIATIONS.

Rockingham Masonic Relief Association—Annual meeting First Friday in January.

Portsmouth Odd Fellows' Mutual Relief Association—Annual meeting Fourth Tuesday evening of January.

Portsmouth Firemen's Mutual Relief Association—Second Wednesday of January, April, July and October.

TEN YEARS AFTER.

Ten years ago, when she was ten,
I used to teach and scold her;
I filled her, and she loved me then,
A boy some five years older.

I filled her; she would fetch my book,
Bring peach to scream or thicket,
Would oil my gun, or bait my hook,
And field for hours at cricket.

She'd mend my cap, or find my whip,
Ah! but boys hear a rare story!
I liked her rather less than Gyp,
And far less than my pony.

She loved me then, though Heaven knows why,
Small wonder had she hated,
For scores of dolls she's had to cry
That I decapitated.

I tore her frocks, I pulled her hair,
Called red the sheen upon it;
Out fishing, I would even dare
Catch tadpoles in her bonnet.

Well, now, I explain my crime:
The Nemesis of fables
Came after years; to-day Old Time
On me has turned the tables.

I'm twenty-five, she's twenty now,
Dark-eyed, pink-cheeked and bonny;
The curls are golden round her brow;
She smiles, and calls me "Johnny."

Of yore I used her Christian name,
But now, through fate or malice,
When she is by my side she can't frame
Five letters to utter "Alice."

I, who could love with her, and tease,
Stand silent now before her;
Death, through the very wish to please—
A speechless, shy adorer.

Or if she turns to me to speak,
I'm drawed by her grace;
The hot blood rushes to my cheek,
I babble commonplaces.

She's kind and cool—ah! Heaven knows how
I wish she blushed and faltered;
She kiss me, and I love her now;
Dear, dear! how things have altered!

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing all and even more than we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts all the machinery of your body into working order. **WILL** **CONVINCE**

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. F. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH **ELY'S CREAM BALM**

ELY'S CREAM BALM CURES CATARRH COLDS IN THE HEAD CHRONIC OR ACCIDENTAL CATARRH. HEALS SORES IN NASAL PASSAGES. RESTORES THE SENSES OF TASTE AND SMELL. PRICE 50 CENTS AT DRUGGISTS OR BY MAIL. ELY'S CREAM BALM CURES WHILE OTHERS ONLY RELIEVE.

has gained an enviable reputation wherever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER.

It is a liquid or snuff.

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WEATHER.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 65 degrees above zero.

Cloudy.

POLICE COURT--BATCHELDER, J

TUESDAY, July 17th.

Arvilla Palmer, before the court for drunkenness, was let off on his promise to leave town.

William Randall, who came out of jail on the 14th, was charged with his old offence, drunkenness, and sent to the county farm for sixty days, costs being taxed at $6.90.

GOSSIPS SAY

That twenty years ago the present season there were seventeen foggy days in succession during which the sun was rarely seen.

That but little hay was harvested that year in New England that was not in a damaged condition.

That camping-out parties at Gerrish's island have considerable difficulty in getting milk, butter and eggs from the farms in that vicinity.

That a good dairy farm with a well-stocked kitchen garden would prove a paying investment to an enterprising farmer on that island.

That Mr. Charles Humphreys of this city has purchased the handsome and fast cat-rigged yacht formerly owned by Plumer D. Norton.

That owing to the dense fog on Tuesday, but few persons attended the launching of the schooner at Fernald's ship yard.

That the Reform Club will picnic at Wallis' sands, Rye, on Thursday of this week.

That the yacht Wm. H. Russell sailed on Tuesday evening, with a party of young gentlemen on a fishing excursion.

That one of the finest row boats on the river is owned by George Sanderson of this city.

That the boat is one of many made by Davis of Newcastle for young men of our place.

That the so-called "anti-caucus republicans" at Concord having "smashed the slate" are now "all at sea."

That the only way in which they can reach solid ground once more, apparently, is for the aforesaid anti-caucus men to hold a caucus, and declare its edicts binding on every true republican who thinks more of party than of self.

That having made such a declaration, the anti-caucus men should proceed to nominate one of themselves for United States senator.

That there might be trouble in selecting which one.

That possibly such a plan would work satisfactorily.

That possibly it wouldn't.

That perhaps some so-called republican will in the end go to Washington by aid of democratic votes.

That a convention of members of the Boynton family from all parts of the United States is to be held in Newburyport, where the ancestors of the Boyntons are buried, on the 14th of August next.

That the convention will be attended by representatives from this city.

That the democratic papers, which long have been loud in denouncing Stephen W. Dorsey, the great star-route man, as the chief of frauds and rascals, are now convinced that he is a truthful man.

That this miraculous conversion has been brought about by Dorsey's published attack upon Garfield and the republican campaign of 1880.

That the democrats may reach the promised—and long-coveted—land at the next national election, but Saint Dorsey will hardly serve as their prophet to that end.

LAUNCH.

The schooner Alice B. Phillips was launched from Fernald's yard at Freeman's point on Tuesday forenoon, being christened as she left the ways by a little girl of four years for whom the vessel is named, daughter of Capt. E. B. Phillips of the steamer Empire State. The Clara Batemen took her in tow, and berthed her at the wharf in the rear of Boynton's bottling establishment, where she will be rigged. She is 150 feet long on the keel, 180 feet over all, thirty-six feet beam, and sixteen feet in the hold; and is expected to carry about 900 tons of coal. She has patent steering gear, steam pump, steam for weighing anchor, hoisting sails and cargo, etc., and is a fine vessel in every respect.

SUDDEN DEATH.

Sylvester Reding of Haverhill died very suddenly on Tuesday morning at the residence of his son-in-law, Mr. George W. Butler, in this city. Mr. Reding was a native of Portsmouth, and a brother of Hon. John R. Reding. He was nearly seventy-one years old at the time of his death, and had been an invalid for years. He has represented Haverhill in the legislature, been register of deeds of Grafton county, and filled other positions of trust.

BURGLARIES.

A raid was made in Epping by burglars during Thursday night and Friday morning of last week. A safe in the dwelling house of Henry Pearson was rifled of valuable papers, and $100 in money taken from the pocket of Mr. Pearson's pantaloons. At the residence of Samuel Pike the burglars obtained a small sum of money, and several articles of jewelry. The houses of L. E. Fogg and Rev. J. H. Stearns, and the Epping hotel, were all entered, but nothing of value was carried away. Unsuccessful attempts were made to obtain entrance to the houses of B. V. Swain, James Godfrey, William Beals and others.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

Do not forget the sale of useful and fancy articles in the Episcopal chapel on State street this (Wednesday) afternoon and evening, commencing at three o'clock. Many articles of beauty and permanent value will be offered, and the object of the sale is to aid that most worthy charity, the Chase Home for Children.

Mr. George Peirce, master mechanic and manager of the Old Colony Co.'s works at Newport, R. I., fell through a steamer's hatchway into the hold, a distance of twenty-six feet, on the 17th inst., receiving probably fatal injuries.

The democrats of ward one will hold a meeting in the ward room on Thursday evening at 7:30 o'clock, to make arrangements for the approaching municipal election.

Mrs. Lillie Langtry and party, including Gebhardt, passed through this city in the parlor car Jerome Marble on Tuesday, on the way to North Conway.

The United States tug Leydon, Mate John L. Vennard commanding, went down from the navy yard Tuesday afternoon, and towed to an anchorage in the lower harbor the practice-ship Constellation, Commander Norman H. Farquhar commanding, from Annapolis, Md., with cadets from the naval academy on board. She arrived at an anchorage about four o'clock, and saluted the flag of Commodore Wells, the salute being returned from the navy yard battery. The Constellation is one of the old-style sailing frigates, of the same class as the Constitution but not quite so large.

The U. S. S. Despatch, with President Arthur on board, is expected at Newport, R. I., July 19th, and it is supposed the president will continue the trip at least as far as this port.

Recent transfers of real estate in Kittery: Nancy Goodwin of Rowley, Mass., to Edward Bailey of same place, real estate in Kittery for $500; Wm. P. Mugridge of Kittery to Thomas E. Mugridge, part of the homestead farm for $1000. In South Berwick: Horace Carroll et al. to Edwin H. Knight, land and buildings for $562; Martha E. Dodge of South Berwick to Nancy E. Dodge of Nashua, N. H., land and buildings in South Berwick for $1000.

Steamer "Fearless."

Sch Reading, Smith, hence for at Philadelphia 16th.

Brig Eliza Leblanc, for this port, in port at Cow Bay, C B, 8th inst.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

SALT RHEUM

Wonderful Cures of Salt Rheum when Physicians, Hospitals and all other means failed.

SALT RHEUM,

I have been a great sufferer with Salt Rheum for thirty years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and I came to the conclusion that I could not be cured. But a friend called my attention to CUTICURA REMEDIES. Got them and used them until my skin was perfectly smooth and I consider myself entirely cured.

Yours truly, B. WILSON LORD.
AGAWAM, MASS.

SALT RHEUM.

CUTICURA REMEDIES are the greatest medicines on earth. Had the worst case Salt Rheum in this country. My mother had it twenty years, and in fact died from it. I believe CUTICURA would have saved her life. My arms, breast, and head were covered for three years, which nothing relieved or cured until I used the CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally. J. W. ADAMS.
NEWARK, OHIO.

SALT RHEUM.

I had tried everything I had head of in the East and West for Salt Rheum. My case was considered a very bad one. My face, head, and some parts of my body were almost raw. Head covered with scabs and sores. Suffering fearful. One very skillful physician said he would rather not treat it, and some of them think now I am only cured temporarily. I think not, for I have not a particle of Salt Rheum about me, and my case is considered wonderful. Thanks to CUTICURA REMEDIES. MRS. S. E. WHIPPLE.
DECATUR, MICH.

SALT RHEUM.

No system of remedies ever compounded so thoroughly eradicate the diseases for which they are intended as the CUTICURA REMEDIES. Many remarkable cures have come to my knowledge, and I feel save in warranting satisfaction if directions are followed. *Medicines that healthily cure Salt Rheum, as* CUTICURA REMEDIES *do, will cure any kind of skin disease.*
CHAS. H. MORSE, *Druggist,*
Proprietor MORSE'S DYSPEPSIA CURE.
HOLLISTON, MASS.

Price: CUTICURA, 50c. and $1.00 per box. RESOLVENT, $1.00 per bottle. CUTICURA SOAP, 25c. CUTICURA SHAVING SOAP, 15c. Sold everywhere.

THE WENTWORTH,
NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, its delightful drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds**, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Hariov, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 225 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

MANHOOD

THE SCIENCE OF LIFE

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion or excess in early life may be alleviated and cured. Those who doubt, these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample 4 cts. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all everything else the most important work on Physiology ever published. The nothing what ever that the most perfect either require or wish to know on the subject is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

A Sure Cure for all FEMALE WEAKNESSES, Including Leucorrhœa, Irregular and Painful Menstruation, Inflammation and Ulceration of the Womb, Flooding, PROLAPSUS UTERI, &c.

☞ Pleasant to the taste, offensive and harmless in its effect. It is a great help in pregnancy, and relieves pain during labor and at regular periods.

PERFECT USE IN AND PERMANENT RESULT.

☞ THE ABOVE WEAKNESSES of the generative organs of either sex, it is second to no remedy that has ever been before the public; and for all diseases of the KIDNEYS it is the *Greatest Remedy in the World.*

☞ KIDNEY COMPLAINTS of Either Sex Find Great Relief in Its Use.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, at the first appearance, and give tone and strength to the system. As marvellous in results as the Compound.

☞ Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. The Compound is sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Inclose 3 cent stamp. Send for pamphlet. *Mention this Paper.*

☞ LYDIA E. PINKHAM'S LIVER PILLS cure Constipation, Biliousness and Torpidity of the Liver. 25 cents.

☞ Sold by all Druggists. (3)

HOP PLASTER

This plaster is absolutely the best ever made, combining the virtues of hops with gums balsam and extracts. Its power is wonderful in curing disease where other plasters simply relieve. Crick in the Back and Neck, Pain in the Side or Limbs, Stiff Joints and Muscles, Kidney Troubles, Rheumatism, Neuralgia, Sore Chest, Affections of the Heart and Liver, and all pains or aches in any part cured instantly by the *Hop Plaster.*

☞ Try it. Price 25 cents. Sold by all druggists.

LAME BACK (1) Hop Plaster Co., Manufacturers. Mailed on receipt of price. CARTER, HARRIS & HAWLEY, General Agents, Boston.

BUY AT HOME!

IF YOU WANT TO SAVE FROM $25.00 TO $100, IN THE PURCHASE OF A PIANO OR AN ORGAN.

It is a fact that D. H. MONTGOMERY is selling Pianos and Organs at *extremely low prices.* He keeps constantly on hand instruments of the very *best quality,* as well as medium and lower grades. Every instrument sold *for just what it is,* and warranted to prove *just as represented.* Prices are guaranteed to be from $25.00 to $100 less than is usually paid for the *same grade of instruments* when purchased in the large cities or of travelling agents or peddlers. All interested and desiring *more light* on the subject, should call and see for themselves at

WHIPS All qualities and prices. Larrabee's, Congress St.

"Rough on Corns."

Ask for Wells' "Rough on Corns," 15c. Quick, complete, permanent cure. Corns, warts, bunions.

Ex-Gov. Plaisted of Maine, and another, have purchased the *New Age,* the democratic organ at Augusta.

Hood's Sarsaparilla gives an appetite and imparts new life and energy to all the functions of the body. Try a bottle and realize it.

A pardon is expected for S. Augier Chase, the defaulter of Fall River, Mass.

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. This original Nutrient and Tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into new life the entire process of digestion.

Dr. Brown-Sequard has discovered a new anæsthetic which destroys sensibility but not consciousness or physical activity for an entire day or more.

☞ For five cents, Wells, Richardson & Co., Burlington, Vt., will send colored sample colors of Diamond Dyes.

The Italian bark Porifono de Mazuna, laden with rags from Egypt, arrived at New Haven, Conn., July 15th, having been discharged from quarantine at New York city. Watch was kept at New Haven for the vessel, but unobserved she reached Bell Rock dock. The officers say there was no cholera when they left Alexandria, and the first they heard of it was from a Sandy Hook pilot. Orders were given by the health officers to allow no communication at present between ship and shore.

Hay Fever.

FROM Col. C. H. Mackey, 33d Iowa Infantry: "To persons afflicted with Catarrh, I would say that I have derived more benefit from Ely's Cream Balm than anything else I have ever tried. I have now been using it for three months and am experiencing no trouble from Catarrh whatever. I have been suffering for twenty years. C. H. MACKEY, Sigourney, Feb. 22, 1882.

I have used Ely's Cream Balm for Hay Fever, and experienced great relief. I most cordially recommend it as the best of all the many remedies I have tried. T. B. JENKS, Lawyer, Grand Rapids, Mich. Price 50 cents.

At Bristol, Conn., a brutal murder has just been discovered. Edward Hyland, who lives on the outskirts of Forestville, killed his wife probably in a drunken quarrel. The body was badly mutilated, every rib broken on one side and all but three on the other. There was no spot over six inches square on the remains that was not discolored or bruised. Hyland owned a small farm of fifteen acres. The couple often quarrelled. He is a man of fifty years of age, and his wife was forty-five. Hyland has been arrested, but denies that he is guilty.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

A suggestion of silver throughout an entire black costume gives a beautiful and uncommon effect to this sombre dress. The combination is charming in "half" mourning.

The large shell hats worn by children are trimmed with a wreath of buttercups, daisies or other wild flowers. A wreath of beautiful sea mosses would be quite in harmony with the conch.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Piles Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Wide sash ribbons in gold and white or silver and white are in high fashion for evening wear. Quite often a length of it is used also for a waist-coat to be set inside the the cut-away bodice of plain silk.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

Overskirts are now either quite short and arranged in panier style, or they are extremely long with peplum draperies, the latter being more used for heavy fabrics, traveling and walking dresses. Many of the overskirts are raised at one side by a long slide, while short overskirts of Escurial net, trimmed with lace to correspond, are worn over bright silk or satin skirts.

From Messrs. E. G. Honors & Son, 222 Chestnut St. Lynn, Mass., comes the following: "Ellis's Spavin Cure cured one of our horses of a large Bone Spavin.

A clever adaptation of the dress of a Russian peasant has been adopted for lawn-tennis. A short bodice of dark blue velvet, with shoulder straps, the chemisette and long sleeves being of white linen, worked with Russian embroidery; the skirt is of blue gingham with bands of red superposed. A linen apron, decorated with Russian embroidery, is worn with this costume.

Dr. I. F. Mundy, Owenton, Ky.: "I found Brown's Iron Bitters one of the best tonics, and have prescribed it frequently."

MEDICAL.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

"Rough on Corns."

Ask for Wells' "Rough on Corns," 15c. Quick, complete, permanent cure. Corns, warts, bunions.

Albert Mueller of Manchester, thirteen years old, died on the 17th inst. from lockjaw, caused by a wound from a toy pistol on the 4th.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

John F. Geyer of Epping has received back pension amounting to $1,500.

Don't Give Up

because you feel blue and are troubled with that tired and all gone feeling. Do as I did, use a bottle of Sulphur Bitters it will make you feel like a new person; it did me.

JENNIE HOMES, 354 Tremont St. Boston.

A man named Ware was killed by lightning at his home in Windsor, Me., during one of the recent showers. He was in bed with his wife at the time the bolt struck; she was severely injured but will probably recover.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

Charles A. Wood, local manager of the *Bennington County Reformer*, was arrested July 17th for opening on June 17th a letter addressed to the *Banner*, of Bennington, Vt. He waived examination, and was held in $300 bail for his appearance at the October term of the United States district court at Rutland.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three words—Take Hop Bitters.

In Lawrence, Mass., an aged woman named Lynch, who had over $1,000 deposited in the "bank" of the Augustinian Fathers, is now soliciting alms from door to door.

Mr. Geo. W. Knapp, of Waltham Mass., says: "I have removed an enlargement on my horse's knee which a *V. S.* pronounced incurable, by the use of Ellis's Spavin Cure. I think this is a very flattering testimonial." It's only one of many hundred, however. thanks; all the same.

At Helena, Ark., July 14th, two negroes fought a duel, one using a rifle and the other a musket. They fought at twenty paces; one received a bullet in the mouth, and the other a charge in the groin; both died in a short time. This is an excellent example for white duellists to follow.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhea, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Charles Bellows of Hudson, Mass., ten years old, is dead from toy-pistol lockjaw.

No Longer a Question.

Druggists of high standing and eminent physicians, certify to the pain curing properties of St. Jacobs Oil. Its merits as the most wonderful cure are no longer questioned.

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.50 a bottle.

"She Loved Me for Myself."

BY L. A. PAUL.

Amidst the roses, lo! my dear wife stands,
Herself the fairest, sweetest flower of all,
I think, as from her slender, snow-white hands
She lets the honey-petaled blossoms fall.

Amidst the roses while the daylight pales,
Our home stands golden in the setting sun;
And 'neath our vine-wreathed porch *she* never fails
To give me welcome when the day is done.

And when I meet her happy, love-lit eyes,
I know it cannot be through sordid pelf
That I have won my life's most precious prize—
She loved and took me simply for—*myself.*

Amidst the roses lo! my darling stands!
Herself the fairest, sweetest flower of all,
I think, as from her slender, snow-white hands
She lets the honey-petaled blossoms fall,

THE HIDDEN HAND.

By MRS. SOUTHWORTH,

AUTHOR OF "THE BRIDE OF AN EVENING," "THE DESERTED WIFE," &c., &c.

CHAPTER I.

THE NOCTURNAL VISIT.

* * * Whence is that knocking?
How is't with me when every sound appals me?
* * * I hear a knocking
In the south entry! Hark!—more knocking!
SHAKESPEARE.

Hurricane Hall is a large old family mansion, built of dark red, sandstone, in one of the loneliest and wildest of the mountain regions of Virginia.

The estate is surrounded on three sides by a range of steep, gray rocks, spiked with clumps of dark evergreens, and called, from its horse-shoe form, the Devil's Hoof.

On the fourth side the ground gradually descends in broken rock and barren soil to the edge of the wild mountain stream known as the Devil's Run.

When storms and floods were high, the loud roaring of the wind through the wild mountain gorges, and the terrific raging of the torrent over its rocky course, gave to this savage locality its ill-omened names of Devil's Hoof, Devil's Run, and Hurricane Hall.

Major Ira Warfield, the lonely proprietor of the Hall, was a veteran officer, who, in disgust at what he supposed to be ill-requited services, had retired from public life to spend the evening of his vigorous age on this his patrimonial estate. Here he lived in seclusion, with his old-fashioned housekeeper, Mrs. Condiment, and his old family servants, and his favorite dogs and horses.

In person Major Warfield was tall and strongly built, like some iron-limbed Douglas of the olden time.

In character Major Warfield was arrogant, domineering, and violent; equally loved and feared by his faithful old family servants at home; disliked and dreaded by his neighbors and acquaintances abroad, who, partly from his *house*, and partly from his character, fixed upon him the appropriate nickname of OLD HURRICANE.

There was, however, other ground of aversion besides that of his arrogant mind, violent temper and domineering habits. Old Hurricane was said to be an old bachelor, yet rumor whispered that there was in some obscure part of the world, hidden away from human sight a deserted wife and child, poor, forlorn, and heart-broken. It was further whispered that the older brother of Ira Warfield had mysteriously disappeared, and not without some suspicion of foul play on the part of the only person in the world who had a strong interest in his "taking off." However these things might be, it was known for a certainty that Old Hurricane had an only sister, widowed, sick and poor, who, with her son, dragged on a wretched life of ill-requited toil, severe privation, and painful infirmity, in a distant city, unaided, unsought and uncared for by her cruel brother.

It was the night of the last day of October, eighteen hundred and forty-five. The evening had closed in dark and gloomy. About dusk the wind arose in the northwest driving up masses of leaden-hued clouds, and in a few minutes the ground was covered deep with snow, and the air was filled with driving sleet.

As this was All Hallow Eve, the dreadful inclemency of the weather did not prevent the negroes of Hurricane Hall from availing themselves of their capricious old master's permission, and going off in a body to a banjo break-down held in the quarters of their next neighbor.

Upon this evening, then, there was left at the Hall only Major Warfield, Mrs. Condiment, his little old housekeeper, and Wool, his body-servant.

Early in the evening the old house was shut up closely to keep out as much as possible the sound of the storm that roared through the mountain chasms, and cannonaded the walls as if it determined to force an entrance. As soon as she had seen that all was safe, Mrs. Condiment went to bed and to sleep.

It was about ten o'clock that night that Old Hurricane, wrapped up in his quilted flannel dressing-gown, sat in his padded arm-chair before a warm and bright fire, taking his ease in his own bedroom. This was the hour of the coziest enjoyment to the self-indulgent Sybarite. And indeed, every means and appliance of bodily comfort was at hand. Strong oaken shutters, and thick, heavy curtains at the windows, kept out every draft of air, and so deadened the sound of the wind that its subdued moaning was just sufficient to remind one of the stormy weather without in contrast to the bright warmth within. Old Hurricane, as I said, sat well wrapped up in his wadded dressing-gown, reclining in his padded easy-chair, with his head thrown back, and his feet upon the fire-irons, toasting his shins and sipping his punch.

On his left hand stood his cozy bedstead, with its warm crimson curtains festooned back, revealing the luxurious swell of the full feather bed, and pillows with their snow-white linen and lambswool blankets inviting repose. Between this bedstead and the corner of the fireplace stood Old Hurricane's ancient body-servant, Wool, engaged in warming a crimson cloth night-cap.

"I take this," said Old Hurricane, as he sipped his punch and smacked his lips—"I take this to be the very quintessence of human enjoyment—sitting here in my soft warm chair before the fire, toasting my legs, sipping my punch, listening on the one hand to the storm without, and glancing on the other hand at my comfortable bed awaiting there to receive my sleepy head."

"I wonder now if there is anything on the face of the earth that would tempt *me* to leave my cozy fireside and go abroad to-night? I wonder how large a promise of pleasure or profit or glory it would take now?"

"Much as ebber Congress itse'f could give if it give you a penance for all your sarvins," suggested Wool.

"Yes, and more! for I wouldn't leave my home comforts to-night to insure not only the pension but the thanks of Congress," said the old man, replenishing his glass with steaming punch, and drinking it off leisurely.

The clock struck eleven. The old man again filled his glass, and, while sipping its contents, said:

"You may fill the warming-pan and warm my bed, Wool. The fumes of this fragrant punch are beginning to rise to my head and make me sleepy."

The servant filled the warming-pan with glowing embers, shut down the lid, and thrust it between the sheets, to heat the couch of the luxurious Old Hurricane. The old man continued to toast his feet, sip his punch, and smack his lips. He finished his glass, set it down, and was just in the act of drawing on his woolen night-cap preparatory to stepping into his well-warmed bed, when he was suddenly startled by a loud ringing of the hall-door bell.

"What the foul fiend can that mean at this time of night?" exclaimed Old Hurricane, dropping his night-cap, and turning sharply around towards Wool, who, warming-pan in hand, stood staring with astonishment.

"What does that mean, I ask you?"

"Deed, I dunno, sar, less it's some benighted trabeller in search o' shelter out'n de storm."

"Humph! and in search of supper, too, of course, and everybody gone away or gone to bed but you and me."

At this moment the ringing was followed by a loud knocking.

"Marse, don't le's you and me listen to it, and then we ain't 'bliged to 'sturb ourselves wid answering of it," suggested Wool.

"What sir! do you think that I am going to turn a deaf ear to a stranger that comes to my house for shelter on such a night as this? Go and answer the bell directly."

"Yes, sar."

"But stop—look here—mind I am not to be disturbed. If it is a traveller, ask him in; set refreshments before him, show him to bed. I'm not going to leave my warm room to welcome anybody to-night, please the Lord. Do you hear?"

"Yes, sar," said the darkey retreating.

As Wool took a shaded taper and opened the door leading from his master's chamber, the wind was heard howling through the long passages ready to burst into the cozy bedroom.

"SHUT THE DOOR, you scoundrel!" roared Old Hurricane, folding the skirt of his warm dressing-gown across his knees, and hovering closer to the fire.

Wool quickly obeyed, and was heard retreating down the steps.

"Whew!" said the old man, spreading his hands over the blaze with a look of comfortable appreciation. "What would induce *me* to go abroad on such a night as this? Winds blowing great guns from the northwest—snow falling fast from the heavens, and rising just as fast before the wind from the ground!—cold as Lapland, dark as Erebus! No telling the earth from the sky. Whew!" and to comfort the cold thought, Old Hurricane poured out another glass of smoking punch, and began to sip it.

"How I thank the Lord that I am not a doctor! If I were a doctor now, the sound of that bell at this hour of the night would frighten me: I should think some old woman had been taken with the pleurisy, and wanted me to get up and go out in the storm—to turn out of my warm bed to ride ten miles through the snow to prescribe for her. A doctor never can feel sure, even in the worst of weathers, of a good night's rest. But, thank Heaven, I am free from all such annoyances, and if I am sure of anything in this world it is of my comfortable sleep," said Old Hurricane, as he sipped his punch, smacked his lips and toasted his feet.

At this moment Wool re-appeared.

"SHUT THE DOOR, you villain! Do you intend to stand there holding it open on me all night?" vociferated the old man.

Wool hastily closed the offending portals, and hurried to his master's side.

"Well, sir, who was it rang the bell?"

"Please, marster, sir, it wer' de Reberend Mr. Parson Goodwin."

Goodwin? Been to make a sick-call, I suppose, and got caught in the snow storm. I declare, it's as bad to be a parsons as it is to be a doctor! Thank the Lord *I* am not a parson, either! If I were, now, I might be called away from my cozy arm-chair and fire-side to ride twelve miles to comfort some old man dying of quinsy. Wool, here—help me into bed; pile on more comforters, tuck me up warm, put a bottle of hot water to my feet, and then go and attend to the parson," said the old man, getting up and moving towards his inviting couch.

"Sar! sar! stop, sar, if you *please!*" cried Wool, going after him.

"Why, what does the old fool mean?" exclaimed Old Hurricane, angrily.

Sar, de Reverend Mr. Parson Goodwin say how he must see you yourse'f, personable, alone."

"See *me*, you villain! Didn't you tell him that I had retired?"

"Yes, marse, I tell how you wer' gone to bed and asleep more'n an hour ago, and he ordered me to come wake you up, and say how it were a matter o' life and death."

"Life and death! What have I to do with life and death? *I won't stir!* If the parson wants to see *me*, he will have

to come up here!" exclaimed Old Hurricane, suiting the action to the word by jumping into bed and drawing all the comforters and blankets up around his head and shoulders.

"Mus' I fetch his reberence up, sar?"

"Yes. *I* wouldn't get up and go down to see—Washington—SHUT THE DOOR, you rascal, or I'll throw the bootjack at your wooden head!"

Wool obeyed with alacrity, and in time to escape the threatened missile.

After an absence of a few minutes he was heard returning, attending upon the footsteps of another. And the next minute he entered, ushering in the Rev. Mr. Goodwin, the parish minister of St. Mary's.

"How do you do? How do you do? Glad to see you, sir! glad to see you, though obliged to receive you in bed! fact is, I caught a cold with this severe change of weather, and took a warm negus and got to bed to sweat it off. You'll excuse me! Wool, draw that easy-chair up to my bedside for worthy Mr. Goodwin, and bring him a glass of warm negus. It will do him good after his cold ride."

"I thank you, Major Warfield. I will take the seat, but not the negus, if you please, to-night."

"Not the negus? Oh, come now, you are joking! Why, it will keep you from catching cold, and be a most comfortable night-cap, disposing you to sleep and sweat like a baby. Of course you spend the night with us?"

"I thank you, no. I must take the road again in a few minutes."

"Take the road again to-night! Why, man alive, it is midnight, and the snow driving like all Lapland."

"Sir, I am sorry to refuse your proffered hospitality, and leave your comfortable roof to-night, and sorrier still to have to take *you* with me," said the pastor, gravely.

"Take ME with you! No, no, my good sir—no, no, that is too great a joke—ha! ha!"

"Sir, I fear that you will find it a very serious one! Your servant told you that my errand was one of imminent urgency?"

"Yes, something like life and death—"

"Exactly. Down in the cabin near the Punch Bowl there is an old woman dying—"

"There! I knew it. I was just saying there might be an old woman dying. But, my dear sir, what's that to me? What can I do?"

"Humanity, sir, would prompt you."

"But, my *dear* sir, how can I help her! I am not a physician to prescribe—"

"She is far past a physician's help."

"Nor am I a priest to hear her confession—"

"Her confession God already has received."

"Well, and I'm not a lawyer to draw up her will."

"No, sir; but you were recently appointed one of the justices of the peace for Alleghany?"

"Yes. Well, what of that? That does not comprise the duty of getting up out of my warm bed and going through a snow-storm to see an old woman expire."

"I regret to inconvenience you, sir; but in this instance your duty demands your attendance at the bedside of this dying woman—"

"I tell you I can't go, and won't. Anything in reason I'll do. Anything I can send she shall have.——Here! Wool, look in my breeches pocket, and take out my purse and hand it to me. And then go and wake up Mrs. Condiment, and ask her to fill a large basket full of everything a poor old dying woman might want, and you shall carry it."

"Spare your pains, sir. The poor woman is already past all earthly, selfish wants. She only asks your presence at her dying bed."

"But I can't go! I! the idea of turning out of my warm bed and exposing myself to a snow-storm this time of night!"

"Excuse me for insisting, sir, but this is an *official* duty," said the parson, mildly but firmly.

"I'll—I'll throw up my commission to-morrow!" growled the old man.

"To-morrow you may do that; but meanwhile, to night, being still in the commission of the peace, you are bound to get up and go with me to that woman's bedside."

"And what the demon is wanted of me there?"

"To receive her dying deposition."

"To receive a dying deposition! Good Heaven! was she murdered, then?" exclaimed the old man, in alarm, as he started out of bed and began to draw on his nether garments.

"Be composed she was not murdered," said the pastor.

"Well, then, what is it? Dying deposition! It must concern a crime!" exclaimed the old man, hastily drawing on his coat.

"It *does* concern a crime."

"What crime for the love of heaven?"

"I am not at liberty to tell you. She will do that."

"Wool, go down and rouse up Jehu, and tell him to put Parson Goodwin's mule in the stable for the night. And tell him to put the black draught-horse to the close carriage, and light both the front lanterns—for we shall have a dark, stormy road—SHUT THE DOOR, you infernal—I beg you pardon, parson, but that villain always leaves the door ajar after him."

The good pastor bowed gravely. And the major completed his toilet by the time the servant returned and reported the carriage ready.

"The Devil's Punch Bowl!" was the order given by Old Hurricane, as he followed the minister into the carriage.

"And now, sir," he continued, addressing his companion. "I think you had better repeat that part of the church litany that prays to be delivered from 'battle, murder, and sudden death;' for if we should be so lucky as to escape Black Donald and his gang, we shall have at least an equal chance of being upset in the darkness of these dreadful mountains." The above we publish as a specimen chapter; but the continuation of this great story will be found only in the N. Y. Ledger. The Hidden Hand is the most popular story we ever published, and Capitola, its spirited and attractive heroine, is the greatest favorite of all heroines. Ask for the number dated July 28, which can now be had at any news office or book-store. If you are not within reach of a news office, you can have that number of the Ledger mailed to you by sending six cents (postage stamps will do) to Robert Bonner publisher, 182 William street, New York.

The Beautiful Green Melon.

A beautful thing it was, and right green was young Mr. Green, who went down to the cellar about midnight and ate nearly half of it. The next day young Mr. Green said he didn't want any breakfast, and he thought he would not get to the store. He wished he hadn't seen that watermelon. By the prompt administration of Perry Davis' Pain Killer young Mr. Green's internal economy was reduced to a state of peace and comfort.

Two heavily-loaded passenger trains on the Central Vermont railroad collided, July 16th. The engine on the south-bound train was derailed and badly smashed. The engineers and firemen and passengers of both trains escaped uninjured. The trains were delayed six hours.

Miss Ida K. King, Goffstown, N. H., says: "Brown's Iron Bitters is the best medicine I ever used for dyspepsia. It helped me greatly."

Capt. C. A. Abbey, of the revenue steamer Woodbury, suffered from a sore finger for several weeks, supposed to have been caused by constant use of the bell-pull in the pilot house in the winter, and symptoms of blood poisoning appearing, he was obliged to submit to amputation at Eastport, Me., a few days ago.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

New Hampshire Legislature.

At a caucus of the democratic representatives, at which about seventy-five were present, Tuesday evening, the 17th inst., the subject of transferring the democratic vote to Gen. Marston in case the latter's vote should reach the number of sixty or thereabouts, was discussed, some members favoring and others opposing such action; no vote was taken on the question.

On the 18th the vote in convention for senator was:

Whole number of votes	324
Necessary for a choice	163
Bingham had	116
Chandler	74
Tappan	29
Stevens	28
Marston	27
Moore	11
Patterson	7
Gallinger	4
Scattering	18

And there was no choice.

James F. Briggs hauled out of the fight, though one vote was cast for him. Jas. W. Patterson re-entered with seven votes. Daniel Barnard, Daniel Hall and Charles H. Bell each had three votes; Henry E. Burnham had two; and Wm. Shedd, Chester B. Jordan, Charles H. Burns, William C. Todd, Benjamin F. Prescott, Frederick Smythe and Mr. Briggs had one each.

A mob of Mexicans wrecked the United States consulate at Monterey on the night of the 16th inst., and beat the acting consul, Rev. Mr. Shaw, almost to death.

The Boston *Post* wants to know how Samuel J. Tilden and Winfield S. Hancock, as candidates for president and vice president, would "suit the democratic yeomanry?"

Commodore Wilson, chief of the bureau of construction of the navy department, on the 16th inst. submitted the plans for the proposed cruisers Boston and Atlanta to the naval advisory board. Plans for the largest cruiser, the Chicago, will be submitted on Monday next. The plans for the dispatch boat Dolphin, which were proposed by the naval advisory board, have been ready for some days. It is expected that the contracts for the construction of these vessels will be signed by Secretary Chandler as soon as he returns to Washington.

One hundred Italians, who were grading on the Cincinnati, Van Wart and Michigan railway, are on strike at Celina, O. The several leaders of the gang have threatened to burn the town.

James Bulger, who was indicted at Maysville, Ky., for outraging a little girl, has confessed, and asks to be protected from mob violence. The punishment for his crime in Kentucky is death.

The common council of Portland, Me., on the 17th inst. appropriated $250 to settle the claim of J. A. Johnson of Augusta, who had a rocket shot through his body at the celebration of the 4th. Mr. Johnson is rapidly recovering.

The trial of Polk, the thieving ex-treasurer of Tennessee, commenced at Nashville on the 17th inst. James C. Fleming a former clerk of the ex-treasurer, testified that in April, 1882, when an investigating committee was appointed to examine Polk's accounts, in order to meet a deficit from defalcation of $200,000 Polk deposited a number of fictitious drafts on the various state depositories to make good the amount. When the examination was over and the accounts passed on by the committee, he withdrew these drafts and gave his check for them, and so straightened his books. The deficit kept on increasing to January, 1883, when it amounted to about $269,000. At that time Polk left the state for Mexico.

In Albany, N. Y., during a thunder storm, a young man seventeen years old, son of Michael Peet, was sitting near a window of his father's house reading the bible, when the lightning struck him, stripping off his clothing and tearing his flesh, killing him instantly, and throwing the bible across the room. The house was not damaged.

W. R. Averill was mortally wounded, and J. Russell shot in the shoulder, in a duel at Clarksville, Va., July 16th.

Capt. J. G. Douglass, of the British barque Emi, has been arrested in Boston for smuggling into this country Ah Chung, a Chinaman. The heathen Chinee arrived in Boston June 19th, as the barque's carpenter, and was paid off and discharged.

George M. Wilson, twenty-one years old, son of Peter K. Wilson, lace importer of New York, was drowned while bathing in the bay off Riverside, R. I., July 17th.

The New York seventh regiment had a picnic and clambake at Rocky Point, R. I., July 18th.

At Reading, Pa., the eight boilers of the anthracite furnace of the Reading Iron company exploded Tuesday morning, July 17th, demolishing the engine, boiler house and furnace. Frank Waltman was killed; four others fatally, and several other workmen slightly injured.

Francis Clark of Northampton, Mass., died July 15th from sickness brought on by drinking ice water weeks ago. The water apparently paralyzed his digestive organs so that he could not retain food.

It has been estimated that the people of Boston alone spent in Maine, last year, during the hot season, at least $155,625. There were no cents over.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing more than **WILL** ing all and we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine will give you the right **CONVINCE** spot, and put all the machinery of your body into working order.

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH

ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER.

Is a-a liquid or snuff.

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vicility and luxurious quality as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

POLICE COURT--BATCHELDER, J

WEDNESDAY, July 18th,

Nelson B. Main, charged with the larceny of a sum of money from Charles H. Hayes on the 4th of July, was held in $500 for trial before the supreme court.

The following officers of Damon Lodge, Knights of Pythias, were installed Tuesday evening of this week: H. W. Pearson, P. C.; E. W. Riley, C. C.; Daniel N. Cox, V. C.; George A. Trafton, P.; Thornton Betton, K. of R. and S.; John K. Simpson, M. of F.; Gustavus Peyser, M. of E.; W. H. Atkins, M. of A.; E. F. Furbish, I. G.; James O. Spinney, O. G.

President Arthur's barge, a twelve-oared boat which arrived here in the U. S. S. Tallapoosa, was on the river Tuesday, the 17th inst. She is a very handsome craft, finished in mahogany with nickel-plated trimmings, and it is said cost $2600.

A good-sized excursion party came in on the Portsmouth & Concord railroad on the 18th inst., from places on the line of the road; some of the excursionists went to the Shoals, and about a hundred went to York by the steamer City of Portsmouth.

The Concord *Monitor* says that at the recent session of the American Institute of Instruction at Fabyan's not a single superintendent of schools in this state was present, and that but one New Hampshire city was represented, and that by four teachers; while the representation from some distant states was much better. The *Times* says that Portsmouth was the one New Hampshire city referred to, and the four teachers were Miss Mary E. Prescott, Miss Josie F. Prescott, Miss Nellie E. Rand and Miss Laura E. Giddings.

The schooner Cocheco, Capt. R. H. Seaward, arrived at Philadelphia on the 18th inst., from Bangor with 242 thousand feet of lumber at $2.62 1-2 per thousand.

Prof. D. P. Penhallow has accepted the lectureship on botany in McGill University at Montreal, Canada, and resigned his connection with the experiment department of Houghton Farm, New York, as botanist and chemist. He will assume the duties of his new position on the 1st of September.

The new schooner Alice B. Phillips, launched from Fernald's yard on the 17th inst., is a centre-board vessel.

Mr. Elbridge G. Pierce, Jr., on the afternoon of the 18th inst. received from Newport, R. I., a telegram stating that his brother, Mr. Geo. Pierce, supervisor of the Old Colony Steamboat Co., who fell into the hold of a steamer on the previous day, was in a fair way for recovering. Mr. Pierce had one collar bone broken, and was badly shaken up and bruised by the fall of twenty-six feet, but was quite comfortable when the telegram was sent, and the doctors anticipate neither permanent injury nor long confinement.

Mr. J. E. Maude of Fall River, Mass., has accepted a call to become pastor of the Unitarian church in Exeter, to commence September 1st.

Before Judge Clark, sitting as circuit judge on Wednesday, 18th inst., Hon. Wm. L. Foster renewed a motion to dismiss the suit of Bruce and others against the Manchester & Keene railroad. Judge Clark ordered notice of a hearing upon the motion, to be had at the court house in this city on the 31st inst.

It is stated that John Cummock, Esq., has resigned the agency of the Great Falls Manufacturing Co,

The Dover *Republican* of the 16th inst. said: "There was a great sensation in Farmington last Sunday, when it was discovered that a young couple had eloped from that busy town. The report is that on Saturday afternoon Hiram Frost, commonly known as 'Hype,' went to a stable in Farmington and hired a fast team; with this he rode to the residence of Miss Ella Holmes, took her on board, and they departed. It is supposed they went to Rochester and there took a train for Massachusetts. Frost hired a boy to take the team to Farmington in the night, so that the stable keeper supposed everyting was all right as Frost had paid for it. This morning Mrs. W. P. Holmes, the mother of the run-away girl, and another daughter, came to Dover in search of her daughter. At last reports no trace of the runaway couple had been found."

Two shares of the Eastern railroad sold firm at forty-five yesterday. There is very little of this stock now offering in the market, its holders preferring to await the development of the consolidation project, which is now practically assured. That it will then sell very much higher there is every reason for believing. The present summer's earnings of the road are unusually large and promise to make in the aggregate the best showing in the history of the corporation.—*Boston Traveller.*

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

"The News-Letter Hand-Book of Exeter for 1883" was issued by Wm. B. Morrill of the *News-Letter* seasonably for the recent centennial celebration of the Phillips Exeter academy. It is finely printed, and in addition to its advertisements, contains a sketch of the history, by Ex-Gov. Chas. H. Bell, who tells us that the first newspaper published in Exeter, and the third in the state, appeared published by Robert L. Fowle, and was called "A New Hampshire Gazette." The original *New Hampshire Gazette*, now published at our office, appeared nineteen years earlier.

The most interesting material contributed is a description of the "Landmarks of the Town," which informs us regarding the old mansions. In connection with Washington's visit to Exeter in Nov., 1789, is an extract from the diary of G. W. which reads, "a jealousy subsists between this town, where the legislature alternately sits, and Portsmouth, which, had I known it in time, would have made it necessary to have accepted an invitation to a public dinner, but my arrangements having been otherwise made, I could not."

Gen'l Washington took breakfast at the Folsom tavern, now occupied by G. W. Dearborn, on the easterly corner of Court square and Water street.

The Hackett house, occupied by Col. James Hackett, the builder of ships of war in the revolution, and who afterward removed to Portsmouth and served under John Langdon in the Rhode Island campaign, is also indicated as to its locality. Some account is given of the Exeter Manufacturing Co., which made its first cloth in 1830, under John Lowe, Jr., who went from Portsmouth to act as agent and treasurer. The late Nath'l B. March was for many years a prominent director in this Co. The present capital is $325,000.

There are many historical facts in the hand-book, and its information is of a kind well worth being preserved, among which is some account of the Nicholas Gilman mansion, the present residence of Ex-Gov. Bell, of which a view is given. Other places of note in the town are described.

A Modern Centaur.

The world progresses, and the achievements of science multiply. The theory of dyspeptics that men are degenerating physically, is all bosh. Men develop physically to even a greater degree of perfection than they have in the past, and feats of strength and skill are constantly surpassing previous efforts. Best records are constantly being beaten; champions of all kinds of sports are continually yielding their belts to new men. The most striking illustration of this fact at present are the wonderful feats of horsemanship accomplished by William Showles. During the past few years, whenever the matter of riding and riders came up for discussion, two or three names have involuntarily suggested themselves as being those of the champion riders. For several years these men have held undisputed sway in the estimation of the public, although managers of shows always claim to have the greatest riders. But these claims have had but little effect upon the public, so well-known and well-liked were these two or three. Now, however, a star has arisen, and when the champion rider is spoken of, "the new man, Showles," is the name advanced by all who have ever seen him. Reports in the newspapers concerning his wonderful performances wherever he has been seen are so enthusiastic in praise that they seem really exaggerative, but information of a private character gives the assurance that newspapers cannot do the great artist justice. Last season he was with the Great Inter-Ocean Show, and so startling was the sensation he created, that Mr. John B. Doris, the proprietor, who has forced recognition as the most enterprising of all managers, re-engaged Showles at an enormous salary, and the people of our city will have an opportunity to see him when the Great Inter-Ocean Show is here, on Saturday next.

MARRIED.

GRIFFIN—MORRISSEY. In this city, July 18 by Rev. E. M. O'Callahan, Mr. John Griffin and Miss Katie Morrissey.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

ARRIVED July 18th.

Sch Margie D Marston, Pendleton, Baltimore, with 414 tons coal to J Albert Walker.

SAILED July 18th.

Sch Triton, Freeman, Boston.
Sch Sarah L Simmons, Allen, Lance Cove.

Sch Cocheco, Seaward, from Bangor arr at Philadelphia 17th.
Sch Uncle Sam, Flynn, from York arr at Boston 17th.
Sch War Eagle, Frisbee, cld Bangor for Boston 18th.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

Portsmouth, N. H., July 9, 1883.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds,** large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

GEORGE F. THOMPSON, Manager.

Isles of Shoals.

Appledore and Oceanic.

HOTELS.

THE staunch, sea-going steamer Appledore, Capt. Albert Rand, leaves Appledore wharf, near the foot of Deer street, for these favorite and widely known ocean resorts, daily, (Sunday excepted,) at 11 o'clock A. M., and six o'clock P. M. Returning, leaves the islands in season to connect with the morning and evening trains on the Eastern railroad for Boston and the west. Baggage checked through from Boston and intermediate stations, and returned free.

Laighton Brothers.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the title renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 225 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt their assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is a marvel of arcana beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

PEABODY MEDICAL INSTITUTE, or W. H. PARKER, M. D., 4 Bulfinch St., Boston, Mass

WHIPS All qualities and prices. Larrabee's, Congress St.

Don't Die in the House.

"Rough on Rats" Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

The Alliance arrived at Halifax July 14th.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

The Pensacola sailed from Callao for Honolulu on the 16th inst.

"Solid comfort" can be realized by those suffering from all forms of scrofula, if they will take Hood's Sarsaparilla and be cured.

The United States tug Pinta, which went to Fortress Monroe to be inspected a few days ago preparatory to her cruise to Alaska, has been compelled to return again to Norfolk, as it was found that her machinery would not work.

"Those who deaden sensation and stupefy the patient to relieve suffering make a grave mistake. They proceed upon the false idea that it is legitimate to procure relief from pain by destroying physical sensibility. This method, carried to the last extremity, would kill the patient to end suffering. It is not presmed that Lydia E. Pinkham's Vegetable Compound will raise the dead, but it often does restore those who are given up as hopeless cases.

The navy department has sent a cablegram to Rear Admiral Crosby, commanding the Asiatic squadron, directing him to sell the wreck of the United States ship Ashuelot as she lies, as the divers have met with but little success in their attempts to raise the vessel.

Be Your Own Doctor.

It won't cost you one-half as much. Do not delay. Send two 3 cent stamps for postage, and we will send you Dr. Kaufman's great work, fine colored plates from life, on disease, its causes and home cure. Address A. P. Ordway & Co., Boston, Mass.

The training-ship Saratoga arrived at Newport, R. I., from Bristol, on the 16th.

The Enterprise has arrived at Zanzibar from Tamatave, Madagascar.

Dr. Pierce's "Favorite Prescription" always becomes the favorite remedy of those who try it. It is a specific for all female "weakness" and derangements, bringing strength to the limbs and back, and color to the face. Of all druggists.

A three-years-old child of Moses Lamere of Stark was drowned on the evening of the 11th inst.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

On the Stonington railroad, between Carolina and Richmond, R. I., July 16th, two little boys named Marsh, aged eight and ten years, walking on the track hand in hand, stepped from one track to avoid a freight train, and were killed by an express train going the other way.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

A boiler exploded in the Glens Falls (N. Y.) paper mill July 16th, destroying the buildings, and badly injuring ten men and a woman; two of the men died in a short time.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The miners of the Ely Co. at Vershire, Vt., have been paid one-third of the wages due them.

From Messrs. E. G. Honors & Son, 222 Chestnut St. Lynn, Mass., comes the following: "Ellis's Spavin Cure cured one of our horses of a large Bone Spavin.

The excursion steamer Beauharnois, with a pleasure party of 300 persons on board, ran on a reef in the river near Montreal on the 15th inst., and was laid ashore in eight feet of water to prevent sinking; there was quite a panic among the excursionists, who were mostly women and children, but all were safely landed.

Dr. I. F. Mundy, Owenton, Ky.: "I found Brown's Iron Bitters one of the best tonics, and have prescribed it frequently."

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSE, Vice-President,

aug28 Jamestown, Dakota.

New Hampshire Savings Banks.

The annual report of the bank commissioners, J. D. Lyman and B. C. Carter, has been given to the public. The statistics show that from 1823 to 1881 sixty-six savings banks were incorporated in the state. The treasurers number sixty-four gentlemen and two ladies, whose annual compensation is about $80,000. The statement shows amount due depositors to be $89,124,814.68; surplus, $1,250,420.64; guaranty found, $1,363,210.32; miscellaneous debts, $387,805.88—a total value on books of $42,126,251.52, and with a market value of $43,858,836.24. Eleven banks in 1882 paid five per cent dividends; forty-six paid four per cent; six paid four and one-half per cent; two paid two per cent. The total dividends during the present year are estimated at $1,700,000. The total expenses, exclusive of taxes, was $108,000. The number of depositors when examined was 113,167, an increase from the last report of 8,735, while the increase of deposits was $2,943,127.98.

"Rough on Corns."

Ask for Wells' "Rough on Corns," 15c. Quick, complete, permanent cure. Corns, warts, bunions.

John Edward Kendall, aged eighteen years, was drowned in Howes pond, near Dublin, Tuesday evening, the 17th. The body was recovered Wednesday noon.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

The governor and council on the 18th inst. appointed Ezra H. Twombly of Dover sealer of weights and measures of Strafford county.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three words—Take Hop Bitters.

A despatch from Salt Lake City says the Mormon Bishop Kundson, of Apley, Uintah county, has been arrested for placing dynamite under a bed and blowing up his two wives, seriously injuring them. He is charged with an attempt to murder.

Mr. Geo. W. Knapp, of Waltham Mass., says: "I have removed an enlargement on my horse's knee which a V. S. pronounced incurable, by the use of Ellis's Spavin Cure. I think this is a very flattering testimonial." It's only one of many hundred, however, thanks; all the same.

Four young women and twenty-five young men have been admitted to the freshman class of Wesleyan university.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

The death rate in Springfield, Mass., is unusually large, most of the victims being children. There is also a good deal of cholera morbus among grown people, while malaria prevails more extensively than ever.

***"He that is discontented in one place will seldom be happy in another." People are constantly changing their homes from East to West and from North to South or *vice versa*, in search of a healthy State. If they would learn to be contented, and to use the celebrated Kidney-Wort when sick, they would be much better off. The whole system can be kept in a healthy state by this simple but effectual remedy.

Three young men from Annisquam, Mass., were capsized in Ipswich bay from a small boat on Tuesday of this week, and were rescued by Brown Stevens of Lanesville, who put off to their assistance. Theo report that the yacht Cambridge passed them while in the water, refusing to render them assistance, but this seems hardly credible.

The complicated diseases brought on by intense study, thought, care, anxiety, etc., are often of the most serious nature. Heed such symptoms as loss of memory, universal lassitude, heart disease, kidney complaints, liver troubles and a general breaking down of health and strength. When thus afflicted, when the least exertion causes great fatigue, when life seems a burden, use the reliable strengthening tonic, Brown's Iron Bitters. It will afford you sure relief.

William Davis, a desperado who jumped bail during his trial for abduction, at Waterbury, Conn., July 3d, was arrested at Sherman on the 16th. He was discovered hiding between two bedticks.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

Deacon Emery Burrage, late of North Leominister, Mass., remembered the Unitarian society in the shape of $1,500. The executor of the will has paid the amount to the treasurer of the society.

The public does not lack a genuine remedy for skin diseases in Glenn's Sulphur Soap.

"Hills Hair Dye," black or brown, 50c.

Colden's Liquid Beef Tonic is admirably adapted for females in delicate health. *Colden's, no other.* Of druggists.

Walter Brooks, a colored barber of Lawrence, Mass., who three years ago married a white girl of Lowell, is now in the house of correction, serving an eight months' sentence for assault, and his wife has eloped with another man, leaving her child in the care of a poor colored woman, unprovided for.

The *Hop Plasters* have a wonderful sale, and why? Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggists, 25 cts.

Tom Thumb was a Knight Templar, and in the latter years of his life fatted up enormously, so that he weighed seventy pounds.

Dr. Pierce's "Favorite Prescription" always becomes the favorite remedy of those who try it. It is a specific for all female "weakness" and derangements, bringing strength to the limbs and back, and color to the face. Of all druggists. 6

It is rumored in Bangor that the superintendency of the New Brunswick railroad will be tendered Mr. Eaton, general freight agent of the Maine Central road, in case Mr. F. W. Cram declines it.

Hay Fever.

FROM Col. C. H. Mackey, 33d Iowa Infantry: "To persons afflicted with Catarrh, I would state that I have derived more benefit from Ely's Cream Balm than anything else I have ever tried. I have now been using it for three months and am experiencing no trouble from Catarrh whatever. I have been suffering for twenty years. C. H. MACKEY, Sigourney, Feb. 22, 1882.

I have used Ely's Cream Balm for Hay Fever, and experienced great relief. I most cordially recommend it as the best of all the many remedies I have tried. T. B. JENKS, Lawyer, Grand Rapids, Mich. Price 50 cents.

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

PATENTS!

R. H. EDDY,

No. 76 State St., opposite Kilby, Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

☞ R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1860, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to apply to you. Your truly, GEORGE HARDER.

BOSTON, January 1, 1883. eodly

The Beautiful Green Melon.

A beautful thing it was, and right green was young Mr. Green, who went down to the cellar about midnight and ate nearly half of it. The next day young Mr. Green said he didn't want any breakfast, and he thought he would not get to the store. He wished he hadn't seen that watermelon. By the prompt administration of Perry Davis' Pain Killer young Mr. Green's internal economy was reduced to a state of peace and comfort.

The B. W. Hoyt company propose to erect a new shoe factory at Epping, 216 by 40 feet.

The Great Eastern has a capacity of 18,915 tons, or 5,000 tons larger than Noah's Ark. Even this Leviathan of the sea hasn't room enough in which to stow the goods sold during the last thirty years and known as Dr. Graves' Heart Regulator. This preparation is a certain specific for heart disease, nervous prostration, and sleeplessness.

Mrs. D. H. G. Fogg of Ashland was thrown from a carriage on the 18th inst., and very badly hurt.

Miss Ida K. King, Goffstown, N. H., says: "Brown's Iron Bitters is the best medicine I ever used for dyspepsia. It helped me greatly."

Adolphus Champagne, twelve years old, was drowned while bathing in the Squog river at Manchester,, July 18th.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Mrs. Abigail C. Cross, widow of the late Col. Ephraim Cross of Lancaster, who fought in the war of 1812, and mother of the gallant Col. Edward E. Cross, commander of the "fighting fifth," who fell at Gettysburg, died at her home in Lancaster on Saturday, July 14th, aged about eighty-three years.

Dr. I. F. Mundy, Owenton, Ky.: "I found Brown's Iron Bitters one of the best tonics, and have prescribed it frequently."

Portsmouth Chronicle.

FRIDAY, JULY 20, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

New Hampshire Legislature.

The house on the 18th passed bills in relation to the wanton and malicious stopping of railroad trains, and to unite the Eliot Bridge Co. of New Hampshire with the Eliot Bridge Co. of Maine.

In convention on the 19th the first ballot was as follows:

Whole number of votes	327
Necessary for a choice	164
Bingham had	118
Chandler	77
Tappan	23
Marston	30
Stevens	18
Patterson	13
Moore	13
Scattering	24

and there was no choice.

Another ballot was immediately taken, with the following result:

Whole number of votes	319
Necessary for a choice	160
Bingham had	111
Chandler	79
Marston	33
Tappan	23
Patterson	22
Stevens	14
Scattering	28

and there was no choice.

The Telegraphers' Strike.

The great strike of the telegraph operators took place at about noon on the 20th inst., the members of the Brotherhood of Telegraphers all over the country very generally obeying the orders of the executive committee to quit work. In the small offices a dead stop occurred; in the large cities every available substitute was brought into service and work went slowly on. The full effects of the strike will not appear for a day or two.

The Marvel Of Europe in America.

The Great Inter-Ocean the successful competitor for Europe's greatest sensation. For several years past letters in the newspapers from different cities in Europe have spoken of the reigning sensation there in the person of a wonderful woman, called Zazel. Indeed so great became her name and fame, that one or two people in this country assumed the same name, and attempted to give imitations of the thrilling performance which made her the great feature of European shows. She is the original, in fact the only human projectile or cannon ball fired from out a powder-loaded cannon. After a most active competition between American managers to secure her for an attraction, John B. Doris was lucky enough to get her, and so our readers can see her on Saturday, July 21st, when his show, the Great Inter-Ocean Largest and Best Show on Earth, will exhibit here.

Equality in South Carolina.

The colored state convention of South Carolina, in session July 18th at Columbia, passed resolutions denouncing the present state government as the most damnable to which a free people has ever been subjected, and asserting that the right of trial by jury is denied to the colored men, and that the verdicts of juries and the sentences of courts are determined by the condition and color of the parties accused of crime. The address also denounces the lynching of colored men suspected of offences, and complains that the public school system is inefficient.

New Hampshire Items.

Ex-Gov. Walter Harriman was taken seriously ill on the 17th inst.

Joseph A. Dodge, late general manager of the Boston, Concord & Montreal railroad, was on the 18th inst. reported to be very ill at his home in Plymouth, with little likelihood of his recovery.

The New Hampshire Antiquarian society held its annual meeting at Contoocook, July 18th. J. T. Jones of Contoocook made the annual address. M. S. Davis, curator, reported 2,149 articles added to the collection since last year. D. C. Blanchard of New York rendered a report on Hopkinton, N. H., in the late rebellion. There were remarks by Hon. A. S. Waite of Newport and others. The afternoon session was held in the Methodist church. D. C. Blanchard of New York gave an address upon the "Problems in American Archæology." Hon. G. W. Nesmith of Franklin gave an address on "Hopkinton in the Revolution." Hon. Isaac A. Hammond of Concord was chosen president for the ensuing year.

Col. Roberts gives the following information as to the profits of the Louisiana Lottery company: The capital stock of the concern is now worth about five times its par value, and its dividends have been enormous. Last year it divided seventy per cent among its stockholders. Its stock is all in the hands of a very few persons. The largest owner is Mr. Charles T. Howard, who has 6,000 shares, their par value being $600,000; his dividend last year was $420,000. Mr. John A. Morris is the next largest owner; he has 4,000 shares, and last year he received $280,000.

Mr. Peter B. Cross of Colchester Point, Vt., while engaged in clearing a piece of land, had occasion to remove a large decayed log, under which he found an ancient gun, with a small portion of the stock attached, a rusty steel tomahawk, and a lot of bone beads. The gun is evidently of early French manufacture. The lock had the pan thrown open, as though it had just been fired when concealed under the log. In former years numerous Indian relics have been found on Colchester Point, showing it to have been a favorite resort of the Indians who inhabited the borders of Lake Champlain.

John Warren of Biddeford attempted suicide by hanging on the evening of the 15th inst.; he was cut down before life was extinct, but died from the effects of the act on the evening of the 17th. Despondency due to several accidents by which he had been badly crippled, was the cause.

The Newburyport *Herald* says the yacht which capsized in Ipswich bay on the 17th inst. was the Iras, of Annisquam, and the yacht which passed and refused aid was the Silence, of Cambridge, Capt. George Thresher. When the three men who were hanging to the waterlogged boat hailed for assistance, Capt. Thresher replied "Take your hats and bail out your boat," and kept on his course. The young men were in the water half an hour before a dory arrived to their rescue.

Ivy Poisoning.

The "Poison Ivy," also called "Poison Oak," and in some localities known as "Mercury," is often the cause of great distress. The vine is abundant all over the country, one form being low, running along on banks and rambling over stone walls. Another form climbs the highest trees, clinging to the bark by its many rootlets. It is often confounded with the Virginia Creeper; indeed we have known it to be planted as an ornamental vine, it having been mistaken for that. The two are readily told apart, the Virginia Creeper having its dark-green, shiny leaves five-parted, while the light-green leaves of the poison vine are three-parted.

The poison ivy is so very abundant that were all equally susceptible to its influence we should hear much more of its effects than we do at present. With many, the poison produces only a slight eruption of the skin, and an intense itching. Others are more seriously affected, and the face swells up to such an extent that the features are hardly visible.

Nearly every locality has its popular remedies for the poison, and new ones are frequently proposed. As a general thing, most cases are relieved by keeping the bowels open by salts, and washing the eruptions with a strong solution of sugar of lead. The latest remedy, which is now going the rounds, is to bathe the affected parts with lime water, applied as hot as it can be borne. This is simple, the remedy is usually at hand, and is worth trying, as other alkaline washes have been found useful. No harm can result.—*American Agriculturist.*

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. NOYES, 149 *Power's Block, Rochester, N. Y.* eod&w3m

Five schooners were on the 19th inst. discharging coal at the Concord railroad wharf. A schooner arrived at the Eastern railroad wharf the same day, with a large lot of gas pipe on board; her cargo is bound inland, for some place on the line of the Conway branch of the Eastern road.

The gondola H. P. Spinney, Capt. Cheney, on Tuesday of this week took in a load of coal, carried it to Newmarket, discharged, and arrived back at the wharf in eight hours and forty minutes from the start.

The mackerel fleet continue to report a great scarcity of these fish on the New England coast. The schooner Emma Brown has arrived at Gloucester from a four weeks' trip, with only twenty-five barrels; and she reports that many of the fleet have taken no fish at all in that time. Prices continue to advance, and two fares were sold on the 18th at $8.-87 1-2 and $9.25 a barrel out of pickle.

At the Maine band tournament at Lake Maranocook on the 17th inst., the second prize, $75, was won by the North Berwick band; the first prize, $100, was won by the Westbrook band. About 10,000 people attended the tournament.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing WILL and we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts CONVINCE all the machinery of your body into working order.

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH ELY'S CREAM BALM

ELY'S CREAM BALM CONTAINS NO MERCURY, OR ANY OTHER INJURIOUS DRUG. A PARTICLE IS APPLIED INTO EACH NOSTRIL. PROV. 50 CENTS AT DRUGGISTS OR BY MAIL. ELY BROS. OWEGO, N.Y. U.S.A.

has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *It is a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WEATHER.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 56 degrees above zero.

Cloudy.

RUNNING TRAINS BY TELEGRAPH.

With a view to ascertaining how much the various railroads running out of Boston would be affected by a strike of telegraphers, the enterprising *Globe* sent a reporter to the various stations in that city to make enquiries.

At the Eastern station he learned that the railroad runs over 200 regular trains a day, and a great many specials, so that their telegraph system is of great importance to them. Mr. Tuttle, the general passenger agent, whose efforts have done so much to make the line popular, said: "We could run our trains without the use of the telegraph, but we can do it quicker and more conveniently by our present system. We have a train despatcher and two assistants, and we keep in all from four to six men on duty in this department all the time. Every station along the line reports the trains which pass, to the despatcher here. He sits with a time-card of the road before him, and checks off the trains as their movements are reported to him. So he knows where every train is, and if they are delayed, those whose running time would be affected by the delay are telegraphed to and are not obliged to wait. But it is in running our specials that we get the principal advantage. Suppose a special train is to pass a regular freight or passenger train at a certain point. If they were running by time-card alone the special ought to get on the side track out of the way ten or fifteen minutes before the regular is due; but, if they both run by telegraph orders, the ten or fifteen minutes may be saved. In this way we often work a special up from Portland in three hours, which is pretty good time for 108 miles. Then for the freights; a train despatcher who knows his business can work a freight through in half the time it would take to run with perfect safety by time-card alone. Our train despatchers are men who thoroughly understand their business, and the effect of their practical skill is clearly seen in the movements of our trains."

Superintendent A. A. Folsom, of the Boston & Providence railroad, told the reporter that all the operators along the line, with two exceptions, were hired by the Western Union, and they could strike as often as the office clock did, for all he cared.

DEMOCRATIC CAUCUS.

The democrats of ward one held a caucus on Thursday evening last; Nathan Whalley was chosen chairman, and N. K. Raynes secretary. A communication was received from Dennis J. Lynch, chairman of the previous ward committee, declining to serve again, on account of having removed from the city. The following named gentlemen were appointed ward committee for the ensuing year, by nomination from the floor:

John E. Locke, (chairman,) Ozro J. Hobbs, Albion Littlefield, Charles H. Foote, Frank Dennett, Abraham Kay, Gilman Hayes, George Lane, Robert A. Stott, Nathaniel K. Raynes.

The meeting then adjourned to the call of the committee.

MASONIC.

The following officers of Naval Lodge, No. 148, of Kittery, Me., were elected July 18th:

W. M, Theodore Wilcox;
S. W., E. A. Duncan;
J. W., S. Taylor;
Sec., L. L. Goodrich;
Treas., W. W. Locke;
S. D., Thomas J. Pettigrew;
J. D., J. H. Getchell;
Finance Committee, A. Stevenson, L. B. Gerrish, E. C. Neally.

GOSSIP'S SAY

That the democratic boom for "the old ticket—Tilden & Hendricks," for candidate for president and vice president in the campaign of '84, is apparently going ahead finely.

That many of the local democrats are not pleased thereat.

That they say "Tilden was elected once, and did not dare to assert his rights; what assurance have we that he would not act the same way again under similar circumstances?"

That they needn't be afraid, as Tilden and Hendricks came nearer an election in 1876 than either of them ever will come again.

That in no place in New England, outside of Newport, are there such elegant turnouts of horses and carriages as in this city.

That the Kittery Point line of steamers carried over eight hundred passengers on Wednesday, the 18th inst.

That the proprietor's countenance perceptibly broadened as he counted up the day's receipts.

That on Thursday the manna continued falling even more abundantly, causing the proprietor to offer up thanks to his—Uncle Samuel.

That our young ladies think the cadets a fine-looking set of young gentlemen.

That the cadets heartily reciprocate.

That the river was full of boating parties Wednesday and Thursday evenings, enjoying the beautiful moonlight and the placid waters.

That occasionally a young maiden got moonstruck over the "sparkling scintillations," "silvery sheen," "refulgent rays," etc., and was only brought back to a realization of things terrestrial by the quawking of some buttermonk, the tuneful rendering of operatic selections by some Sculpin-Point lobster-catcher, or the anti-rosewater odors wafted from the deceased horse lying high and dry on Fishing islands.

That the beautiful cages of foreign singing birds at the residence of C. M. Gignoux attract much admiration.

That the steamer Startled Fawn came into the lower harbor on the 18th inst. with a large party of excursionists from Newburyport.

That the picnic of the Portsmouth and Kittery Christian Sunday schools at Dover Point on the 18th was attended by some 400 persons, and that they enjoyed themselves greatly.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

Two hundred and twenty-five boys were on shore from the practice-ships Dale and Constellation on Wednesday, the 18th inst., and made the streets look quite lively. The "sucking admirals" were quiet and well behaved; they invested largely in peanuts and candy, and a few sampled the seductive lager; but the number of those who wrestled with New England's native beverage was very small indeed. The boys are kept under rigid discipline at the naval academy and on board ship, and would find themselves in trouble should they "out up" any when on liberty; it is only the full-fledged naval officer of high rank who can with impunity have a blazing drunk when on duty.

The steamer Appledore carried large loads of passengers on Wednesday and Thursday of this week, and the hotels at the Shoals must be nearly filled. The Steamer City of Portsmouth also had many passengers on her trips to York.

The stevedores and most of the coal-heavers employed at the Concord railroad wharf propose to give a dollar each toward the firemen's muster fund.

The stages to York were crowded on Thursday last with passengers and baggage. Keen's and Manson's stages to Kittery Point also had about all the patronage they could accommodate. The Kittery Point steamer carried unusually big crowds of passengers through the day, the traffic from and to the practice-ships, and the desire of many persons to have a look at the ships, accounting for the rush.

The gondola Edgar Weston, Capt. Philpott, was on Thursday last loading at one of E. F. Sise & Co.'s wharves with coal for Dover.

Mr. Timothy Dame of Eliot having raised a new barn, the occasion was celebrated on Thursday evening, the 19th inst., by a New England supper. Turner's quadrille band, and a goodly number of invited guests, went up from this city to take part in the festivities.

The city marshal calls the attention of owners of dogs to the ordinance prohibiting the running at large of any dog not licensed. The marshal must grant a license to any citizen on application, and tender of the legal fee; and unlicensed dogs may be killed by any person, and the owner fined five dollars.

The steamer Startled Fawn came in on Thursday with a large party of well-dressed and good-looking excursionists from Newburyport.

Mr. John Hennessey, stevedore on the Concord railroad wharf, had one of his feet badly bruised on Wednesday of this week by a coal tub falling upon it.

The White Mountain train passed through this city on Thursday afternoon for North Conway, having all the windows on one side of the observation car broken.

A large number of fine turnouts, most of them drawn by two horses each, and here and there one ornamented with a servant in livery, passed over Portsmouth bridge on Thursday, coming from or going to York harbor and beaches.

C. Sullivan & Co. were on Thursday cutting up four fine salmon, taken in the weirs at the mouth of the harbor. They are selling at thirty cents a pound.

Freeman A. Wentworth has been appointed postmaster at Kennebunk Beach, a new post-office established on the line of the Kennebunk & Kennebunkport railroad.

Rev. Morgan Dix, rector of Trinity church, New York, will preach in St. John's church on Sunday forenoon, and Chaplain A. A. McAlister, U. S. N., attached to the practice-ship Constellation, will officiate at Christ church in the afternoon.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

HAIR WORK!

I MANUFACTURE **Invisible Hair and Cap Nets**, made of **good strong hair** prepared by me especially for that purpose, and **never** use any refined or rotten hair. Prices from **5 cents** upward.

Combings Made into Switches for 50 Cts.

Proposals for Building a Machine Shop

PROPOSALS will be received up to the 25th of July, 1883, for the building of a Machine Shop for the Portsmouth Machine Co. The Plans and Specifications may be seen at the office of FRANK JONES, No. 35 Market Street, Portsmouth, N. H., to whom all communications may be addressed.

The committee reserve the right to reject any or all bids.

Portsmouth, N. H., July 9, 1883.

THE WENTWORTH,
NEWCASTLE, N. H.
THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds**, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.
GEORGE F. THOMPSON, Manager.

HOTELS.
THE staunch, sea-going steamer Appledore, Capt. Albert Rand, leaves Appledore wharf, near the foot of Deer street, for these favorite and widely known ocean resorts, daily, (Sunday excepted,) at 11 o'clock A. M., and six o'clock P. M. Returning, leaves the islands in season to connect with the morning and evening trains on the Eastern railroad for Boston and the west. Baggage checked through from Boston and intermediate stations, and returned free.
Laighton Brothers.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 225 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.
July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold misery that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the best medical work on Physiology ever published. The nothing whatever that the married or single, either require or wish to know is not what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

WHIPS All qualities and prices. Larrabee's, Congress St.

The Seth Thomas Clock company of Thomaston, Conn., elected the old board of officers and directors at the last annual meeting. They also voted to increase their capital to $100,000, and to engage in the manufacture of watches. A building 150 feet long and four stories high is to be at once erected for the prosecution of watch making.

Don't Die in the House.

"Rough on Rats" Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

P. T. Barnum has tendered to the Church of the Redeemer, at Bridgeport, Conn., a complete set of stained glass windows, at a cost of $1,000. The new windows will be put in during the vacation.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

William R. Travers, banker, of New York, was driving with his son in a gig at Newport, R. I., July 18th, when the axle broke. Both were thrown out and hurt about the head.

A good name at home is a tower of strength abroad. Ten times as much Hood's Sarsaparilla used in Lowell as of any other.

George F. Allen, a resident of Massachusetts, an apprentice in the training fleet at Newport, R. I., was found drowned near Coasters' Harbor island, July 18th. He had been missing about a week, and it is supposed he met his death while endeavoring to desert.

☞For five cents, Wells's, Richardson & Co., Burlington, Vt., will send colored sample colors of Diamond Dyes.

The training-ships Saratoga and Portsmouth sailed from Newport, R. I., July 17th, on a cruise to the eastward.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

Amos Bronson was arrested at Waterbury, Conn., July 17th, on suspicion of having caused the death of his sister Caroline, a young unmarried woman, who died from the effects of an abortion on the 15th. He is a peddler, with a fancy for medical reading.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Charles W. Park, the pastor lately rejected by the ecclesiastic council of the Howard avenue church in New Haven, Conn., by a vote of fifteen to two, has been employed by the congregation of the same church to preach until next June, by a vote of thirty-two to eight.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The Western Union Telegraph Co. employs 12,500 operators.

From Messrs. E. G. Honors & Son, 222 Chestnut St. Lynn, Mass., comes the following: "Ellis's Spavin Cure cured one of our horses of a large Bone Spavin.

Justice Moule sentenced a naval prisoner in England in the following words: "Prisoner at the bar, your counsel thinks you innocent, the counsel for the prosecution thinks you innocent, I think you innocent. But a jury of your own countrymen, in the exercise of such common sense as they possess, which does not seem to be much, have found you guilty, and it remains that I should pass on you the sentence of the law. That is, that you be kept imprisoned one day, and as that day was yesterday, you may go about your business."

Who is the Prettiest girl in America?

Is a question that would perplex a congress of connoisseurs assembled to nominate the most beautiful. But such an assemblage would not be surprised to learn that the most charming of their sex, on this side of the Atlantic, embrace the beauty and preserve the soundness of their teeth with SOZODONT, since everybody knows that the ladies prefer it to any and all dentifrices. Let no man say after this, that women lack judgment.

Portsmouth Prices.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSE, Vice-President,
aug28 Jamestown, Dakota.

Daily Chronicle.

Big Fire in Brooklyn.

Thursday forenoon, the 19th inst., a spark from an engine fell in a pile of jute on Harbeck's dock at Brooklyn, N. Y., just landed from the ship Lawrence E. Delap, from Calcutta. The dock was covered with hemp, jute and coffee, and the flames spread like a flash, enveloping the dock in a few moments. The ship quickly took fire, as did also the ship Perseverance, which arrived from Calcutta the previous day, and the ship Col. Adams, also from Calcutta, the crews of the two latter jumping overboard to escape the flames. The roof of the dock fell upon a dozen or more firemen and dock hands, but they were all rescued alive, though all burned and bruised. A hoisting derrick fell, knocking two men overboard. A custom house inspector named Haraden was badly burned, and another named Lampeer narrowly escaped being burned to death. It was reported that the captain of the Lawrence E. Delap, with his wife and three children, were drowned in leaving the ship; also that two dock hands were drowned, and one sailor killed by falling timbers.

The three ships were burned to the water's edge; they were all English vessels, and valued at about $40,000 each, the total loss being about $600,000. The wife and child of the captain of the Lawrence E. Delap were not drowned, as at first reported, though probably several lives were lost.

"Rough on Corns."

Ask for Wells' "Rough on Corns," 15c. Quick, complete, permanent cure. Corns, warts, bunions.

Hon. Isaac Adams of Sandwich, inventor of the Adams printing press, and said to be the richest man in New Hampshire, died July 19th. He was a member of the Massachusetts senate in 1848, and was at one time the democratic candidate for mayor of Boston.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Richard Porter, son of Admiral Porter, has been admitted to the bar of the District of Columbia.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three words—Take Hop Bitters.

The great boat race between Hanlan and Ross, at Ogdensburg, N. Y., July 18th, was easily won by Hanlan, who made the best time on record for four miles with a turn—twenty-seven minutes, fifty-seven and a half seconds.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Judge Hoadley, the democratic candidate for governor of Ohio, is the lawyer who wrote the interminable argument in favor of the Cronin electoral college of Oregon, in the Hayes-Tilden campaign. Judge Hoadley at that time was a republican, or professed to be, and so remained up to within a few years.

The complicated diseases brought on by intense study, thought, care, anxiety, etc., are often of the most serious nature. Heed such symptoms as loss of memory, universal lassitude, heart disease, kidney complaints, liver troubles and a general breaking down of health and strength. When thus afflicted, when the least exertion causes great fatigue, when life seems a burden, use the reliable strengthening tonic, Brown's Iron Bitters. It will afford you sure relief.

George E. Perry, superintendent of gasoline lights in Lowell, Mass., and G. W. Newton and W. W. Brown, employes, have been arrested for stealing harnesses and robes from barns and carriages during the past three months. Perry has stood high as a citizen.

"Those who deaden sensation and stupefy the patient to relieve suffering make a grave mistake. They proceed upon the false idea that it is legitimate to procure relief from pain by destroying physical sensibility. This method, carried to the last extremity, would kill the patient to end suffering. It is not presmed that Lydia E. Pinkham's Vegetable Compound will raise the dead, but it often does restore those who are given up as hopeless cases.

The *New England Homestead* reports that its correspondence shows that the growing crops in New England never promised better at this season than now. Apples will be few, most of them having been shaken from the trees. The hay crop is large, and potatoes promise an immense yield.

A traveller who visited Egyt and Holy Land, says he heard St. Jacobs Oil, the great pain-cure praised as a blessing.

Eugene Wilson and Charles Wilson, two of the crew of the fishing schooner Wildfire, of Gloucester, were supposed to have been drowned on the Grand banks July 8th, but have arrived home, having been picked up by the ship Eurydice of St. John, N. B.

Be Your Own Doctor.

It won't cost you one-half as much. Do not delay. Send two 3 cent stamps for postage, and we will send you Dr. Kaufman's great work, fine colored plates from life, on disease, its causes and home cure. Address A. P. Ordway & Co., Boston, Mass.

Allan McDonald and Oliver Martinson, two of the crew of the fishing schooner Notice, of Gloucester, were lost in a fog on the Grand banks on the 1st of July, while visiting trawls, and as the sea was very rough at the time it is feared they were capsized and drowned. McDonald was a native of Glasgow, Scotland, and Martinson of Norway.

TERRIBLE itching and scaly humors, ulcers, sores and scrofulous swellings cured by the Cuticura and Cuticura Soap (the great skin cures) externally, and Cuticura Resolvent (blood purifier) internally. Ask about them at your druggists.

CLEAR HEAD and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions brought about in catarrh by the use of Sandford's Radical Cure. Complete treatment for $1.

SLIGHT ODDS.

A Little Story with a Large Moral—One Man Who knew his own Business.

"No, my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the counter. "No, my dear, we haven't any red flannel, but we have some first rate New Orleans molasses." Softly hinting that she didn't think that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Have you BENSON'S CAPCINE PLASTERS?" asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as soon as it touches the skin."

"Not at present," replied the druggist, genially, "but we have lots of plasters just as good. There is Allcock's, the Capsicum and others—won't one of them do as well?"

"My dear sir," retorted the gentleman, with a slight show of temper, "I say nothing against those articles, but I am a business man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that sometime ago, for another disease, of which the Capcine has since cured me, I tried all those you mention, with no appreciable benefit. They are inefficient, every one of them, the meanest act of the proprietors of some of them being this: that they make plasters with similar sounding names to deceive the unwary into believing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day."

Be on your guard against imitations. The genuine has the word CAPCINE cut cleanly in the middle of the plaster.

Seabury & Johnson, Chemists, New York.

WILL CURE ALL DISEASES of the SKIN.

Vegetine

THE GREAT BLOOD PURIFIER

Dizziness, Liver and Kidney Complaint.

CINCINNATI, O.

H. R. Stevens—Dear Sir: I have received great benefit from the use of the Vegetine, and can safely recommend it for *Dizziness, Rush of Blood to the Head*, and a general blood purifier. It has also been used by other members of my family for *Liver* and *Kidney Complaints*. MRS. A. C. ULRICH, 200 Bayminller St.

PURIFIES THE BLOOD.

BOSTON, MASS.

Mr. H. R. Stevens—Dear Sir: I have been using Vegetine for some time with the greatest satisfaction, and can highly recommend it as a great cleanser and purifier of the blood. J. L. HANNAFORD, Pastor of Egleston Square M. E. Church.

A MEDICINE FOR CHILDREN AND ADULTS.

Vegetine IS THE BEST SPRING AND SUMMER MEDICINE.

Vegetine is Sold by all Druggists.

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia, and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1883. eodly

TORNADOES.

Scientifically Accounted for, and Some Remote Causes that produce Painful Results Explained.

The following synopsis of a lecture delivered by Dr. Horace R. Hamilton before the New York society for the promotion of science, contains so much that is timely and important that it can be read with both interest and profit:

There is probably no subject of modern times that has caused and is causing greater attention than the origin of tornadoes. Scientists have studied it for the benefit of humanity; men have investigated it for the welfare of their families. It has been a vexed subject long considered, and through all this investigation the cyclone has swept across the land carrying destruction to scientists as well as to the innocent dwellers in its track. One thing, however, is certain; the cause of the cyclone must be sought far away from the whirling body of wind itself. Its results are powerful; its cause must also be powerful. Let us therefore consider a few facts. First, the appearance of a cyclone is invariably preceded by dark spots upon the face of the sun. These spots, indicating a disturbed condition of the solar regions, necessarily affect the atmosphere of our earth. An unusual generation of heat in one part of the atmosphere is certain to cause a partial vacuum in another portion. Air must rush in to fill this vacuum. Hence the disturbances—hence the cyclone. This theory finds additional confirmation in the fact that tornadoes come during the day and not at night. The dark spots upon the surface of the sun, whatever they may be, seem to cause great commotion in the atmosphere of the world, and it is almost certain that the extremely wet weather of the present season can be accounted for on precisely this basis. Is it reasonable to suppose that the marvelous effect of the sun upon vegetation and life in general shall be less than upon the atmosphere itself through which the rays come? The cause is remote, but the effect is here.

After describing some of the terrible effects of the cyclone, the speaker went on to say:—

This rule finds its application in nearly every department of life. An operator is in San Francisco—the click of the instrument manipulated by his fingers, in New York. The president makes a slight stroke of the pen in his study at the White House, and the whole nation is aroused by the act. An uneasiness and disgust with everything in life, commonly called home-sickness, is felt by many people, when the cause is to be found in the distant home thousands of miles away. An uncertain pain may be felt in the head. It is repeated in other parts of the body. The appetite departs and all energy is gone. Is the cause necessarily to be found in the head? The next day the feeling increases. There are added symptoms. They continue and become more aggravated. The slight pains in the head increase to agonies. The nausea becomes chronic. The heart grows irregular, and the breathing uncertain. All these effects have a definite cause; and, after years of deep experience upon this subject, I do not hesitate to say that this cause is to be found in some derangement of the kidneys or liver far away from that portion of the body in which these effects appear. But one may say, I have no pain whatever in my kidneys or liver. Very true. Neither have we any evidence that there is a tornado on the surface of the sun; but it is none the less certain that the tornado is here, and it is none the less certain that these great organs of the body are the cause of the trouble although there may be no pain in their vicinity.

I know whereof I speak, for I have passed through this very experience myself. Nearly ten years ago, I was the very picture of health, weighing more than 200 pounds, and as strong and healthy as any man I ever knew. When I felt the symptoms I have above described, they caused me annoyance, not only by reason of their aggravating nature, but because I had never felt any pain before. Other doctors told me I was troubled with malaria, and I treated myself accordingly. I did not believe, however, that malaria could show such aggravated symptoms. It never occurred to me that analysis would help solve the trouble, as I did not presume my difficulty was located in that portion of the body. But I continued to grow worse. I had a faint sensation at the pit of my stomach nearly every day. I felt a great desire to eat, and yet I loathed food. I was constantly tired and still I could not sleep. My brain was unusually active, but I could not think connectedly. My existence was a living misery. I continued in this condition for nearly a year; never free from pain, never for a moment happy. Such an existence is far worse than death, for which I confess I earnestly longed.

It was while suffering thus that a friend advised me to make a final attempt to recover my health. I ventured inwardly at his suggestion, but I furnished me with a remedy, simple yet palatable and within two days I observed a slight change for the better. This awakened my courage. I felt that I would not die at that time. I continued the use of the remedy, taking it in accordance with directions, until I became not only restored to my former health and strength, but of greater vigor than I have before known. This condition has continued up to the present time, and I believe I should have died as miserably as thousands of other men have died and are dying every day had it not been for the simple yet wonderful power of Warner's Safe Cure, the remedy I employed.

The lecturer then described his means of restoration more in detail, and concluded as follows:

My complete recovery has caused me to investigate the subject more carefully, and I believe I have discovered the key to most ill health of our moderned civilization. I am fully confident four-fifths of the diseases which afflict humanity might be avoided were the kidneys and liver kept in perfect condition. Were it possible to control the action of the sun, cyclones could undoubtedly be averted. That, however, is one of the things that cannot be. But I rejoice to say that it is possible to control the kidneys and liver; to render their action wholly normal, and their effect upon the system that of purifiers rather than poisoners. That this end has been accomplished largely by means of the remedy I have named I do not have a doubt, and I feel it my duty to make this open declaration for the enlightment of the profession and for the benefit of suffering humanity in all parts of the world.

Portsmouth Chronicle.

SATURDAY, JULY 21, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

New Hampshire Legislature.

A third ballot on the 19th showed the following result:

Whole number of votes	305
Necessary for a choice	153
Bingham	110
Chandler	74
Tappan	32
Marston	29
Fairbrother	24
Stevens	17
Scattering	13

and there was no choice.

Orren C. Moore of Nashua, who on the previous ballot received four votes, instead of the ten and twelve he had been receiving, withdrew from the contest before this vote was taken, and his name was not called in the declaration. Henry E. Burnham and Chas. H. Bell each had four votes; Gallinger and Barnard three each; and Burns, Prescott, Ladd, Smythe and Ruel Durkee, one each.

On the 20th inst. at noon a vote was taken as follows:

Whole number of votes	256
Necessary for a choice	129
Bingham	85
Chandler	58
Tappan	34
Fairbrother	26
Marston	25
Stevens	13
Scattering	17

and there was no choice.

"Cromwell, I Charge thee fling away Ambition."

The sad physical effect of disappointment upon one of the candidates for senatorial honors, ought to be a warning to some of the candidates of advanced years, who persist in keeping before the convention at Concord, when there is no chance of an election.

The people of the state have grown weary of this protracted contest. If it means a revolt against party machine tactics, then it must be acknowledged that the process of attempting an election of senator by indiscriminate scrambling for the office, without concerted action, is without results.

To suppose that in a state where political forces are so nearly balanced as they are in New Hampshire, there is to be no republican party machinery, if by that is to be understood political organization and forecast, is simply to give the political control to the democracy, and to place the state in the democratic column.

If there is in the economy of politics any process by which the minority can, by postponing the public business, gratify their own wishes in part by inaugurating a do-nothing policy, resulting in waste, disorganization and defeat, then that result seems, thus far, to have been attained.

There will be an election only when members of the dominant party in the legislature sufficiently appreciate that it is the party and the state which they must serve, before seeking to gratify personal ambition or to name private pet grievances.

The Beautiful Green Melon.

A beautiful thing it was, and right green was young Mr. Green, who went down to the cellar about midnight and ate nearly half of it. The next day young Mr. Green said he didn't want any breakfast, and he thought he would not get to the store. He wished he hadn't seen that watermelon. By the prompt administration of Perry Davis' Pain Killer young Mr. Green's internal economy was reduced to a state of peace and comfort.

Miss Cordana Washburne, aged fifty-four years, sister of Postmaster Washburne of East Taunton, Mass., fell into the river on the 19th inst. while picking berries, and was drowned.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. codjan6,84

Neuman's Peptonized Beef Tonic, the only preparation of beef containing its entire nutritious properties. It contains blood-making, force generating and life sustaining properties; invaluable for **Indigestion, Dyspepsia,** nervous prostration, and all forms of general debility; also, in all enfeebled conditions, whether the result of exhaustion, nervous prostration, overwork or acute disease, particularly if resulting from pulmonary complaints. CASWELL, HAZARD & Co., Proprietors, New York. Sold by Druggists. dadjy21,84

A Pleasing Episode in the Fight.

One of the amusing incidents of the protracted senatorial struggle in our state legislature, if there can be anything amusing in such a spectacle, is the publication of the speech which Major Briggs would have made on his withdrawal as a candidate, had he made a speech!

It is hardly fair to presume if one of the three wise men who lead in the house of representatives had thus spoken, the other two could have remained silent. If Major Briggs had delivered his little speech instead of printing it, Gen. Marston would have said: "Mr. Chairman, I cannot permit this occasion to pass without expressing my admiration of the unselfish and patriotic course of the gentleman from Manchester. The other day I detained the convention long enough to give expression of my views as to the atrocious attempt to injure his record as an officer in the late war; now I wish to express my cordial approbation of his conduct as a soldier of the republic, fighting for purity in politics, unselfish, manly, and actuated solely for the good of the state and of the party with which he affiliates. While the conduct of those who with small numerical strength receive unswerving support as candidates in this contest may be criticised by some, we are cheered with the consciousness that it is not for our personal gratification, but in the upholding of a great principle, that we thus permit our names to be used in this contest."

As Gen. Marston would have resumed his seat, Gen. Stevens would have arisen, tipped the wink to the chair, and facing his supporters would have said, with perhaps less feeling but with more fluency than did the gallant colonel of the famous Second New Hampshire, "I will crave the indulgence of the convention for a moment, if it will bear with me long enough to allow me to remark, that no one more earnestly deprecates the entry into this contest of any 'more' candidates, than myself. While in other states the yoke of machine dictation has been broken, it remains to us of that youthful and vigorous element of the legislature to resist in all honorable modes the encroachments of that effete element which so long has presumed to conduct the movements of the dominant party in our state. Major Briggs in his military, professional and political career has long been my companionable friend. I cordially approve of his manly course on this occasion, and now I can with my vote return to the support of that gallant Son of Mars from Rockingham, because Sir, having seen somewhat of military life, I incline to the support of the army rather than of the navy." [Applause from the anti-caucus men would have followed this speech, and the convention would have proceeded with the business legally before it.]

No. 1 Market Square.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing all the merit we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine **WILL** cleanse and invigorate and even more than **WILL** it is a medicine we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine **CONVINCE** hits the right spot, and puts all the machinery of your body into working order.

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. F. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *It is a Balm or Snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

GOSSIPS SAY

That the municipal political pot is beginning to simmer already.

That it is quite likely to boil over before the two parties get their candidates for mayor nominated.

That many republicans are quite satisfied with the administration of Mayor Treat.

That some of the democrats are not so well satisfied, thinking he should have in some unmentioned way shown more opposition to the republican majority in the board of aldermen.

That any such opposition would not have amounted to a row of pins.

That the pair of boots sent to J. Wesley Young a day or two ago by a Portsmouth newspaper man, to be mended, reminded the artist in leather of the experience of the cooper who received a bung-hole with an order to build a cask to fit it.

That after he put on the boots new soles, new heels, new tops and three new straps, they were as good as new.

That leading democrats of this city assert with great positiveness that if Gen. Marston can get sixty republican votes for United States senator, the democratic legislators will give him their support and secure his election.

POLICE COURT--BATCHELDER, J

FRIDAY, July 20th.

George Laskey, charged with being a common drunkard, was adjudged guilty, and sentenced to six months at the county farm, and to pay $6.90 costs.

THE GREAT INTER-OCEAN SHOW,

"The Largest and Best Show on Earth," will exhibit in this city to-day. The special attractions promised are many, including Millie-Christine, the two-headed woman, Showles, the champion rider of the world, Zazel, the human cannon-ball, an immense collection of animals, and wonderful ring performances. There will be two entertainments, at two and eight o'clock P. M., the doors opening an hour earlier at each performance.

Elder I. C. Wellcome will preach in the Advent church on Sunday.

Rev. G. T. Raymond of Fisherville will preach in the Middle street church.

Rev. H. C. DeLong, of Medford, Mass., will preach in the Unitarian church.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

Mr. Edward H. Morse, cashier of the Boston *Budget* publishing company, was united in marriage on the 9th inst. with Miss Louisa Brewster, daughter of Mrs. Sarah Brewster, formerly of this city, at Mrs. Brewster's residence in East Boston. There were present wedding guests from Portsmouth and other cities, in addition to those from Boston. The bridegroom's associates on the *Budget* gave suitable presents, and the bride's friends in the store of Emerson & Co., of Temple place, as well as her relatives, suitably marked the auspicious event with appropriate testimonials. The happy couple started on their wedding tour by way of the Fall River line.

A night-blooming cereus in bloom at the residence of Newton Johnston, Esq., on Middle street, aroused much admiration among the neighbors and other visitors on Friday night.

By special invitation, the choir chapter of young ladies of St. John's church will furnish the music at divine service on board the U. S. S. Constellation on Sunday morning.

The shore-fishing boats have this week brought in considerable quantities of fish, enough to supply the local market and enable dealers to make some good shipments.

The schooner Mary S. Hontvet, of this port, arrived at Gloucester on the 18th inst. from a trip to the Grand banks.

The schooner which since last fall has been on the beach at Noble's island, inside the bridge, has had her masts taken out by Capt. Muchmore, and all the movable junk removed, and will be sold cheap by her owner, Mr. J. L. O. Coleman.

Dennis Sullivan of Great Falls, a laborer employed on the addition now being built at the rear of Butler's hat store, was carrying a bucket of mortar up a ladder Friday forenoon, when thinking the ladder was slipping he jumped to the ground, the bucket striking him on the left leg, and causing a compound fracture between the knee and ankle. He was attended by Dr. Sherburne.

A dog belonging to Mr. Jerry Murphy, at the north end, is quite valuable, as he carries home everything he can lay his hands on; his selections are not always judicious, however, for one day this week he appeared with one boot in his mouth, having evidently helped himself to it somewhere.

Patrick Magner of Beverly, Mass., sixty years old, was instantly killed on the Eastern railroad track in Salem on the evening of the 19th inst., by the Conway train.

MARRIED.

HETT—ACKERMAN. In Dover, July 19th, by Rev. Mr. Stewart, Valentine A. Hett and Mrs. Annie Ackerman, both of this city.

Being entirely vegetable, no particular care is required while using Dr. Pierce's "Pleasant Purgative Pellets." They operate without disturbance to the constitution, diet, or occupation. For sick headache, constipation, impure blood, dizziness, sour eructations from the stomach, bad taste in the mouth, bilious attacks, pain in region of kidneys, internal fever, bloated feeling about stomach, rush of blood to head, take Dr. Pierce's "pellets." By druggists. c

Miss Ida K. King, Goffstown, N. H., says: "Brown's Iron Bitters is the best medicine I ever used for dyspepsia. It helped me greatly."

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

An Experience of Twenty Years

in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Dr. I. F. Mundy, Owenton, Ky.: "I found Brown's Iron Bitters one of the best tonics, and have prescribed it frequently."

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MISCELLANEOUS.

SALT RHEUM

Wonderful Cures of Salt Rheum when Physicians, Hospitals and all other means failed.

SALT RHEUM.

I have been a great sufferer with Salt Rheum for thirty years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and I came to the conclusion that I could not be cured. But a friend called my attention to CUTICURA REMEDIES. Got them and used them until my skin was perfectly smooth and I consider myself entirely cured.

Yours truly, B. WILSON LORD.
AGAWAM, MASS.

SALT RHEUM.

CUTICURA REMEDIES are the greatest medicines on earth. Had the worst case Salt Rheum in this country. My mother had it twenty years, and in fact died from it. I believe CUTICURA would have saved her life. My arms, breast, and head were covered for three years, which nothing relieved or cured until I used the CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally. J. W. ADAMS.
NEWARK, OHIO.

SALT RHEUM.

I had tried everything I had head of in the East and West for Salt Rheum. My case was considered a very bad one. My face, head, and some parts of my body were almost raw. Had covered with scabs and sores. Suffering fearful. One very skillful physician said he would rather not treat it, and some of them think now I am only cured temporarily. I think not, for I have not a particle of Salt Rheum about me, and my case is considered wonderful. Thanks to CUTICURA REMEDIES. MRS. S. E. WHIPPLE.
DECATUR, MICH.

SALT RHEUM.

No system of remedies ever compounded so thoroughly eradicate the diseases for which they are intended as the CUTICURA REMEDIES. Many remarkable cures have come to my knowledge, and I feel save in warranting satisfaction if directions are followed. *Medicines that infallibly cure Salt Rheum, as* CUTICURA REMEDIES *do, will cure any kind of skin diseases.*

CHAS. H. MORSE, *Druggist,*
Proprietor MORSE'S DYSPEPSIA CURE.
HOLLISTON, MASS.

Proposals for Building a Machine Shop

PROPOSALS will be received up to the 25th of July, 1883, for the building of a Machine Shop for the Portsmouth Machine Co. The Plans and Specifications may be seen at the office of FRANK JONES, No. 85 Market Street, Portsmouth, N. H., to whom all communications may be addressed.

The committee reserve the right to reject any or all bids.

Portsmouth, N. H., July 9, 1883.

THE WENTWORTH,
NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds,** large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Hartow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

GEORGE F. THOMPSON, Manager.

COMING! COMING!!

ON ITS FIFTH ANNUAL TOUR!

A GRAND CONSOLIDATION

John B. Doris'

GREAT INTER-OCEAN

LARGEST AND BEST SHOW ON EARTH.

MONSTER MILLIONAIRE MENAGERIE,

MEGATHERIAN MUSEUM AND DOUBLE-RING CIRCUS!

Unequalled in Extent, Unparalleled in Attractiveness and Unrivalled in General Excellence. Requiring for its transportation

3---PALACE RAILWAY TRAINS---3

Especially constructed for the purpose, and loaded and bearing its burden, representing an actual outlay of $1,000,000, embracing a greater variety, and more surprises, sensations and novelties than have ever before been confined under one management. The world's greatest wonder.

MILLIE CRISTINE, the Two-Headed Lady!

The most wonderful made of all God's creatures. Two heads, two hearts, four arms and four lower limbs, united in a single body, all being perfectly and symmetrically formed. Engaged last season, after ten years' absence in Europe, by Messrs. Batchelder & Doris, and re-engaged by Mr. Doris for this season for the enormous salary of $25,000. She is not a side show curiosity, but is seen in the Great Inter-Ocean Show free of charge.

MORE AND RARER WILD BEASTS

THAN WERE EVER BEFORE EXHIBITED UNDER CANVAS.

Superb Double Ring Circus

CONTAINING A SUPERB CONSTELLATION OF 100 ARENIC STARS, led by

WILLIAM SHOWLES,

The Phenomenal Rider. The Champion of all the Champion Bareback Riders on Earth. Unquestionably the greatest rider that ever stood upon a horse.

The Grand Free Street Demonstration

Takes Place Daily at 10 A. M., and surpasses in magnitude and magnificence all other parades ever seen in America. Among its myriad of features is the personation of Semiramis, the Assyrian Queen, in her Triumphal Entry into Babylon, by the **$10,000 PRIZE BEAUTY OF THE WORLD.** It is nearly three solid miles in length and takes nearly an hour to pass any given point.

☞ EXCURSION TRAINS WILL BE RUN ON ALL RAILROADS.

Doors open at 1 and 7 P. M. Performance begins an hour later.

NOTE ESPECIAL.——One Ticket Admits to All Advertised Shows.

Isles of Shoals.

Appledore and Oceanic.

HOTELS.

THE staunch, sea-going steamer Appledore, Capt. Albert Rand, leaves Appledore wharf, near the foot of Deer street, for these favorite and widely known ocean resorts, daily, (Sunday excepted,) at 11 o'clock A. M., and six o'clock P. M. Returning, leaves the islands in season to connect with the morning and evening trains on the Eastern railroad for Boston and the west. Baggage checked through from Boston and intermediate stations, and returned free.

Laighton Brothers.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVEL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point, on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 225 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

PROF. MASSE,
OF PARIS.
Instructor in the French Language
AND LITERATURE,

Proposes forming classes or taking private pupils in the French language. Prof. Masse will constant y converse with his classes and afford every facility for attaining a thoroughly colloquial knowledge of the language.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work, entitled THE PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

28th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. The startling wonders that the Physiologist, Student, or other reader will learn from its pages are astonishing. Everything that the Physiologist, Student, or other reader requires or wishes to know but which is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

PEABODY MEDICAL INSTITUTE,
or W. H. PARKER, M. D.,

WHIPS All qualities and prices. Larrabee's, Congress St.

The Telegraphers' Strike.

The Direct Cable operators at the Rye beach station, and the operators at the Cape Cod and Duxbury cable stations, declined to enter the strike, and cable despatches were on the 20th sent and received as usual.

The stock of the Western Union company amounts to something over $80,000,000, of which probably at least three-quarters is "water," as it is said by those in a position to know that "it is a liberal allowance to say that $20,000,000 of it represents capital honestly invested. The public have been systematically fleeced, to enable big dividends to be paid on this watered stock, and the employees have at the same time been ground down." The gains have gone into the pockets of a very few men, at the head of whom are Gould and Vanderbilt. The public sympathy is largely with the striking operators, but capital does not care for sympathy.

Don't Die in the House.

"Rough on Rats" Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Asst. Engr. F. C. Rider is ordered to the Swatara.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

Ensign C. A. Gove is detached from the receiving-ship Wabash, and ordered to special duty at Concord, N. H.

Compare the dose and quantity of Hood's Sarsaparilla and you have conclusive proof of its superior strength and cheapness. Try it.

Naval Cadet John B. Jackson is detached from the Kearsarge, and has permission to take passage for Europe, and report for duty on board the Lancaster.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

Surgeon C. H. White has reported his arrival home, having been detached from the Lackawanna, on the Pacific station, June 20th; he has been placed on waiting orders.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Passed Asst. Surgeon A. C. Heffenger has reported his arrival home, having been detached from the Lackawanna June 20th, and has been granted leave of absence for three months from August 1st.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

Peter Haley, fourteen years old, is under arrest in Burlington, Vt., charged with numerous burglaries.

From Messrs. E. G. Honors & Son, 222 Chestnut St. Lynn, Mass., comes the following: "Ellis's Spavin Cure cured one of our horses of a large Bone Spavin.

Henry Wilder, aged fourteen years, committed suicide at East Wallingford, Vt., a few days ago, by taking paris green.

Don't Give Up

because you feel blue and are troubled with that tired and all gone feeling. Do as I did, use a bottle of Sulphur Bitters it will make you feel like a new person; it did me.

JENNIE HOMES, 354 Tremont St. Boston.

Joseph Staegamer, a saloon keeper in Philadelphia, killed his wife and himself with a pistol July 19th.

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. This original Nutrient and Tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into new life the entire process of digestion.

The funeral of Tom Thumb took place from the Episcopal church in Bridgeport, Conn., July 19th, with Masonic ceremonies.

Mr. Geo. W. Knapp, of Waltham Mass., says: "I have removed an enlargement on my horse's knee which a V. S. pronounced incurable, by the use of Ellis's Spavin Cure. I think this is a very flattering testimonial." It's only one of many hundred, however, thanks; all the same.

Who is the Prettiest girl in America?

Is a question that would perplex a congress of connoisseurs assembled to nominate the most beautiful. But such an assemblage would not be surprised to learn that the most charming of their sex, on this side of the Atlantic, embrace the beauty and preserve the soundness of their teeth with SOZODONT, since everybody knows that the ladies prefer it to any and all dentifrices. Let no man say after this, that women lack judgment.

MEDICAL.

PORTSMOUTH, N. H.

The Job Printing Business is conducted in the same office by Mr. Richard L. Walden, who keeps on hand a large and and well-selected stock of all materials required in his line.

Mr. J. H. Bates, Newspaper Advertising Agent, 41 Park Row (*Times* building,) New York, is authorized to contract for advertisements in the CHRONICLE and GAZETTE, at our best rates.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSE, Vice-President.

MEDICAL.

KIDNEY-WORT

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.

☞ If you have either of these troubles

PRICE $1. USE Druggists Sell

KIDNEY-WORT

Kidneys, Liver and Bowels.

SULPHUR BITTERS

THE GREAT German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells, depend on SULPHUR BITTERS, it will cure you.

Ladies in delicate health, who are all run down, should use SULPHUR BITTERS.

The Giant Dyspepsia is cured by using SULPHUR BITTERS.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Operatives who are closely confined in the mills and work shops; Clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

Cleanse the vitiated blood when you see its impurities burst forth in Pimples, Blotches, and Sores. Rely on SULPHUR BITTERS, and health will follow.

General Debility needs a gentle tonic. Use SULPHUR BITTERS, and you will not be troubled.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

Don't be without a bottle. Try it; you will not regret it.

SULPHUR BITTERS will build you up and make you strong and healthy.

Sulphur Bitters.

SULPHUR PLASTERS cure pain in the side. KAUFMANN'S PILLS do not gripe. 25 cents.

An Old Sardine.

The death of Sir Edward Sardine, President of the Royal Society, is announced. Born in 1788, when George III. had not completed the first half of his sixty-year reign, and Washington had not been elected president of the United States, he was an exemplification of the truth enforced by Thackeray, who said to a medical friend, "There is not in the whole of your pharmacopeia so sovereign a remedy as hard work."

"Rough on Corns."

Ask for Wells' "Rough on Corns," 15c. Quick, complete, permanent cure. Corns, warts, bunions.

Lieut. L. C. Logan is ordered to the training-ship New Hampshire.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Ensigns J. A. Hoogewerff and Wm. H. Allen are ordered to duty at the naval observatory.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

Capt. Walter H. Queen is detached from duty in the bureau of yards and docks, and granted leave of absence during August.

☞ "He that is discontented in one place will seldom be happy in another." People are constantly changing their homes from East to West and from North to South or *vice versa*, in search of a healthy State. If they would learn to be contented, and to use the celebrated Kidney-Wort when sick, they would be much better off. The whole system can be kept in a healthy state by this simple but effectual remedy.

Ensign F. R. Brainard is detached from the Swatara, and ordered to duty on the coast survey.

VEGETINE purifies the blood, renovates and invigorates the whole system.

Lieut. C. H. Lyeth is detached from the Minnesota, and placed on sick leave.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three words—Take Hop Bitters.

Asst. Engr. J. M. Witham is detached from duty in the bureau of steam engineering, and ordered to duty at St. John's college, Annapolis, Md.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Naval Cadet W. T. Webster has reported his return home from the Richmond, Asiatic station, and has been placed on waiting orders.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ells's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

Lieut. Comdr. Francis M. Green has been promoted to be a commander, from July 7th.

We have Bland dollars, "dad's" dollar, trade dollars, gold dollars, greenback dollars, and dollars made up in an aggregate of cents, dimes, etc. Anyone of these will buy a bottle of Dr. Graves' Heart Regulator, the only certain cure for heart disease, nervousness and sleeplessness.

Passed Asst. Engr. John Lowe has been promoted to be a chief engineer, from July 16th.

It is the manifest destiny of Glenn's Sulphur Soap to supersede oily unguents for cutaneous eruption.

Dyspeptic, nervous people, "out of sorts," Colden's Liquid Beef Tonic will cure. *Ask for Colden's.*

Chaplain John R. Matthews has had his leave of absence extended three months from July 16th.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

The London *Standard* says great complaints have been made at Hamburg against the crew of the United States steamer Lancaster. The police have been obliged to arrest several sailors and officers belonging to the vessel.

Medical Inspector Thomas W. Leach is detached from the Tennessee, and placed on sick leave.

Hay Fever.

For twenty years I was a sufferer from Catarrh of the head and throat in a very aggravated form, and during the summer months with Hay Fever. I procured a bottle of Ely's Cream Balm and after a few applications received decided benefit—was cured before the bottle was used. Have had no return of the complaint. Charlotte Parker, Waverly, N. Y.

One and one-half bottles of Ely's Cream Balm entirely cured me of Hay Fever of ten years' standing. Have had no trace of it for two years. Albert A. Perry, Smithboro, N.Y.

Since boyhood I have been troubled with catarrh and Hay Fever, and have been unable to obtain permanent relief until I used Ely's Cream Balm. It has cured me. E. L. Clickener, New Brunswick, N. J. Price 50 cents.

The steamer Daphne, which capsized and sank at Glasgow, Scotland, when launched, has been raised. Ninety-seven bodies of men who were drowned by the disaster have been recovered.

Dyspepsia dampens the ardor of many an aspiring soul. Why suffer from dyspepsia? Why be frightened over disordered kidneys? Why continue the miserable life of a dyspeptic, nerveless mortal? Brown's Iron Bitters will surely cure you. It has permanently cured thousands of cases where other remedies afforded only temporary relief. Ask your druggist concerning its merit. Try a sample bottle and you will be relieved of further mental and physical distress.

MEDICAL.

WHAT MRS. BRUCE

Of 23 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

Popular Monthly Drawing of the

COMMONWEALTH DISTRIBUTION CO.

In the city of Louisville, on

TUESDAY, JULY 31st, 1883.

These drawings occur on the last day of each month (Sundays excepted.) Repeated adjudication by Federal and State Courts have placed this company beyond the controversy of the law. To this company belongs the sole honor of having inaugurated the only plan by which their drawings are proven honest and fair beyond question.

N. B.—The Company has now on hand a large capital and reserve fund. Read carefully the list of prizes for the

July Drawing.

PATENTS!

R. H. EDDY,

No. 76 State St., opposite Kilby St. Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior abilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, late Commissioner of Patents.

BOSTON, October 19, 1878.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1883. 1eod1y

"I Saw a very Ugly Ghost,"

A charming young lady of Brooklyn was relating some of the troubles she had had in the night. The ghost which walked into her room looked something like a scare-crow. She remembered that she had enjoyed a good supper of lobster salad. When asked how it was that she was able to be out of bed the next morning, she remarked that she always kept a bottle of Perry Davis's Pain Killer in her room, and that two moderate doses of this most efficient remedy had driven the ghost away.

The Unitarian grove meeting at Wiers, Lake Winnepiseogee, commences July 25th and continues until the 29th inst. Rev. W. P. Felden, Rev. C. F. Dole and Rev. E. F. Hayward, of Boston, Rev. A. P. Peabody of Cambridge, and others, will take part in the exercises of the meeting.

Mr. Joseph Sounia, Peterboro, N. H., says: "He considers Brown's Iron Bitters A No. 1, to give a person an appetite."

Harry Parks, an employee of the Manchester & Lawrence railroad, was thrown under the wheels of a train at Manchester July 19th, and his right leg was cut off and the left split in twain. His hurts were supposed to be fatal.

A Smart Man

is one who does his work quickly and well. This is what Dr. R. V. Pierce's "Golden Medical Discovery" does as a blood-purifier and strengthener. It arouses the torpid liver, purifies the blood and is the best remedy for consumption, which is scrofulous disease of the lungs. a

The Cocheco Manufacturing company have notified the city of Dover to settle their claim for damage caused at the print works by the collapse of a city sewer July 4th, when a quantity of cloth, colors, etc., were injured. The city council appointed the mayor and president of the common council as a committee to confer with the agent of the company.

Mr. Noble Thompson of the popular stables 1383 Broadway, N. Y., states that St. Jacobs Oil is the best pain-cure for man or beast that has come under his notice in fifteen years.

The Dover city marshal's report for the past three months shows: Total arrests, 102; males, 92; females, 10; for drunkenness, 52.

An Experience of Twenty Years

in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

MONDAY, JULY 23, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

Dropped Out.

Our friend Moore, of the Nashua *Telegraph*, seems to have been, like others before him, taken out of the senatorial contest on an ambulance, last week.

We note his failure with regret. For Mr. Moore we have a professional as well as political sympathy. He is one of us. Mr. Chandler, another candidate, possibly claims in right of his being the owner of a major part of the *Monitor* establishment, that he is a newspaper man. True, he is by proxy State Printer and State Reporter, and possibly writes occasionally for the spicy sheet which he owns; and perhaps since the banishment of Ex-Editor-Consul Stevens he may be supposed to direct. But he is not to the manor born. He may be crafty, but he is not legitimately of the craft.

But Mr. Moore is one of us. He knows of the unceasing toil of the editor; of the ungrateful side of political editorial labor; of what is expected of, and of how little is conceded to, the faithful newspaper conductor. While not in full accord with some of Bro. Moore's theories and ideas, yet we still should have felt a pardonable professional pride in his preferment, rather than see, in his political aims, the party for which he has done so much say under a mistaken notion as did Othello under similar circumstances—

"Cassio, I love thee—
But never, Moore, be officer of mine."

No Such Man.

A telegram to the New York *Commercial Advertiser* of July 12th, from Concord, giving the ballots for senator of that day, assigns one vote, among the scattering, to "John D. Mudgudge." Now we don't want to hurt Mudgudge's feelings, or dash the hopes of his wife or relatives, but depend upon it he can never pound the New Hampshire desk in the United States senate until he has that name of his taken to pieces and fixed up some other way. Mudgudge, indeed! Shades of Mason, Woodbury and Atherton—to think of a Mudgudge in the capitol, thundering out yeas and nays in the name of the Granite State. Perhaps there's some mistake about it. As somebody else said under similar circumstances—we don't believe there's no such person. We've plenty of statesmen, but now we come to think of it, we haven't a Mudgudge.

The Yellow Fever.

The steamer City of Washington arrived at Havana from Vera Cruz last week with twenty-seven cases of yellow fever on board; the ship's machinist died at sea, and the baker and doctor died in Havana. The steamer sailed for New York on the 21st, having placed the sick in hospital at Havana, and been fumigated.

The department of state has telegraphed to the United States consul at Vera Cruz to advise all vessels bound to southern ports in the United States to stop at Ship island for inspection, in order to avoid being sent there from their port of destination by the health authorities.

The board of health at New Orleans has adopted a resolution advising the governor to issue a proclamation establishing a quarantine against all Mexican, South American and West Indian ports, to take effect immediately.

The Cholera.

A report of July 20th from Alexandria, Egypt, says the official returns mention sixteen towns infected with cholera. It is stated that since the last previous return 200 persons died in the Bulak quarter of Cairo within twenty-four hours. The European powers are increasing the quarantine regulations against persons, goods and vessels from Egypt, owing to the prevalence of cholera there. There were 140 deaths from cholera at Cairo on the 19th. Twenty-nine deaths from cholera occurred on the 19th at Mansurah, twenty-four at Samanood, twenty-eight at Ghizeh, forty-four at Chirbin, and three at Damietta. There were sixteen deaths from the disease at Menzaleh on the 17th.

A despatch of the 21st from Alexandria says: "There were seven deaths from cholera at Damietta yesterday, twenty-three at Mansurah, fourteen at Choubar, twelve at Samanood, forty-four at Chirbin, twenty-eight at Ghizeh, 146 at Cairo, and twenty-six at eight small villages."

The correspondent of the London *Central News*, sending from Cairo on the 21st, says "the actual number of deaths during the last twenty-four hours was nearly 600, and the official figures underestimate the number of fatalities. The cordon around Alexandria has been moved nearer the city. Cases of cholera are reported in places which have not hitherto been affected by the disease."

News and Notes.

The dry goods house of E. W. Holbrook & Co. of New York, failed last week. Liabilities $725,000. Mr. Holbrook, the senior partner, was president of the Springvale Mill Co. at Springvale, on the line of the Portland & Rochester railroad. The firm had a branch store in Boston. The failure is attributed to losses in running cotton mills.

The Virginia straightouts have endorsed Blaine for president. If they are admitted to the national convention they will undoubtedly present his name. Dezendorf and General Wickham are the managers of this movement.

The British government has decided to send reinforcements to the East India squadron, including the men-of-war at Madagascar.

At the international rifle contest at Wimbledon, England, last week, the British team won by a total score of 1951, to 1906 for the American team. The Americans were twenty-four ahead at the close of the shooting at 800 yards, but the British gained thirty-four at the 900 yards range, and thirty-five at the 1000 yards range.

Justice Metcalf of West Haven, Conn., refused to John Lawlor, Jr., an appeal on conviction for drunkenness, contrary to law, and action is to be brought against the justice for false imprisonment. The damages are laid at $5,000. Lawlor was released Friday on a habeas corpus before the court of common pleas.

The mother of Secretary Chandler, who has just died, was a woman of good old-fashioned sterling virtues, and an indomitable will. She exacted from her children strict obedience, and instilled into their minds a high idea of duty. When her son William was a boy he went to the Pembroke academy, about six miles from home. On coming home at one time for a short holiday, he left his umbrella at the school. To teach him a needed lesson of thoughtfulness, his mother made him walk the six miles back after it—and the lesson thus imparted was doubtless remembered. Another of her sons was sent to a grocery store on an errand. With the unthinking rudeness of a boy, he showed great impertinence in speech and manner to the grocery man. Mrs. Chandler, hearing of it, at once led him back to the store and said: "Now, my son, you will ask Mr. ——'s pardon for having spoken disrespectfully to him." The boy did as he was bidden, and never afterwards forgot the lesson of politeness then learned. We have no doubt that later in life William wished he could have acquired this art instead of the strength of memory derived from the umbrella tramp. It would have been of service to him in political contests. Mrs. Chandler took a keen interest in the welfare of her children, and as honors came to them, she seemed to live again in their good fortune.

DIED.

MANENT. In this city, July 22d, Mrs. Eliza P. Manent, aged 54 years, wife of Charles Manent, Jr.

JEWETT. In South Berwick, Me., July 16th, at the residence of her son, E. H. Jewett, Esq., Mrs. Susan Jameson Jewett, aged 95 years, widow of Benjamin Jewett of Sandwich, N. H.

PIERCE. In Milwaukee, Wis., May 31, Angelina Pierce, widow of Jonathan D. Pierce, and daughter of the late Nathaniel T. Moulton of this city.

NEW ADVERTISEMENTS.

Checklist Notice.

THE Board of Inspectors of Check-Lists give notice that they will be in session at the City Building, Friday, July 27th, Monday, July 30th, and Thursday, August 2d, 1883, from 9 o'clock A. M. to 12 M. and from 2 to 5 o'clock P. M. on each of said days, for the purpose of revising and correcting the list of voters.

They will also be in session at the same place, from 8 to 10 A. M. and from 1 to 2 o'clock P. M., on the day of election, for the purpose of furnishing certificates to any persons whose names may have been omitted and whom the Board are satisfied have resided in the ward for twenty days preceding said election. By Order of the Board,

JOS. H. GARDINER, Clerk.

THE

New Hampshire GAZETTE !

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all important events in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and it

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE, THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

— THE —

New Hampshire Gazette !

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desire to reach patrons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PUBLISHING CO.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing and we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts all the machinery of your body into working order.

WILL it is a medicine and we claim for

CONVINCE

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO. Apothecaries, Lowell, Mass.

CATARRH

ELY'S CREAM BALM

HAY-FEVER

ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *Is not a liquid or snuff.*

Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds**, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

THE DORIS CIRCUS.

No "Greatest show on earth" which has visited this city for many years has given such general satisfaction as the John B. Doris circus and menagerie, which exhibited here on Saturday.

The street parade in the forenoon, which was witnessed by thousands of persons from neighboring towns as well as by the citizens, was a long and a good one; there were two bands and a steam-organ, and a colored band of jubilee singers, at points in the procession far enough apart not to interfere with each other; ten open cages exhibited some of the animals; a huge elephant and a little one, camels and pony teams, helped to string out the line and add variety; the carriages were new-looking and handsome, and the horses well fed and well groomed.

During the afternoon entertainment there was a pleasant episode which was not down in the bills, Miss Sallie Marks, the champion lady bare-back rider, being presented with a number of very beautiful gifts by the other members of the company, the occasion being the completion of her sixteenth year. A very neat presentation speech was made in the ring by Mr. John Patterson, the Irish clown. Among the articles received by the young lady were a fine gold watch and chain, two sets of solid gold bracelets, a handsome set of solid gold jewelry, bouquets, and many other presents both costly and useful. The presentation was a surprise to the young equestrienne, and also to the vast audience, who loudly signified their appreciation of the affair.

Large audiences attended, both afternoon and evening, and the entertainment offered was *good*. The bare-back riding of William Showles was far superior to anything of the kind ever before seen here; the trapeze act of Millie Tournour, the tumbling of the Siegrist brothers, and the juggling and balancing of Prince Satsuma, were all first-class in their way; Zazel dived from the top of the tent to a net near the ground, and was fired out of a cannon according to programme; the double-headed woman, Millie-Christine, attracted much attention as a wonderful freak of nature; the animals' cages were cleaner and neater than is often seen; and there were no coarse, repulsive features about the show, and no thinly-concealed filth in the jokes of the clowns.

Mr. Doris has no just cause of complaint at the patronage he received in Portsmouth last Saturday; but should the "Great Inter-Ocean Largest and Best Show on Earth" come this way again, there would be little room to spare in the tent.

POLICE COURT--BATCHELDER, J.

SATURDAY, July 21st.

Edward F. Borden, drunk, fine $3, costs $6.90. Brentwood in default of payment.

Charles Marston, drunk, fine $3, costs $5.76. Brentwood.

GOSSIPS SAY

That Mr. Oliver M. Knight is about to open a bookstore in this city, probably in Mechanics' block.

That Special Agent Larkin of the internal revenue service was in this city on the 20th inst., looking over the institutions which yield the government $300,000 annually.

That sixty carriages were drawn up in front of the Hotel Wentworth at Newcastle at one time on Friday evening last.

That a Christian Shore man has lost three pocket-knives within a week.

That the Boston *Post* remarks "there's no democratic 'boss' in New Hampshire."

That this is startling news to the New Hampshire democrats.

That the *Post* can never have heard of Roles of Ossipee, Al. Sullowayor, "Boss" Bingham.

That General Marston is a republican, and if elected United States senator by the aid of democratic votes he will be none the less the leader in advanced republican sentiment than he has been for the past twenty-five years.

That Admiral Nealley of Maine flatters himself that he has fixed Mr. Rollins.

That he will devote the present week to disposing of Mr. Chandler, and as soon as Gen. Marston is chosen senator, he (the admiral) will resume his functions at the navy yard, bounce the present commandant, and make things lively across the Piscataqua.

That Inspector Sides has devoted each week since the legislature has been in session to the selection of a senator at Concord.

That whence his constituency is derived no fellow can find out.

That Gen. Marston's law-partner, Eastman, and Tom Leavitt, are in attendance as "counsel" upon the legislature, and that after the senatorial fight is over the "General" will be more likely to be depended upon as to his votes upon special legislation than has been customary.

FREIGHTS.

Shipments of coal last week were slow. Engagements are reported for this port of two schooners from South Amboy at $1.35 per ton, and two at $1.30; a brig of 477 tons, from Alexandria, coal at $1.65; one schooner from Perth Amboy, coal at $1.35; one from same port, to discharge at Dover, coal at $1.15, and discharged; and one schooner from Clinton Point to this port with sand, at $1.60.

Capt. John Gilman Moses of this city was a passenger in the steamship Cephalonia, which left Boston for Liverpool on Saturday.

The practice-ship Dale was towed up to the navy yard from the lower harbor on Saturday, by the U. S. S. Leyden. The Constellation will come up to-day.

An unusually large congregation attended St. John's church on Sunday morning, when Rev. Morgan Dix, D. D., rector of Trinity church, New York city, preached. There was a very large congregation at Christ church in the afternoon, Chaplain McAlister, U. S. N., preaching.

The Middle street Baptist society will have a picnic at Jenness' beach, Rye, on Thursday, July 26th. Barges will leave the chapel at nine o'clock in the morning for the beach.

The choir chapter of St. John's guild, by special request of Chaplain McAlister of the practice-ship Constellation, assisted in the singing at divine service on board that vessel Sunday forenoon, being carried down and brought back by the steamer Emerald. The choir includes most of the girls and young ladies who were members of the volunteer choir organized during the rectorship of Rev. Charles A. Holbrook.

Rev. Arthur May Knapp will preach in the Unitarian church on Sunday next.

At a special meeting of the Dover city councils last week a petition from the eighteen members of Cocheco S. F. E. Co., No. 2, of that city, asking permission to bring the engine to the muster in this city, was received, and referred to the proper authorities.

GREAT FIRE!

The Old Cameneum Gone.

The Gibson House in Ashes!

At two o'clock Monday morning the North church bell sounded an alarm, fire having broken out in Stoddard's stables on Vaughan street. The fire department responded promptly, and did splendid work, but before the fire was under control the stables and the Gibson house were destroyed.

A more ugly looking fire, at one time, has not occurred in this city for years; the large wooden building between the Gibson house and Congress street seemed bound to go, and the cinders from the fire were carried by the wind as far as Water street; and a second alarm, calling for help from the navy yard, was soon sounded on the North church bell.

The navy yard authorities responded quickly, two steam fire engines, and a detail of men from the sloop-of-war Dale, being sent over, and doing good service; and by four o'clock all danger of further damage was past.

The fire caught in the stable, but just where and how we have been unable to learn; and probably no one knows. It spread with the rapidity of a gunpowder train, and but very few of the horses were saved. The best information we could get was that one horse was saved from the big stable and six from the small one, from twenty-five to twenty-eight being burned, including two belonging to Dr. Hall, and two belonging to Commander Johnson of the navy.

The Gibson house was ablaze in a few minutes from the time the fire was discovered in the stable, and very little of the contents was saved, the guests having scanty time to spare after dressing themselves before having to retreat. The hotel was practically a new building, and was very nicely furnished; its patronage was large, and the loss was quite heavy.

The big stable was "an old landmark," the old Cameneum; and on the ceiling, up to Sunday evening, could be seen the sun, moon, stars and comet which were painted there half a century or so ago, when the building was used as a theatre, lecture room, concert hall, and place of entertainment generally.

The loss is estimated by some as high as $30,000, but our own estimate does not reach half that sum; the property was insured, but to what amount we could not positively learn.

Many buildings caught on the roof during the progress of the fire, but in every case watchers extinguished the flames. Houses as far away as those of Caleb Lord and Miss Elvia Fernald, on Howard street, and Mr. Wm. P. Gardner on the corner of Gates and Manning streets, took fire, but owing to the vigilance of the watchers the fires in no instance got a dangerous start.

Mr. William H. Dennett's fine hack, and the nice pair of horses which drew it, were lost, and it is reported without insurance.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

Those wishing to join the class will please leave their names and places of residence at either the *Times* or *Chronicle* offices. Prof. Masse will be here Tuesdays and Fridays. His resident address is at 27 Tewksbury Block, Manchester, N. H. jy12

AUCTION SALES.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *June* 21, 1882.

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Monday, September 24, 1883, at which time, and place they will be opened, for the purchase of certain vessels which have been stricken from the Navy Register, under authority of an act of Congress approved August 5, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered, their appraised value and their locality are, the Congress, $25,400; Guard, $2,800; Kansas, $6,100; and Sabine, $10,400; at Portsmouth, N. H. Iowa, $44,600; Niagara 29,000; and Ohio, $15,700, at Boston. Blue Light, $500, and Florida, $64,400, at New London, Conn. New Orleans, $200, (on the stocks), at Sackett's Harbor, N. Y. Susque anna, $9,08 at New York. Burlington, $3,900; Glance, $400; Supply, $1,200; Sorrel, $200, and Dictator, $33,800; at League Island, Pa. Frolic, $8,600; and Relief, $2,900, at Washington, D. C. Worcester, $25,600; Shawmut, $5,300, and Savannah, $10,600, at Norfolk. Roanoke, $37,200, at Chester, Pa. Pawnee, $5,600, and Seaward, $500, at Port royal, S. C.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent., or any part thereof, within that time, said cash deposit of ten per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels, also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandants of the Yards.

The purchasers must remove the vessels purchased from the limits of the Yards or Stations within such reasonable time as may be fixed by the Department.

WILLIAM E. CHANDLER,
(1 Mx sep24) *Secretary of the Navy.*

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, hanging two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while laterally renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or Vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most valuable work on Physiology ever published. There is nothing whatever that the married or single either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for liver or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheinnuing, startlingly says "one-third of my patients show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have merit of attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)
F. E. Ingalls, Sole American Agent, Concord, N. H.

HEART TROUBLES

Yours for Health
Lydia E. Pinkham

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND.

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of humors from the Blood, and give tone and strength to the system, of man, woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (1)

HOP PLASTER

This plaster is famous for its quick and hearty action in curing Rheumatism, Sciatica, Kidney Disease, Lame Back, Side or Hips, Sharp Pains, Pleurisy, Heart and Liver Troubles, Stiff Muscles, Sore Chest, Cramps, and all pains or aches in every part. It soothes, strengthens and stimulates the parts. Sold by druggists everywhere at 25 cents.

A GREAT SUCCESS

Hop Plaster Co., Sole Manufacturers.

BUY AT HOME!

IF YOU WANT TO SAVE FROM $25.00 TO $100, IN THE PURCHASE OF A PIANO OR LAN ORGAN.

It is a fact that D. H. MONTGOMERY is selling Pianos and Organs at extremely low prices. He keeps constantly on hand instruments of the very best quality, as well as medium and lower grades. Every instrument sold for just what it is, and warranted to prove just as represented. Prices are guaranteed to be from $25.00 to $100 less than is usually paid for the same grade of instruments when purchased in the large cities or of travelling agents or peddlers. All interested and desiring more light on the subject, should call and see for themselves at

The Telegraphers' Strike.

The Boston *Journal* of Saturday, the 21st, had the following: "The aspects of the telegraphic strike are much more serious this morning than at any period since the trouble began. The operators employed Thursday noon are worn out with fatigue and loss of sleep, and a marked difference was noticeable last night in the newspaper offices. Thursday night press dispatches in this city were received and sent with promptitude; last night not one-half the business offered could be taken. When asked at midnight for the cause of the marked difference, the reply came: 'The men are played out; they have been on duty nearly all the time since Thursday noon.' Only nine men were on duty at midnight, and of these but four were competent operators. Under ordinary circumstances the number would have been eighty. Much the same state of affairs probably existed in all the other large offices throughout the country; messages were received everywhere with the understanding that they might be subjected to delay."

Don't Die in the House.

"Rough on Rats" Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Rev. J. M. Buffum has accepted the call extended him by the Congregational societies of Alstead and Langdon.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

George McMillan, a wife murderer, was hanged at Canton, Ohio, July 20th.

A man suffering from debility and loss of appetite took two bottles of Hood's Sarsaparilla, gained ten pounds and got well.

A fine oil painting of Daniel Webster, done years ago by one of the best artists in the country, has been hung in the delivery room at the public library in Portland, Maine.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

Capt. Coleman of Provincetown, Mass., has taken eight whales this season.

For five cents, Well's, Richardson & Co., Burlington, Vt., will send colored sample colors of Diamond Dyes.

An explosion occurred at a powder mill in St. Petersburg, Russia, July 20th. Nine persons were killed and two severely injured.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

Robert Wilson, colored, who shot and killed Frank B. Russell last September, was hanged at Memphis, Tenn., July 20th.

Dr. A. Page, Rushmore, O., says: "I have prescribed Brown's Iron Bitters in several instances, and in each case obtained good results."

David Timberlake, colored, was hanged at Cincinnati last Friday, for rape of Maggie Lawson, a colored girl nine years old. He made a nominal confession, claiming that the girl herself was not innocent.

The *Hop Plasters* have a wonderful sale, and why! Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggists, 25 cts.

The story goes in London that Patti's voice is giving way. She has not sung on several occasions when announced, and an apology had to be made for her non-appearance at the last Queen's concert, at Buckingham palace, for which she was engaged.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Elbridge G. Pike, a married man with a family, and Mrs. Frederick H. Kent, aged twenty-four years and the mother of two children, eloped from Lynn, Mass., recently. The woman had been working as a domestic servant in Pike's household.

Who is the Prettiest girl in America?

Is a question that would perplex a congress of connoisseurs assembled to nominate the most beautiful. But such an assemblage would not be surprised to learn that the most charming of their sex, on this side of the Atlantic, embrace the beauty and preserve the soundness of their teeth with SOZODONT, since everybody knows that the ladies prefer it to any and all dentifrices. Let no man say after this, that women lack judgment.

A complimentary dinner to Hon. W. W. Thomas, Jr., the newly-appointed United States minister to Norway and Sweden, was given in Portland last Thursday evening at the Preble house. Mr. Thomas is a graduate of Bowdoin, class of '50, and has held government positions abroad. He was a promoter of the settlement in Aroostook county, Me., called New Swedes, and is a zealot in the cause of Scandinavian immigration.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

Catarrh of the Bladder,

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

Gen. Ord, U. S. A., was among the yellow fever patients landed in Havana from the steamer City of Washington.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

The Rogers Manufacturing Co., a Philadelphia concern, has been enjoined from using the word "Rogers" on silver-plated ware.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

Four young men went into the restaurant of William K. Lynch, in Lynn, Mass., Sunday forenoon, had meals, and when pay was demanded, assaulted Lynch. In a few minutes each could boast of a pair of black eyes and a bloody nose, and the other two had bunged-up faces. They paid after that.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three words—Take Hop Bitters.

A man supposed to be Michael Bussar, an escaped lunatic, jumped in front of a locomotive on the Shore Line road between Clinton and New Haven, Conn., July 20th, and was killed.

The duke and duchess of Teck are so poor that they are selling their plate, chinaware, linen, furniture, etc. There is severe comment in England on the parsimony of the queen in allowing an auction in the royal family, while she has immense wealth hoarded up.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

The total number of lost by the Daphne disaster at Glasgow was 124; the bodies of all but one of the drowned men have been recovered.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ellis's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

The training-ship Portsmouth was in port at Provincetown, Mass., on the 22d inst., from Newport, R. I.

"Those who deaden sensation and stupefy the patient to relieve suffering make a grave mistake. They proceed upon the false idea that it is legitimate to procure relief from pain by destroying physical sensibility. This method, carried to the last extremity, would kill the patient to end suffering. It is not presmed that Lydia E. Pinkham's Vegetable Compound will raise the dead, but it often does restore those who are given up as hopeless cases.

M. Chaleton, who murdered his wife in Paris, has been found guilty of assault with intent to do grievous bodily harm, and sent to prison for three years.

Are You Going

to travel? If so you must be very careful of your health, or your doctor's bills will cost you more than your travelling expenses. A bottle of Sulphur Bitters will protect you from all sickness incident to a change of climate.—*Evening Telegram.*

At New Haven, Conn., Saturday night, Joseph Rizzo, aged thirty, was shot in the abdomen and fatally wounded by John Costello, who escaped. Both are Italians and were intoxicated and quarrelling about who should treat.

Youthful Indulgence

in pernicious practices pursued in solitude, is a most startling cause of nervous and general debility, lack of self-confidence and will power, impaired memory, despondency, and other attendants of wrecked manhood. Sufferers should address, with three letter postage stamps, for large illustrated treatise, pointing out unfailing means of perfect cure, World's Dispensary Medical Association, Buffalo, N. Y. b

A few days ago the body of a woman was found floating in the harbor at New Haven, Conn., and was identified by several police officers as that of Mary Shepard, a dissolute character occasionally seen in New Haven. The body was to have been buried Friday morning, the 20th, when Mary Shepard, alive, walked into the police office, insisting that she was not dead. She looked at the corpse of the drowned woman and said she did not blame anybody for taking it for her, as it was an exact likeness. The police are much chagrined because of their positiveness. It is not known who the woman was, and the body will be kept for identification.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

A man dead drunk was arrested at Lowell, Mass., Saturday night, and was found dead in a cell at the police station Sunday morning. He went by the name of John D. Burns, but his right name is said to have been Burnham. He is reported to have been a witness for the prosecution in the Tewksbury investigation, and was formerly employed there.

Dyspepsia dampens the ardor of many an aspiring soul. Why suffer from dyspepsia? Why be frightened over disordered kidneys? Why continue the miserable life of a dyspeptic, nerveless mortal? Brown's Iron Bitters will surely cure you. It has permanently cured thousands of cases where other remedies afforded only temporary relief. Ask your druggist concerning its merit. Try a sample bottle and you will be relieved of further mental and physical distress.

In Berwick, on the 20th inst., a seven-years-old daughter of Samuel Hartford was killed while playing around a wagon. The child in attempting to climb up on the wheel set the carriage in motion, when she fell off into a hole dug in the ground for some purpose, striking upon her back, and the carriage rolled along until one wheel rested across the child's breast. A playmate ran into the house and told what had happened, and upon persons going out they found the child just breathing her last.

STATED MEETINGS.

CITY GOVERNMENT.

In the City Building, Market Square.

Board of Mayor and Aldermen—Thursday evenings.

Common Council—Thursday evenings.

Board of Overseers of Poor—Tuesday evenings.

Board of Instruction—First Wednesday in each month.

Orion Tent, No. 300, Knights of Maccabees—First and Third Monday evenings of each month a Good Templars' hall, Pleasant street.

Portsmouth Mechanics' Association—Open to membership of all reputable Mechanics and Manufacturers. Rooms in Mechanics' Block, corner Congress and Fleet streets. Reading Room free to members and strangers visiting the city. Quarterly Meetings the First Tuesday evenings in November, February, May and August. Election of officers at November meeting.

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from billous sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

PATENTS!

R. H. EDDY,

No. 76 State St., opposite Kilby St. Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior abilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1883. eodly

"I Saw a very Ugly Ghost,"

A charming young lady of Brooklyn was relating some of the troubles she had had in the night. The ghost which walked into her room looked something like a scare-crow. She remembered that she had enjoyed a good supper of lobster salad. When asked how it was that she was able to be out of bed the next morning, she remarked that she always kept a bottle of Perry Davis's Pain Killer in her room, and that two moderate doses of this most efficient remedy had driven the ghost away.

Nashua has a Herdic.

Charles Quartz, eleven years old, was drowned at Goff's Falls, Saturday, while bathing. The body was recovered.

A Frenchman employed at the Columbian cotton mills at Greenville fell into the river Saturday afternoon, while oiling some portion of the machinery, and was drowned.

Mr. Joseph Sounia, Peterboro, N. H., says: "He considers Brown's Iron Bitters A No. 1, to give a person an appetite."

Speaker Marden of Massachusetts thinks our senatorial wrangle is as damaging as is the Tewksbury affair in Massachusetts.

P. A. Dexter of Lisbon, N. H., twenty-eight years old, unmarried, conductor of a Fitchburg railroad freight train, while stepping from a car to the tender in the Hoosac Tunnel last Friday night fell, and twenty-eight cars went over his body. The accident was not discovered till the train left the tunnel.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

TUESDAY, JULY 24, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

Satan Rebuking Sin.

Some of the Massachusetts newspapers express the opinion that the legislature of New Hampshire is a dilatory body. It is a source of comfort to the citizen of the unfortunate Bay State that another commonwealth has a legislature in session at this season. But it seems rather cool to have the criticism come from that quarter. In reminds us of an incident which occurred late one night when, while wending our way from our toil as the hours were small, we came across a citizen stretched at full length in the gutter. Rousing the sleepy inebriate in order to start him on his way to more comfortable quarters, we were met with the enquiry, delivered in a tone abounding in Bacchanalian impediments, "See here; don't you think you're out rather late yourself?"

The Telegraphers' Strike.

The contest between the immense watered stocks held under the name of the Western Union Telegraph Co., and the ten or twelve thousand employees who want less hours or more pay, or both, is one involving no little interest. The strikers appear to have started out boldly, but there are many persons outside the Brotherhood who can work the wires. Hundreds of amateurs and pupils know the business fairly, and with a determined man like Jay Gould to contend with, the result is doubtful. Both sides however put on a bold front, and resolve that they are jolly and can get on. In the meantime many offices are closed, business suffers and business men complain, and press despatches are fewer and more meagre with each succeeding day. And the great business interests of the country are being rapidly converted to a belief in the propriety of the national government building telegraph lines, and working them in the public interest.

The cable operators at Duxbury, Mass., and North Sydney, Cape Breton, left their instruments on the 23d inst.

Collapse of the Boom in Hops.

The bottom has entirely dropped out of the boom in hops by which the brewers were so badly scared last winter. Some of the lucky operators who had large stocks when the flurry commenced, and the bold but prudent ones who went in with a dash and sold out at big figures without waiting for bigger ones, made very large sums of money in the earlier months of the excitement. Several of them are credited with having pocketed half a million each. But those who held on to do better, and nearly all the outside speculators, have been nipped.

When hops, for which sixteen cents a pound is a paying price to the producer, were forced up to $1.15, the confident bulls proclaimed that the price would reach $1.50, and perhaps even $2, before this year's New York crop could come in. They were believed by many brewers and speculators who bought on the unnatural rise. Brewers laid in large stocks at eighty-seven cents, and felicitated themselves upon having done so. One who had bought for delivery at eighty cents was offered $2,000 to relinquish his contract, and refused. That was only last winter. Now good hops are down to twenty-five to twenty-eight cents, and choice New York to thirty-five cents, and at most forty cents.

The boom was started by the unusually large demand from English brewers, on account of the comparative failure of the hop harvest in both England and Bohemia. They sent over here to buy hops still on the vines last season, and so started the upward movement. All would have gone well but for the discovery of a new source of supply. Australia sent to England quite a large harvest of fine hops at a season when nobody thought of a new crop coming in. Then the trouble began.

Another cause of the break was not the Australian hops, which could have been absorbed easily, but the necessities of the outside speculators who bought in at high prices and then couldn't afford to hold on. When they began to let their holdings slip into the market at a decline, a tumble followed, for others got scared and there was a general rush to realize.

When hops advanced so surprisingly an enormous trade sprang up in hop substitutes, compounds of drugs, which numbers of brewers all over the land made use of. For one of these substitutes the certificate of a well-known chemist was procured that it was actually better than hops. For others the claim was made that they were cheaper than hops, and that the beer made with them could not be told from that made with hops. One is a brown, resin-like mass, with a bitter taste in which can be detected nothing of the hops; but its manufacturers affirm that when boiled in the wort it develops in the beer the genuine hop flavor. Of course, it has not the beneficial effect of the lupuline of the hop.

Charles D. Goodwin and Miss Clara N. Willis, both of Kennebunk, arrived in Dover last Thursday forenoon on the 7:55 train, to be married. Goodwin claimed that he wore the same suit that he did when he married his first wife at the close of the war, and a local paper says that from appearances there was not much doubt about it. They bought white cotton gloves and put them on, in order to do the job in style. The groom, on enquiring, was informed that they would have to go to the city clerk's for a license; so thither they went, and waited for that official until he appeared; then they procured the necessary paper, and were married on the spot by Frank B. Stevens, a justice of the peace who happened in. All wished the young and blushing bride and the tall and stately groom a merry journey through life. The happy pair took the 10:32 train back to Kennebunk, well pleased with the speed shown by the Dover officials in the marrying line.

The recent death of General Tom Thumb brings to mind several anecdotes of the renowned dwarf, which are probably new to the public at large. As is well known by most of our readers, Mrs. Tom Thumb is a cousin of our popular jeweller, Mr. B. S. Kingham, and when upon their travels in this vicinity, the couple always visited Mr. and Mrs. Kingman. It is well known by all his friends that the general was mortally afraid of a dog, and the dogs all seemed to have an antipathy to him, and would always chase him. One day while at Mr. Kingman's, the general was out of doors alone, when Mr. Kingman heard him calling him in great fright, "Mr. Kingman, Kingman, come quick, take me up, take me up!" Mr. Kingman rushed to the rescue and found that his small dog had attacked Tom, who was in a terrible fright. He picked up the general and drove off the dog, but the little fellow stuck pretty close to the house during the rest of his visit. At another time he went into Mr. Kingman's store to see him, and was followed by a large crowd of boys. Turning fiercely upon them the general drove them all out of doors, exclaiming in his peculiar piping voice, "Clear out, boys, quick, every one of you; do you suppose I want to make a show of myself all the time." Tom once owned a meat market in his native town, which was run by his brother-in-law. Mr. Kingman once asked him if he was making any money in his meat business. The general replied, "No, but I'm making it mighty hot for the other butchers." While upon a visit here Mr. Kingman took Mr. and Mrs. Thumb to ride, and while driving through South Newmarket the general saw the little steamer La Chiquita, which pleased him immensely, and he wanted to buy it on the spot. He obtained the owner's price, but for some reason did not purchase the vessel. He afterwards purchased a much larger and finer steam yacht, in which he had been cruising just before his death.—*Newmarket Advertiser.*

Owen Cole, aged fifty years, was drowned in the canal at Lonsdale, R. I., July 22d, while bathing.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City
6od4&g0c8t8

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod1ys0c8t4

THE FIREMEN'S MUSTER.

A general meeting of the Fire Department is called for this evening at eight o'clock, at the headquarters on Congress street.

News and Notes.

Hon. Ginery Twichell died in Brookline, Mass., July 23d, suddenly.

A three-years-old child of John Casey was literally roasted to death in Providence, R. I., last week, through setting its clothes on fire while playing with matches. The mother was badly burned, but will recover.

Thomas Prior, thirty-six years old and unmarried, killed himself in Cranston, R. I., July 22d, by taking Paris green.

Charles Fisherman, an insane patient in the hospital at Rochester, Minn., committed suicide last Saturday by jumping into a furnace in the boiler room.

DIED.

FENDERSON. In Saco, Me., July 23d, Mr. John Fenderson, aged 80 years and 7 months, father of Mrs. Moses Laighton of this city.

New Hampshire Gazette !

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desire to reach patrons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities which are derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing all and even more than we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts all the machinery of your body into working order.

WILL

CONVINCE

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. F. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO. Apothecaries, Lowell, Mass.

CATARRH

ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *It is not a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

Checklist Notice.

THE Board of Inspectors of Check-Lists give notice that they will be in session at the City Building, Friday, July 27th, Monday, July 30th, and Thursday, August 2d, 1883, from 9 o'clock A. M. to 12 M. and from 2 to 5 o'clock P. M. on each of said days, for the purpose of revising and correcting the list of voters.

They will also be in session at the same place, from 8 to 10 A. M. and from 1 to 2 o'clock P. M., on the day of election, for the purpose of furnishing certificates to any persons whose names may have been omitted and whom the Board are satisfied have resided in the ward one year next preceding said election. By Order of the Board,

JOS. H. GARDINER, Clerk.

To Owners Of Dogs.

The following is Section 1 of Chapter 16 of the Revised Ordinances of the city of Portsmouth:

SECTION 1. No dog shall be permitted to go at large or loose in this city until the owner or keeper of such dog, or the head of the family, or the keeper of the house or place where such dog is harbored, shall have procured from the city marshal a license for such dog.

The penality for owning an unlicensed dog found running at large is a fine of Five Dollars. The attention of owners of dogs is invited to this ordinance, as its provisions are to be strictly enforced.

THOMAS ENTWISTLE, *City Marshal.*

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds,** large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

GEORGE F. THOMPSON, Manager.

POLICE COURT--BATCHELDER, J

MONDAY, July 23d.

Henyy Moulton, charged with an assault on Rachel Russell, was dismissed.

Rachel Russell, charged with being drunk, was let off on probation.

Charles Hansen, James Sullivan, Peter Peterson, Bernard Rue, Charles Mitchell and Michal Hickey, for drunkenness, were assessed $9.90 each, fine and costs.

Another individual charged with drunkenness was allowed to go on probation.

THE BIG FIRE.

The smoke of the Vaughan street fire having cleared away, we are now able to give particulars which during the confusion of the three hours between the time the fire broke out and the time when the CHRONICLE went to press, it was impossible to obtain.

Stoddard's stables were in charge of the night watchman, a young man named Moore, when the fire broke out. He heard a horse loose in the back stable, and went to make him fast; and on returning through the main stable found fire in the rear end of the hay loft, and gave the alarm. A large awning over the stable yard took fire, and cut off entrance that way, so that only one horse was gotten out of the main stable; the horses in the rear stable, and most of the carriages were saved, but the harnesses, robes and all the sleighs were burned, and several carriages that were in the shed. Twenty-four horses, of which twenty-two belonged to Mr. Stoddard, and the others to Dr. Hall and Commander Johnson, were also burned, and a large quantity of hay. Mr. Stoddard's loss is estimated at $8000 to $10,000, with insurance of $7000.

The loss of Mr. Grant, the owner of the hotel and stable buildings, is estimated as high as $20,000, the insurance on the buildings and hotel furniture being between $12,000 and $15,000.

Wm. H. Dennett's hack stable was burned, but the horses and hack were removed; the building was owned by Alfred Stavers, and the loss was not large.

B. F. Webster loses $200 on barn, fences, etc., belonging to a house on Hanover street; no insurance.

It is supposed the fire was incendiary, and an Indian named Nievell Caplin was arrested in the forenoon on suspicion, but he proved an alibi, and was discharged.

One steamer and company of the navy yard fire department, and details of men from the Tallapoosa and Dale, were sent over in answer to the second alarm.

The following historical notes regarding two of the buildings burned we take from the *Times*:

Both of the buildings destroyed this morning have a long and interesting history, dating back over a hundred years. The Gibson House, (though in recent times greatly enlarged and remodelled), was built in or about 1780 by Edward Hart, and was for many years owned by the Pickering family, and occupied by them.

The southerly part of the stable was built in 1784 by the Universalist Society for a meeting house. It was occupied by them until the erection of the meeting house on Pleasant street in 1808. In that year the Methodist Society bought it and used it for their place of worship about twenty years. It was then converted into a theatre, having a pit, one row of boxes and a gallery, and a seating capacity of about four hundred. Some years after, it was bought by the Portsmouth Sacred Music Society, a church organ was put upon the stage, and the building was occupied for a concert room under the name of "The Cameneum." It was also used for lectures and public meetings, being the only seated hall in the town for years. Gradually abandoned for those purposes it was made a part of the great stable, and at last in its hundredth year became a prey to the flames.

NEW STEAMBOAT SERVICE.

We acknowledge the receipt of an invitation to participate in the trial trip of the Iron Steamboat Co.'s steamboat "Taurus," on Tuesday, the 24th inst., preparatory to her commencing on the 25th to run regularly between Boston and this city. The Iron Steamboat Co. is a New York corporation, and said to be the wealthiest steamboat company in America; and the Taurus is the largest and finest vessel of their fleet. She is built of iron and steel, has fourteen water-tight compartments, is lighted by electricity, is 250 feet long and sixty feet beam, and is licensed to carry 2000 passengers. She is very fast, and the trip either way is expected to be made in four hours from wharf to wharf. She is commanded by Capt. Samuel G. Martin, and the 1st pilot is Capt. Francis Bird, formerly master of the steamer Acushnet. The price of round trip tickets to this city and return is put at $1; single passage, seventy-five cents.

GOSSIPS SAY

That Portsmouth has the largest and best fire department of any city of its size in the country.

That nineteen awnings were destroyed in different parts of the city by sparks from the big fire on Vaughan street.

That the town was permeated with the smell of roast horse all day Monday.

That a Boston drummer at the Gibson house was forced to flee, dressed in a straw hat and a merino undershirt cut bias.

That two huge hogs in the cellar of the burned stables were found alive after the fire was put out, though entirely divested of bristles, having been scalded by the water pouring down upon them.

That Hon. J. Y. Mugridge and family, of Concord, are stopping at the Wentworth.

That the steamer Fearless was an hour and ten minutes on her first trip from Kittery Point to this city Monday morning, on account of eel grass fouling her propeller.

That the yacht America, with Gov. Butler aboard, was at the Shoals on Sunday.

That a party of excursionists from the Pepperell house at Kittery Point went up river in the steamer Fearless on Monday, dined at the Dover point house, and steamed several miles into Great bay.

That the Manchester Wheelmen were the guests of the Portsmouth club on Monday.

That the side-wheel steamer Augusta, of Biddeford, Me., was in port on Monday on her way to Boston, where she will run for the season between that city and Point Shirley.

That "Admiral" E. C. Nealley, formerly superintendent of steam fire engines and in charge of machinists on the navy yard, attended the Vaughan street fire on the morning of the 23d inst.

That he took charge of one of the streams of engine No. 4, and the foreman says rendered him valuable assistance.

A Card.

The subscriber wishes to express his sincere thanks to Commodore Wells and Captain Benham for the valuable assistance rendered by the steam fire engine and company sent from the Navy Yard, at the fire on Vaughan street this morning; to Commander Merry of the U. S. S. Tallapoosa and Commander Sigsbee of the United States ship Dale, for the timely arrival of officers and men from their vessels to aid; to J. Albert Walker, Esq., for his prompt offer in rendering assistance; to Mrs. A. W. Haven for the generous supply of refreshments furnished the firemen, and to all others who rendered aid in checking the spread of the fire.

STEPHEN L. MARSTON, Chief Engineer P. F. D.

Portsmouth, July 23, 1883.

A CARD.

The members of Colonel Sise Engine company, No. 2, hereby tender their thanks to Messrs. Alfred W. Haven, Alfred Stavers and John Sise for their thoughtfulness and liberality in furnishing a collation after their labors at the fire this morning.

GEO. W. TRIPP, Foreman.
WILLARD M. GRAY, Clerk.

July 23d.

The annual picnic of the police and invited guests will take place at Pocahontas point, Gerrish's island, on Wednesday, if favorable weather. The steamer Fearless will leave the navy yard landing at eight o'clock in the morning, to take the party down.

Mr. Henry Moran of Newington was thrown from a mowing machine on Saturday, while cutting grass at a farm on Christian Shore, through the cutter striking an obstruction, and was quite badly hurt, it being supposed at first that he had several ribs broken.

Among the arrivals at this port on Sunday and Monday were the following-named schooners, all to J. Albert Walker with coal: the Seth W. Smith, with 347 tons, the Abner Taylor with 214 tons, the A. D. Lamson with 633 tons, the A. O. Gross with 246 tons, and the F. Nickerson with 336 tons.

Some time during Saturday night the house of Mr. J. E. Holmes at Greenland was visited by a thief or thieves, who got in by way of the cellar door, and after stealing what food they could find departed, leaving behind a nice pair of sewed calf-skin shoes. The residence of J. W. Odell was also visited, but an entrance was not effected there. On the same night a call was made at the premises of George H. Berry, probably by the same parties, who stole poultry and stirred things up generally.

Mr. Ira D. Robinson, of Raymond, occupying one of the cottages near Boar's Head, Hampton, on Friday of last week captured a gray seal about three feet and a half long. The creature was sunning itself on the rocks at low tide, a considerable distance from the water, when discovered by Mr. Robinson, who having never before seen a seal was not aware that he could easily catch it alive, and consequently killed it.

It is estimated that the travel to York beach this season thus far is fully up to to that of last year. The hotel Bartlett, and the houses at Union Bluff, are well filled, having many boarders from distant points, Philadelphia, Cleveland, St. Louis, etc., and many prominent residents of New England.

Mr. Warren Keen goes to York harbor to-day with a gang of six men, to do some work on the landing of the steamer City of Portsmouth at that place.

The new block of the S. S. S. Building Association in York, is nearing completion. Willis G. Moulton, formerly of Moulton Bros. at York Corner, now occupies one of the stores in this new building with a large and choice stock of dry goods, groceries, hardware, etc. This gentleman has hosts of friends, and deserves a liberal share of the patronage of the people of York.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our analysis with it is the better preparation.—*Hall's Journal of Health.*

PROF. MASSE,
OF PARIS.
Instructor in the French Language
AND LITERATURE,
Proposes forming classes or taking private pupils in the French language. Prof. Masse will constantly converse with his classes and afford every facility for attaining a thoroughly colloquial knowledge of the language.

Prof. Masse will give lessons to classes at private houses whenever desirable, and would also be glad to make arrangements with schools. He begs leave to refer to the gentlemen and ladies whose names are below:

Rev. Edward J. Selden, Mr. Charles F. Sprague, Mrs. Ex-Gov. P. C. Cheney, Miss Mary M. Tolman, Miss Emma A. Blood, Miss Georgie E. Carpenter, all of Manchester; and Mr. and Mrs. H. E. Chamberlin, R. R. Supt., of Concord, N. H.

Those wishing to join the class will please leave their names and places of residence at either the *Times* or *Chronicle* offices. Prof. Masse will be here Tuesdays and Fridays. His resident address is at 27 Tewksbury Block, Manchester, N. H. jy12

AUCTION SALES.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *June 21, 1882.*

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Monday, September 24, 1883, at which time and place they will be opened, for the purchase of certain vessels which have been stricken from the Navy Register, under authority of an act of Congress approved August 5, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered, their appraised value and their locality are, the Constellation, $25,407; Guard, $2,800; Kansas, $6,100; and Sabine, $10,400; at Portsmouth, N. H. Iowa, $44,600; Niagara 29,000; and Ohio, $15,700, at Boston. Blue Light, $500, and Florida, $64,400, at New London, Conn. New Orleans, $200, (on the stocks), at Sackett's Harbor, N. Y. Susque anna, $9,000 at New York. Burlington, $3,000; Glance, $400; Supply, $1,200; Sorrel, $200, and Dictator, $33,800; at League Island, Pa. Frolic, $9,000; and Relief, $4,000, at Washington, D. C. Worcester, $25,400; Shawmut, $5,300, and Savannah, $10,000, at Norfolk, Hobokes, $37,300, at Chester, Pa. Pawnee, $5,900, and Seaweed, $500, at Port royal, S. C.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the secretary of the Navy, conditioned for the payment of the remaining ninety per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent., or any part thereof, within that time, said cash deposit of ten per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandants of the Yards.

The purchasers must remove the vessels purchased from the limits of the Yards or Stations within such reasonable time as may be fixed by the Department.

WILLIAM E. CHANDLER.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stoves, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide ripples the salution in summer, both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 200 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he has to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.
July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

The untold miseries that result from indiscretion in early youth may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man; or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. Nothing what ever that the married or single either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while it is really a weak heart, the real cause is at the heart.

The famous Dr. Cheeseman, surgeon says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)
F. E. Ingalls, Sole American Agent, Concord, N. H.

HEART TROUBLES

Yours for Health
Lydia E. Pinkham

LYDIA E. PINKHAM'S
VEGETABLE COMPOUND,
Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It restores the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (1)

HOP PLASTER

Relieves Kidney Disease, Lame Back, Side or Hips, Sharp Pains, Pleurisy, Hearts and Liver Troubles, Stiff Muscles, Sore Chest, Cramps, and all pains or aches in every part. It soothes, strengthens and stimulates the parts. Sold by druggists, everywhere at 25 cents.

This plaster is famous for its quick and hearty action in curing Rheumatism

WHIPS All qualities and prices. Larrabee's, Congress St.

New Hampshire Veteran Association.

CONCORD, July 16th, 1883.

At a meeting of the executive committee, held at Weirs, July 13th, it was unanimously voted to hold the seventh annual encampment of New Hampshire Veterans on their grounds at Weirs, Sept. 4th, 5th, 6th and 7th, 1883. All veterans of the army and navy, with their families, whether from New Hampshire or other states, are cordially invited to be present.

Hon. George A. Bruce, of Somerville, Mass., late of the 13th Regiment New Hampshire Volunteers, will deliver the oration. Arrangements for a poem, and addresses from distinguished soldiers and citizens, are in progress, of which due notice will be given. A committee has been appointed to arrange for amusements, to consist of a sham battle, boat races, fire works, camp fires, etc.

Grand army head-quarters will be established, and announced in general orders by the department commander. The *Knapsack* will be published as usual, and advertisements are solicited. Comrades desiring information are requested to address the secretary, at Weirs, N. H.

J. N. PATTERSON, President.
NATT SHACKFORD, Secretary.

Flies and Bugs.

Flies, reaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

The steamer Margaret, running between Philadelphia and the West Indies, is reported a total wreck at Jamaica.

New York had a $800,000 fire on the 22d inst.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

David Flannery, the Boston *Herald* engineer charged with assaulting the stereotyper, Johnson, was bailed out Saturday in the sum of $10,000.

No molasses and water mixture, but a concentrated extract of the active medicinal properties of roots, barks, &c., is Hood's Sarsaparilla.

The board of engineers of the Haverhill, Mass., fire department have excluded dogs from the headquarters of all fire companies in the city.

Heavy storms, doing great damage to crops and causing some loss of life, occured in Illinois and Wisconsin on the 21st inst.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The unknown woman who committed suicide in New Haven, Conn., last week, and was identified by the police as Mary Shepherd, was the wife of one Max Drifus, who had deserted her. She was a Jewess.

Reports received in London from Egypt give a horrible picture of affairs in the cholera-infected cities and towns.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

Public feeling in France is reported as being very bitter against England.

Dr. A. Page, Rushmore, O., says: "I have prescribed Brown's Iron Bitters in several instances, and in each case obtained good results."

Roscoe Conkling and Denis Kearney were in Boston on Saturday.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

We shall have Shakespeare in plenty on the stage next winter. Irving and Booth will deal largely with Shakespearean parts, and so will McCullough, if he recovers sufficient health to play at all, besides Barrett, Mayo, Keene, Edgar, and several fresh aspirants.

Why Should I

not have confidence in that which has done me a world of good. If you had suffered years with liver complaint and cured by using Sulphur Bitters, would not you too have confidence in them. J. R. Nash, Hotel Winthrop, Boston.

John Williams, known as "Coal Oil Johnny," a bunko man, was found in a house of ill-fame at Cincinnati at five o'clock Friday morning, by his wife, who shot him dead while he was sleeping. The woman had been hunting him at other places for several hours. She left the house immediately after the shooting, and gave herself up to the police.

Who is the Prettiest girl in America?

Is a question that would perplex a congress of connoisseurs assembled to nominate the most beautiful. But such an assemblage would not be surprised to learn that the most charming of their sex, on this side of the Atlantic, embrace the beauty and preserve the soundness of their teeth with SOZODONT, since everybody knows that the ladies prefer it to any and all dentifrices. Let no man say after this, that women lack judgment.

MEDICAL.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

KIDNEY-WORT

IS A SURE CURE for all diseases of the Kidneys and —LIVER—

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

Mr. J. H. Bates Newspaper Advertising Agent, 41 Park Row (*Times* building,) New York, is authorized to contract for advertisements in the CHRONICLE and GAZETTE, at our best rates.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

EDERICK ROSE, Vice-President,

tang28 Jamestown, Dakota.

☞ Order slate at E. J. Tuckerman's, No. 7, Daniel street.

Daily Chronicle.

Crowds are kept gazing into a Chicago drug store window by the exhibition of a pane on which the face of a man is clearly outlined. The accompanying tale is that the picture came without mortal agency, and is the likeness of man who died by the window from which the glass was taken.

A Sunday excursion party from Jersey City to Staten island, including the Hibernian Rifles and Montgomery Guards of Jersey City, had a big row, in which rifles, knives, clubs and pistols were used, two men being killed and eleven badly wounded.

Hartford is gossiping over a marriage in which the groom was seventy-three years old and the bride sixty. David Damon is his name and he hails from Morrisville, N. J., and the bride is Miss Christine Roberts, a well known Hartford lady, said to have had part in more than one romance during her maidenhood. Twenty years or more ago she was engaged to a young man, but just on the eve of the contemplated marriage he died and she was left disconsolate. She never sought gentlemen's company until a short time ago, when, meeting Mr. Damon at a friend's house in that city, she thought she saw in his features a close resemblance to her dead lover. An attachment sprang up between the couple and they were married.

Catarrh of the Bladder,

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three words—Take Hop Bitters.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ells's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

Hay Fever.

For twenty years I was a sufferer from Catarrh of the head and throat in a very aggravated form, and during the summer months with Hay Fever. I procured a bottle of Ely's Cream Balm and after a few applications received decided benefit—was cured before the bottle was used. Have had no return of the complaint. Charlotte Parker, Waverly, N. Y.

One and one-half bottles of Ely's Cream Balm entirely cured me of Hay Fever of ten years' standing. Have had no trace of it for two years. Albert A. Perry, Smithboro, N.Y.

Since boyhood I have been troubled with catarrh and Hay Fever, and have been unable to obtain permanent relief until I used Ely's Cream Balm. It has cured me. E. L. Clickener, New Brunswick, N. J. Price 50 cents.

We have Bland dollars, "dad's" dollar, trade dollars, gold dollars, greenback dollars, and dollars made up in an aggregate of cents, dimes, etc. Anyone of these will buy a bottle of Dr. Graves' Heart Regulator, the only certain cure for heart disease, nervousness and sleeplessness.

It is the manifest destiny of Glenn's Sulphur Soap to supersede oily unguents for cutaneous eruption.

Dyspeptic, nervous people, "out of sorts," Colden's Liquid Beef Tonic will cure. *Ask for Colden's.*

A GOOD INVESTMENT.—One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass

Dyspepsia dampens the ardor of many an aspiring soul. Why suffer from dyspepsia? Why be frightened over disordered kidneys? Why continue the miserable life of a dyspeptic, nerveless mortal? Brown's Iron Bitters will surely cure you. It has permanently cured thousands of cases where other remedies afforded only temporary relief. Ask your druggist concerning its merit. Try a sample bottle and you will be relieved of further mental and physical distress.

TERRIBLE itching and scaly humors, ulcers, sores and scrofulous swellings cured by the Cuticura and Cuticura Soap (the great skin cures) externally, and Cuticura Resolvent (blood purifier) internally. Ask about them at your druggists.

CLEAR HEAD and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions brought about in catarrh by the use of Sandford's Radical Cure. Complete treatment for $1.

SLIGHT ODDS.

A Little Story with a Large Moral—One Man Who knew his own Business.

"No, my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the counter. "No, my dear, we haven't any red flannel, but we have some first rate New Orleans molasses." Softly hinting that she didn't think that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Have you BENSON'S CAPCINE PLASTERS?" asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as soon as it touches the skin."

"Not at present," replied the druggist, genially, "but we have lots of plasters just as good. There is Allcock's, the Capsicum and others—won't one of them do as well?"

"My dear sir," retorted the gentleman, with a slight show of temper, "I say nothing against those articles, but I am a business man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that sometime ago, for another disease, of which the Capcine has since cured me, I tried all those you mention, with no appreciable benefit. They are inefficient, every one of them, the meanest act of the proprietors of some of them being this: that they make plasters with similar sounding names to deceive the unwary into believing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day."

Be on your guard against imitations. The genuine has the word CAPCINE cut cleanly in the middle of the plaster.

Seabury & Johnson, Chemists, New York.

WILL CURE ALL DISEASES of the SKIN.

Vegetine

THE GREAT BLOOD PURIFIER

Dizziness, Liver and Kidney Complaint.

CINCINNATI, O.

50 Sudbury St., Boston, and 276 Fourth Ave., N. Y

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal out of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

Popular Monthly Drawing of the

COMMONWEALTH DISTRIBUTION CO.

In the city of Louisville, on

TUESDAY, JULY 31st, 1883.

These drawings occur on the last day of each month (Sundays excepted.) Repeated adjudication by Federal and State Courts have placed the company beyond the controversy of the law. To this company belongs the sole honor of having inaugurated the only plan by which their drawings are proven honest and fair beyond question.

N. B.—The Company has now on hand a large capital and reserve fund. Read carefully the list of prizes for the

July Drawing.

1 Prize	$30,000	100 Prizes	$100	each	$10,000

Whole Tickets, $2. Half Tickets, $1. 27 Tickets, $50. 55 Tickets, $100.

Remit money or bank draft in letter, or send by express. Don't send by registered letter or post-office order. Orders of $5 and upward, by express, can be sent at our expense. Address all orders to R. M. BOARDMAN, Courier-Journal Building, Louisville, Ky.

PATENTS!

R. H. EDDY,

No. 76 State St., opposite Kilby, Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior abilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1883. eo.1y

"I Saw a very Ugly Ghost,"

A charming young lady of Brooklyn was relating some of the troubles she had had in the night. The ghost which walked into her room looked something like a scare-crow. She remembered that she had enjoyed a good supper of lobster salad. When asked how it was that she was able to be out of bed the next morning, she remarked that she always kept a bottle of Perry Davis's Pain Killer in her room, and that two moderate doses of this most efficient remedy had driven the ghost away.

Commodore William N. Jeffers was reported to be dying in Washington on the 23d inst.

***He that is discontented in one place will seldom be happy in another." People are constantly changing their homes from East to West and from North to South or *vice versa*, in search of a healthy State. If they would learn to be contented, and to use the celebrated Kidney-Wort when sick, they would be much better off. The health system can be kept in a healthy state by this simple but effectual remedy.

Capt. R. L. Phythian is to take command of the Trenton, which will relieve the Richmond as flagship of the Asiatic squadron.

An Immense Industry.

The *Baltimore American* remarks editorially that the renowned preparation, St. Jacobs Oil, is sold in twenty-six different countries of the globe, and is known and praised for its great merits in twelve different languages.

Martin Millmore, the sculptor, died in Boston July 21st, aged thirty-nine years.

VEGETINE purifies the blood, renovates and invigorates the whole system.

California farmers are planting groves of olive trees.

Beautiful Woman

are made pallid and unattractive by functional irregularities, which Dr. Pierce's "Favorite Prescription" will infallibly cure. Thousands of testimonials. By druggists.

Theodore Tilton is much wrinkled, but Henry Ward Beecher's face is smooth.

Mr. Joseph Sounia, Peterboro, N. H., says: "He considers Brown's Iron Bitters A No. 1, to give a person an appetite."

Gen. E. C. Ord, U. S. A., on the retired list, died of yellow fever at Havana on the 22d inst. He was one of the gallant officers of the Union army in the war of the rebellion, and was twice severely wounded.

An Experience of Twenty Years

in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

WEDNESDAY, JULY 25, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

New Hampshire Legislature.

The vote in convention on Saturday the 21st, and Monday, amounted to nothing, no quorum of either house be present.

On the 24th another "binding vote"—that is what they call it, though nobody seems to be bound by it—was taken, with the following result:

Whole number of votes	308
Necessary for a choice	155
Bingham had	149
Chandler	71
Tappan	25
Patterson	31
Marston	26
Stevens	17
Scattering	19

and there was no choice.

The Telegraphers' Strike.

The contest between Jay Gould and the telegraph operators shows no new feature. The Western Union is of course nearly powerless to conduct its business, and its receipts have diminished to almost an insignificant sum. Mr. Gould owns the stock of the Co. It is not an enterprise existing for the benefit of the public, but to make money out of it. One day it is the public which Mr. Gould squeezes, and the next it is the operators whom he seeks to crush. All competing lines sooner or later are purchased or leased to prevent competition, and as nearly every one but the speculators can afford to do without much telegraphy during the vacation season, the world will wait quietly to see what will be the outcome of the movement. In the meantime the New York banks that have leaned Mr. Gould on his telegraph stock will perhaps want the financial yachtsman to put up more margins. It is not, with the temper of the public toward this gigantic monopoly, improbable that the share price of the Western Union is as high as it is likely to be for some time.

GOSSIPS SAY

That passengers by the Wentworth house coaches on Saturday afternoon last were considerable amused at and greatly interested in the frantic efforts of a young man, who with two fair damsels had been caught by the ebb tide on the treacherous and glutinous flats of Sagamore creek, to get his boat into the rapidly lessening channel.

That the young man had removed his canvas slippers, pulled up his Nile green pants as far as their tightness would permit, and was pushing at the stern of the boat, while the ladies sat nonchalantly nibbling pickled cauliflowers and onions, remains of the noon-day lunch.

That nettled at some good-natured chaffing from the coaches, the young man made a tremendous lunge, — and sank, his electric blue shirt collar, waxed moustache and clipped cranium alone remaining above the liquesous nastiness.

That the ladies screamed, and the coaches rolled on.

That after herculean efforts and assistance from the ladies the dashing clerk was pulled into the boat in a condition indiscribable.

That the lengthening shadows of night finally draw a mantle o'er the scene, the returning waters liberate the prisoners, and by the aid of the waning moon they glide out of the sinuous Sagamore and reach their homes—where after two hours spent at the toilet, our young friend sinks into sleep to dream away the few remaining hours of his vacation.

"A Fashionable Sufferer, or chapters from life's comedy:" by Augustus Hoppin, author of "Recollections of Anton House;" illustrated by the author. Boston; Houghton, Mifflin & Co.

Those who have enjoyed, as we have so often, the recollections of Anton House, one of the best books of the kind extant, will have great expectations in regard to Mr. Hoppin's new work. Indeed, at the outset we are almost inclined to adopt the alleged course of an early editor of the Edinburgh *Review*, who held that "he never liked to read a book before he reviewed it, lest it might prejudice his judgment," but this would not be true in this instance. A Fashionable Sufferer is given in two acts, each divided into chapters, where are introduced several persons, prominent among whom are the beautiful Nervous Exhaustionist and modern invalid, and Mr. Cynicus Douce, a pessimist. The scenes are in a large city and in "Paradise," a New England boarding locality, and with Mr. Hoppin's combined powers as author and artist, the book is of course far more capable of being appreciated than we are of doing it justice in describing its attractions. It is just the book for enjoyment on the piazzas at the Wentworth and at Appledore, and the person in society, who is at this period in and around Portsmouth, and has not been through one reading of A Fashionable Sufferer, may be considered as decidedly in arrears of the correct conduct for the season. Goodrich has it on sale at his bookstores.

A Card from General Beauregard and Early.

A publication headed, "Are the Louisiana Lottery drawings fair," which originally appeared in several Northern and Western papers as an advertisement, by a hostile lottery company, as we believe, has been copied into a number of other papers, doubtless as an advertisement also. The charges, insinuations, and inuendoes contained in said publication are false in every respect, so far as they affect the fairness of the drawings of the Louisiana Lottery, or the integrity of the acts of the Lottery Company. When the undersigned had charge only of the semi-annual drawings, they counted the tubes containing the numbers previous to each of those drawings to be certain that all were put in the wheel. Since they have had charge of the monthly drawings also the wheel has been under their exclusive control, and after each drawing they have restored all the drawn numbers to the wheel, locked it, and sealed it in such a manner as to render it impossible for the numbers to be reached or interfered with without their knowledge. They have thus been always certain that all the numbers were in the wheel at each drawing, and they alone are responsible for the integrity of the drawings. The suggestion that each ticket holder, on the day of and before each drawing, should be allowed to call out his number and see it put in the wheel, is tomfoolery to deceive any one who ever witnessed a single number drawing, and any lottery company which resorts to any such trick proves itself to be a fraud.

The intimation that persons have been paid to allow their names to be published as the winners of prizes in this Lottery is also false and without the slightest foundation in fact. Millions of dollars have been paid out by the Company in prizes through the banks and express agencies, as can be ascertained from the bank officers in New Orleans, and the Express Agent in New York, Washington City, and this city, as well as from the winners of the prizes whose names have given to the public.

Signed, G. T. BEAUREGARD, J. A. EARLY, } Com'rs.

NEW ORLEANS, July 12th, 1882.

Emory's Little Catharic is the best and only reliable Liver Pill known, never fails with the most obstinate cases, purely vegetable—15 cents.

Young Men, Middle Aged Men and All Men who suffer from early indiscretions will find Allen's Brain Food the most powerful invigorant ever introduced; once restored by it there is no relapse. Try it; it never fails. $1; 6 for $5.—At Druggists.

FURNITURE—There is now in Boston one of the most extensive manufacturing establishments in America. The entrance to Paine's Furniture Warerooms is at 48 Canal St., opposite Maine Depot. They not only manufacture, but also import from Italy curious carved pieces of the time of the Doges of Venice; from Switzerland fine lace curtains; from France inlaid woods, tapestries, and rich silks for upholstering; from England red, amber, blue and black hair cloth, in richly brocaded patterns, besides a large variety of lace curtains. These, together with their own numerous manufactures, will well repay one to travel miles to visit. Illustrated lists of these sent upon application.

Who Doubts Statement Made by Gen's Beauregard and Early Over Their Own Signatures.

It is easy to carp at success and accuse of dishonesty those whose moral characters for integrity, veracity and fair dealing are as unsullied as the driven snow. Now in reply to some caviller, actuated by motives easily seen through, Gen'ls G. T. Beauregard, of La., and Jubal A. Early of Va., reaffirm and publish to the whole world, over their own autographic signatures, that they in person manage and control all the monthly and semi-annual drawings of The Louisiana State Lottery and the same are conducted with honesty, fairness and good faith toward all parties.

THE

New Hampshire GAZETTE !

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full account of all of important since that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE. THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

— THE —

New Hampshire Gazette !

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desire to reach patrons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PUBLISHING CO.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing all and even more than we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts all the machinery of your body into working order.

WILL CONVINCE

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH ELY'S CREAM BALM

has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER.

HAY-FEVER *Is not a liquid or smuff.* Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds**, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

Sky clear.

NEVER HEARD OF HIM.

Recently there was a long session of the circuit court of the United States at Portsmouth, during which a trial was had involving in amount incident to the result greater sums, perhaps, than any cause ever tried in the federal courts of the first circuit. The presiding judge was Hon. John Lowell, circuit judge of the first circuit, and the trial brought to Portsmouth a large number of legal gentlemen, mechanical experts, machine builders, steam fire engine workmen, etc., and, of course, was the great event of the season in the quiet city by the sea.

While the court was in session an important letter was sent to Judge Lowell from this city, directed to Hon. John Lowell, "now at Portsmouth, N. H." The letter promptly arrived at Portsmouth, and was safely kept in the post-office pigeonhole for three weeks, and then was sent to the circuit court clerk's office, on the supposition that probably that functionary might be presumed to know who Judge Lowell was. The post-office officials, though seeing Judge Lowell's name in the newspapers daily, and though the direction showed the letter was for a gentleman *at* Portsmouth, instead of a resident, patiently waited with dignified repose for the judge to send round for this epistle, while the other letters for the judge were sent promptly to his hotel. On inquiry of the clerks, they with one accord pretended that they never heard of the celebrated jurist, who for three weeks was holding the court in a room over their heads.—*Manchester Mirror.*

YORK, ME., July 23d.

Mrs. Lunt, widow of Skipper Lunt, celebrated her 95th birthday on Tuesday, the 10th inst. She is the oldest person in town, and still smart, and does the housework for herself and son, the latter being aged over seventy years.

The name of Grant predominates as stage drivers over the road between York and Portsmouth for the past twenty-five years. They have been proprietors and drivers, in order, as follows: Stephen E. Grant, John P. Grant, William H. Grant, Charles A. Grant, Charles L. Grant and Willard L. Grant, no other name having been connected with the mail route since the days of Isaiah Farwell. Rather remarkable, as among those named are three separate and distinct families, with no connection whatever so far as is known.

Charles Junkins, Esq., of York Corner, has erected a substantial barn thirty-six by forty-four on the site of the one destroyed by fire last fall.

It is a common complaint with travellers by teams between this city and York, that there are no places to be found for watering horses on the Post road between York village and Portsmouth bridge; there are one or two holes into which it is hardly safe to drive, and they are all the facilities afforded in that line.

I am glad to notice the prosperity of our neighboring Kittery, and the public spirit shown in the people. In passing from the navy yard a few days ago I noticed that there had recently been put into active operation a large wholesale and retail confectionery establishment, with restaurant connected, in the same block of buildings in which Gen. S. L. Butterfield's smithery is located. Gen. Butterfield is said to furnish the capital upon which the business is carried on. May success attend the enterprise.

Yours truly, Y.

A correspondent in New York state, in a private letter writes: "Last week's GAZETTE I gave to Miss ——. She says it made her home-sick for Portsmouth." That is the reason why we are very cautious in extending our list of subs. in remote regions. Heads of families have often complained that the production in our columns of so much of interest to those who have had the privilege of living in Portsmouth, has the tendency to make the entire household desire to return to the scenes of former days. We cannot prevent this. Our duty to our local patrons and to those in the immediate vicinity, who so generously contribute to the purchase of the large stock of white paper which we weekly impress with good things, requires us to publish the best paper in this region. There is nothing immodest or boastful in our mentioning this little truism, because it is a patent fact, known to a large portion of the enlightened community, who regard it not only a pleasure, but a privilege, to read the GAZETTE.

Sheers for putting in the masts of the new schooner Alice B. Phillips were raised on the vessel Monday, by Lowe of Boston.

It is reported that the ladies living on Gates street and in that vicinity propose forming a volunteer fire company, to act as hook-and-ladder men on emergency, the men of that region having all cleared out on the occasion of the recent big blaze, leaving the women to take care of the roofs.

H. R. Stoddard & Son on Tuesday bought the stock and goodwill of A. C. Amazeen in the stone stable on Fleet and Warren streets, and commenced business there. Mr. Wm. H. Dennett, the hackman, has secured the use for the present of the brick stable of Alfred W. Haven, Esq.

Ship Paul Jones, Gerrish, arrived at Shanghai July 21st, 116 days from New York.

Commodore Wells gave a lunch to the officers of the naval vessels at this station and those attached to the navy yard on Tuesday.

The U. S. S. Ship Constellation came up to the navy yard on Monday afternoon and is moored at the wharf in the rear of the Constitution.

The friends of Capt. Geo. M. Dewey, U. S. N., are glad to see him home again in improved health.

The Pepperell Manufacturing Co. at Biddeford has declared a dividend of $35 per share and the Laconia $16 per share each payable August 1st.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

Portsmouth Prices.

Reported by JOHN J. LASKEY, Grocer.

Molasses per gal., Cuba 50c; P. R. 60c.
Oats per bushel, 60c.
Potatoes per bushel, $1.10.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

SALT RHEUM.

Wonderful Cures of Salt Rheum when Physicians, Hospitals and all other means failed.

SALT RHEUM.
I have been a great sufferer with Salt Rheum for thirty years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and I came to the conclusion that I could not be cured. But a friend called my attention to CUTICURA REMEDIES. Got them and used them until my skin was perfectly smooth and I consider myself entirely cured.
Yours truly, B. WILSON LORD.
AGAWAM, MASS.

SALT RHEUM.
CUTICURA REMEDIES are the greatest medicines on earth. Had the worst case Salt Rheum in this country. My mother had it twenty years and in fact died from it. I believe CUTICURA would have saved her life. My arms, breast, and head were covered for three years, which nothing relieved or cured until I used the CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally. J. W. ADAMS.
NEWARK, OHIO.

SALT RHEUM.
I had tried everything I had heard of in the East and West for Salt Rheum. My case was considered a very bad one. My face, head, and some parts of my body were almost raw. Head covered with scabs and sores. Suffering fearful. One very skillful physician said he would rather not treat it, and some of them said it could only cured temporarily. I think not, for I have not a particle of Salt Rheum about me, and my case is considered wonderful. Thanks to CUTICURA REMEDIES. MRS. S. E. WHIPPLE.
DECATUR, MICH.

SALT RHEUM.
No system of remedies ever compounded so thoroughly eradicate the diseases for which they are intended as the CUTICURA REMEDIES. Many remarkable cures have come to my knowledge, and I feel save in warranting satisfaction if directions are followed. *Medicines that infallibly cure Salt Rheum, as* CUTICURA REMEDIES *do, will cu e any kind of skin disease.*

DESIRABLE ESTATE FOR SALE.
THE undersigned is authorized to offer for sale on very favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the site renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.
July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most entertaining work on Physiology ever published. No nothing whatever that it is possible to give either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

PEABODY MEDICAL INSTITUTE, or W. H. PARKER, M. D., 4 Bulfinch St., Boston, Mass

MEDICAL.

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheadinning, startlingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

F. E. Ingalls, Sole American Agent, Concord, N. H.

VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, and gives vigorous firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humor from the Blood, and give tone and strength to the system, of man, woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (7)

HOP PLASTER

This plaster is famous for quick and hearty action in curing Rheumatism, Sciatica, Kidney Disease, Lame Back, Side or Hips, Sharp Pains, Pleurisy, Weak Heart and Liver Troubles, Stiff Muscles, Sore Chest, Cramps, and all pains or aches in every part. It soothes, strengthens and stimulates the parts. Sold by druggists everywhere at 25 cents.

A GREAT SUCCESS

Hop Plaster Co., Sole Manufacturers.

Mailed on receipt of price.

CARTER, HARRIS & HAWLEY, Gen. Agts, Boston.

BUY AT HOME!

IF YOU WANT TO SAVE FROM $25.00 TO $100. IN THE PURCHASE OF A PIANO OR AN ORGAN.

It is a fact that D. H. MONTGOMERY is selling Pianos and Organs at *extremely low prices.* He keeps constantly on hand instruments of the very *best quality,* as well as medium and lower grades. Every instrument sold for *just what it is,* and warranted to prove *just as represented.* Prices are guaranteed to be from $25.00 to $100 less than is usually paid for the *same grade of instruments* when purchased in the large cities or of travelling agents or peddlers. All interested and desiring *more light* on the subject, should call and see for themselves at

WHIPS All qualities and prices. Larrabee's, Congress St.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

The towns of Utica and Deer Park, Ill., having refused to pay for an iron bridge jointly contracted for by them, the courts have authorized the builders to remove the structure.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Whitelaw Reid thinks Hoadley, the democratic candidate for governor of Ohio, will not carry the state, and says that President Arthur stands better with the country than ever before. Reid is certainly correct as to the latter opinion.

Diphtheria poisons the blood. Convalescents should take Hood's Sarsaparilla to neutralize and eradicate the poison matter.

A handsome woman calling herself an Italian countess made a conspicuous figure for awhile in Paris. A priest was among her visitors. He recognized a fine painting on her wall as one that had been stolen from him, in Rome, by an adventuress, and then the police identified her as the thief.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The "Stevens" chimney now being built by the Amoskeag Co. at Manchester, will be 255 feet high, thirty-five feet taller than Bunker Hill monument. It will have an iron cap on top weighing six tons, and thirty-five feet across the top. The chimney is double, one shaft inside the other.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; a few truly ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

John Ewer, a citizen of Candia, was found dead in his bed July 18th. Heart disease caused his demise. His age was seventy-five years, and he leaves a wife.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Rev. Mr. Adams of Farmington has accepted a call from the Free Baptist church of St. Johnsbury, Vt., and will enter upon his duties at once.

☞For five cents, Well's, Richardson & Co., Burlington, Vt., will send colored sample colors of Diamond Dyes.

A steam yacht on Newfound lake at Bristol, owned by A. L. Woodman of Concord, was burned last week. Loss $2300; insurance $1800.

The *Hop Plasters* have a wonderful sale, and why! Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggists, 25 cts.

E. H. Carson, of East Rochester, recently descended Mount Washington on a bicycle. The distance travelled was eight miles, and the time one hour and fifty minutes. The machine used was the American Star bicycle, which has the small wheel in front. He could not have made the descent on one with the little wheel behind.

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. This original Nutrient and Tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into new life the entire process of digestion.

The widow of Lord Frederick Cavendish, who was murdered in Phœnix park, Dublin, will be married again before the termination of the present year. The second marriage, it is stated, has the approval of her late husband's relatives.

Dr. A. Page, Rushmore, O., says: "I have prescribed Brown's Iron Bitters in several instances, and in each case obtained good results."

Rev. W. C. Reed, who has been the pastor of the Congregational church in Candia for about five years past, closed his labors there on the first Sunday of the month. A few days since his parishioners called upon their late pastor and his wife, and presented to them the sum of fifty dollars in money and other gifts. Rev. Mr. Reed states that during his residence in that town he has attended seventy funerals, and that during the same time there have been only five births in the families belonging to his parish.

Who is the Prettiest girl in America?

Is a question that would perplex a congress of connoisseurs assembled to nominate the most beautiful. But such an assemblage would not be surprised to learn that the most charming of their sex, on this side of the Atlantic, embrace the beauty and preserve the soundness of their teeth with SOZODONT, since everybody knows that the ladies prefer it to any and all dentifrices. Let no man say other this, that women lack judgment.

MEDICAL.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

KIDNEY-WORT

IS A SURE CURE for all diseases of the Kidneys and —LIVER—

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharges.

Malaria. If you are suffering from the effects of malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure. In the spring to cleanse the System, every one should take a thorough course of it.

Daily Chronicle.

His Last Swim.

Capt. Matthew Webb, the noted English swimmer, perished in an attempt to swim the Niagara river whirlpool rapids, on the afternoon of July 24th. He was rowed out in a skiff to a point in the river opposite the old "Maid of the Mist" landing, by John McCloy, the ferryman at the falls, and leaped from the boat at 4:02 o'clock. The daring swimmer passed the big rapids all right, keeping in the middle of the stream. When he struck the whirlpool he was whirled like a feather to the American side, where the waves, it is estimated, are from thirty to forty feet high, and the last seen of him he was throwing up one arm. His intention had been to pass the whirlpool on the Canadian side. His shoot of the rapids was intensely thrilling. The refusal of the railroads, and the hotels at the falls, to have anything to do with what they termed "his going to his death," rendered the affair financially a failure. The river has been searched for two miles below the whirlpool, but no trace of Webb could be found, and it is generally believed that he was engulfed in the whirlpool. Capt. Webb leaves a widow and two children.

Catarrh of the Bladder,

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

The U. S. S. Juniata arrived at Colombo, Ceylon, June 13th, all well.

Are You Going

to travel? If so you must be very careful of your health, or your doctor's bills will cost you more than your travelling expenses. A bottle of Sulphur Bitters will protect you from all sickness incident to a change of climate.—*Evening Telegram.*

Paymaster H. T. B. Harris is placed on waiting orders.

A Smart Man

is one who does his work quickly and well. This is what Dr. R. V. Pierce's "Golden Medical Discovery" does as a blood-purifier and strengthener. It arouses the torpid liver, purifies the blood and is the best remedy for consumption, which is scrofulous disease of the lungs.

Comdr. F. J. Higginson has started for the Asiatic station, to relieve Comdr. C. S. Cotton from the command of the Monocacy.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Chaplain James W. Kane is detached from the receiving-ship Franklin, and placed on waiting orders.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

Carpenter George W. Davis is ordered to duty on board the receiving-ship St. Louis, at League island.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three minutes—Take Hop Bitters.

Lieut. L. C. Logan, U. S. M. C., is ordered from the marine barracks in Boston to the training-ship New Hampshire, at Newport, R. I.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

At Newark, N. J., Rev. Dr. George R. Briston has been found guilty of immoral practices by a committee of St. Luke's Methodist Episcopal church. He surrendered his credentials and left the city.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ellis's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

The bicycle championship of the world was won at Washington on July 23d, by John S. Prince of Boston, who beat H. W. Higham of Nottingham, Eng., the former champion, by two seconds in a ten-mile race.

Dyspepsia dampens the ardor of many an aspiring soul. Why suffer from dyspepsia? Why be frightened over disordered kidneys? Why continue the miserable life of a dyspeptic, nerveless mortal? Brown's Iron Bitters will surely cure you, It has permanently cured thousands of cases where other remedies afforded only temporary relief. Ask your druggist concerning its merit. Try a sample bottle and you will be relieved of further mental and physical distress.

While eight workmen, all married and having families, were engaged in repairing the lining of a blast furnace at Geddes, N. Y., July 23d, the lining suddenly fell, burying them under a hundred tons of brick and mortar, of course killing them instantly.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

The Haytien insurgents still hold Miragoane and Jeremie, and the government troops are very quiet.

As a public benefaction, St. Jacobs Oil has no equal in the world.

Reading Room free to members and strangers visiting the city. Quarterly Meetings the First Tuesday evenings in November, February, May and August. Election of officers at November meeting.

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.40 a bottle.

PATENTS!

R. H. EDDY,

(No. 76 State St., opposite Kilby) Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior abilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1881. eodly

"I Saw a very Ugly Ghost,"

A charming young lady of Brooklyn was relating some of the troubles she had had in the night. The ghost which walked into her room looked something like a scare-crow. She remembered that she had enjoyed a good supper of lobster salad. When asked how it was that she was able to be out of bed the next morning, she remarked that she always kept a bottle of Perry Davis's Pain Killer in her room, and that two moderate doses of this most efficient remedy had driven the ghost away.

Charles Campbell of Concord, serving one year for larceny, escaped from jail Monday night, July 23d, and is still at large.

Mr. Joseph Sonnia, Peterboro, N. H., says: "He considers Brown's Iron Bitters A No. 1, to give a person an appetite."

The governor and council have reappointed William Butterfield and Horace A. Brown of Concord, auditors of state printer's account.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

THURSDAY, JULY 26, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

Mr. John H. George, a lawyer formerly in practice at Concord, the early friend of Franklin Pierce, and somewhat noted for having on one occasion uttered a "railroad" speech in which he made a pointed allusion to a "conductor's ring" on the Concord railroad, tells a good story on himself. Meeting an old farmer recently whom he had known in his youth, the old fellow congratulated the gallant colonel on his youthful appearance and the surprising way in which he held his own. "How is it you've managed to keep so fresh and good-looking all these years?" quoth he. "Well," said George, "I'll tell you. I've always drank new rum and voted the democratic ticket." "Oh, yes, said the old man, "I see how it is; one pizen neutralizes the other."

Considerable interest is felt in the approaching centennial anniversary celebration of King Solomon's Lodge and the introduction of Freemasonry into Charlestown, Mass., which will be observed on September 11th. King Solomon's Lodge was organized on September 11th, 1783, and is the oldest Masonic organization in Middlesex county. Its charter bears the names of John Warren, G. M.; Joseph Webb, V. G. M., and Paul Revere, S. G. M. Its records are complete from the preliminary meeting of the lodge up to the present time, and are replete with events of great interest to the fraternity.

A College Fetich.

We have received from Messrs. Lee & Shepard a copy of the address of Charles Francis Adams, Jr., delivered last month, before the Phi Beta Kappa society of Harvard college. This address, delivered twenty-seven years after the orator's graduation, discusses the theory of college education and the practice of studying the Greek and Latin languages at the expense of ignoring much in the mother tongue. There is very much in this address which will interest college graduates, and instruct every one. For while the writer never forgets that he is an Adams, (and we of course shall never hear the last of the Adamses) there is much in the address which smacks of practical sense and valuable counsel for the benefit of the future collegian.

There is serious trouble in a church of Polish Catholics at Buffalo, N. Y., over the liquor question. One of the two priests connected with the church has recently been very energetic in attempting to check the beer-guzzling habits of his flock, and the result was a disgraceful riot on Sunday, July 22d, the priest being hissed on entering the church, and a row in the street following, several policemen being hurt and ten or a dozen rioters arrested.

The wife of Frank Howard Packard, of Chicago, formerly of Providence, R. I., gave birth to a son weighing nine and three-quarters pounds on the 9th of July, and on the 20th of July to another son weighing nine pounds. Mother and children are doing well.

President Arthur's son has been spending a few days with Governor Lorne of Canada and the Princess Louise, on a fishing excursion to the Cascapedia river, Canada.

M. A. Dauphin, of the Louisiana Lottery Co., on July 24th entered a suit against Postmaster General Gresham for $100,000 damages for denying mail facilities to Dauphin's business.

At Eaton Rapids, Mich., July 23d, the house of Eugene Henry was demolished by a cyclone. Mr. Henry was fatally and his wife badly hurt, and their three children killed.

Washington market, New York, one of the old landmarks of the city, is being torn down, to make room for a better building.

Lucius Tuttle, general ticket agent of the Eastern railroad, who sends thousands of passengers to Mount Desert, White Mountains, Montreal, etc., says: "This year the boarding houses are doing the business; the hotels are behind. I attribute it to a bad year in Wall street and State street. The brokers are the best money spenders in the land. Their fulness or emptiness, is the key to the prosperity of the best hotels."

It is said that the Flying Yankee pays better than any other train on the Maine Central railroad.

On Tuesday of this week there were nine vessels at the Concord railroad wharf, and two other large schooners in the lower harbor, waiting for berths at the same wharf.

The schooner Mary S. Hontvet sailed from this port on Tuesday evening of this week on a trip to the Grand banks—her second trip this year, she having marketed one fare of 92,000 lbs. of split codfish in Gloucester, Mass.,

A boarder at the Gibson house, who lost by the fire all his personal effects except what clothing he was able to put on, and three overcoats and a fur hat which he grabbed up during the excitement, has received from Manchester a package marked "Relief for the destitute."

The grade of Water street at the northerly end of Liberty bridge is being raised several feet, for a considerable distance, to correspond with the portion at the south end of the bridge, raised some time ago. The job when finished will be a great improvement to that locality.

Messrs. J. F. Adams & Co., embalmers and funeral directors, advertise the cement sarcophagus case, and a full line of caskets and other goods required in their business. They are agents for the Crosby invalid bed.

Ex-Gov. Thomas Swann, of Maryland, died at Leesburg, Va., July 24th, at the age of seventy-eight years.

BORN.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Pure Cod-Liver Oil made from selected livers, on the sea-shore, by CASWELL, HAZARD & CO., New York. It is absolutely pure and sweet. Patients who have once taken it prefer it to all others. Physicians have decided it superior to any of the other oils in market. The

Chapped Hands, Face, Pimples, and Rough Skin, cured by using JUNIPER TAR SOAP, made by CASWELL, HAZARD & CO., New York.

POLICE COURT--BATCHELDER, J

TUESDAY, July 24th.

Daniel Sullivan, drunk, fine $3, costs $5.76.

John F. Van Tassel, drunk, fine $3, costs $6.90.

The Dover city councils have passed an order requesting an itemized bill of the cost of the Knibbs valve trial. The cost to the New Hampshire cities, so far, is about $20,000.

Rogers Amero, the alleged murderer of Mrs. Etta G. Carlton at Watertown, Mass., passed though this city over the Eastern railroad on the afternoon of the 25th inst., on the way from Nova Scotia to Boston in charge of Massachusetts officers.

United States Marshal Hazelton, of Milwaukee, Wis., formerly of Chester in this state, is visiting this city and vicinity. He will stop a few days at the Wentworth, and then go to Manchester.

It is reported that Landlord Grant intends to rebuild the Gibson house and stables at once, and that the new hotel will be a large and convenient brick edifice.

The stench of roasted horse from the twenty-two carcasses in the ruins of Stoddard's stables was much more powerful on Tuesday than on the previous day.

Tuesday morning a small fishing vessel was up high and dry at the point of the narrows, where she had gone on at high tide during the night. She came off with the next tide.

Mr. H. F. Eldredge and family are at their summer cottage in Newcastle.

Ten arrests were made by the police July 23d; several of the victims were from the practice ships.

Col. Phinehas Adams died at his residence at Manchester, July 23d. He was born at Medway, Mass., June 20, 1814, educated as a practical manufacturer, and worked as overseer in various mills throughout New England. He went to Manchester in 1846, and a year later became the agent of the Starks mills. He visited Europe on business for mills in 1863, travelling extensively in England, Scotland and Ireland. He resigned as agent in April, 1881. He was a presidential elector for Grant in 1872, and chief of staff of the late Gov. E. A. Straw. He leaves a widow, and a son and daughter. Col. Adams had a cottage at Straws point, Rye beach, and was greatly esteemed by those of our citizens who had the pleasure of his acquaintance.

The schooner John & Frank is on the marine railway at Kittery, being recaulked and painted.

Sargent W. T. Gallagher, U. S. M. C., has been transfered from duty at this navy yard to the barracks at the Charlestown yard.

Proposals for the Construction of a Life-Saving Station.

TREASURY DEPARTMENT:
OFFICE OF GENERAL SUPERINTENDENT,
U. S. LIFE-SAVING SERVICE,
WASHINGTON, D. C., July 23d, 1883.

SEALED PROPOSALS will be received at this office until 12 o'clock, noon, of Saturday, the 11th day of August, 1883, for the Construction of a Life-Saving Station on Hunniwell's Beach, on the coast of Maine.

Bidders will state in their proposals the time within which they will agree to have the building completed ready for occupancy.

Each bid must be accompanied by a bond in the sum of five hundred dollars, with two good and sufficient sureties, conditioned that the bidder shall enter into contract without delay and give such bonds as security for the faithful performance thereof as may be required if his bid be accepted, or by a deposit of five hundred dollars U. S. Currency or bonds to be returned to the unsuccessful bidder after the award of the contract, and to the successful bidder after his contract and bond for the faithful performance of the terms thereof shall be approved by the Secretary of the Treasury.

Specifications and plans, forms of proposal, contract and bond, can be obtained at the offices of the Collectors of Customs at Portsmouth, N. H., and Bath, Me., the Deputy Collector of Rockland, Me., J. M. Richardson, Superintendent First Life-Saving District, Portland, Me., and Captains G. R. Silcox and J. H. Merryman, U. S. R. M., Superintendents of Construction of Life-Saving Stations, No. 24 State Street, New York city; and also upon application to this office.

All proposals must be endorsed "Proposals for the construction of a Life-Saving Station," and addressed to the General Superintendent of the U. S. Life-Saving Service, Washington, D. C.

The right to reject any or all bids, or to waive defects if deemed for the interest of the Government, is reserved.

W. D. O'CONNOR,
Acting General Superintendent.

PORTSMOUTH SAVINGS BANK.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing even more than WILL ing all and we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts CONVINCE, all the machinery of your body into working order.

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. F. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH ELY'S CREAM BALM

has gained an envia ble reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *In a a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays Inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds,** large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

THE "TAURUS" STEAMER.

The big excursion steamer Taurus arrived at this port from Boston on the 25th inst., and made a berth at Commercial wharf, which will be her regular landing-place for a time; Mr. Fred. Moore, who recently came in from the Shoals, has been engaged to tend her lines on her arriving and departing. She came down from Boston in four hours and a quarter, bringing about 500 passengers; she is a first-class boat, and as this trip proved, a very fast one; she carries a fine band, has a uniformed police force to prevent any disorder, and is provided with the most modern appliances to prevent or extinguish fires, and to save life in case any unforseen accident should occur. Her passengers on this trip, who appeared to be of a class much superior to those composing the ordinary steamboat-excursion party, were allowed three-quarters of an hour ashore before starting on the return. Large numbers of townspeople visited the wharf to look at the steamer, and several took passage for Boston in her.

ACCIDENTS.

Mr. Timothy Dame was thrown from his carriage in Eliot on the evening of July 23d, and severely but not dangerously injured by striking upon a stone wall. The horse was frightened through the breaking of the harness, which allowed the carriage to run against him.

As Mr. Albert Dow of Rye was driving down the hill just this side of Sagamore bridge, Wednesday afternoon of this week, the breeching broke, letting the loaded wagon strike against the horse, which ran away, dashing through the fence at Mr. Albert Shedd's and entering the barn, where he stopped. The wagon was left outside the fence, and Mr. Dow was thrown to the ground; he was taken up insensible and carried into the house, and afterward taken to his home. As he is an elderly man, and an invalid, it was feared the accident might result seriously.

DEATH OF GUNNER MACK.

Gunner Eugene Mack, on the retired list of the United States navy, for some years a resident of this city, died in Somerville, Mass., July 25th, in his 62d year. Mr. Mack was one of the oldest warrant officers in the navy in point of service, having been in active duty as gunner for thirty-five years. He saw much hard work during the war with Mexico; was at Vicksburg with Porter, and was brevetted captain and put in command of gunboats during the siege. He was gunner of the frigate Cumberland when she was sunk by the rebel ram Merrimac, fired the last gun from the doomed ship, and went down with her, but rose to the surface, and was taken ashore and resuscitated. In all his service he was never wounded. He was retired not many months ago on account of ill health, and removed from this city to Somerville. He was a native of Ireland.

GOSSIPS SAY

That the engineers and firemen are entitled to very much credit for the manner in which they fought the Vaughan street fire, confining it to such narrow limits.

That the steamer Moses H. Goodrich on that occasion played three streams, and did it in good shape.

That the telephone was not available when wanted to call for aid from the navy yard.

That a message was finally sent to Dr. M. F. Wentworth of Kittery, who promptly notified the navy yard authorities by messenger.

That the rocket sent up from the foot of Daniel street—the agreed signal-call to the yard for help—was a long time in getting into the air, the navy yard contingent being on top of Rice's hill in Kittery, on the way over, before the rocket was seen.

That the "Taurus," the steamer just put on the route between Boston and this city as a passenger boat, is a beauty.

That she gets through the water at a great rate, and will be liable to a good patronage from this city while she runs.

That crops in the surrounding country never looked better than now.

That the policemen and their guests had a good time at their down-river picnic on the 25th.

SNUBBING THE SECRETARY.

A Boston paper thus remarks:

Work on the United States ship Shenandoah is progressing more rapidly than at first anticipated, and all the workmen feel anxious "to give the snub to Secretary Chandler" and complete the repairs of that vessel in the allotted time, thus proving that the facilities of the yard and the capabilities of the workmen are such that the work can be done satisfactorily and quickly.

Mr. Chandler can afford the "snub" if he can only get the work done in such manner that the Shenandoah will not have to be sent to this station to have her "repairs" gone over by the capabilities of the workmen at the navy yard near this city.

NAVY YARD ITEMS.

Ensign Charles A. Gove has been detached from the receiving-ship Wabash at the Boston navy yard, and ordered to special duty at the Portsmouth yard.

The custum which has prevailed in the navy yards heretofore of retaining the quartermen and clerks during the suspension of the working force of the various departments, has, it is understood, met the disapproval of Secretary Chandler, who will discontinue it at once, and this class will hereafter share in the burden imposed by the shortness of funds.

ANNUAL MEETING.

At the annual meeting of the stockholders of the Portsmouth company, held at their cotton factory in South Berwick, Me., on the 25th inst., the following officers were re-elected:

E. H. Jewett, president;
F. W. Hale, treasurer;
E. H. Jewett, William Hale, W. H. Rollins, F. W. Hale, John Sise, C. H. Rollins, O. S. Brown, directors;
Geo. H. Muzzey, clerk.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

Subscriptions to Firemen's Muster.

A general meeting of the Fire Department was held last evening, and it was found that over six hundred dollars had been sent in as subscription during the past three days, in a voluntary way; but a new plan was adopted at the meeting, and a general subscription paper placed in the hands of each member of the Department, and during the week every citizen will be called upon. The time is short and the money should come in freely, for the Department is earnestly at work to make the muster a success.

The committee have decided to know by next Monday evening about the exact amount of subscriptions to be raised in this city, and to that end will vigorously urge the matter among our citizens, in order to be able to report results on the evening above mentioned.

Safeguard S. F. E. company of Kennebunk, has a committee in this city today making arrangements for the presence of that organization on muster days.

—Times, July 25th.

The first green corn we have heard of as being brought into the market this season was brought in on Monday, July 23d, by Mr. C. Chandler Shapleigh of Eliot. On Wednesday Mr. Shapleigh supplied a local storekeeper with sixteen dozen ears of well matured corn. Mr. Shapleigh reports the potato crop of Eliot as likely to be very heavy, the farmers having planted unusually large areas this season, and the yield being large. Other crops all promise well, excepting apples, of which there will not be more than half an averge yield. The hay crop this year is equal to the very heavy one of last season.

On Monday evening, July 30th, Mother Goose Singing Quadrilles will be given by sixteen couples, in costume, (after which dancing generally,) in Franklin hall, commencing at eight o'clock, in aid of Christ church and the Children's Home. Tickets of admission fifty cents, including refreshments. Donations of ice cream and cake earnestly solicited. Those willing to assist in this charity please send word what amount they will give, by Saturday morning, the 28th, to Mrs. Carpenter, 24 Middle street.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quantity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

THE
New Hampshire GAZETTE!
Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and it

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE. THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

— THE —
New Hampshire Gazette!
TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desire to reach persons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

SALT RHEUM.

Wonderful Cures of Salt Rheum when Physicians, Hospitals and all other means failed.

SALT RHEUM.
I have been a great sufferer with Salt Rheum for thirty years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and I came to the conclusion that I could not be cured. But a friend called my attention to CUTICURA REMEDIES. Got them and used them until my skin was perfectly smooth and I consider myself entirely cured.
Yours truly, B. WILSON LORD.
AGAWAM, MASS.

SALT RHEUM.
CUTICURA REMEDIES are the greatest medicines on earth. Had the worst case Salt Rheum in this country. My mother had it twenty years, and in fact died from it. I believe CUTICURA would have saved her life. My arms, breast, and head were covered for three years, which nothing relieved or cured until I used the CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally. J. W. ADAMS.
NEWARK, OHIO.

SALT RHEUM.
I had tried everything I had head of in the East and West for Salt Rheum. My case was considered a very bad one. My face, head, and some parts of my body were almost raw. Head covered with scabs and sores. Suffering fearful. One very skillful physician said he would rather not treat it, and some of them think now I am only cured temporarily. I think not, for I have not a particle of Salt Rheum about me, and my case is considered wonderful. Thanks to CUTICURA REMEDIES. MRS. S. E. WHIPPLE.
DECATUR, MICH.

SALT RHEUM.
No system of remedies ever compounded so thoroughly eradicate the diseases for which they are intended as the CUTICURA REMEDIES. Many remarkable cures have come to my knowledge, and I feel save in warranting satisfaction if directions are followed. *Medicines that so faithfully cure Salt Rheum, as* CUTICURA REMEDIES *will do a any kind of skin disease.*

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.
July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most valuable work on Physiology ever published. The nothing what ever that the married or single either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall St., New York. jy19dwly

MEDICAL.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves cured another for kidney or liver trouble, or dyspepsia, while of the truth were known, the real cause is at the heart.

The renowned Dr. Cheinlaung, startingly says "one third of my subjects have signs of heart disease."

The heart weighs about nine ounces, and yet such a twenty-pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. This known as **Dr. Graves' Heart Regulator** *and can be obtained at some druggists, $1 per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (6)
F. K. Ingalls, Sole American Agent, Concord, N. H.

HEART TROUBLES

Yours for Health
Lydia E. Pinkham

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND.

Is a Positive Cure.

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use it and Prescribe it Freely.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will remove every vestige of humor from the Blood, and give tone and strength to the system, of most women or children. Decide on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (1)

HOP PLASTER

This plaster is far superior to all other and hearty action in curing Rheumatism Sciatica, Kidney Disease, Lame Back, Side or Hips, Sharp Pains, Pleurisy, Heart and Liver Troubles, Stiff Muscles, Sore Chest, Cramps, and all pains or aches in every part. It soothes, strengthens and stimulates the parts. Sold by druggists, everywhere at 25 cents.

A GREAT SUCCESS

Awful Disaster.

By the giving way of a pier at Trivoli, ten miles from Baltimore, on the night of July 23d, a large number of excursionists were thrown into the water and many were drowned. Sixty-four bodies were recovered up to noon on the 24th, most of them being young women and children.

The Senatorial Fight.

In the legislative convention on Wednesday, July 25th, a ballot was taken with the following result:

Whole number of votes	320
Necessary for a choice	161
Bingham had	114
Chandler	70
Marston	38
Tappan	25
Patterson	25
Burns	20
Pike	10
Scattering	19

and there was no choice.

It was voted to take another vote at three o'clock.

Flies and Bugs.

Flies, reaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

The Congregational society at Francestown have purchased the residence of T. B. Bradford for a parsonage, and will erect a church upon the lot adjoining.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

A movement is on foot to establish a joint stock fire insurance company at Keene, to be called the Monadnock Fire Insurance company. The enterprise has the support of some of the most promitcitizens of that city and Cheshire county; it bids fair to be successfuly organized at an early day.

Why Should I

not have confidence in that which has done me a world of good. If you had suffered years with liver complaint and cured by using Sulphur Bitters, would not you too have confidence in them. J. R. Nash, Hotel Winthrop, Boston.

President Arthur and his daughter Nellie arrived at Cape May, N. J., in the U. S. S. Dispatch, on July 23d, and were driven to a hotel, where they remained during the day, leaving on the Dispatch for New York in the evening.

If you fail to receive benefit from other preparations, try Hood's Sarsaparilla; it's the strongest, the purest, the best, the cheapest.

The Cunard Steamship company have contracted for two steamers which being eight thousand tons burden each, are expected to cross the Atlantic in six days.

The father, mother and brother of Caroline Brenson of Waterbury, Conn., who recently died from criminal malpractice, have been arrested for manslaugeter.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

John Heyward of Ashby, Mass., seventy-five years old, fell from a scaffold in his barn a few days ago, had his skull fractured and one arm broken, and died from his injuries.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

John Hurley, aged twenty-six years, was killed on the railroad in Providence, R. I., July 23d.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The steamer Gen. Bartlett, which arrived at Portland, Me., July 23d, picked up on the 22d off Long island a bottle containing a paper on which was writen: "Schooner Smuggler leaking badly, seine boats gone, can't keep afloat much longer. If this is found send to Gloucester. Off Cape Elizabeth, July 15th." No doubt a wretched attempt at a hoax. The fishing schooner Smuggler is engaged in the Georges fishery, and carries no seine boats.

Dr. A. Page, Rushmore, O., says: "I have prescribed Brown's Iron Bitters in several instances, and in each case obtained good results."

President Arthur and his daughter arrived at New York from Cape May July 24th. The president has notified people in Newport, R. I., that he will visit that city in September.

Who is the Prettiest girl in America?

Is a question that would perplex a congress of connoisseurs assembled to nominate the most beautiful. But such an assemblage would not be surprised to learn that the most charming of their sex, on this side of the Atlantic, embrace the beauty and preserve the soundness of their teeth with SOZODONT, since everybody knows that the ladies prefer it to any and all dentifrices. Let no man say after this, that women lack judgment.

MEDICAL.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

KIDNEY-WORT

IS A SURE CURE for all diseases of the Kidneys and —— LIVER ——

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, sick headache, dyspepsia, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

Portsmouth Daily Chronicle.

PUBLISHED BY CHRONICLE & GAZETTE PUBLISHING COMPANY. | PORTSMOUTH, N. H., FRIDAY MORNING, JULY 27, 1883. | $6 PER YEAR IN ADVANCE. THREE CENTS PER COPY.

THE PORTSMOUTH DAILY CHRONICLE

(Established August 2d, 1852,)

Is Published Every Morning, Sundays excepted, at No. 7 Exchange Building, Pleasant street, opposite the Post Office, by the

Chronicle and Gazette Publishing Company.

TERMS $6.00 PER YEAR.

The New Hampshire Gazette

(The Oldest Newspaper in the United States, established Oct. 7th, 1756,)

is published every Thursday at the same office. Terms, $1.50 per year; $2.00 per year, if not paid in advance.

ADVERTISEMENTS inserted on reasonable terms, in either or both papers. The GAZETTE, having a large country (in addition to its local) circulation, is an excellent medium of advertising. A liberal reduction made when advertisements appear in both papers.

☞ Correspondence from neighboring towns containing items of public interest, will be gladly received. All communications should be addressed and all checks made payable to the

CHRONICLE & GAZETTE PUBLISHING CO.,

PORTSMOUTH, N. H.

The Job Printing Business is conducted in the same office by Mr. Richard I. Walden, who keeps on hand a large and and well-selected stock of all materials required in his line.

Mr. J. H. Bates Newspaper Advertising Agent, 41 Park Row (Times building,) New York, is authorized to contract for advertisements in the CHRONICLE and GAZETTE, at our best rates.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSS, Vice-President,

aug28 Jamestown, Dakota.

THE CHARLES A. VOGELER CO. (Successors to A. VOGELER & Co.) Baltimore, Md., U. S. A.

KIDNEY-WORT

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.

☞ If you have either of these troubles

PRICE $1. USE Druggists Sell

KIDNEY-WORT

Acts at the Same Time on Kidneys, Liver and Bowels.

SULPHUR BITTERS

THE GREAT German Remedy.

TRUTHS FOR THE SICK.

For those doubtful Bilious Spells, I dispend on SULPHUR BITTERS, it will cure you.

Ladies in delicate health, who are all run down, should use SULPHUR BITTERS.

The Great Dyspepsia is cured by using SULPHUR BITTERS.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Operatives who are closely confined in the mills and workshops, Clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

Cleanse the vitiated blood when you see its impurities bursting through the skin in Pimples, Blotches, and Sores. Rely on SULPHUR BITTERS, and health will follow.

General Debility needs a gentle tonic. Use SULPHUR BITTERS, and you will not be troubled.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

Don't be without a bottle. Try it; you will not regret it.

SULPHUR BITTERS will build you up and make you strong and healthy.

Sulphur Bitters.

SULPHUR PLASTERS cure pain in the side. KAUFMANN'S PILLS do not gripe. 25 cents.

Daily Chronicle.

The Telegraphers' Strike.

An important success was won by the strikers on the 25th inst., the American Rapid Telegraph Co. making satisfactory arrangements with the Brotherhood; and all members of the society employed by the Rapid were ordered by the executive committee to resume work on the 26th. The agreement is for an increase of ten per cent on salaries, eight hours to be a day's work and seven hours a night's work; all Sunday work to be extra.

Catarrh of the Bladder,

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

The coroner's jury in the Tivoli disaster found that the authorities of the place did not use proper care and precaution.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

At Nanticoke, Pa., a prize fight for $500 between Paddy O'Brien, a saloon keeper, and Mike Breese, a miner, was broken up after eleven desperate rounds had been fought, by a mob of women breaking into the ring and flourishing clubs, knives and pistols.

Hay Fever.

For twenty years I was a sufferer from Catarrh of the head and throat in a very aggravated form, and during the summer months with Hay Fever. I procured a bottle of Ely's Cream Balm and after a few applications received decided benefit—was cured before the bottle was used. Have had no return of the complaint. Charlotte Parker, Waverly, N. Y.

One and one-half bottles of Ely's Cream Balm entirely cured me of Hay Fever of ten years' standing. Have had no trace of it for two years. Albert A. Perry, Smithboro, N.Y.

Since boyhood I have been troubled with catarrh and Hay Fever, and have been unable to obtain permanent relief until I used Ely's Cream Balm. It has cured me. E. L. Clickener, New Brunswick, N. J. Price 50 cents.

The scow Sea Bird, of Chicago, has been capsized on Lake Michigan, and her crew of six men lost.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three words—Take Hop Bitters.

By a railroad collision near Schenectady, N. Y., July 25th, one man was killed and six seriously injured.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Thomas Maguire, in jail at Chicago awaiting trial for murdering his mistress three weeks ago, fatally cut his throat in his cell July 24th.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ellis's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

Mrs. Langtry sailed from New York for Europe on Tuesday morning, July 23d. She dined at Delmonico's with Freddie on Monday evening.

Dyspepsia dampens the ardor of many an aspiring soul. Why suffer from dyspepsia? Why be frightened over disordered kidneys? Why continue the miserable life of a dyspeptic, nerveless mortal? Brown's Iron Bitters will surely cure you. It has permanently cured thousands of cases where other remedies afforded only temporary relief. Ask your druggist concerning its merit. Try a sample bottle and you will be relieved of further mental and physical distress.

Clarence Leonard, an actor, has been arrested in West Haven, Conn., charged by George V. Gerard with improper intimacy with Mrs. Gerard. The Gerards have occupied a high social position in West Haven.

Youthful Indulgence

in pernicious practices pursued in solitude, is a most startling cause of nervous and general debility, lack of self-confidence and will power, impaired memory, despondency, and other attendants of wrecked manhood. Sufferers should address, with three letter postage stamps, for large illustrated treatise, pointing out unfailing means of perfect cure, World's Dispensary Medical Association, Buffalo, N. Y. b

George Ross, a stable employe of Boothbay, Me., has been arrested there upon a telegraphic order from Lonsdale, R. I., charged with rape upon a little girl at that place some months ago. He is wanted also in Massachusetts for burglary. The prisoner was lodged in the Wiscasset jail to await a requisition from Rhode Island.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

On Monday, July 23d, at Chapman plantation, twelve miles from Presque Isle, Me., John Swanback and John Hanson quarrelled about a fence, each got his gun, and both fired at the same time. Swanback shot Hanson in the breast, and Hanson shot Swanback in the arm. Hanson died in a few minutes.

***"He that is discontented in one place will seldom be happy in another." People are constantly changing their houses from East to West and from North to South or *vice versa*, in search of a healthy State. If they would learn to be contented, and to use the celebrated Kidney-Wort when sick, they would be much better off. The whole system can be kept in a healthy state by this simple but effectual remedy.

The directors of the Maine Central railroad met in Portland July 25th, and declared a dividend of three per cent, payable August 15th. It is confidently asserted that the stock will pay eight per cent, and one of the largest stockholders looks for ten per cent, before long.

Who is the Prettiest girl in America?

Is a question that would perplex a congress of connoisseurs assembled to nominate the most beautiful. But such an assemblage would not be surprised to learn that the most charming of their sex, on this side of the Atlantic, embrace the beauty and preserve the soundness of their teeth with SOZODONT, since everybody knows that the ladies prefer it to any and all dentifrices. Let no man say after this, that women lack judgment.

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

PATENTS!

R. H. EDDY,

No. 76 State St., opposite Kilby Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior abilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

Boston, January 1, 1883. eodly

TELEGRAPHIC BREVITIES.

The Irish Times says James Carey, the informer, has arrived at one of the British colonies.

The late Benjamin T. Simpson of Lowell, Mass., left an estate which has been appraised at $406,765.25.

The governor of New York has respited Hovey, the murderer, to Oct. 19. He was to be hung Friday. His counsel has made application to the court of appeals for a new trial.

A dispatch from Mullingar, Ireland, says 14 persons have been committed for trial for complicity in the murder of Mrs. Smythe.

Dr. Wordan of the Knickerbocker canoe club of New York, has arrived at Montreal from Cape Vincent, after a voyage of 13 days. He ran all the rapids of the St. Lawrence except those between Lachine and Montreal.

Oscar Wilde will sail for New York next month.

Congressman Morse has selected William S. Hollis of Boston, son of Capt. George F. Hollis, late of the United States navy, as a candidate for the midshipman cadetship at Annapolis from the fifth district.

Olin L. Warner of New York has finished in clay his statue of Gov. Buckingham for the state capitol of Connecticut. It will be finished in bronze during the fall.

The habeas corpus case by which James Reynolds of Bristol, Conn., seeks to recover his son John, who was committed to the reform school during his minority, on the ground that the judge committing the boy illegally refused an appeal, was decided at New Haven Wednesday pro forma in favor of the state, in order that the supreme court may pass upon the points involved in October.

Ex-Gov. Plaisted and Col. Morton of Augusta, Me., Wednesday, completed negotiations for the purchase of the New Age newspaper, and will take immediate possession.

The governor of New Hampshire and council have pardoned Hiram Doolittle of Hinsdale, sentenced to the penitentiary for 30 years in 1876, for murder in the second degree.

The trial at Boston of Capt. Douglas of the British bark Esse for unlawfully landing Ah Chung, a Chinese laborer, has developed the fact that there is no existing treaty between the United States and England by which a seaman deserting from a British vessel can be apprehended and arrested in an American port.

John Walsh, the Irish suspect is in New Haven. He is canvassing for a paper devoted to Irish interests published in New York.

At Bethlehem, Pa., a slight break occurred in the ranks of the union steel workers Wednesday, and 15 of them resumed work.

Father Riordan of Chicago, who has been appointed a bishop and coadjutor of the archbishop of San Francisco, is only 38, and is thought to be the youngest Catholic bishop in the world. He was born in New Brunswick, but was taken to Chicago when quite young.

The Masonic fraternity in Weymouth, Mass., are to build a $10,000 hall for their use.

The American riflemen were banqueted in London Wednesday night by the British volunteers. There were loud cheers for President Arthur.

It is expected that the forthcoming bond call will include all the outstanding 3½ per cents not offered for exchange, amounting to nearly $31,000,000.

Wong Chin Foo of New York challenges Kearney to a public comparison in debate of the Chinese and Irish peoples, their arts, science and literature.

Major George H. Chandler, a lawyer of Baltimore, Md., and a brother of Secretary Chandler, is critically ill with neuralgia of the heart at the home of his brother John, in Canterbury, N. H. There has been a consultation of physicians, who are fearful that he will not survive.

Sporting Affairs.

Money has been posted in New York for a fight between Jim Murray and Frank Stevenson's unknown, for $1000 a side. The fight will take place within six weeks under London P. R. rules. The unknown is supposed to be either Frazier or Greene.

A colored man ran from the Wamsutta House in North Attleboro, Mass., to Providence, R.I., 13½ miles, in an hour and three-quarters, without stopping once. The wager was $25.

E. O. Damon of Northampton, Mass., had another return Thursday from the pigeon loosing in Lynchburg, Va., distance 505 miles. The last bird was just ten days on the road. Though in fair condition, it seemed very glad to get home.

Hoadly's Nomination.

COLUMBUS, O., July 26.—A very spicy correspondence has been going on between Governor Foster and Hon. George Hoadly, because of an interview recently published in which the governor was made to say that Hoadley had paid $50,000 for the nomination. The following is Judge Hoadly's first telegram to the governor: "Is it true, as reported in yesterday's papers, that you said I admitted I bought the nomination of the Democratic party, etc.? I demand the authority for this statement, and denounce it as false in whole and in part. It is not the fact and no such admission was ever made. Answer." In reply to this, the governor says, had it been stated: "It is alleged Judge Hoadly had admitted," etc., he would have been correctly reported. He says he was informed by a reliable party that Mr. Hoadley said the nomination cost him $50,000. The governor asks Hoadly to say publicly what the nomination did cost. The publication of this correspondence creates a sensation in political circles.

Convention of Iowa Miners.

DES MOINES, Ia., July 26.—The Iowa coal miners and mine operators held a joint convention here yesterday. About 3500 miners were represented. The object of the convention was to consider the best means of bringing about an amicable adjustment of differences and the prevention of a strike. After discussion, a committee composed of representatives from both parties was appointed, with instructions to formulate a basis for work and report to another joint meeting Aug. 20.

Returned to Work.

BOSTON, July 26.—When the telegraphers' meeting was called to order, this morning, Master Workman Charles F. Chute announced that the report of the concession of the American Rapid telegraph company was true, and stated that the men in the employ of that company who struck were ordered to return to work. He then issued his order to that effect, and the men immediately proceeded to the office of the Rapid company. The remaining strikers adjourned to the steamship Empire State at Battery wharf, and embarked for a trip down the harbor.

"I Saw a very Ugly Ghost,"

A charming young lady of Brooklyn was relating some of the troubles she had had in the night. The ghost which walked into her room looked something like a scare-crow. She remembered that she had enjoyed a good supper of lobster salad. When asked how it was that she was able to be out of bed the next morning, she remarked that she always kept a bottle of Perry Davis's Pain Killer in her room, and that two moderate doses of this most efficient remedy had driven the ghost away.

Hardy, a man in jail at Harlan, Iowa, for a murder committed at Polk City a short time ago, was hanged by a masked band of lynchers July 24th.

We have Bland dollars, "dad's" dollar, trade dollars, gold dollars, greenback dollars, and dollars made up in an aggregate of cents, dimes, etc. Anyone of these will buy a bottle of Dr. Graves' Heart Regulator, the only certain cure for heart disease, nervousness and sleeplessness.

Nellie Rosenberg, of Philadelphia, fourteen years old, was drowned at Atlantic City, N. J., July 24th, while bathing.

It is the manifest destiny of Glenn's Sulphur Soap to supersede oily unguents for cutaneous eruption.

Dyspeptic, nervous people, "out of sorts," Colden's Liquid Beef Tonic will cure. *Ask for Colden's.*

A boat containing ten colored persons, two of them young girls, upset one night recently while crossing the James river at Claremont, Va., and eight of the party were drowned. They were on their way to attend a prayer meeting.

Mr. Joseph Sounia, Peterboro, N. H., says: "He considers Brown's Iron Bitters A No. 1, to give a person an appetite."

The funeral of Commodore Wm. N. Jeffers, U. S. N., took place in Washington July 24th.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

FRIDAY, JULY 27, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brewers, at his Newspaper Store in Congress Block.

Mr. Dauphin Sues the Postmaster-General.

M. A. Dauphin of the Louisiana Lottery Co. has entered suit in the District of Columbia against Postmaster-General Gresham, for $100,000 damages. His bill sets forth that he is engaged in a legitimate business, and has complied with all the legal requirements of the state in which his business is conducted. It recites the action of Postmaster-General Key in 1879, in directing the postmaster at New Orleans not to pay any money order drawn in complainant's favor, and to otherwise refuse him the privileges of the mails, and the subsequent order by which this was rescinded, and then charges that on July 9, 1883, the defendant, without reasonable cause and without hearing any evidence whatever, made an order restoring the order issued by Postmaster-General Key in 1879 to to full force and effect. This order, the complainant claims, was wilfully, maliciously, and oppressively made, and by it he was grossly injured.

The postmaster general probably relies upon the law which provides that no letter or circular concerning lotteries or gift concerts, or similar enterprises offering prizes, or concerning schemes intended to deceive and defraud the public for the purpose of obtaining money by false pretences, shall be carried in the mails. The Louisiana Lottery Co. will, we presume, show that theirs is a legally constituted concern, although Congress in 1876 struck out the word *illegal* in the section prohibiting carriage of this matter, so the prohibition should apply to all lotteries. But if the entire sense of the section is to be taken as the intention of the law, the company will doubtless convince the Washington jury that they do not intend to deceive or defraud the public. Again, Mr. Dauphin will endeavor to show that it is his private correspondence which is interfered with, and in case of such a showing it would seem to be simply a question of damages. Judge Graham may conclude that in such an exigency the lot of a P. M. G. is not a happy one.

The Cholera.

A despatch from Suez says that cholera has broken out among the soldiers of the British 42d regiment, which recently arrived there from Cairo. Two members have died from the disease.

Five hundred deaths from cholera are reported to have occurred at Cairo on July 23d.

A despatch to Reuter's Telegraph company says that during the twenty-four hours ending at eight o'clock A. M. on the 24th there were 463 deaths from cholera at Cairo, twenty-three at Zifteh, sixteen at Tantah, nine at Shirbin, thirteen at Mansurah, 117 at Chibin, forty-three at Mehallet, nine at Ghizeh and seven at Chobar. A British lieutenant died at Cairo from cholera on the 23d.

The United States authorities have ordered a rigid inspection of all vessels leaving London, Liverpool or other ports of the United Kingdom for this country. This is an important step; the cholera is likely to appear in England, and only extreme c e will then prevent it from reaching our sea-ports.

There have been several suspicious deaths recently at Naples, Italy, but the officials say the disease was not cholera; but the effects of the dead were burned.

The Yellow Fever.

The British steamer Andean arrived at Newport News, Va., July 25th, with yellow fever on board, one man having died the previous night. She was ordered to sea to bury the body, and to return to an anchorage opposite the Rip Raps; a hospital barge has been sent to her, to take out the sick.

Secretary Folger has ordered the revenue steamer Ewing to cruise between the capes of Virginia, to stop all vessels from foreign ports, and if any have sickness on board, require them to anchor near Ocean-View until boarded by health officers.

The steamer City of Washington, the vessel which left thirteen of her passengers and crew at Havana sick with yellow fever, arrived at New York on the 25th.

On Wednesday evening of this week, at the Methodist parsonage, Rev. J. E. Robins united in marriage Mr. Samuel W. Emery and Miss Lydia J. Hunt. Mr. Emery is a young man of energy and ability, and for a year or two past has done considerable work for the press, though we believe he has chosen the law for his profession. He will be heard of yet; we'll risk him.

The stockholders of the Maine Central railroad will meet at Augusta Aug. 14th, to decide if measures shall be taken to oppose the lease of the Eastern railroad to the Boston & Maine. Many of the large shareholders are reported to be opposed to the proposed lease, and will contest it to the bitter end.

The earnings of the Eastern railroad for the first half of July show an unprecedented increase, said to be the largest in the history of the corporation for the same length of time.

Col. French's remarks before the railroad committee are to be printed in pamphlet form for the information of the members of the legislature. He bitterly opposes the consolidation of the Eastern railroad with the Boston & Maine road.

MARRIED.

EMERY—HUNT. In this city, July 25th, by Rev. J. E. Robins, Samuel W. Emery, Esq., and Miss Lydia J. Hunt, all of this city.

DIED.

SIMES. At Larchmont Manor, New York, July 23d, Miss Elizabeth Blunt Simes of New York, daughter of the late Mark Simes of Portsmouth. [Interment in this city July 24th.]

DOWNS. In Milton, July 19th, Herbert A. Downs, aged 1 year and 9 months, youngest child of Arthur and Eva M. Downs.

No bitter tears for thee be shed,
Blossom of being! Seen and gone!
With flowers we strew thy bed,
O blest departed one!
Whose all of life, a rosy ray,
Blush'd into dawn and pass'd away!

PORTSMOUTH SAVINGS BANK.

THE Annual Meeting of this Corporation will be held at the Bank on Wednesday, August 1st, 1883, at 4 o'clock P. M.

JOS. HILLER FOSTER, Clerk.

July 24th, 1883.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that WILL it is a medicine possess- ing all and even more than we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and relieve yourself now this moment. It hits the right spot, and puts CONVINCE all the machinery of your body into working order.

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a raising appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO. Apothecaries, Lowell, Mass.

CATARRH ELY'S CREAM BALM

has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER.

Is a a liquid or snuff.

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays Inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WEATHER.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 52 degrees above zero.

Sky clear.

POLICE COURT--BATCHELDER, J

THURSDAY, July 26th.

William Quinn was complained of on four charges, two for malicious mischief, in breaking several panes of glass and a chair, and two for assault upon Loren Chapman and his wife, Rosa Chapman. The cases were continued to ten o'clock A. M. on the 27th, bail of $50 in each case being furnished.

THE VALVE SUITS.

The mayors of the five New Hampshire cities sued on the "patent-valve racket" had a meeting in Boston on the 25th inst., and were met at the Quincy house by the mayors of Boston, Worcester, Fall River, Taunton and Salem, Mass., and Biddeford and Portland, Me., other mayors invited not being able to appear.

It was stated that Norton would probably be willing to discontinue all further suits against the New Hampshire cities, if the cities would surrender to him the models, affidavits, etc., used in the late trial in this city; otherwise he will probably continue his suit on other counts. The continuance of the fight is for the benefit of every other city in New England, and this consultation was called to see if the cities outside of New Hampshire will bear the expense of all further suits against the cities in this state, if the latter will do the fighting.

The mayors present agreed (provided of course that their respective cities approve, of which there is no doubt,) that if Norton proceeds with his suit against Dover, or any other New Hampshire city, the other New England cities will pay all the expenses, the New Hampshire pool to superintend the suits.

Mayors Palmer of Boston, Woodman of Concord and Deering of Portland were appointed a committee to perfect the arrangements of the New England league.

SQUIRREL HUNT.

There was a lively hunting scene on Market square, Wednesday evening of this week, about two hundred boys of all sizes, ages and previous conditions getting up quite an excitement over the chase of a gray squirrel, reported to belong to Dr. John S. Perry. The squirrel took to one of the trees on Congress street near the North church, and as he did not seem inclined to come down, two boys climbed the tree to catch him. He dodged around from limb to limb, but finally one of the boys seized him,—only to drop him like a hot potato, however, the little animal's sharp teeth having come in contact with the captor's finger. Scampering down the boy's back the squirrel made a race for another tree, but was headed off, and at last was caught by a man, but not until the latter had got a good gash on the thumb. The roving squirrel, after this exciting experience, was returned to the owner.

THE TEN CENTS SAVINGS BANK.

Edward P. Kimball, Esq., assignee of the Rockingham Ten Cents Savings bank, in his report to the bank commissioners for the year ending with April, 1883, says: "At the time of making my last report as assignee of the Rockingham Ten Cents Savings bank, a contract had been made for the sale of the Cambridge land at a price which was then considered satisfactory, but the party failed to make the payments as agreed, and this large tract of land, comprising the principal part of the remaining assets, still remains on hand. With our best efforts, only a few small lots were sold last year. The season now opening has a more promising outlook for a closing-out sale, and the payment of a final dividend as large, I think, as has been expected."

A NEW HOTEL.

The hotel which Mr. Grant, proprietor of the late Gibson house, proposes to build on the burnt district, will be situated on the northeast corner of the lot; it will be of brick, four stories high, and will contain sixty rooms; will be heated by steam, nicely furnished, and supplied with an elevator. A double piazza will extend along the front of the first and second stories, and there will be a grass-plat several yards wide between the house and the street. A large stable will be built across the rear of the lot, to be approached by one wide driveway on the south side.

The business of the Gibson house had been very heavy all the season, and the work of rebuilding will commence as soon as the insurance is adjusted. Mr. Grant has received numerous letters of sympathy and encouragement from commercial people who had been accustomed to stop at the old house.

RECEPTION ON THE NAVY YARD.

A reception in honor of the officers and naval cadats on the United States ships Constitution and Dale was given on Thursday afternoon last in the ordnance building on the navy yard, by the commandant, captain and officers of the yard. A few bright-colored pennants were used in decorating the room, but not enough to hide the gatling guns, the captured rebel torpedoes, and other articles, on the floor, the rifles, swords and bayonets on the walls, or the old flint-lock muskets and other ancient weapons of war, which, with the scrupulous cleanliness everywhere apparent, rendered other adornment superfluous.

Among the distinguished guests were Hon. James G. Blaine, whose polished courtesy reminds one of Edward Everett; Ex-Secretary Robeson, and Mrs. Robeson, whose quiet dignity would make her remarked anywhere; Mrs. Davis (*nee* Frelinghuysen,) and many others prominent in society, a large number coming from the beaches. Commodore Wells was ubiquitous in endeavoring to secure the pleasure of all.

The scene was a brilliant one, resembling a parterre of flowers in which the colors mingle so harmoniously that it is difficult to pick and cull. Mrs. Benham, wife of the captain of the yard, received with marked grace and cordiality, dressed in a white silk richly trimmed with fringe, and simple black bonnet. Miss McG— was lovely in a blue Mother Hubbard dress, with white hat and heron feather, the realization of one of Scott's heroines. Miss G—, with her Gipsey type of beauty, was a very attractive figure, and Miss M. E— was picturesque in her cream-colored dress and quaint poke bonnet. Miss W—, the commodore's niece, looked charming in her dress of pure white, with graceful ostrich feathers; and so did Miss B—, with cream-colored dress, and white hat with black lining. Miss A. M— wore a striking costume, garnished with red currants; Miss M. D— of Philadelphia, a tall and graceful figure, was in brilliant garnet; and Miss M. S— was attractive in a cream-colored dress, dark brown bonnet and orange flowers. The sisters, Misses L. I. and E. H. C—, were excellent impersonations of Minna and Brenda, the night and morning of beauty. Mrs. B—, of Portsmouth, in dark silk and becoming hat with rich, dark feather, would have been sooner taken for the elder sister of the two fine boys bearing her name, than their mother. Miss M. S— was dressed in white, and straw bonnet lined with black, giving a rich effect to her sunny hair. But to note all the fair ladies and noticeable costumes would require a nearly full list of all who graced the reception by their presence, and more room than we have to spare.

The refreshments served were simple —ices, cake and lemonade—no wines nor punches; and should any of the young gentlemen in whose honor the reception was given ever be carried to ruin by their appetites, they will not be able to say that their first false step in that direction was taken on this pleasant occasion. F.

GOSSIPS SAY

That the Concord railroad has its eye on the Vaughan street burnt district.

That it is a splendid site for a passenger station.

That the health committee have been very dilatory in abating the roasted carcass nuisance on Vaughan street.

That mosquitoes are unusually numerous and venomous this season, and able to hold the wooded fort against all picnic parties.

That the biennial election bill has received its quietus.

That the legislature has ordered the Portsmouth delegation to report without delay on Urch's bill to amend our school laws.

That the bill incorporating the Portsmouth & Kittery Steam Ferry Co. passed its third reading on the 25th inst.

That the educational committee reported "inexpedient to legislate" upon Col. Sise's bill to set off a portion of Newington into one of the school districts of Portsmouth.

That July seems to be a good month for the advent of sons.

That our infant industries should be exempted from taxation.

That Special Agent McNear, of the internal revenue service, was in this city on Wednesday and Thursday of this week.

The engine in the building to be occupied by the Harvard Clock Co. was started up on Thursday last, and worked all right.

Mr. G. Bassett Parker, formerly manager of the Mutual Union telegraph office in this city, is now in the employ of an electric light company in Boston.

The schooner Charles H. Trickey, of Dover, on the morning of July 25th passed through the channel recently cut by the government at Allen's point on the Cocheco, being the first schooner to use the new channel, which is a great improvement to the navigation of the river.

A haycart drawn by oxen, driven by Mr. John B. Pickering of Greenland, was struck by an engine at the Concord railroad crossing in that town on the afternoon of the 25th inst., and knocked clear of the track, Mr. Pickering being considerably bruised.

Capt. I. P. Falls' barn on the Blackberry Hill road, South Berwick, was burned about two o'clock last Thursday morning, with its contents. Capt. Falls had just finished haying, and the whole crop, and his stock, farming implements, wagons, etc., were all destroyed. It is reported that the remains of a man were found in the ruins, supposed to be the body of a tramp who went into the barn to sleep, and accidentally set the fire.

Lieut. W. H. Reeder is detached from torpedo instruction at Newport, R. I., and ordered to this navy yard.

Lieut. W. I. Moore is detached from torpedo instruction, and ordered to the receiving-ship St. Louis, at League island, Pa.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

On Monday evening, July 30th, Mother Goose Singing Quadrilles will be given by sixteen couples, in costume, (after which dancing generally,) in Franklin hall, commencing at eight o'clock, in aid of Christ church and the Children's Home. Tickets of admission fifty cents, including refreshments. Donations of ice cream and cake earnestly solicited. Those willing to assist in this charity please send word what amount they will give, by Saturday morning, the 28th, to Mrs. Carpenter, 24 Middle street.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

SALT RHEUM.

Wonderful Cures of Salt Rheum when Physicians, Hospitals and all other means failed.

SALT RHEUM.
I have been a great sufferer with Salt Rheum for thirty years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and I come to the conclusion that I could not be cured. But a friend called my attention to CUTICURA REMEDIES. God blessed them and used them until my skin was perfectly smooth and I consider myself entirely cured.
Yours truly, B. WILSON LORD.
AGAWAM, MASS.

SALT RHEUM.
CUTICURA REMEDIES are the greatest medicines on earth. Had the worst case Salt Rheum in this country. My mother had it twenty years, and in fact died from it. I believe CUTICURA would have saved her life. My arms, breast, and head were covered for three years, which nothing relieved or cured until I used the CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally. J. W. ADAMS.
NEWARK, OHIO.

SALT RHEUM.
I had tried everything I had head of in the East and West for Salt Rheum. My case was considered a very bad one. My face, head, and some parts of my body were almost raw. Head covered with scabs and sores. Suffering fearful. One very skillful physician said he would rather not treat it, and some of them think now I am only cured temporarily. I think not; for I have not a particle of Salt Rheum about me, and my case is considered wonderful. Thanks to CUTICURA REMEDIES. MRS. S. E. WHIPPLE.
DECATUR, MICH.

SALT RHEUM.
No system of remedies ever compounded so thoroughly eradicate the diseases for which they are intended as the CUTICURA REMEDIES. Many remarkable cures have come to my knowledge, and I feel save in warranting satisfaction if directions are followed. *Medicines that so fulfilly cure Salt Rheum, as* CUTICURA REMEDIES *do, will cu e any kind of skin disease.*

DESIRABLE ESTATE FOR SALE.
THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 162 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.
July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 $: By mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. The startling whatever that the married or single, either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

PEABODY MEDICAL INSTITUTE, or W. H. PARKER, M. D., 11 dwly 4 4 Bulfinch St., Boston, Mass

ROYAL BAKING POWDER

MEDICAL.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while of the truth were known, the real cause is at the heart. The renowned Dr. Cheesebrough surprisingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a half, running not day or night! This subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)
F. E. Ingalls, Sole American Agent, Concord, N. H.

HEART TROUBLES

Yours for Health
Lydia E. Pinkham

LYDIA E. PINKHAM'S
VEGETABLE COMPOUND,
Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Women. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It will revive the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (1)

The Senatorial Fight.

The second ballot on the 25th resulted as follows:

Whole number of votes	312
Necessary for a choice	157
Harry Bingham had	111
William E. Chandler	65
Gilman Marston	33
Charles H. Burns	27
Austin F. Pike	25
James W. Patterson	22
Mason W. Tappan	19
Jacob H. Gallinger	3
Daniel Barnard	2
Benjamin F. Prescott	2
Aaron F. Stevens	1
Jacob H. Ela	1
Edward H. Rollins	1

and there was no choice.

Only one vote was taken on the 26th, as follows:

Whole number of votes	326
Necessary for a choice	164
Bingham had	116
Chandler	61
Pike	58
Marston	35
Burns	29
Tappan	15
Scattering	12

and there was no choice.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Lake Village has voted to build a high-school house not to exceed $12,000.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Hon. Warren F. Daniell, of Franklin, had a Jersey heifer valued at $500 die recently, from sunstroke.

"Those who deaden sensation and stupefy the patient to relieve suffering make a grave mistake. They proceed upon the false idea that it is legitimate to procure relief from pain by destroying physical sensibility. This method, carried to the last extremity, would kill the patient to end suffering. It is not presmed that Lydia E. Pinkham's Vegetable Compound will raise the dead, but it often does restore those who are given up as hopeless cases.

Rev. E. T. Latham of Suffield, Conn., has received a call from the Baptist church in Newport.

Why use a gritty, muddy, disagreeable article when Hood's Sarsaparilla, so pure, so clear, so delightful, can be obtained. 100 doses $1.00.

Deacon J. G. Blunt of Nashua was drowned at Marblehead, Mass., July 24th. He was one of Nashua's oldest merchants, a member of the firm of J. J. Blunt & Son, and a highly esteemed resident for many years.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

Cetewayo, the Zulu chief, has been defeated with a terrible slaughter of his men, by a rival chieftain. It is reported that Cetewayo himself was afterward slain.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

The railroad bridge over the Presumpscot river, Me., owned by the Westbrook manufacturing company, with six cars loaded with coal, fell July 23d.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The Chinese ironclad recently launched at Stettin, Germany, will sail for China Aug. 5th.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

The fishing schooner Smuggler, reported by a bottle picked up off Portland as in a sinking condition, has arrived at Gloucester all right. The bottle story was the idiotic hoax of some silly fool.

For five cents, Well's, Richardson & Co., Burlington, Vt., will send colored sample colors of Diamond Dyes.

The prospects of the mackerel fisheries are not encouraging. For the first time in many years a section of the Gloucester fleet has resorted to the Bay of St. Lawrence, with, however, no favorable reports.

The *Hop Plasters* have a wonderful sale, and why! Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggists, 25 cts.

Minnie, only daughter of Donald McKay, chief of the Warm Spring Indians, and well know in Boston, died in San Francisco on the 12th of July, from pneumonia, while journeying to the reservation of her tribe at Warm Springs, Oregon.

Dr. A. Page, Rushmore, O., says: "I have prescribed Brown's Iron Bitters in several instances, and in each case obtained good results."

MEDICAL.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

KIDNEY-WORT

IS A SURE CURE for all diseases of the Kidneys and —LIVER—

It has specific action on this most important organ, restoring it to three of health and action, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

Mr. J. H. Bates, Newspaper Advertising Agent, 41 Park Row (*Times* building,) New York, is authorized to contract for advertisements in the CHRONICLE and GAZETTE, at our best rates.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSE, Vice-President,

Daily Chronicle.

AROUND HOME.

A correspondent writes us that "The north millpond on the morning of July 27th was worthy the attention of those august gentlemen of the board of aldermen who have been unable to smell anything for the past three months." From personal experience we are able to attest that either the pond or some other agency distributed a most appalling odor as far as Market square at an early hour in the morning on the date mentioned.

Several yachts, including the steam yacht Sappho, of Boston, were in the lower harbor on Friday.

Lizzie Murphy, who was sent to the county farm at Brentwood from this city a week or two ago, was caught by the police on Thursday evening last and locked in a cell at the station, having deserted the farm. She either had a phial of laudanum in her possession when arrested, or some person handed it to her through the bars during the night, and she swallowed the entire contents. The officers speedily discovered her condition and summoned medical aid, and on Friday morning she was out of danger so far as that attempt at self destruction was concerned.

The overpowering odor of coal tar in the neighborhood of the postoffice on Friday came from the roof of the *Journal* building, which was receiving a thorough recoating.

It is stated that Mr. Wm. F. Fernald will shortly commence the building of another schooner, to be not quite so large as the one recently launched, the stock of the projected vessel being already nearly all taken. She will be commanded by Capt. R. H. Seaward, at present master of the schooner Cocheco, and one of the best of the many excellent skippers raised on the banks of the Piscataqua.

The steamer Empire State, with a large party, made a trip from Boston to the Shoals on Friday.

Catarrh of the Bladder,

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

The Howe sewing machine works in Bridgeport, Conn., were burned July 26th; loss $350,000; insured. Four hundred men are thrown out of employment.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

A jam of logs on Grand river, Mich., on July 26th started down the river, destroying three bridges, and sweeping on to the lake, doing damage to the amount of hundreds of thousands of dollars.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

At Joliet, Ill., July 25th, over a hundred persons at a lawn party were poisoned by eating ice cream in which some deleterious substance had been mixed. None have died but several are very ill yet.

HOW TO GET SICK.—Expose yourself day and night, eat too much without exercise, work too hard without rest, doctor all the time, take all the vile nostrums advertised, and then you will want to know

HOW TO GET WELL.—Which is answered in three words—Take Hop Bitters.

Some papers make fun of Gov. Butler because he wore the undress uniform of a naval commodore when recently on a yacht excursion. Well, under the constitution of Massachusetts the governor is "commander-in-chief of the army and navy" of the state.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew F. Preston, Druggist.

At High Grove, Ky., July 25th, two farm laborers. Daniel Wilkes, colored, and John McDougal, white, fought a duel with pitchforks, and both were fatally hurt.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ells's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

Horace B. Woosher, superintendent of the Seymour Manfg. Co. at Seymour, Conn., was crushed to death by a falling timber July 25th.

Dyspepsia dampens the ardor of many an aspiring soul. Why suffer from dyspepsia? Why be frightened over disordered kidneys? Why continue the miserable life of a dyspeptic, nerveless mortal? Brown's Iron Bitters will surely cure you. It has permanently cured thousands of cases where other remedies afforded only temporary relief. Ask your druggist concerning its merit. Try a sample bottle and you will be relieved of further mental and physical distress.

On July 25th the Georgia house of representatives unseated D. P. Proctor, a white representative from Camden county, and seated Anthony Wilson, colored, in his place. Wilson had been in two previous legislatures.

Why Should I

not have confidence in that which has done me a world of good. If you had suffered years with liver complaint and cured by using Sulphur Bitters, would not you too have confidence in them. *J.* R. Nash, Hotel Winthrop, Boston.

The Chicago city health commission has given $10,000 additional appropriation to keep the city clean.

TERRIBLE itching and scaly humors, ulcers, sores and scrofulous swellings cured by the Cuticura and Cuticura Soap (the great skin cures) externally, and Cuticura Resolvent (blood purifier) internally. Ask about them at your druggists.

John H. Pettingill, of Lewiston, Me., was swindled out of $1000 in that city July 25th, by three-card-monte men who were following Doris' circus.

CLEAR HEAD and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions brought about in catarrh by the use of Sandford's Radical Cure. Complete treatment for $1.

Henry Myers, aged fifty years, killed himself with a razor at Brockton, Mass., July 26th.

VEGETINE purifies the blood, renovates and invigorates the whole system.

Hon. Montgomery Blair died at his residence near Washington, D. C., July 27th, aged seventy years.

Beautiful Woman

are made pallid and unattractive by functional irregularities, which Dr. Pierce's "Favorite Prescription" will infallibly cure. Thousands of testimonials. By druggists.

—When a man turns over a new leaf he is too frequently near the conclusion of the book of life.

—The Washington *Gazette* gives a receipt how to catch a husband. It is to follow him when he goes out nights.

—Teacher—"Can you tell me which is the olfactory organ?" Pupil frankly answers—"No, sir." Teacher—"Correct." Pupil goes off in a brown study.

Who is the Prettiest girl in America?

Is a question that would perplex a congress of connoisseurs assembled to nominate the most beautiful. But such an assemblage would not be surprised to learn that the most charming of their sex, on this side of the Atlantic, embrace the beauty and preserve the soundness of their teeth with SOZODONT, since everybody knows that the ladies prefer it to any and all dentifrices. Let no man say after this, that women lack judgment.

SLIGHT ODDS.

A Little Story with a Large Moral—One Man Who knew his own Business.

"No, my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the counter. "No, my dear, we haven't any red flannel, but we have some first rate New Orleans molasses." Softly hinting that she didn't think that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Pa, what is BENSON'S CAPCINE PLASTERS?" asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as soon as it touches the skin."

"Not at present," replied the druggist, genially, "but we have lots of plasters just as good. There is Allcock's, the Capsicum and others—won't one of them do as well?"

"My dear sir," retorted the gentleman, with a slight show of temper, "I say nothing against those articles, but I am a Business man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that sometime ago, for another disease, of which the Capcine has since cured me, I tried all those you mention, with no appreciable benefit. They are inefficient, every one of them, the moment act of the proprietors of some of them being this: that they make plasters with similar sounding names to deceive the unwary into believing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day."

Be on your guard against imitations. The genuine has the word CAPCINE cut cleanly in the middle of the plaster.

Seabury & Johnson, Chemists, New York.

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

TERRIBLE CARRIAGE ACCIDENT.

A Ride to Death Behind Frightened Horses.

BAR HARBOR, Me., July 27.—From Northeast Harbor, the home of President Elliott, comes news of a sorrowful accident. As near as can be learned, the following are the particulars. Yesterday afternoon a party consisting of Mr. and Mrs. Case and daughter, Miss Pierce and Miss Lewis of Boston, and Miss Callie White of Baltimore, all well known in the highest social circles, took a cruise as guests of the yacht Neptune. Arriving at Southwest harbor, they took buckboards to return to Bar Harbor. When opposite President Elliott's house, and while the buckboard was in rapid motion, the king bolt broke, and the horses becoming frightened started on a furious run. The entire party, nine or ten in all, was precipitated to the ground, and all except one more or less injured. Miss Case was so seriously injured that she died in a few hours. Miss White had her wrist smashed to a jelly and her shoulder dislocated, besides sustaining numerous other injuries. The driver is so bruised and battered as to be unable to move hand or foot, while the remainder of the party all suffered more or less in body and limb, sustaining injuries that may lay them up for weeks. The affair has produced a most profound sensation among the hotel guests, especially at the immense Roderick House, where the party was staying. Nothing else is talked of, and gloom rests over the entire village. Miss Case is lying dead at President Elliott's house in North East Harbor.

New Line in Six Months.

NEW YORK, July 27.—In a letter this morning Mr. Rufus Hatch advocates the formation of co-operation telegraphy by telegraphers throughout the States and Canadas. He claims that with $10,000,000 the telegraphers could duplicate the service of the Western Union. He assumes that each member of the brotherhood could subscribe $100 each, at the least. He is confident that the money could be raised in ten days from the time of opening the lists, and that in six months new lines can be in operation. He assures the telegraphers of support by the public generally, who now sympathise with them in their demands.

Carey, the Informer.

LONDON, July 27.—The crown lawyers have given an opinion that James Carey is no longer a member of the town council, for the reason that his bankruptcy has vacated the town councillorship. This decision, if upheld, will greatly relieve the Dublin authorities, who have hitherto found themselves utterly unable to rid themselves of the municipal elephant which Carey has proven to be on their hands in this matter.

TELEGRAPHIC BREVITIES.

Rev. Homer A. King of Springfild, Mass., has been unanimously called to the Baptist church at Mystic, Conn., the oldest one in that state.

Probably the largest pension ever granted in Vermont has just been issued to Col. J. H. Walbridge of North Bennington. The certificate gives Mr. Walbridge between $6900 and $7000 arrears and continues at $30 per month.

In the Pennsylvania senate, yesterday, the Stewart congressional apportionment bill, which passed the house Wednesday, was negatively reported from the committee. A motion to place it on the calendar was defeated.

A joint exhibition of the Vermont state agricultural society and the Champlain Valley association will be held at Howard Park, Burlington, from Sept. 10 to 14, inclusive. The address will be made by Hon. W. M. Evarts.

Gloucester fishermen are discouraged to hear that half a dozen of the 40 or more seiners in the bay of St. Lawrence have found the fishing there so poor as to come southward to the Maine and New Brunswick coasts.

The Eureka consolidated mining company has levied an assessment of $1 per share.

The Maine legislature will make an excursion to Old Orchard Beach Aug. 20.

Mary Sexton, a Boston girl, 19 years of age, living in Milwaukee, Wis., is missing from her home under mysterious circumstances.

A bill to prevent the running of excursion and freight trains on Sunday has passed the Georgia state senate. The measure was fully discussed before final action was taken.

Hanlan says he will row Courtney a three mile race for $5,000 at any time when Courtney will declare himself in good condition, so that he cannot kick afterwards. Hosmer complains that Courtney has refused to meet him.

United States Detective Perkins arrested John S. Gordan, Robert McCleary, Albert Cranan and John P. Buck, Thursday morning, near St. John Run, W. Va. They are members of an organized gang of highwaymen who have been operating in Pennsylvania, Maryland and West Virginia for several months.

The Ward iron company of Pittsburg, Pa., has assigned, with liabilities of $150,000.

Hugh Riley of Lowell is charged with having inflicted a fatal gash with a scythe upon James McNamara, a young man who was annoying him.

Charles A. Collins of Hopkinton, Mass., was terribly hurt by the falling walls of a building he was tearing down, Thursday.

Members of the American rifle team, by special permission of the Queen, inspected Winsor Castle, Wednesday.

The striking telegraph operators in Boston issued a circular to the public Friday morning, asking that contributions to their relief fund, from which they are drawing $2500 a week, may be sent to P.O. box 2227, Boston.

It is thought that several cargoes of cholera-infected rags are on the way to New England, the vessels having sailed before quarantine regulations were established in English ports.

George A. Hamlin of Boston, an ex-private detective, has been arrested in New York for robbing a safe at 20 Harrison avenue, this city. Hamlin has been employed a great deal by temperance people in the prosecution of liquor cases, and has been a spy and "spotter" for Prohibitionists in many of their attempts to suppress the liquor traffic.

The full text of bond call No. 121, for the redemption of bonds of the 5 per cent. funded loan of 1881, continued at 2½ per cent., is published.

Congressman Murch says he is almost worn out by the Hill investigation, and that he would not be surprised if Hill was cleared.

Mr. Dennis Maurice O'Connor, home rule member of parliament for county Sligo, is dead.

—"Yes," she said, "I think Charlie is in love with me. His breath now smells of cloves instead of plug tobacco."

"I Saw Avery Ugly Ghost,"

A charming young lady of Brooklyn was relating some of the troubles she had had in the night. The ghost which walked into her room looked something like a scare-crow. She remembered that she had enjoyed a good supper of lobster salad. When asked how it was that she was able to be out of bed the next morning, she remarked that she always kept a bottle of Perry Davis's Pain Killer in her room, and that two moderate doses of this most efficient remedy had driven the ghost away.

Mme. Minnie Hauk, Mme. Durand and Mlle. Alice Urban, three celebrated prima donne now in Europe, are all Creole girls from New Orleans, and got their musical beginning at the French Cathedral in that city.

We have Bland dollars, "dad's" dollar, trade dollars, gold dollars, greenback dollars, and dollars made up in an aggregate of cents, dimes, etc. Anyone of these will buy a bottle of Dr. Graves' Heart Regulator, the only certain cure for heart disease, nervousness and sleeplessness.

Secretary Lincoln, with his daughters Mary and Jessie and his son Abraham, went on a fishing excursion from Atlantic City, N. J., July 24th, and Miss Jessie caught a shark weighing thirty pounds.

Mr. Joseph Sounia, Peterboro, N. H., says: "He considers Brown's Iron Bitters A No. 1, to give a person an appetite."

At Lexington, N. C., July 26th, Miss Jane Seague attended the funeral of Mrs. Bordenheimer, who committed suicide by hanging. Then going home, Miss Seague killed herself in precisely the same manner.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

SATURDAY, JULY 28, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

The Senatorial Fight.

There was a decided change in the relative positions of some of the candidates in the voting on the 27th, the result being as follows:

Whole number of votes	268
Necessary for a choice	134
Bingham had	89
Pike	65
Chandler	36
Martin	31
Burns	27
Tappan	10
Scattering	8

and there was no choice. Gallinger had two votes, and Benton, Lyman, Patterson, Stevens, Prescott and Ladd one each. It was agreed that no other binding vote should be taken till the 31st.

New Hampshire Legislature.

In the house, July 27th, the Portsmouth delegation reported "inexpedient to legislate" on the bill establishing a board of instruction for the city of Portsmouth, and the report was adopted.

The same delegation reported, in a new draft, the bill to amend the charter of the city of Portsmouth. It was ordered to a second reading; and the rules were then suspended on motion of Mr. Urch, and the bill read a third time. On motion of Mr. Stse, the rules were again suspended, and the bill passed.

The committee on fisheries and game reported inexpedient to legislate on the bill relating to the taking of smelts in the Piscataqua river and Great bay, and their tributaries. Adopted.

MARINE CHRONICLE.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City

eod4 ow 1883

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Society of Spiritualists, (in Good Templars' hall (over Morse & Haley's office,) services at 2:45 and 7:30 P. M.

Rev. Dr. Spaulding of Newburyport will preach in the Middle street Baptist church on Sunday.

Elder C. R. Crossett will preach in the Advent church.

Rev. A. C. Hardy of Concord will preach in the Advent church.

Rev. Arthur May Knapp of Watertown, Mass., will preach in the Unitarian church.

The schooner Good Templar, employed during the summer in taking out fishing and sailing parties from York harbor, got ashore on a rock at Badger's Island in this harbor on the night of July 26th, above the point where the excavating party is at work. She went on at the top of a very high tide, and did not come off at the next high water; and her skipper thought she would be hung up for some days, as the tides were decreasing.

DIED.

CATE. In Greenland, June 29th, Mrs. Mary Cate, aged 94 years.

Proposals for the Construction of a Life-Saving Station.

TREASURY DEPARTMENT:
OFFICE OF GENERAL SUPERINTENDENT, U. S. LIFE-SAVING SERVICE.
WASHINGTON, D. C., July 23d, 1883.

SEALED PROPOSALS will be received at this office until 12 o'clock, noon, of Saturday, the 11th day of August, 1883, for the Construction of a Life-Saving Station on Hunnewell's Beach, on the coast of Maine.

Bidders will state in their proposals the time within which they will agree to have the building completed ready for occupancy.

Each bid must be accompanied by a bond in the sum of five hundred dollars, with two good and sufficient sureties, conditioned that the bidder shall enter into contract without delay and give such bonds as security for the faithful performance thereof as may be required if his bid be accepted, or by a deposit of five hundred dollars U. S. Currency or bonds to be returned to the unsuccessful bidder after the award of the contract, and to the successful bidder after his contract and bond for the faithful performance of the terms thereof shall be approved by the Secretary of the Treasury.

Specifications and plans, forms of proposal, contract and bond, can be obtained at the offices of the Collectors of Customs at Portsmouth, N. H., and Bath, Me., the Deputy Collector of Rockland, Me., J. M. Richardson, Superintendent First Life-Saving District, Portland, Me., and Captains G. E. Sligor and J. H. Merryman, U. S. R. M., Superintendents of Construction of Life-Saving Stations, No. 24 State Street, New York City; and also upon application to this office.

All proposals must be endorsed "Proposals for the Construction of a Life-Saving Station," and addressed to the General Superintendent of the U. S. Life-Saving Service, Washington, D. C.

The right is reserved to reject any or all bids, or to waive defects if deemed for the interest of the Government, is reserved. W. D. O'CONNOR,
Acting General Superintendent.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing merit **WILL** we claim for it. It is a medicine of extraordinary merit, and even more than we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts **CONVINCE** all the machinery of your body into working order.

From the Registrar of Deeds for Middlesex County, Northern District.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend Hood's Sarsaparilla. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH ELY'S CREAM BALM

has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *Is not a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds,** large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

POLICE COURT--BATCHELDER, J

FRIDAY, July 27th.

William Quinn was before the court on two charges of malicious mischief and two charges of assault; cases continued to July 30th, $50 bail being required in each case.

Loren Chapman and Rose Chapman, keeping house of ill fame; continued to July 30th, on $200 bail for the man and $100 for the woman.

John Smith, a marine, drunk, fine $8, costs $6.90.

Nellie Parks, drunk, fine $3, costs $5.76.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, July 26th, Mayor Treat in the chair:

Present the full board, except Ald. Sampson.

The records of the last meeting were read and approved.

A communication from Mr. Wiggin, asking the abatement of the taxes on certain property of which he had charge, was referrrd to the committee on claims, to report at the next meeting.

The quarterly report of the city marshal was read and referred to the committee on police.

Bills of Timothy Lang of $29.50, of city farm against the street department of $138, and of A. K. Brown of $250 for street sprinkling, were approved and ordered paid.

The bill of W. B. Hussey of $18 for damages to awning caused by the discharge of fireworks, and that of John Sise of $20.50 for damages to building caused by the discharge of fireworks, were referred to the committee on claims to report.

The application of Charles W. Carter, for rent of spring market for lodging and victualling purposes during the days of the firemen's muster, was referred to the committee on city lands and buildings.

William A. Hodgdon was granted permission to encumber State street for building purposes.

The chief engineer of the fire department in a communication recommended the purchase of 2500 feet of new hose and the enlargement of the inlet pipe to the Parade reservoir and the bringing of Water from the Hanover street reservoirs to the corner of Vaughan and Congress streets. The recommendation was referred to the committee on fire department, with the Mayor and chief engineer added.

The bill for the trial of the Knibbs patent valve suit, was, it was stated due, and the treasurer of those who had the matter in charge was anxious to settle the matter up. The board authorized the Mayor to pay Portsmouth's share, which is about $8,850, $1000 having been previously paid.

The applications of George Bilbruck and John Conlon for relay of sidewalks was referred to the committee on streets with power.

Thomas Houghton was appointed a special policeman without pay, on board the steamer Taurus while in our waters.

The mayor, aldermen Hackett and Stavers were appointed a committee to purchase a safe for the city treasurer.

The city solicitor was instructed to draw up an ordinance prohibiting the discharge of fireworks in the compact part of the city.

Mayor Treat made a statement concerning the present condition of the patent-valve suits.

Daniel J. Vaughan, Mrs. Annie B. Wilson, Charles W. Gardner and Dr. A. B. Sherburne were appointed members of the school committee for three years.

The Taxes of Mrs. John Morrissey were abated by vote of the board.

Adjourned for one week.

AGAINST THE BRIDGE.

A small sloop yacht with two men on board, which had been lying near Noble's island, got under weigh shortly after four o'clock on Thursday afternoon last, and a few minutes later was carried by the flood tide against Portsmouth bridge, about midway between the two shores, and had her mast broken. She was held against the bridge until the tide was done running, when she got clear. She was lucky to get off so easily.

A raft of two hundred logs belonging to Daniel Mason of this city and Henry Bean of Newington, while being towed down the river by steamer Fearless on Thursday evening was carried by the ebb tide against the middle of Portsmouth bridge, and hit it a tremendous thump, but did it no apparent harm. The raft was about 500 feet long, and the sticks were piled up against the bridge to the height of six or eight feet above water. The logs broke apart, and most of them passed through the bridge and went off down river on their own account, Mr. Mason and his men being engaged all Thursday night and nearly all day Friday in securing them; most of the logs were recovered, one being picked up near Whalesback. A dory which was on the raft was not found.

GOSSIPS SAY

That the policemen's picnic was the biggest success of the season in that line.

That a hundred and fifty invited guests sat down to J. B. W.'s superb chowder.

That George was profuse in his declarations—"I declare now, that chowder is nice."

That in consequence of the absence of the big alderman, there were fried cunners enough to go 'round.

That the two judges never drink anything stronger than salt-water lemonade.

That the jovial marshal on this occasion sang his new song, "Billy Bar-*low*," for the 1000th time.

That Tom's voice does not diminish with age.

That some envious people say it does not improve, either.

That Officer Turner made an excellent commissary, and Officer Parsons wielded the dishcloth with an easy grace only to be acquired by closely watching how somebody else does it.

That Officer Shannon was chief of cunner strippers.

That Officer Abbott was made entirely hollow by his recent illness, and had to keep at work nearly all day to fill up.

That the steamer Taurus was saluted vigorously, her band returning the compliment.

That a Daniel street trader who made a little too close acquaintance with the big gun, found out that a powder flash will burn.

That the Kittery Point Steamship Co. furnished satisfactory transportation for the party.

That whoever gets an invitation to the policemen's picnic, and accepts it, can make sure of a good time.

That Col. Sise voted on Thursday last for Austin F. Pike for United States senator, thus breaking the unit rule which had prevailed on the republican side of the Portsmouth delegation in the house.

That the Methodist society will picnic at Pocahontas point on Wednesday next.

That two knights of the yardstick who were down river one evening this week, with ladies, got left on the flats by the falling tide, and while one escorted the ladies home by land the other waited in the boat for the tide to flow again, arriving up town at a late hour.

That they prefer to make their boat excursions entirely by water, instead of mixing them up with pedestrian trips, and will ask to have the flats removed.

That the local political pot, which last week was simmering, has now commenced to boil.

That it is quite among the possibilities that Hon. John S. Treat will not be renominated for mayor by the democrats.

That he has made a good mayor, and if he is not renominated it will be for partisan reasons only.

That the democratic political lightning may possibly strike Alderman John W. Caswell.

That Alderman Caswell, if elected mayor, would unquestionably give his best endeavors to faithfully and honestly serve the interests of the citizens.

That Mayor Caswell would probably be able to do no more partisan work than Mayor Treat has done—and wouldn't try to.

That the *Times*, in speaking of the defeat of the bill to amend the city charter, observes that "Major Urch, representative from ward four, deserves well of our citizens for the efforts he has made to preserve for them the right to elect their city government. His services will be gratefully remembered by all parties."

That this may be considered a mayoralty boom for Major Urch.

That the republican lightning is looking somewhat in the direction of Alderman William R. Martin.

That before it strikes him he will be required to give a solemn promise—"criss-cross, hope-my-die,"—that he will never again attempt to interfere with the ringing of the North church bell.

That William's former experience in attempting to silence the bell was not wholly satisfactory to him, and that he would not hesitate to promise to let it alone in the future.

That Ex-Alderman John H. Slater is just behind Ald. Martin, all ready to be struck in case the lightning should fail to hit the latter.

That Alderman Willard J. Sampson is talked of by a considerable number of persons, as a candidate for the republican nomination.

That very many republicans are of the opinion that the nomination of Ex-Mayor Sise would be a strong and a judicious one.

We are glad to note that the aldermen have made a move toward putting a stop to the letting off of fireworks in the compact part of the city. The last display came near causing more than one conflagration. This is an offence against the laws of the state, and such violation should not be permitted.

Some idea of the crippled condition of the Western Union Telegraph Co. may be gained from the fact that a despatch sent from this city at one o'clock last Thursday afternoon was delivered in Boston on Friday morning, though received by the company for transmission without conditions. The tone of some of the metropolitan papers shows that the Gould side of the question will be maintained by the New York and Boston sheets.

A large number of vessels were reported to be lying at anchor in the lower harbor on Friday last, waiting for berths at the Concord railroad wharf. Nine gangs of stevedores were at work on the wharf that day, discharging the vessels there.

A reception was given on board the U. S. S. Constellation, Friday afternoon, by the officers and cadets of the practice-ships now at the navy yard, and was numerously attended.

Rockingham Lodge, I. O. G. T., will hereafter hold its meetings on Wednesday evenings instead of Thursdays, commencing August 1st at eight o'clock.

The directors of the Portsmouth Machine Co. held a meeting on Thursday evening, July 26th, when the bids for building the machine shop were opened, and referred to the building committee.

A staging has been built around the chimney of the "head-house" at the navy yard, which is to be painted and painted, and have its top repaired. The chimney is 104 feet high, and has had nothing of consequence done to it for many years.

On Monday evening, July 30th, Mother Goose Singing Quadrilles will be given by sixteen couples, in costume, (after which dancing generally,) in Franklin hall, commencing at eight o'clock, in aid of Christ church and the Children's Home. Tickets of admission fifty cents, including refreshments. Donations of ice cream and cake earnestly solicited. Those willing to assist in this charity please send word what amount they will give, by Saturday morning, the 28th, to Mrs. Carpenter, 24 Middle street.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are added, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 112.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

SALT RHEUM.

Wonderful Cures of Salt Rheum when Physicians, Hospitals and all other remedies failed.

SALT RHEUM.

I have been a great sufferer with Salt Rheum for thirty years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and I came to the conclusion that I could not be cured. But a friend called my attention to CUTICURA REMEDIES. Got them and used them until my skin was perfectly smooth and I consider myself entirely cured.

Yours truly, B. WILSON LORD.
AGAWAM, MASS.

SALT RHEUM.

CUTICURA REMEDIES are the greatest medicines on earth. Had the worst case Salt Rheum in this country. My mother had it twenty years, and in fact died from it. I believe CUTICURA would have saved her life. My arms, breast, and head were covered for three years, which nothing relieved or cured until I used the CUTICURA RESOLVENT (blood purifier) internally, and CUTICURA and CUTICURA SOAP (the great skin cures) externally. J. W. ADAMS.
NEWARK, OHIO.

SALT RHEUM.

I had tried everything I had head of in the East and West for Salt Rheum. My case was considered a very bad one. My face, head, and some parts of my body were almost raw. Head covered with scabs and sores. Suffering fearful. One very skillful physician said he would rather not treat it, and some of them think now I am only cured temporarily. I think not, for I have not a particle of Salt Rheum about me, and my case is considered wonderful. Thanks to CUTICURA REMEDIES. MRS. S. E. WHIPPLE.
DECATUR, MICH.

SALT RHEUM.

No system of remedies ever compounded so thoroughly eradicate the diseases for which they are intended as the CUTICURA REMEDIES. Many remarkable cures have come to my knowledge, and I feel save in warranting satisfaction if directions are followed. *Medicines that infallibly cure Salt Rheum, or* CUTICURA REMEDIES *do, will cu e any kind of skin diseases.*

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorised to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 226 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most valuable work on Physiology ever published. The nothing whatever that the physiologist or physician requires or wishes to know but is explained.—[London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for kidney or liver trouble, or dyspepsia, while if the truth were known, the real cause is in the heart.

The renowned Dr. Cheadington, startingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting only one-third of the time! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)
F. E. Ingalls, Sole American Agent, Concord, N. H.

HEART TROUBLES

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND.

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Great Medical Discovery Blues the Days of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of humors from the blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Inclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (7)

HOP PLASTER

This plaster is famous for its quick and hearty action in curing Rheumatism Sciatica, Kidney Disease, Lame Back, Side or Hips, Sharp Pains, Pleurisy, Heart and Liver Troubles, Stiff Muscles, Sore Chest, Cramps, and all pains or aches in every part. It soothes, strengthens and stimulates the vital forces. Sold by druggists, everywhere at 25 cents.

A GREAT SUCCESS

Hop Plaster Co., Sole Manufacturers.
Mailed on receipt of price.

Official List of Patents

Granted to citizens of New Hampshire, for the week ending July 24th.

[Compiled weekly expressly for this paper.]

Levi M. Hawes, Hampton Falls, mowing and reaping machine.

Nathan P. Stevens, assignor to himself and L. D. Brown, Concord, machine for dressing hops.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

E. L. Dunklee of Milford, twenty-one years old, was drowned in the lake at Weirs on the night of July 25th.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

The Granite State fair is to be held at Dover from Sept. 11th to the 14th, inclusive; $2000 will be offered in purses for horse races.

Mrs Cole of Windham, N. H., declares that her life was saved by Hood's Sarsaparilla. She had 37 terrible scrofulous sores.

Edward Billeveau was drowned at Canaan on the night of July 24th, while rafting logs.

Are You Going

to travel? If so you must be very careful of your health, or your doctor's bills will cost you more than your travelling expenses. A bottle of Sulphur Bitters will protect you from all sickness incident to a change of climate.—*Evening Telegram.*

Rev. Dr. A. H. Quint, secretary of the national council of Congregational churches of the United States, has decided that the coming triennial meeting of that body shall be held in Concord, beginning Oct. 4th, and continuing about a week.

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. This original Nutrient and Tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into new life the entire process of digestion.

Hon. Daniel G. Rollins, surrogate of New York city, is paying a visit to his mother in Great Falls.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

James McCuen and a man named Seymour were on July 25th held in $8000 each at Biddeford, to answer before a higher court for assaulting and robbing William McKenzie on the highway. McCuen was also held in $1000 for feloniously assaulting Ellen Donlan.

Given up by Doctors.

"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you that it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

The "Faith convention" at Old Orchard, led by Dr. Cullis, began on Thursday, July 26th.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The wharf at Tivoli, Md., the breaking down of which on July 23d caused the loss of so many lives, was a rotten affair, unable to support a dense crowd. It was dark when the excursion barge arrived to take the people home to Baltimore, and by the fall of the pier several hundreds of shrieking women and children, with a few men, were thrown into water eight or ten feet deep, among the broken timbers. A similar accident, though fortunately not attended with serious results, occurred on the Saco river on the evening of July 21st, a Biddeford paper reporting it as follows: "While the steamer S. E. Spring was landing the moonlight excursion party at Hill's beach, Saturday night, the pier became crowded, and, being old and ill-jointed, fell through. Fortunately it was low tide at the time, and everybody scrambled out without injury." Had the tide been in, there would probably have been another horror to record.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

—A young lover in Iowa paid $40 for a locomotive to run him thirty-five miles to see his girl, and when he got there the family bull-dog ran him two miles and didn't charge him a cent. Corporations have no souls.

—An old Irish seaman at a prayer meeting in Dublin, in relating his experience, stated that when at sea in storms and tempests he had often derived great comfort from that beautiful passage in scripture, "faint heart never won fair lady."

Dr. A. Page, Rushmore, O., says: "I have prescribed Brown's Iron Bitters in several instances, and in each case obtained good results."

MEDICAL.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

KIDNEY-WORT

IS A SURE CURE

for all diseases of the Kidneys and

— LIVER —

It has specific action on this most important organ, enables it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, affecting its regular discharges.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company as such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSE, Vice-President,
aug28 Jamestown, Dakota.

Catarrh of the Bladder, Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

Miss Hattie Kennison, a tailoress of Lawrence, Mass., has instituted a breach of promise suit against Albert L. Colburn, senior member of the firm of Colburn Bros., periodical dealers, placing damages at $6,000. Colburn married Mrs. Marie I. Whittaker last week.

The Sea of Oblivion would long since have swallowed up Sozodont in common with so many forgotten tooth pastes and dentifrices, did not the experience of a whole nation prove that it possesses signal advantages. It thoroughly cleans the teeth, dissolving and removing their impurities; it revives their fading whiteness and strengthens their relaxing hold upon their sockets; it renders colorless, ulcerated gums hard and healthy; and besides neutralizing an unsavory breath, invests it with its own fragrance.

Mrs. Lucy Blackington, aged eighty-five years, living in New Salem, Mass., started from her house to pick berries Monday afternoon of last week, and up to Saturday no traces of her had since been found. The family searched for her Monday night, with others; about forty persons were in search for her Tuesday, about seventy-five on Wednesday, and a force was also out Thursday.

It is the manifest destiny of Glenn's Sulphur Soap to supersede oily unguents for cutaneous eruption.

Dyspeptic, nervous people, "out of sorts," Colden's Liquid Beef Tonic will cure. *Ask for Colden's.*

The steamer Rose Standish struck a rock in Boston harbor Friday, and had to be run ashore to prevent sinking. No person was injured, and the boat was pumped out and taken to a dock on Saturday.

"Those who deaden sensation and stupefy the patient to relieve suffering make a grave mistake. They proceed upon the false idea that it is legitimate to procure relief from pain by destroying physical sensibility. This method, carried to the last extremity, would kill the patient to end suffering. It is not presmed that Lydia E. Pinkham's Vegetable Compound will raise the dead, but it often does restore those who are given up as hopeless cases.

Information has been received at the Vatican from New York that the Catholic clergy in the United States will follow the instructions of the pope in regard to Mr. Parnell and his followers.

One voice all over the land goes up from mothers, that says, "My daughters are so feeble and sad, with no strength, all out of breath and life at the least exertion. What can we do for them?" The answer is simple and full of hope. One to four weeks' use of Hop Bitters will make them healthy, rosy, sprightly, and cheerful.

At Nashville, Tenn., the jury in the case of Polk, the thieving state treasurer, found him guilty, and fixed the penalty at twenty years in the penitentiary, and to pay back all the money stolen.

The *Hop Plasters* have a wonderful sale, and why! Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggists, 25 cts.

At Glen's Falls, N. Y., July 26th, W. A. Sherman and wife were bound by masked burglars, who obtained a small amount of money and about $1000 worth of jewelry.

"Hart" means a stag or male deer, and ought not to be confounded with "heart," which signifies a muscular viscus, the primary organ of the blood's motion in an animal body. For diseases of the heart, Dr. Graves' Heart Regulator is an absolutely infallible specific.

Rev. John Wakefield, aged eighty-six years, dropped dead in Thomaston, Me., where he was a resident, last week. He was a native of Bath, and formerly resided in Warren and Rockland.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

At Denver, Col., July 26th, Robert B. Beath of Philadelphia was elected commander-in-chief of the Grand Army of the Republic, on the second ballot, receiving 158 votes out of 270.

Daughters, Wives, and Mothers. We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Master Goodenow, aged fifteen years, son of Mr. Stephen Goodenow of Topsham, Me., who was wounded in the hand by a toy pistol several weeks since, is getting better slowly, after having a severe attack of lockjaw.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass.. "Ellis's Spavin Cure has cured him." It never disappoints.

Henry Welch and wife and Miss Alice Swartz were killed at the Manheim, Pa., crossing of the Pennsylvania railroad, last Friday, while trying to cross the track in a wagon ahead of an express train.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

The mother of Prof. Foster of Middlebury, Vt., college fell down stairs on July 22d, killing herself instantly. She had been visiting her son since April. She was sixty-seven years old.

,"He that is discontented in one place will seldom be happy in another." People are constantly changing their homes from East to West and from North to South or *vice versa*, in search of a healthy State. If they would learn to be contented, and to use the celebrated Kidney-Wort when sick, they would be much better off. The whole system can be kept in a healthy state by this simple but effectual remedy.

Byrne, late town clerk of Lake, Ill., stole from $8000 to $12,000 of the town's money.

By the collision of a passenger train with a car which had been blown from a side track to the main track, near Carlton, N. Y., last Friday night, seventeen persons were killed and fourteen wounded. Rev. Dr. Atwood of Canton and Rev. Dr. Fiske of Syracuse were among the killed.

As a household word, none is more familiar than St. Jacobs Oil, the great pain-cure.

—A mule resembles many mechanics—he is generally backward in his work.

—We frequently hear of a man returning thanks, but seldom money or an umbrella.

—A young bride on being asked how her husband turned out, replied that he turned out very late in the morning and turned in very late at night.

Dyspepsia dampens the ardor of many an aspiring soul. Why suffer from dyspepsia? Why be frightened over disordered kidneys? Why continue the miserable life of a dyspeptic, nerveless mortal? Brown's Iron Bitters will surely cure you. It has permanently cured thousands of cases where other remedies afforded only temporary relief. Ask your druggist concerning its merit. Try a sample bottle and you will be relieved of further mental and physical distress.

WILL CURE ALL DISEASES of the SKIN.

Vegetine

THE GREAT BLOOD PURIFIER

Dizziness, Liver and Kidney Complaint.

CINCINNATI, O.

H. R. Stevens—Dear Sir: I have received great benefit from the use of the Vegetine, and can safely recommend it for *Dizziness, Rush of Blood to the Head*, and a general blood purifier. It has also been used by other members of my family for *Liver and Kidney Complaints.* MRS. A. C. ULRICH, 200 Baymiller St.

PURIFIES THE BLOOD.

BOSTON, MASS.

Mr. H. R. Stevens—Dear Sir: I have been using Vegetine for some time with the greatest satisfaction, and can highly recommend it as a great cleanser and purifier of the blood. J. L. HANNAFORD, Pastor of Egleston Square M. E. Church.

A MEDICINE FOR CHILDREN AND ADULTS.

I testify to the beneficial effects of VEGETINE, as used in my family for the past six years. We consider it invaluable as a blood medicine for both children and adults, and endeavor to always keep a supply on hand. Yours, &c., G. A. JACKSON, Business Manager South Boston Inquirer

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springdeld. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

Having spacious and good accommodations and long and large experience, he solicits patronage in his line.

$30,000 FOR $2.

58TH

Popular Monthly Drawing of the

COMMONWEALTH DISTRIBUTION CO.

In the city of Louisville, on

TUESDAY, JULY 31st, 1883.

These drawings occur on the last day of each month (Sunday excepted.) Decisions of publication by Federal and State Courts have placed this company beyond the controversy of the law. To this company belongs the sole honor of having inaugurated the only plan by which their drawings are proven honest and fair beyond question.

N. B.—The Company has now on hand a large capital and reserve fund. Read carefully the list of prizes for the

July Drawing.

1 Prize	$30,000	100 Prizes	$100 each	$10,000

Remit money or bank draft in letter, or send by express. Don't send by registered letter or post-office order. Orders of $5 and upward, by express, can be sent at our expense. Address all orders to R. M. BOARDMAN, Courier-Journal Building, Louisville, Ky.

PATENTS!

R. H. EDDY,

No. 76 State St., opposite Kilby Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior abilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1883. eod1y

TELEGRAPHIC BREVITIES.

The postoffice department at Washington is draped in mourning in respect to the late Montgomery Blair, ex-postmaster-general.

The treasury department has made a ruling that certificates of registry cannot be issued to vessels under five tons burden.

A dispatch from Springfield says: "The story that Gov. Butler gave Williams college $5000 at the late commencement is without foundation. The money was given by a graduate."

Fifty conversions are reported as a result of the revival labors in the South Framingham Baptist church by Evangelist C. C. Luther of Worcester, Mass.

Counsel for ex-treasurer Polk at Nashville, Tenn., moved for a new trial, Friday, on the ground of the incompetency of the jury.

S. S. Cox has been interviewed as follows: "Who is going to be the next speaker?" "Ask the New York delegation. They are a compact unit." "For whom?" "Ask them. My canvass is in the hands of Gov. Dorsheimer and Gen. Slocum, and I am willing to trust them with it."

The war department is informed that the body of the late Gen. R. O. C. Ord has been embalmed and will remain in Cuba until autumn, when it will be brought here.

The soldiers' reunion at Columbus, O., closed Friday. The principal feature was a grand parade, in which it is estimated that 8000 people participated. About 150 regiments were represented in the line.

The annual meeting of the national civil service reform league will be held at Newport, R. I., on Wednesday next. Mr. George William Curtis will deliver an address at 11.30 A. M., in the Channing memorial church.

Gen. Wallace, the American minister to Turkey, has sent a fresh note to the Porte demanding a prolongation of the treaty of commerce between Turkey and the United States, but agreeing to a revision of the tariff.

It is reported from Monterey, Mexico, that the Spanish minister has been recalled, and that a serious rupture between the two countries is possible.

The closing exercises of the national encampment of the Grand Army of the Republic, consisting of music, parades, speeches and a grand display of fireworks, took place at Camp Vandervoort, Denver, Friday night. All unite in pronouncing this one of the most successful encampments ever held.

The failures reported throughout the country for the last seven days number 190, as compared with 168 last week. The geographical distribution was—New England states, 33; middle, 32; western, 37; southern, 29; Pacific states and territories, 20; Canada, 31; and New York city, 8.

The July cotton report to Bradstreet's gives the condition as only fair.

The entire collections of internal revenues for the fiscal year, ending June 30, 1883, amount to $144,553,266. The cost of collection was $5,120,000.

Judge Cullen of Brooklyn decides that the clause in the will of Peter Densel providing for the payment for masses for the repose of his soul is valid and must be carried out by the executors.

Sinews of War.

PITTSBURG, Pa., July 28.—District Secretary Hughes, of the brotherhood of telegraphers, has received word from the Grand Secretary Robert D. Layton of the Knights of Labor that the general officers of that organization had issued the first requisition to the district and local assemblies for funds for support and maintenance of the members of the brotherhood of telegraphers now on strike. This action will place $100,000 in the hands of the executive officers of the brotherhood on Monday, and it is equal to a per capita tax of 6 2-3 cents on each member of the Knights of Labor. When this sum has been exhausted other requisitions will follow, and Secretary Hughes states that they will continue the battle until January if it should become necessary.

The New Telegraph Scheme.

NEW YORK, July 28.—The executive committee of the brotherhood report that the results of their first day's work for the establishment of the merchants and telegraphers' telegraph company has encouraged them, and that they believe the project would succeed. They had received some thirty $300 subscriptions at the Manhattan Hotel, and also many letters making inquiries. A letter received in the evening from John D. Cutter & Co., said: "Subscriptions are coming in by dozens from telegraphers, clerks, merchants and manufacturers. We will own a line to Chicago in 10 days sure." The committee said that, as soon as $2,000,000 was subscribed, the work of erecting the wires would be begun, and that the first line would be run to Chicago.

Cries of Fraud.

FULTON, N.Y., July 28.—The press in this vicinity is almost unanimous in its denunciation of the regatta between Hanlan, Lee and Hosmer as a fraud. The party left for St. Paul, where they will row in an exhibition on August 2. Hanlan acted as treasurer in the ticket office in the day of the race here. It is claimed that the oarsmen have formed a combination by which the receipts of these so-called races are divided on a pro rata basis.

One Death a Day.

SAN FRANCISCO, July 28.—Advices from Honolulu state that the steamer Hankow, which carried 1500 passengers from London to that port, reports that fifty-five children died from the measles and whooping-cough en voyage. The vessel was fifty-four days out.

Cigar-makers Confident.

NEW YORK, July 28.—The striking cigar makers are still confident that their strike will be successful, and assert that the international union and the progressive union are not to shake hands and thereby end the strike, as rumored.

Arthur Accepts.

MADISON, Wis., July 28.—In response to an invitation, the President says that he will attend the state fair here, which takes place September 11 to 15, on his return trip from the Yellowstone.

Victory for the Haytien Rebels.

NEW YORK, July 28.—A dispatch received yesterday from Hayti said that General Bazelias, commander of the rebel forces had gained a decisive advantage over President Salamon and General Jacmel, and that Jacmel had declared in his favor. Bazelias will no doubt become emperor in a few days. Meanwhile Salamon and his few followers are still at Port au Prince, and will probably try to escape to Jamaica.

The body of Capt. Webb was recovered at Lewiston, N. Y., July 28th.

Miseries of Mosquito Time.

They bite at night with great delight, and put most people in a nervous fright. Their bills they stick with poisonous prick in children's flesh and make them sick. On buzzing wing the insects sing, before inserting their wicked sting. Victims complain of cruel pains and would rather not be bitten again. The pain to stop, apply one drop of Perry Davis's Pain Killer from the druggist's shop.

Paymaster C. P. Thompson is detached from duty in the bureau of provisions and clothing, and placed on waiting orders.

Surgeon D. McMurtrie is detached from the receiving-ship Franklin, and placed on sick leave.

Mr. Joseph Sounia, Peterboro, N. H., says: "He considers Brown's Iron Bitters A No. 1, to give a person an appetite."

The navy department has received the record of the proceedings of the court-martial which investigated the Mayo-McGlensey charges at the Norfolk navy yard. The report will not be made public until Secretary Chandler returns to Washington,—and Mr. Chandler has got hold of the senatorial rope at Concord, and cannot let go just yet.

If you feel dull, drowsy, debilitated, have frequent headache, mouth taste bad, poor appetite, tongue coated, you are suffering from a torpid liver, or "billiousness." Nothing will cure you speedingly and permanently as Dr. Pierce's "Golden Medical discovery." By all druggists. a

Democratic congressmen say that there will be a thorough investigation into the repairs put upon the United States steam tug Pinta, which, notwithstanding $150,000 have been expended on her, has just put back again to Norfolk for repairs.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

MONDAY, JULY 30, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

The Cholera.

A Liverpool (England) despatch says the town council having called the attention of the privy council to the danger to public health arising from large cargoes of rags received there from Egypt, the privy council sent in a reply in which they declined to interfere in the matter. The particular cargo cited was not intended to be landed at Liverpool, but to be conveyed to New York or Boston. The town council decided to apply for power to deal with rag cargoes.

The number of deaths from cholera at Cairo, July 28th, was 311; a British lieutenant and eight soldiers succumbed to the disease. Fifty-six deaths occurred at Ghizeh, forty-eight at Chibin, twenty at Tantah, twelve at Mansurah and twenty-five at Kafret Hamza.

Lord Carlingford, president of the British privy council, stated in the house of lords on July 27th that the government had no intention to enforce quarantine against shipping arriving at English ports, as it was thought impossible to establish an absolutely sure quarantine system. He said a medical inspection would be adopted.

A reception was given last Thursday evening on board the new steamship Alameda, just completed at Crump's shipyard, Philadelphia, for the Asiatic Steamship Co. of San Francisco. Among those who took part was Maggie Crump, eighteen years old, daughter of Joseph Crump, of the shipbuilding firm. On leaving the ship she made a misstep, fell into the river, and was drowned.

In Bangor, Me., last week, James Currier, a notorious dead-beat, was arrested for obtaining money by false pretences and imposition upon Dr. J. K. Lincoln, a well-known dentist, whose mental condition is deplorably weak. Currier was sentenced for three months in the county jail. By his confession it is learned that he and a gang of eight or ten other beats have obtained between $300 and $600 from the doctor.

At Wheeling, Va., July 26th, an aged woman, well dressed but entirely destitute of money, went to police headquarters and asked for aid in reaching Washington. She stated that she was a daughter of Vice President King, of Pierce's administration, and wife of Gen. Hunter, President Jackson's minister to St. Petersburg. She gave her age at seventy-four years, and said she was married at the age of fourteen, her husband then being thirty-two years old, and that she spent the first six months of her married life at the czar's court.

The steamer California, from the West Indies, arrived at quarantine below Baltimore, July 28th, with four cases of yellow fever on board.

Railroad Commissioner Wildes of Maine has made a reconnoisance of a proposed road from Strong to Kingfield, and found the grades easy, and thinks very favorably of the project. He says the length of the road will be fourteen miles; that it will develope much valuable timber land, and can be constructed for about $3,000 per mile, or about $30,000.

A family in Craftsbury, Vt., is terribly afflicted. The father has a cancer on his forehead; two daughters are rapidly running down with consumption; a son, on whom the family has largely depended for support, is in very poor health, probably in consumption; and the mother, worn out with labor and anxiety, is raving crazy.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

DIED.

BROWN. In this city, July 28th, Mr. Edmund M. Brown, aged 80 years.

☞ Funeral on Thursday afternoon at half-past two o'clock, from his late residence, No. 67 State street.

PETERSON. In this city, July 28th, Mrs. Martha Peterson, aged 64 years, widow of Paul Peterson.

BURLEIGH. In Lawrence, Mass., July 24th, Mrs. Lucy Burleigh, aged 90 years, 10 months and 12 days, widow of Ezra Burleigh, and daughter of the late Thomas Hyde of this city.

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare that it is a medicine possessing even more than **WILL** we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts **CONVINCE** all the machinery of your body into working order.

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH ELY'S CREAM BALM

has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

Sky clear.

MUNICIPAL EXPENSES.

This is the season when the patriotic citizen cheerfully pays tithes of all he possesses, and as he calls at the new office of the collector he naturally asks why are the taxes higher than those of last year.

The city councils which went out of office in August, 1882, appropriated for the year 1881 but $129,260, and expended $137,648. The unexpended sums from the previous year were $4757, but the excess of expenditures for 1881 above appropriations was $13,145.39. The appropriations for 1882 were $154,400, and the expenditures $152,318.

When the present city government was inaugurated Mayor Treat found that the appropriations had been exhausted, though the fiscal year had not expired by over four months. There was needed for streets and street lights, roads, sewers, support of the poor and other indebtedness seven thousand dollars, which had to be paid at once, to be repaid out of the appropriation of the present year. The present city government in starting was obliged not only to provide for this deficiency, but for a judgment against the city of $1167.39,—or in other words, to begin with $8167.39 indebtedness incurred by previous administrations.

The amount of the appropriation bill for '83, less the above-mentioned appropriations for deficiencies in 1882, was $133,475.74

The amount of such appropriations for 1882 was 125,593.24

$7,882.50

Now let us see what required this excess. The following table shows the amounts appropriated for several items in 1882 and 1883:

	1882.	1883.
Roads,	$1800	$2800
City buildings, (repairs, new hose tower, etc.,)	200	2300
Bridges,	100	1000
North millpond,		1000
New hook and ladder carriage,		1600
School houses,	1500	2300
Total,	$3600	$11,000
		3,600
Excess appropriated in 1883,		$7,400

It will be plain to the candid and mathematical mind that when one administration seeks to be "economical" and quarrels over the question of appropriations, postpones the assessment of the taxes, and reduces appropriations to a sum less than should be made, so that the mayor and aldermen in the administration of the affairs of the city are compelled to exceed the sums appropriated, the succeeding administration is obliged to appropriate and expend a sufficient sum to make up this deficiency. If the taxes are too low one year, there is the sum not properly appropriated, and the interest upon it while hired, to be paid the next year. The present city government has thus paid up the deficiencies left by its predecessors in office. The unfortunate disagreements of last year were this year avoided by the members of the councils coming together and agreeing upon the proper sums to be appropriated, and when the appropriation bill came before either branch it was passed without debate, because it had been carefully considered in a committee of the whole government, and the result was that all friction was obviated.

If the tax-payer will look into this subject he will be convinced that about an average sum is required for municipal expenditures, and if sufficient amounts are not appropriated in one year, they must be provided for in some other succeeding appropriation.

EDMUND M. BROWN.

Mr. Edmund M. Brown passed away at about two o'clock last Saturday afternoon, at the age of eighty years, lacking about two months.

Mr. Brown was a native of Stratham, and in his youth came to Portsmouth and learned the trade of a cabinet maker with the late Langley Boardman. He subsequently was in this business with the late Samuel M. Dockum, under the firm of Dockum & Brown, afterward with the late Alfred T. Joy, under the firm of Brown & Joy, and then associated with him his brother-in-law, Samuel F. Treadwell, and his son James C. Brown, under the firm of Brown, Treadwell & Co. For many years he has been in the cabinet business with his son under the firm of E. M. Brown & Co. He was a good mechanic, and years since taught many apprentices the trade, when it was the custom to have apprentices who mastered their trade before being employed as journeymen. It is believed that of all who were in business here at the time he entered it, he was the only one who remained in business at the time of his death.

He was a leading member of the Mechanics' Association, and had served as its president; and for many years was secretary of the Mechanics' Fire society. He was a member of St. Andrew's Lodge of Freemasons, and an Odd Fellow; had served the city as an alderman and in other capacities, and was twice a representative in the legislature. He was for some years, at a period more than forty years ago, superintendent of the Sabbath school of the First Baptist society, whose church edifice was on the site of the present Music hall.

Up to last summer Mr. Brown had borne the weight of his many years so well that few persons would have supposed him so old as he really was; but at that time he had a fall from a tree in his garden, and never fully recovered from its effects. He was confined to the house during the winter, but was able to be out a little after the weather became warm; the last time he was out was on the 14th of May last, when he attended the funeral of his former partner Alfred T. Joy, with whom he was associated in business for thirty years without any dispute ever arising between them. He suffered greatly during the final weeks of his illness, but bore it with the patient resignation of the sincere Christian. He was cheerful and good-tempered to an unusual degree, and abounded in courtesy to all; and whoever quarrelled with him would have to do all the quarrelling without his aid.

Mr. Brown married a daughter of the late Thomas Treadwell, and their wedded life extended over the long period of fifty-six and one-half years. Seven children were born to them, five sons and two daughters; the daughters are both dead, but the mother and five sons survive.

FREIGHTS.

Among the freight engagements to this port reported last week were a schooner from Poughkeepsie with sand at $1.55 per ton, and one from Perth Amboy with coal at $1.30.

GIVE THE REST OF US A CHANCE.

Mr. Editor: If this should meet the eye of the man who does not take the paper himself, and does not think there is much of anything in it, but who nevertheless goes to the reading rooms or the stores and spends a good part of the morning in mastering its contents in order to be able to remember everything sufficiently to repeat it on his arrival home, I would like for that person to understand that some of the rest of us have rights; that our families, too, want to know what is in the paper; and that while our time is valuable to *us*, we should not be kept waiting for our chance at the paper while the "Constant Reader," who like ourselves appropriates the public paper, is conning the columns.

A WOULD-BE CONSTANT READER.

Stephen R. Niles, Esq., is said to draw the rein over the best pair of horses in Boston. This is a matter of course, and an evidence of good judgment.

Many years ago Mr. Niles informed that the CHRONICLE was an excellent medium for out-of-town advertising for Boston merchants, and he placed advertisements of several leading houses in our columns. The result was that these merchants had faith in Mr. Niles' estimate of the value of advertising mediums. Increased orders followed, and Mr. Niles' business grew apace. He became famous in his business, so much so that he is the leading man in his especial calling in New England, and has we trust made a good thing out of it.

We saw the steeds the other day, and felt proud that we had done our share toward enabling our Washington street friend to make some of the best time on record, on the Jerusalem Road.

The drill-platform at Badger's island point was carried from its position on Friday night, and capsized. The steamer Clara Batemen was at work replacing it on Saturday.

A British schooner, laden with railroad ties, arrived at the Eastern railroad wharf on Saturday of last week, from a port in the provinces. The schooner Carrie A. Norton, with 791 tons of coal to J. Albert Walker, arrived from Philadelphia the previous day. The schooner Rockaway, from Boston with salt to E. F. Sise & Co., arrived earlier in the week.

The steamer Taurus did not make her trip from Boston to this city on Saturday, on account of the fog.

The steamer Startled Fawn on Friday of last week took a party of fifty-four persons from Newburyport to Newcastle. She was advertised to make an excursion from Newburyport to the Shoals on Saturday.

The State Temperance union and the Rockingham County Temperance association are to hold a joint convention on the 23d and 24th of August.

Thomas S. Gay & Co., are making a suit of sails for the schooner Elm City, a vessel of 628 tons register, hailing from New Haven.

The schooner Cocheco, Capt. R. H. Seaward, sailed from Philadelphia on Friday, July 27th, with a load of coal for Lynn, Mass.

Mr. J. Howard Dodge being about to close business, will sell by auction all the goods in store No. 37 Congress street, including crockery, glass and China ware, kitchen furnishings, plated ware, cutlery and antique goods. The sale will commence at ten o'clock Tuesday forenoon; Morse & Ilsley, auctioneers.

The schooner Priscilla T. Willis, from Baltimore with 300 tons of coal for Dover, was at the bridge Saturday afternoon, awaiting a tow up.

The practice-ships Constellation and Dale on Saturday received orders to sail from the navy yard July 31st, on a cruise. It is supposed they will return. It is also reported that the North Atlantic squadron has been ordered to rendezvous in the lower harbor the last week in August—the time of the firemen's muster.

Commander Mortimer L. Johnson and Chief Engineer D. B. Macomb have been detached from special duty at this navy yard, and placed on waiting orders.

The funeral of the late Gunner Eugene Mack, U. S. N., took place on Friday last from St. Anne's (Catholic) chapel in Somerville, Mass., the remains being interred in Waltham. The pall-bearers were Boatswain J. H. Aiken, Gunner F. B. Watkins, Carpenter J. E. Keen and Sailmaker H. T. Stocker.

Hon. Montgomery Blair, who died in Washington last week, was a native of Kentucky, and a slaveholder; but he was postmaster-general in Lincoln's first cabinet, and did much to support the president against the suggestions of some of the cabinet in 1861 that the southern ports should be abandoned. His wife was a daughter of Levi Woodbury.

It is supposed that the human remains found in the ruins of Capt. Fall's barn, recently burned in South Berwick, belonged to the demented person widely known in this section of the country as King David—a harmless vagabond who attracted attention by always wearing in his hat, when he could get them, the gayest-colored feathers, ribbons, etc. He was seen in that town the day before the fire, and asked at several places for lodgings, but was refused, and has not since been seen, unless the remains are his. It is presumed that he crawled into the barn and accidentally set the hay on fire.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

OF PARIS.

Instructor in the French Language

AND LITERATURE,

Proposes forming classes or taking private pupils in the French language. Prof. Masse will constantly converse with his classes and afford every facility for attaining a thoroughly colloquial knowledge of the language.

Prof. Masse will give lessons to classes at private houses whenever desirable, and would also be glad to make arrangements with schools. He begs leave to refer to the gentlemen and ladies whose names are below.

Rev. Edward J. Selden, Mr. Charles F. Sprague, Mrs. Ex-Gov. P. C. Cheney, Miss Mary M. Tolman, Miss Emma A. Blood, Miss Georgie E. Carpenter, all of Manchester; and Mr. and Mrs. H. E. Chamberlin, R. R. Supt., of Concord, N. H.

Those wishing to join the class will please leave their names and places of residence at either the *Times* or *Chronicle* offices. Prof. Masse will be here Tuesdays and Fridays. His resident address is at 27 Pewksbury Block, Manchester, N. H. jy12

AUCTION SALES.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *June 21, 1883.*

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Monday, September 24, 1883, at which time and place they will be opened, for the purchase of certain vessels which have been stricken from the Navy Register, under authority of an act of Congress approved August 5, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered, their appraised value and their locality are, the Congress, $25,400; Guard, $2,800; Kansas, $6,100; and Sabine, $10,400; at Portsmouth, N. H. Iowa, $44,000; Niagara 29,000; and Ohio, $15,700, at Boston. Blue Light, $500, and Florida, $64,400, at New London, Conn. New Orleans, $200, (on the stocks), at Sackett's Harbor, N. Y. Susquehanna, $9,000 at New York. Burlington, $3,600; Glance, $400; Supply, $1,300; Sorrel, $200, and Dictator, $33,800; at League Island, Pa. Frolic, $6,000; and Relief, $1,000, at Washington, D. C. Worcester, $25,400; Shawmut, $5,300, and Savannah, $10,600, at Norfolk. Roanoke, $37,200, at Chester, Pa. Fawnee, $5,500, and Seaweed, $500, at Port Royal, S. C.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent., or any part thereof, within that time, said cash deposit of ten per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandants of the Yards.

The purchasers must remove the vessels purchased from the limits of the Yards or Stations within such reasonable time as may be fixed by the Department.

WILLIAM E. CHANDLER.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating stoves, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The grounds are perfect. The lot measures 142 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the best [illegible] work on Physiology ever published. The working of what ever that the physiologist either requires or wish to know but which is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

☞ A STARTLING FACT! Heart troubles in the aggregate are infinitely more fatal to mankind than all other human beings put together! Over 1,000,000 Americans are now suffering from Heart Disease, and the majority are ignorant of the fact that they are thus afflicted. Sudden death is frequently the result of Heart Disease, and it is the cause of more than one-third of all the sudden deaths that occur. Dr. Graves' Heart Regulator is a positive specific for Heart Disease in any of its forms. Sold by druggists generally. Price $1 per bottle, six bottles for $5, by express. Send stamp for evidence of physicians' treatise on these diseases.

Dr. Nervous Prostration and Sleeplessness, Dr. Graves' Heart Regulator has no equal.

F. E. DERALIS, Sole Agent in America, Concord, N. H.

☞ Sold by all Leading Druggists.—$2 (G)

HEART DISEASE

A NOTED BUT UNTITLED WOMAN

[From the Boston Globe.]

Boston, Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily comes in upon her, such bearing the special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of leucorrhœa of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1, per bottle or six for $5, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed, as the abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier was discovered in her special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others."

Philadelphia, Pa. Mrs. A. M. D.

SHARP PAINS Crick, Sprains, Wrenches, Rheumatism, Neuralgia, Sciatica, Pleurisy Pains, Stitch in the Side, Slow Circulation of the Blood, Heart Diseases, Sore Muscles, Pain in the Chest, and all pains and aches either local or deep-seated are instantly relieved and speedily cured by the well-known *Hop Plaster*, compounded, as it is, of the medicinal virtues of fresh Hops, Gums, Balsams and Extracts. It is indeed *the best* pain-killing, stimulating, soothing and strengthening Plaster ever made. Ask for the *Hop Plaster* at any drug store. Price 25 cents or five for $1. Hop Plaster Co., Proprietors, CARTER, HARRIS & HAWLEY, Gen'l Ag'ts, Boston, Mass. (G)

HOP PLASTER

BUY AT HOME!

IF YOU WANT TO SAVE FROM $25.00 TO $100, IN THE PURCHASE OF A PIANO OR AN ORGAN.

It is a fact that D. H. MONTGOMERY is selling Pianos and Organs at *extremely low prices*. He keeps constantly on hand instruments of the very *best quality*, as well as medium and lower grades. Every instrument sold for *just what it is*, and warranted to prove *just as represented*. Prices are guaranteed to be from $25.00 to $100 less than is usually paid for the *same grade of instruments* when purchased in the large cities or of travelling agents or peddlers. All interested and desiring *more light* on the subject, should call and see for themselves at

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Patrick Kane, a roofer at Holyoke, Mass., fell from the roof of a four-story building one day last week, and died from his injuries. The accident was caused by boys who threw stones at Mr. Kane, and as he looked down to identify them he lost his balance and fell.

LONE JACK, MO., Sept. 14, 1880.
I have been uling Hop Bitters, and have received great benefit from them for liver complaint and malarial fever. They are superior to all other medicines.
P. M. BARNES.

There is no doubt that Sarah Bernhardt has definitely separated from Dam ala, and it is understood that legal talent is now at work to carry the point that the marriage was not according to law, and that Damala, therefore, has no claim upon her.

Your health depends on the purity of your blood. People who realize this are taking Hood's Sarsaparilla with the best results.

The current story that Gov. Butler gave Williams college $5,000 at the late commencement is without foundation. The money was given by a graduate.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ells's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

A Berlin despatch says Prof. Pullitz, who recently killed himself after drawing a death lot in a so-called American duel, refused to fight the duel in the ordinary way because his antagonist was short sighted. His death attracts serious attention to the duelling mania in Germany.

☞ For five cents, Well's, Richardson & Co., Burlington, Vt., will send colored sample colors of Diamond Dyes.

A hearing was held Friday before the judge of probate of Merrimac county, at Concord, on the citation of Mary J. Perkins to produce the will of her mother, Asenath Perkins, which, it is alleged by the executor, Chester Perkins, she has embezzled. The parties all reside in Pittsfield.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

William Cone was caught in a hand car crank on the Concord & Claremont railroad, and fatally injured. He lives in Sunapee.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Rogers Amero had not been sent from Digby, N. S., to Boston, up to Saturday night.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

The Massachusetts legislature adjourned on Friday, after the longest session on record.

Dr. A. Page, Rushmore, O., says: "I have prescribed Brown's Iron Bitters in several instances, and in each case obtained good results."

Additional advices from South Africa say that not only Cetewayo, but all his wives and many of his chiefs, were killed by their conquerors.

Hay Fever.

For twenty years I was a sufferer from Catarrh of the head and throat in a very aggravated form, and during the summer months with Hay Fever. I procured a bottle of Ely's Cream Balm and after a few applications received decided benefit—was cured before the bottle was used. Have had no return of the complaint. Charlotte Parker, Waverly, N. Y.

One and one-half bottles of Ely's Cream Balm entirely cured me of Hay Fever of ten years' standing. Have had no trace of it for two years. Albert A. Perry, Smithboro, N. Y.

Since boyhood I have been troubled with catarrh and Hay Fever, and have been unable to obtain permanent relief until I used Ely's Cream Balm. It has cured me. E. L. Clickener, New Brunswick, N. J. Price 50 cents.

Daily Chronicle.

Terrible Earthquake.

London, July 29.—The town of Casamicciola, on the island of Ischia, near Naples, was almost entirely destroyed by an earthquake last night. The neighboring towns of Forio and Lacceameo were greatly damaged. Hundreds of persons, more or less severely injured, have arrived at Naples by steamers. The shocks began at 9.30 last night. At that hour a majority of the people of the upper classes were at the theatre. Nearly all of the houses in the town collapsed. It is estimated that 1,000 person were killed and 800 injured. A number of steamers have been brought into service to carry the injured to Naples. The impression produced by the disaster is indescribable. Many of the victims belong to good families. Steamers loaded with injured people are constantly arriving at Naples from the scene of the calamity. The hospitals are already filled with sufferers.

London, July 30.—It is impossible as yet to give the number of the dead at Casamicciola. In the latest accounts the number is estimated at 3,000. The Hotel Piccola Sentinella sank in the earth and buried many of its inmates. Some of the inhabitants of the town escaped to sea at the first shock and made their way to Naples with the news of the calamity. The centre of the area of the shock was the same as that of two years ago, but the radius was wider. The shock was felt at sea, and, according to some accounts, even at Naples. A gentleman who was staying at the Hotel Piccola Sentinella, and who escaped with his life, relates that he only had time to secure some candles for use in the darkness of the ruins before the collapse of the building. A person who lived near the new ruined bathing establishment, says he escaped from the place amid falling walls and balconies, the terrified people shouting "To the sea."

The ground opened in many places, while in other places there was no movement. Water gushed out of springs. Several boilers in the bathing house burst. The theatre, which was a wooden structure, was literally opened, allowing the audience to escape. At Lacca there are many dead and wounded. At Forio the churches were ruined, but no one was killed. At Serrara 15 were killed.

Later telegrams state that all the hotels at Casamicciola are wrecked. The stories told by the survivors are horrible. Many Romans having villas at Ischia are known to have been lost. The dead are fearfully mutilated. In some cases corpses are plainly discernable through the ruins but they cannot be extricated. It is surmised that some persons are still alive in the cellars. A correspondent telegraphs this afternoon that judging from reports already at haud, the calamity will greatly exceed the Chios earthquake in 1881.

Rome, July 29.—The Naples correspondent of the Bersaglier telegraphs as follows: "I have just returned from Ischia. Casamicciola, Lacco and Force have been destroyed. They were three of the most flourishing communes on the island, which was half overthrown. The road between the two towns of Ischia and Casamicciola is impassible."

The train from this city to Naples today was crowded with passengers going to enquire as to the fate of their friends. There were very few English visitors on the island at the time of the disaster. None of the special dispatches mention American names among the killed and injured The syndic of Casamiccola telegraphs as follows: "The shock came with irresistible violence and was accompanied by a deafening noise. The confusion in the theatre was fearful. The lights were overthrown and set fire to the building. A dense cloud of dust filled the air. Cries of pain and terror were heard on all sides. On hearing the shouts "to the sea," a general rush was made toward the shore. Every boat and floating thing was taken by assault.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Ira B. Emery, aged twenty-two years, was drowned at Manchester July 30th.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

The office of *Among the Clouds*, on the top of Mount Washington, was struck by lightning on the evening of July 28th, the editor, Henry M. Burt, and two printers, being affected. Mr. Burt was the worst hurt, his legs being paralyzed for several hours.

The Sea of Oblivion

would long since have swallowed up Sozodont in common with so many forgotten tooth pastes and dentifrices, did not the experience of a whole nation prove that it possesses signal advantages. It thoroughly cleans the teeth, dissolving and removing their impurities; it revives their fading whiteness and strengthens their relaxing hold upon their sockets; it renders colorless, ulcerated gums hard and healthy; and besides neutralizing an unsavory breath, invests it with its own fragrance.

A despatch from Galesville, Texas, says Thomas Weaver, charged with horse stealing, but who was out on bail, was shot and killed by a mob in the western part of that county, Friday night.

Who has not seen the fair, fresh young girl transformed in a few months into the pale, haggard, dispirited woman? The sparkling eyes are dimmed, and the ringing laugh heard no more. Too often the causes are disorders of the system which Dr. Pierce's "Favorite Prescription" would remedy in a short time. Remember, that the "Favorite Prescription" will unfailingly cure all "female weaknesses," and restore health and beauty. By all druggists. Send three stamps for Dr. Pierce's treatise on Diseases of Women (96 pages). Address World's Medical Association, Buffalo, N. Y. *b*

The *News* of Omaha, Neb., says that Henry Raynor eloped a few days ago with the daughter of H. Pickett of Sidney. The father of the girl and Raynor met Saturday night, and pistols were drawn. Pickett is dead and Raynor wounded.

Mr. Joseph G. Walton, druggist at Sherbrooke, Cana., says that the conqueror of pain, St. Jacobs Oil, is the best selling article he ever handled in his trade.

The treasury department has decided that a tugboat may carry the master and crew of a vessel in a harbor without coming under the head of a passenger vessel.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

Gunner John G. Foster is ordered to Newport, R. I., to report for instruction in torpedo service.

Paymaster J. B. Redfield is ordered to duty at the Mare island navy yard, Aug. 15th.

Didn't Want a Girl.

Last summer my wife's health was all run down, and she wanted me to hire a girl to do the work. In a little while I found one I thought would suit her, when to my surprise she said I need not hire any one, as she felt better, and thought another bottle of Sulphur Bitters would cure her. DONALD GREY, 41 Worcester square, Boston.

Commanders Wm. B. Hoff, Charles E. Clark, R. I. Leary and D. W. Mullan, are detached from torpedo instruction at Newport, and placed on waiting orders.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

Capt. E. P. Lull has returned from leave of absence to duty at the Boston navy yard.

Lieut. N. H. Barnes is detached from toapedo instruction, and granted six months leave of absence.

One voice all over the land goes up from mothers, that says, "My daughters are so feeble and sad, with no strength, all out of breath and life at the least exertion. What can we do for them?" The answer is simple and full of hope. One to four weeks' use of Hop Bitters will make them healthy, rosy, sprightly, and cheerful.

Lieutenants Charles H. Judd, J. H. Hunsicker and Ensign L. K. Reynolds, are detached from torpedo instruction, and placed on waiting orders.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

Lieut. N. J. K. Patch has been granted one month's leave of absence.

Chief Engineer Charles H. Baker has been granted leave of absence for the month of August.

Dyspepsia dampens the ardor of many an aspiring soul. Why suffer from dyspepsia? Why be frightened over disordered kidneys? Why continue the miserable life of a dyspeptic, nerveless mortal? Brown's Iron Bitters will surely cure you, It has permanently cured thousands of cases where other remedies afforded only temporary relief. Ask your druggist concerning its merit. Try a sample bottle and you will be relieved of further mental and physical distress.

CARRIAGE AND SLEIGH STOCK.

Hubs, Spokes, Rims, Shafts, etc.; a fine lot of sleigh and pung dashers.

WHEELS! WHEELS!!

At Manufacturer's prices. Oak and Ash lumb

G. J. GREENLEAF.

MEDICAL.

WHAT MRS. BRUCE

Of 25 Grant St., Springfield, Mass., says about Her Husband's Sickness, and what Finally proved a Real Boon to Him—Words, of an Affectionate, Good Woman.

Mrs. Bruce says: "My husband is an employee in the United States Armory in Springfield. He has for years been a terrible sufferer from bilious sick headaches. He has fearful attacks of this kind. Sometimes they will come on him every week or so. He has never found any medicine which would give him any permanent relief or prove any preventive against these severe attacks until he tried Dr. Kennedy's FAVORITE REMEDY. He has received the greatest benefit from its use." The testimony of Mrs. Bruce is like that of hundreds of others, who say: "I procured a bottle of Kennedy's FAVORITE REMEDY, and used it with the best of results. I have no more headache or pain in the side. Indeed, the medicine seems to have an almost magical effect, and I feel very grateful for FAVORITE REMEDY. Dr. Kennedy is glad to recommend his medicine to all who are suffering from sick headaches resulting from any of the above causes, for it is a sure, positive cure.

To Keep the Blood Pure

is the principal end of inventions and discoveries in medicine. To this object probably no one has contributed more signally than Dr. David Kennedy, of Rondout, N. Y., in the production of a medicine which has become famous under the title of the FAVORITE REMEDY. It removes all impurities of the Blood, regulates the disordered Liver and Kidneys, cures Constipation, Dyspepsia and all diseases and weaknesses peculiar to females.

Sold by your druggist, $1.00 a bottle.

TELEGRAPHIC BREVITIES.

Ophir mining stock has been assessed $1 per share.

The Montreal customs officials have seized an immense quantity of American manufactured jewelry that was smuggled into the city from Boston and New York by agents who were selling to dealers 40 per cent. cheaper than when the rate of duty was paid.

The first comptroller of the treasury has decided that United States commissioners are not entitled to docket fees of $1, $2 and $3, like clerks of the United States court.

Mrs. Polly Shaw died at Northfield, N. H., Saturday afternoon, aged 101 years 2 months and 4 days.

The attorney for Marcus P. Norton et. al. has served a notice on the cities of Concord, Manchester, Nashua and Portsmouth, N.H., that the Knibb's patent valve suits against them are discontinued. Norton took this move, it is said, because all the New England cities using engines with the valve are about to pool to fight further suits against New Hampshire cities. Norton will now sue the cities of Massachusetts and New York.

The hay crop in the vicinity of Ottawa, Ont., has been nearly all cut, and by the end of the week will be housed. The crop is the largest in 20 years.

Mrs. Bridget Burke of Fall River, Mass., died, Friday, at the age of 105 years.

The effort of the St. Louis common council to impeach the mayor has been defeated.

Susan and Annie Hamilton and Maude Schrader were drowned in Hudson river at Yonkers, N. Y., Sunday.

The family of Thomas Stebbins and James Langley and wife, eight in all, living near Indianapolis, Ind., were poisoned Saturday by food eaten at dinner. Two of them are dead. The nature of the poison is a mystery.

Nine convicts escaped from Barrien Springs jail, in Michigan, Sunday.

Terry, the man who left Dover at 9 o'clock Saturday morning on a floating tricycle with the intention of crossing the English channel, arrived safely at Calais at 5 o'clock in the afternoon.

The disputed boundary line between Ontario and Manitoba has culminated in serious difficulties between officials of the two provinces.

Extensive preparations are being made by the New York bar association for the reception of Lord Chief Justice Coleridge, who sails for America, August 14. He will be the guest of the state of Massachusetts, September 5.

The wheat yield of Minnesota for 1883 will exceed that of 1882. There has been an increase of acreage amounting to 145,909.

Judge Drummond of Chicago gave judgment Saturday for $82,000 in favor of Rhodes & Bradley, and against the Cleveland rolling mill company. The defendants made a contract with the plaintiffs for 8000 tons of iron ore. When half of it was delivered ore went down and the defendants refused to pay the contract price. The judgment is for the difference between the market and contract prices.

It is said that schemes are afoot at Washington for the annexation of Chihuahua, a Mexican state, and the purchase of Cuba.

President Arthur's Scruples.

WASHINGTON, D. C., July 30.—The President was to have left for Louisville Sunday afternoon, but changed his purpose, and did not leave until 4 o'clock Monday morning. He sent word to the gentlemen composing his party that, in deference to the views of the Christian people of the country, he had determined not to begin an important journey on Sunday.

More Assisted Emigrants.

NEW YORK, July 30.—Steamship Furnessia which arrived last night, brought 270 assisted emigrants from Tralee, Ire., they being put on board at that port by an English gunboat. Fifty-seven more were to be included, but they got too drunk on the government funds to put in an appearance.

Suicide at Haverhill.

HAVERHILL, Mass., July 30.—B. B. Hall, a prominent shoe manufacturer here, committed suicide this morning by hanging in his stable. He was very wealthy, doing a large and profitable business. He had a beautiful home and fine family. The event has cause a profound sensation in the city. He was about 50 years old.

$3000 for the Strikers.

SAN FRANCISCO, Cal., July 30.—The theatrical performance on Sunday evening for the benefit of striking operators netted over $3000.

Hoadly and Foster.

NEW YORK, July 30.—A published letter this morning gives J. H. Woodward as Governor Foster's authority for saying that his nomination cost Judge Hoadly, Democratic candidate for governor of Ohio, $50,000. The letter is addressed to Governor Foster, and says that in conversation with Judge Hoadly, speaking of the Enquirer's opposition to him, the judge said: "My only ground for complaint which I have a right to use is that McLane made my nomination cost too much money, but I have the satisfaction of knowing that he wasted his own money." Mr. Woodward then remarked: "I have heard it cost you $50,000." "Well, that is too much for any one to spend for the office, to say nothing of the nomination." Mr. Woodward states that Judge Hoadly did not say directly that he paid $50,000, but he did say that Mr. McLane made him pay a great deal more than it ought to have cost. Mr. Woodward's letter concludes by saying that he would not have made the statement had he known it would have been made public.

Behind the Bars.

BOSTON, July 30.—Elmer H. Harris, about 20 years old, was arrested yesterday for passing forged checks. A few weeks since, it is alleged, Harris passed a check for $150, drawn on the Broadway national bank of New York, on the cashier at the Hotel Vendome, and then disappeared. The case was given into the hands of the detectives, who traced Harris to Newport, where it was learned he had been stopping at the Ocean House, and that he had left the hotel without paying his board, and had passed a worthless check, drawn on a Buffalo bank, on the proprietor. From there all trace of Harris was lost until yesterday forenoon, when he turned up at he Crawford House, Boston, where he was recognized. Harris of late has been travelling among towns in Bristol county as an exposer of spiritualism, and victimizing credulous farmers and tavern keepers. He also swindled Lewis Bros., tailors, of this city out of two suits of clothes it is said. Harris is said to be well connected.

—Virginia reel—intoxication in the Old Dominion.

Miseries of Mosquito Time.

They bite at night with great delight, and put most people in a nervous fright. Their bills they stick with poisonous prick in children's flesh and make them sick. On buzzing wing the insects sing, before inserting their wicked sting. Victims complain of cruel pains and would rather not be bitten again. The pain to stop, apply one drop of Perry Davis's Pain Killer from the druggist's shop.

Mrs. Polly Shaw died in Northfield, July 28th, at the age of 101 years, two months and four days.

Mr. Joseph Sounia, Peterboro, N. H., says: "He considers Brown's Iron Bitters A No. 1, to give a person an appetite."

The Unitarian grove meeting at Weirs closed last Sunday.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

TUESDAY, JULY 31, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

The funeral of Mr. Edmund M. Brown will take place this (Tuesday) afternoon at half-past two o'clock, and not Thursday, as before incorrectly announced.

Auction sale of crockery, glass, China ware, kitchen furnishings, plated ware, cutlery, antique goods, etc., at the store of J. Howard Dodge on Congress street, commencing at ten o'clock this forenoon. Everything in the store is to be sold; Morse & Ilsley, auctioneers.

The *Times* of Monday says: "We copy from the CHRONICLE, whose editor is a member of the present city government," etc. If this is true, somebody has been very remiss in not officially informing us of the fact long ago, so we could have taken our seat in whichever board we belong to. We did belong to the city government once, but supposed our term ended eight or ten years since.

The gross earnings of the Eastern railroad in June, 1883, were $300,637.28, against $284,662.10 for the corresponding month last year—a gain of $15,975.18.

The printers and engravers of the Cocheco print works had a big clam bake at Dover point last Saturday afternoon. Invited guests attended from Lowell, Mass., Providence, R. I., and other cities.

From seventy-five to a hundred excursionists for York beach came down over the Concord railroad on Sunday, and went from here in barges, the steamer City of Portsmouth not having arrived back from York to take them.

On Monday, July 30th, the air was so clear that the moon could be seen at noonday, although only lacking three days of completing her last quarter, the sun at the time shining brilliantly. The heavens were of the most brilliant blue.

Hans F. Anderson, an enlisted man on board the U. S. S. Tallapoosa, who was tried at this navy yard by a naval court-martial some weeks ago for insubordination, was found guilty, and arrived at the marine barracks in Boston on Friday evening of last week, to serve out a sentence of two years imprisonment.

The navy yard ferry steamer Emerald on one of her trips from the yard to this city last week brought across 140 passengers—by actual count, not "estimated"—and appeared quite unconcerned about it, going along as steady as a pump-bolt.

On Sunday evening next a sacred concert will be given in Music hall by the Wentworth house orchestra, assisted by Mrs. Martha Dana Shephard of Boston, pianist, and Miss Edith Wendell of this city. The orchestra, which includes some of the best solo talent in the country, is now in splendid working condition as a whole, and one of the best musical entertainments ever given here will be offered on this occasion.

Messrs. L. B. Parsons of New York city, who is largely engaged in the Florida trade; M. F. Berry, general agent of the American Express Co., whose central office is at No. 65 Broadway, N. Y.; and George Rand, of Rand Brothers, proprietors of the widely known and deservedly popular St. Cloud hotel, New York, were in this city on Saturday. Messrs. Rand and Parsons have been spending a few weeks at the Shoals.

Several hundred mackerel weighing nearly three pounds each were taken from the Harding weir on Sunday.

The steamer Taurus made a trip to this port on Monday, having about 400 passengers, and doing the run down in about four hours and a quarter. On her return trip from this port, Friday of last week, the steamer Empire State was sighted about twelve miles ahead when the Taurus was abreast of the Shoals, and the two boats ran up Boston harbor side by side.

Heavy Failures.

Charles W. Copeland & Co., boot and shoe dealers of Boston, with large manufactories in a number of towns in Massachusetts, failed on Monday morning, with liabilities of $750,000 or more, and nominal assets of $950,000.

Shortly after noon it was announced that F. Shaw & Bros., dealers in hides and leather on Purchase street, Boston, and owning immense tanneries in the United States and in Canada, had suspended, with liabilities of $2,000,000 or over, and nominal assets considerably in excess.

The worst cannot be known for some days, but many other business disasters must arise from these.

REPUBLICAN MAYORALTY CAUCUS.

The Republican Caucus for the nomination of a candidate for Mayor to be supported at the polls on Tuesday, August 6th, will be held at the Court House on Thursday afternoon, August 2d, from four o'clock to eight. PER ORDER.

THE FIREMEN'S MUSTER.

To persons who can take from twenty to 100 men to feed during the muster, the committee are now prepared to give out contracts for such, if parties who can do so will send postal card stating location of place, and price per meal for each man to W. J. SAMPSON, Chair'n Com.

All persons who have empty barns or enclosed sheds, who are willing to have them used by visiting engine companies for storage *only* of engines, hose carts, hook and ladder carts, during the three days of the muster, are respectfully requested to send a postal card, giving location of such to the undersigned.

W. J. SAMPSON, Chairman Com.

All persons who have spare lofts, rooms, unoccupied houses, etc., who desire to let them to companies during the muster, are requested to send postal card of such location, and also price of same to W. J. SAMPSON, Chairman Com.

There was a magnificent auroral display in the northern heavens on Sunday evening last.

The Jackson house on Jackson hill, Christian Shore, is one of the oldest houses in the city, if it is not the oldest. It was built about 1640, and until this summer has never been without a tenant. There were only three houses on that side of "Islington creek" before the north millbridge was built in 1764.

Mr. Frank A. Barnard has been appointed assistant freight master at the Eastern railroad freight depot in Lynn, Mass., vice D. C. Webster, resigned.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

eodjan29,84

For Dyspepsia, Indigestion, Depression of Spirits and General Debility, in their various forms; also as a preventive against Fever and Ague, and other Intermittent Fevers, the "**Ferro-Phosphorated Elixir of Calisaya,**" made by CASWELL, HAZARD & CO., New York, and sold by all Druggists, is the best tonic; and for patients recovering from Fever or other sickness, it has no equal. Tl

MEDICAL.

WHAT WILL convince you of the wonderful curative properties combined in HOOD'S SARSAPARILLA, if the remarkable cures that have been effected by its use fail to impress upon your mind this repeatedly proven fact? Thousands are using it, and all declare it is a medicine possessing unknown and even more than **WILL** it is a medicine all and we claim for it. My friend, if you are sick or in that condition that you cannot call yourself either sick or well, go and get a bottle of HOOD'S SARSAPARILLA, and realize yourself how this medicine hits the right spot, and puts **CONVINCE** all the machinery of your body into working order.

From the Registrar of Deeds for Middlesex County, Northern District.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

Hood's Sarsaparilla.

Sold by all druggists. Price $1 a bottle, or six bottles for $5. C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH — **ELY'S CREAM BALM**

has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *Is not a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

28th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extensive work on Physiology ever published. Nothing whatever that the married or single require or wish to know but will be explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

A NOTED BUT UNTITLED WOMAN

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is entirely devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed—abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in her specialline and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others

"Philadelphia, Pa. Mrs. A. M. D.

SHARP PAINS Cricks, Sprains, Wrenches, Rheumatism, Neuralgia Sciatica, Pleurisy Pains, Stitch in the Side, Slow Circulation of the Blood, Heart Diseases, Sore Muscles, Pain in the Chest, and all pains and aches either local or deep-seated are instantly relieved and speedily cured by the well-known *Hop Plaster*, compounded, as it is, of the medicinal virtues of fresh Hops, Gums, Balsams and Extracts. It is indeed *the best* pain-killing, stimulating, soothing and strengthening Plaster ever made. Ask for the *Hop Plaster* at any drug store. Price 25 cents or five for $1. Hop Plaster Co., Proprietors, CARTER, HARRIS & HAWLEY, Gen'l Agts, Boston, Mass. HOP PLASTER (q)

WHIPS of all qualities and prices. Larrabee's, Congress St.

President Arthur's Peril.

We do not know exactly how narrow an escape President Arthur had on Friday from the fate of Garfield, but according to the Hon. Phil Thompson, of Kentucky, it was very narrow indeed. The Kentuckian visited the president to seek an office for a constituent, and was so "cavalierly" treated that if he had not had the self-control to leave the room, he should have felt compelled to "resent" the conduct of the president. That Thompson's resentment might have taken the same form as Guiteau's did, is probable from the fact that he has already murdered a man who, he thought, had injured him. The incident, if correctly reported, suggests the propriety of this reckless ruffian being kept in Kentucky, where his peculiar sense of honor could be satisfied by the lives of citizens who approve his past life. If he must be left in Washington, his visits should be confined to the office of the commissioner of internal revenue.—*New York Times.*

Wells' "Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

Nine persons tunnelled out of the jail at Barrien Springs, Mich., July 28th; two were recaptured.

LONE JACK, MO., Sept. 14, 1880.

I have been uling Hop Bitters, and have received great benefit from them for liver complaint and malarial fever. They are superior to all other medicines. P. M. BARNES.

The body of Maggie Cramp of Philadelphia, the young lady who was drowned by falling into the Delaware river from the new steamship Alameda on Thursday evening last, was recovered on Saturday.

Much distress and sickness attributed to dyspepsia and chronic diarrhœa is occasioned by humor in the stomach. Hood's Sarsaparilla is the remedy.

By the capsizing of a skiff at Myersville, Tenn., on the night of July 28th, five negroes were drowned.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ells's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

Carey, the Irish informer, has arrived at Montreal, under the name of O'Neil.

Could not Keep

Shop without them. I consider your Sulphur Bitters a remarkable blood purifier. I know of several people whose cases were considered hopeless, that have been entirely cured by your medicine. The sale of Sulphur Bitters is so large here that I could not keep shop without them. E. S. YATES, Pharmacist, 99 Essex street, Lawrence, Mass.

By an explosion in a mine at Coltaniselta, Sicily, thirty-five miners were killed, out of a total of seventy in the mine.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Don Francisco Barca, Spanish minister to the United States, shot himself in a New York hotel, July 29th. Financial troubles, due to speculating in stocks, are believed to have caused the act.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The total number of persons killed by the railroad collision at Carlyon, N. Y., was twenty-two, among them being Prof. Stone of Battle Creek, Mich. The wounded numbered thirty-five, of whom three will probably die.

Dr. A. Page, Rushmore, O., says: "I have prescribed Brown's Iron Bitters in several instances, and in each case obtained good results."

—The woman who has a measure of beauty does not hide her light under a bushel.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

THE VALVE SUITS--FINIS.

Mayor Treat received a letter to-day announcing that Marcus P. Norton et als have discontinued their suits against New Hampshire cities. The accompanying letter and notice is a true copy of papers served on the several cities of the State.

In the Circuit Court of the United States in and for the district of New Hampshire.

First Circuit at Law.

Marcus P. Norton trustee, and others, Plaintiffs,

against

The City of Portsmouth, in the State of New Hampshire, Defendant.

Notice and order of discontinuance in this Suit.

To William H. Hackett, clerk of this Court, and to the Mayor of the city of Portsmouth, defendant; and to Wallace Hackett, Solicitor for the said Portsmouth; and to George L. Roberts & Brothers, of counsel for said city of Portsmouth:

Gentlemen.—You and each of you are hereby notified, and notice is hereby given to you, that this cause is hereby discontinued by the above named plaintiffs and by J. C. Caverly, their attorney of record; and the following order of discontinuance, together with this notice, will be duly filed in the office of the clerk of this court, and a copy of the same will be duly transmitted to the mayor of said city of Portsmouth, defendent.

J. C. CAVERLY,
Plaintiff's Attorney of Record.

Dated at Dover, N. H., this 26th day of July, A. D., 1883.

The above and foregoing notice and the order attached thereto, is hereby approved, ratified and confirmed on this 26th day of July, A. D., 1883.

MARCUS P. NORTON,
Plaintiff's Trustee.
Boston, Mass.

Order of discontinuance of the above entitled suit.

In accordance with the foregoing notice of discontinuance of this suit and on motion of the plaintiffs, by Marcus P. Norton, Trustee, and by J. C. Caverly, attorney of record for plaintiffs, it is now and hereby ordered that this suit be and the same is discontinued and stricken out from the calendar of this court.

Dated this 26th day of July, A. D., 1883.

The New Hampshire cities are out of the difficulty, and all is we believe due to the prompt and decisive action which the Mayors of New Hampshire in convention took to fight the suits to the bitter end. Their arrangement to enter into a pool with the New England cities undoubtedly had something to do with the above notice. The pool would have been a very formidable enemy for Norton to fight if he had persisted in carrying on his war.

POLICE COURT--BATCHELDER, J

MONDAY, July 30th.

William Quinn, malicious mischief, (breaking glass,) dismissed.

William Quinn, malicious mischief, (breaking a chair,) fine $2, costs $5.73. Appealed, and gave bonds in $100 to prosecute the same before the supreme court, and to keep the peace in the meantime.

William Quinn, assault on Loren Chapman, fine $5, costs $8.04. Appealed, and gave bonds in $100.

William Quinn, assault on Rose Chapman, adjudged guilty; case placed on file.

Loren Chapman and Rose Chapman, keeping a disorderly house, bound over in $300 each for trial at a higher court.

Thomas Hoyt, malicious mischief, (breaking glass,) pleaded guilty; case placed on file.

Thomas Hoyt, drunk, fine $5, costs $6.90.

Alfred Davis, drunk, fine $3, costs $6.90; county farm in default of payment.

John Connelly, drunk, fine $3, costs $6.90. Brentwood in default of payment.

PETTY BURGLARIES.

Some time during Saturday night the grocery store of Mr. Howard S. Laskey, on Pleasant street, was broken into, and between five and six dollars' worth of cigars stolen, the thieves getting in through a window. On the same night attempts were made to enter the stores of John J. Laskey and Charles W. Coleman, on Pleasant street; but at Mr. Laskey's place the thieves were frightened away by a dog which was in the store, and at Mr. Coleman's they failed to get in, though the upper sash of a rear window was found down and several panes of glass broken. The thieves are supposed to be boys.

Mr. Wm. B. Hussey's shoe store in Franklin block was entered on Sunday night, a pane of glass in a rear window being broken, and the catch thrown back. The goods in the store were subjected to a general overhauling, and a quantity of suspenders, shoes, slippers, etc., stolen. One of the thieves was evidently barefooted, and left on a sofa an accurate print of his muddy feet, from which it was judged he would wear a No. 5 boot.

"BOARDS" AND "RINGS."

To the Citizens of Portsmouth: The *Times* of Saturday makes a serious charge against the Board of Instruction, in saying that "it is an appendage to the political ring of the city." The board consists of Mrs. Helen C. Knight, Mrs. Anna B. Wilson, and Messrs. Mercer Goodrich, Charles H. Garrett, Jerome C. Butler, Daniel J. Vaughan, Charles W. Gardner, Charles E. Batchelder, Oliver M. Knight, John H. Locke, John A. George and John Pender; John S. Treat, mayor, chairman *ex-officio*. Seven of the members are republicans, four democrats, and the ladies cannot be politically classed; but the whole as a board know nothing of politics, and he who accuses it of being a political board cannot point to a single act to substantiate such a charge.

The board of instruction was organized in 1877 under a law precisely like the Dover school law, which allowed the members to be elected by the board of aldermen. The Dover law has since been modified, and only one-third are elected by the aldermen. The law created in 1877 allowed for a term of three years, instead of one as the previous law allowed, and is shown by the results to have been a good thing not only for the schools but for the tax-payers, as a perusal of the school reports will prove. When the present committee took charge they found in each of two school rooms, two teachers, and two recitations going on in the room at the same time,—an evil brought about by neglecting to transfer scholars to other rooms, because members of previous committees had friends whom they wanted to provide for. This evil was remedied, and a saving of seven hundred dollars secured. They also found two teachers each drawing one hundred dollars per annum more than any other teacher of the same grade in the city, for the only reason that they had had friends on the committee,—a state of affairs which was causing discontent among the other teachers; this was righted, as was the case of a male teacher doing the same class work as a number of lady teachers, and drawing double the salary.

It made no difference to the board when told that if such and such things were done Mr. Blank and such a society would make it hot for the board; it was a question of duty to the scholars, to the tax-payers and to themselves, and they dared to do their duty. It is well known to many that great pressure was brought to bear to put a certain gentleman in the position of master of the Academy, but as the board owed nothing to politics they paid no attention to the influence, and ordered a competitive examination which placed Mr. Edward C. Stimson* in the school instead of the persistent applicant, who stood at the foot of the list in the examination, thereby showing the wisdom of the board in their decision.

The amount paid for salaries in 1876 was $20,263.49, and the amount paid in 1882 was $16,576.00, showing a reduction in salaries of $3,687.49, this reduction being itemized as follows: Salaries of five teachers, averaging $350, a total of $1750, saved by the transferring of scholars; a reduction of $200 in the masters' salaries; a reduction in the salaries of the two ladies mentioned, $200, and one-half of the gentleman's salary, $375; a reduction of $200 in the writing master's salary; and the balance in a readjustment of all the salaries. And who can say that the efficiency of the schools has been impaired? The board claim instead that the schools have been improved. We now have a corps of teachers interested in their work, and who are continually on the alert for information in relation to school work, and for the purpose of gaining such knowledge spend considerable time and money in visiting school institutes, and schools in other cities.

Within fourteen months a teacher failed of an election partly on account of coarse and ungentlemanly talk in the school room, and had he shown half as much vim in conducting his school work as he has during the past year in abusing the present system of electing, which he favored two years ago, he would without doubt have been able to retain his school. Members of the school board would be pleased to give a few samples of his conversation and refer them to parties who can substantiate the same. Many of the parties affected in the attempt of the board to reduce the expenses by a systematic and business-like manner of carrying on the school affairs, are active in their opposition to the present system; but not one can say one word against the management of the schools, nor deny that their condition is better than it was six years ago, notwithstanding a reduction of over $4000 in the running expenses.

A thorough investigation of the whole question is all that is asked by the friends of education, they feeling satisfied that the verdict will be in accord with that expressed by a well known citizen that "the present system is the best, although I was opposed to it at first."

It is often remarked, unthinkingly by some, that there is a continual changing of text books in our schools. The records show that only two changes have been made during the past ten years, at a cost to each scholar of thirty cents.

No other city in the state has any ladies on the committee, and it is desired by some of the opponents to the present system to legislate them out of office,—a thing unheard of in New Hampshire, and worthy of just such as are trying to repeal the present law. No opposition has been made to a repeal of the present law, and if the parties who desire its repeal are sincere in the matter they will be content with a repeal, and allowing for an election at the expiration of the terms of the present incumbents.

The schools are important, and an interest should be taken in them by all; but how often it is that more interest is taken in a horse or dog by the owner than in the school wherein is to be educated one or more of his children. The capitalist puts one hundred dollars into an enterprise, and immediately takes some interest in its management, visiting the works, etc., but not so with the great and important interest of education.

JOHN PENDER.

*Whatever expressing any opinion either for or against the present method of electing the school board, and unsolicited by any member of the board, we here remark that Mr. Stimson was a democrat; and that of the lady teachers appointed by the board, a large proportion are members of democratic families. We fail to discern the slightest indication that the political predilections of candidates for teachers' positions have been considered by the board of instruction.—*Ed.*

CAPT. JOSIAH CHASE,

Of York, Me., for many years well known as the proprietor of "Chase's Mills," died in that town July 27th, in the 83d year of his age.

Capt. Chase was a very estimable and worthy man, strictly honest in business and all other relations; had held honorable positions in the town, and several times represented it in the Maine legislature. He was born, and always lived, in the house where he died, and from which his funeral took place on Sunday, July 29th; the obsequies were numerously attended, he having had a large circle of friends, far and near.

He leaves two sons and two daughters, namely: Josiah, an able and rising young lawyer of Portland; John L., who is conducting a large business at Waterloo, Iowa; Sarah, widow of the late Melville C. Freeman, of Cape Neddick House fame; and Laura, recently wedded to Dr. W. L. Hawkes.

Peace to his ashes; for a good man has gone. F.

[*For other local matter see second page.*]

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

PROF. MASSE,
OF PARIS.
Instructor in the French Language
AND LITERATURE,

Proposes forming classes or taking private pupils in the French language. Prof. Masse will constantly converse with his classes and afford every facility for attaining a thoroughly colloquial knowledge of the language.

Prof. Masse will give lessons to classes at private houses whenever desirable, and would also be glad to make arrangements for schools. He begs leave to refer to the gentlemen and ladies whose names are below.

Rev. Edward J. Selden, Mr. Charles F. Sprague, Mrs. Ex-Gov. P. C. Cheney, Miss Mary M. Tolman, Miss Emma A. Blood, Miss Georgie E. Carpenter, all of Manchester; and Mr. and Mrs. H. E. Chamberlin, R. R. Supt., of Concord, N. H.

Those wishing to join the class will please leave their names and places of residence at either the *Times* or *Chronicle* offices. Prof. Masse will be here Tuesdays and Fridays. His resident address is at 27 Tewksbury Block, Manchester, N. H. jy12

AUCTION SALES.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *June 21, 1883.*

In accordance with the provisions of the 3d section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Monday, September 24, 1883, at which time and place they will be opened, for the purchase of certain vessels which have been stricken from the Navy Register, under authority of an act of Congress approved August 5, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered, their appraised value and their locality are, the Congress, $25,400; Guard, $2,800; Kansas, $6,400; and Sabine, $10,400; at Portsmouth, N. H. Iowa, $44,000; Niagara 20,000; and Ohio, $15,700, at Boston. Blue Light, $500, and Florida, $64,400, at New London, Conn. New Orleans, $200, (on the stocks), at Sackett's Harbor, N. Y. Susquehanna, $9,000 at New York. Burlington, $8,000; Glaucus, $400; Supply, $1,200; Sorrel, $300, and Dictator, $33,200; at League Island, Pa. Frolic, $8,800; and Relief, $7,600, at Washington, D. C. Worcester, $25,400; Shawmut, $5,300, and Savannah, $10,000, at Norfolk. Roanoke, $37,300, at Chester, Pa. Pawnee, $5,600, and Seawolf, $500, at Port Royal, S. C.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent., or any part thereof, within that time, said cash deposit of ten per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandants of the Yards.

The purchasers must remove the vessels purchased from the limits of the Yards or Stations within such reasonable time as may be fixed by the Department.

WILLIAM E. CHANDLER.
d Mt sep24] *Secretary of the Navy.*

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room and to the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, etc. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

DOWN TO DEATH.

Terrible Accident to a Grand Army Excursion.

A Railway Train Goes over a Trestle into Black Canyon.

Many New England Delegates to Denver Aboard.

CHICAGO, July 31.—A special just received here from Leadville says: A telegram has just been received saying that the excursion train bearing the Grand Army ran off a trestle last night in Black canyon, near Grand river, and that 140 out of 170 of the excursionists were killed or wounded.

There were a large number of representatives from New England on the train, some of them accompanied by their wives.

ANOTHER ACCOUNT.

NEW YORK, July 31.—A Chicago dispatch states that a report reached there last night that a train bearing an excursion party of one hundred and seventy persons bound for the Grand Canyon was precipitated from the trestle crossing of the palisades of the Black canyon into the Gunnison river and that 140 persons were killed or wounded. The chasm known as Black canon, where the accident is said to have occurred, is on the Denver & Rio Grande railroad, just east of the Wasatch mountains. Up to 3 o'clock this morning there was no confirmation of the report.

Arkansas Outlaws.

LITTLE ROCK, Ark., July 31.—A dispatch to the Gazette from Hot Springs says: "An officer and posse in pursuit of the Montgomery, Zell and Garland county outlaws came up with the Daniels brothers and their bands on the mountains in Perry county, on the head waters of the Fourche la Fave river, on Sunday. The fugitives were in a stronghold, and a desperate fight followed, resulting in the killing of two of the pursuing party, Spelton Caldwell and Charles Carter. A man named Barnes was also killed. One of the blood-hounds which accompanied the posse was shot down. The pursurers had been drawn into a fastness, which the desperadoes had fortified and ambushed. The outlaws escaped without injury, though it is reported that one of them, Peal Blocker, has surrendered to Sheriff Nicholls. The full strength of the outlaws is unknown."

A Villainous Attempt.

DALLAS, Tex., July 31.—A villainous attempt at robbery on the Texas Pacific railroad was made about seventy-five miles west of here by setting fire to the bridge spanning the Brazos river. The engineer of an approaching train discovered the fire in time, and the train men and passengers, with the aid of a hose from the engine, succeeded in extinguishing the flames. The would-be robbers made no attempt to capture the train, as a number of Texas rangers and a detachment of United States troops who were aboard showed themselves when the train stopped.

The Strike in New York.

NEW YORK, July 31.—The brotherhood is arranging for paying the strikers to-morrow, as that is the old pay-day. The married members will receive $7 per week and the single men $4. In August I they will receive two weeks' pay, and it is estimated that it will take $125,000 to go around. This does not include the 4000 linemen, who will take about $25,000. In this city there are 400 operators and 100 linemen. About one-half of them are married, and the total amount necessary to pay them is about $7000. The payment of wages to operators and linemen and other expenses will make the total amount to be expended on August 1, $160,000. Toward these expenses there is a weekly tax on the members of the Knights of Labor, who are reported to number 800,000 men, who will contribute ten cents each, or a total of $80,000. To these figures the members of the brotherhood point with pride, and say that as long as the contribution overbalances the amount expended they can defy the Western Union until they finally bring them to terms.

Last night the Western Union officials informed the police authorities that they had reason to believe the striking operators were to make an effort to cut the North river cables. The police advised them to go home and go to bed, but finally put a force at their disposal on condition that the expenses were paid.

TELEGRAPHIC BREVITIES.

The steel mill at Bethlehem, Pa., where the men have been on strike, was in full operation Monday. The old mill will be in operation the latter part of the week, and by Monday next all departments may be working. Four blast furnaces are working, and two will be rebuilt.

Joseph Pratt of the Joseph Pratt company, wholesale manufacturers of boots and shoes, of Chicago, has assigned, with liabilities estimated at from $75,000 to $100,000.

Denis Kearney is on his way to California, but expects to be in Boston in August.

Leprosy is said to prevail to an alarming extent among Norwegians in the northwestern part of Wisconsin.

In the house of commons Monday night, Gladstone said that he did not intend to renew negotiations in regard to the new Suez canal as long as the question is hopelessly entangled in politics.

It is reported that Isaac S. Kalloch, late mayor of San Francisco, intends to settle in Washington territory, with an idea of making a new start in politics.

The longshoremen of Erie, Pa., have struck for an advance from 20 to 25 cents an hour. The month men demanded 20 cents an hour for extra work, and received the advance.

All the members of the cabinet are absent from Washington.

Horace B. Shepard, son of Rev. P. L. Shepard of Saybrook, Conn., killed his wife and himself in New York, Monday night.

The coroner's jury in the case of Captain Webb found that death was due to the shock from the reactionary force of the whirlpool waters, inspiration and vital action being destroyed by the great pressure.

The Chicago railway exposition was a financial failure.

The Fairmount hotel, York, had one hundred guests at dinner on the 22d ult.

Miseries of Mosquito Time.

They bite at night with great delight, and put most people in a nervous fright. Their bills they stick with poisonous prick in children's flesh and make them sick. On buzzing wing the insects sing, before inserting their wicked sting. Victims complain of cruel pains and would rather not be bitten again. The pain to stop, apply one drop of Perry Davis's Pain Killer from the druggist's shop.

At Wellington, Ohio, four little boys are under arrest charged with assault with intent to kill Lydia Fisher, a schoolmate.

The *Hop Plasters* have a wonderful sale, and why? Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggists, 25 cts.

While Susie Hamilton, ten years old, her sister Annie, thirteen years old, and Maude Shrader, ten years old, all of Yonkers, N. Y., were sitting on a rock on the edge of the Hudson river, Sunday, they accidentally fell into the water and were all drowned.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. I. Hood & Co., Lowell, Mass

Brackett F. Hall, a well known shoe manufacturer of Haverhill, Mass., hung himself in his stable July 30th.

"Hart" means a stag or male deer, and ought not to be confounded with "heart," which signifies a muscular viscus, the primary organ of the blood's motion in an animal body. For diseases of the heart, Dr. Graves' Heart Regulator is an absolutely infallible specific.

Mrs. William Latham, sixty-five years old, was killed by the cars at Shelburne Falls, Mass., July 30th. She dropped her sunshade on the track, and was struck while picking it up.

Col. A. L. Campbell, Waterborough, S. C., says: "A member of my family used Brown's Iron Bitters with good results."

The supreme court of Connecticut has decided adversely to Edward Malley of New Haven in the suit brought by him against an insurance company to compel payment of the policy on his burned dry-goods store. Companies holding $127,000 insurance on the store refused payment on the ground that the policies were made out to Edward Malley, while the store, when burned, was owned by E. Malley & Co., the partnership having been formed shortly before the fire, and the policies not having been changed. The case just decided was a test case. The "Malley boys" who won such unenviable notoriety in connection with the Jennie Cramer tragedy were one of them the son, and the other the nephew, of Edward Malley.

An Experience of Twenty Years

in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

WEDNESDAY, AUGUST 1, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

The Senatorial Fight.

The 38th joint ballot for United States senator was taken July 31st, with the following result:

Whole number of votes	315
Necessary for a choice	158
Bingham had	114
Pike	80
Burns	39
Marston	33
Chandler	21
Tappan	7
Gallinger	6
Scattering	15

and there was no choice.

The Earthquake.

It is estimated that at least 4000 persons perished on the island of Ischia from the earthquake.

The king and queen of Italy have subscribed 100,000 lire, and the pope 25,000 lire, for the relief of the sufferers.

Prof. Palmieri, director of the meteorological observatory on Mount Vesuvius, states that the disaster on the island of Ischia was not due to an earthquake but to the subsidence of the ground.

The Telegraphers' Strike.

The great strike of the telegraph operators has not yet ended, nor is there any sign of a speedy ending. The strikers have more of the public sympathy than any great strike ever before secured, and they are behaving like sensible men. The Western Union officials say they are getting along finely, and doing all the work that offers; but the work is not done, however. It is apparently a trial of endurance, and neither party seems tired as yet.

Solicitor General Phillips has prepared, at the request of the post office department, an opinion as to the liability of the telegraph companies for delays in the transmission of government messages. It has been sent to the attorney general at Long Branch for his approval or disapproval. Solicitor General Phillips declines to make its contents public. The law imposing a fine of $100 for each delay would seem to be clear.

THE FIREMEN'S MUSTER.

Many persons who have subscribed to the muster fund think it is to be paid at the time of subscription. Such is not the case, as a duly authorized collecter will be sent for such collection—probably a police officer—at some future day.

W. J. SAMPSON, *Chm. Com.*

REPUBLICAN MAYORALTY CAUCUS.

The Republican Caucus for the nomination of a candidate for Mayor to be supported at the polls on Tuesday, August 6th, will be held at the Court House on Thursday afternoon, August 2d, from four o'clock to eight. PER ORDER.

Schs Lillie, Littlefield, from York, and D K Ham, Garland, hence, arr at Boston 31st.

A Little Barber's Luck.

Talk with Theodore Volgt, who Drew $4,000 in The Louisiana State Lottery.

Theodore Volgt, a little German barber, was shaving a customer in the tonsorial establishment of Mr. Charles Baeumler, at No. 24 Avery street, when a *Star* representative entered that place to-day. Theodore has been in the shaving and shampooing line for about two years now, and is the proprietor of the "third chair" in the shop where he works. He is so small that his head scarcely comes up to the shoulder of an average sized man, and, consequently, up to within a few days he has not met with that universal respect that is to-day accorded him. Ten days ago Theodore thought, no doubt, that he would always have to toil from seven o'clock in the morning until ten o'clock at night for just about enough wages to keep his soul and body together. What a transformation, then, from poverty to comparative wealth has taken place in his case! To-day the almost friendless little German has a balance of $5,000 to his credit in one of the city banks. The object of the reporter's visit was to find out the particulars of Mr. Volgt's suddenly changed fortues. The lucky barber answered the scribe's question, while he continued to scrape the face of the man he had in hand.

"So you have struck luck, Mr. Volgt?" was the first interrogation of the *Star*.

"Yes, sir; I hit it the second time I tried. About two months ago I bought my first ticket in the Louisiana State Lottery, but did not draw anything. I made up my mind to try it once again, anyhow, and so gave my boss one dollar with which to make me a fifth-ticket for the drawing of July 10. I told my boss to buy a high number, and he selected No. 95,297. That ticket drew the second capital prize, $25,000.

"When was the first time you heard of your good fortune?"

"A week ago last Tuesday, when I received the official list. I was shaving a customer while some of my friends were looking over the list. They found that my ticket was the lucky one and showed me the list. I wish you would state in the *Star* that I did not drop my razor and stop work as a paper said I did. I went right on with my work, and when it was finished I went down and sent my ticket by express to M. A. Dauphin, New Orleans, La., for collection. Five thousand dollars in clean cash was returned to me, and I am very grateful to the gentlemen who have acted so honorably with me."

Mr. Voigt is a sober, industrious and prudent young man, who will make good use of his suddenly acquired wealth. He is not one of the kind whose heads are easily turned. He was born in Marklissa, Schlesien, Germany, is twenty-three years of age, and is the only one of his family in this country. He has several brothers and sisters at home whom he will undoubtedly assist, and will probably open a barber shop of his own in this city.—*Boston (Mass.) Star, July 26th.*

How to Remedy a Cross Neglect.

At the 12th June, '83, Grand Semi-Annual Drawing (the 157th monthly) of The Louisiana State Lottery, over $22,000 were scattered broadcast, and many who neglected to avail themselves then can be in time for the next, the 166th, on Tuesday, August 14th, by an immediate application to M. A. Dauphin, New Orleans, when $205,700 (1,067 prizes) will be distributed among 100,000 ticket holders.

Why suffer with Malaria? **Emory's Standard Cure Pills** are infallible, never fail to cure the most obstinate cases; purely vegetable—25 cents.

The glory of a man is his strength. If you are weakened down through excessive study, or by early indiscretions, Allen's Brain Food will permanently restore all lost vigor, and strengthen all the muscles of Brain and body. $1; 6 for $5.—At druggists.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars. Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH — **ELY'S CREAM BALM**

has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *Is not a liquid or smuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. MRS. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward. Its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds**, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 53 degrees above zero.

Sky clear.

POLICE COURT--BATCHELDER, J

TUESDAY, July 31st.

Timothy Falvey, for drunkenness, was fined $3, costs taxed at $6.90.

GOSSIPS SAY

That the manager of Hon. Frank Jones' farm has housed in fine condition 250 tons of hay, finishing the first of last week.

That at the reunion of the Huntress family in this city last week, five generations in a straight line were represented.

That arrangements are progressing favorably for the establishment in this city of a woollen-yarn industry from Newburyport.

That Internal Revenue Collector Putney's family are summering at Breakfast hill, Rye.

That the collector himself is sweltering away the summer among the ants and mosquitoes of Concord.

That the Portsmouth Machine Co. have awarded the contract for the mason work of the new machine shop to A. B. Trefethen of this city, and the carpenter work to a Mr. Sears of Boston.

That the Corliss Engine Co. of Providence, R. I., are building a double-action engine for the Machine Co.

That over 400 people dined at the Hotel Wentworth on Sunday last.

That a Manchester rough bit off a Portsmouth man's ear last Sunday.

That one thumb of that Manchester man remained in the Portsmouth man's mouth.

That it was about an even thing.

That a gentleman of this city, holding the reins over a balky horse, was three hours in reaching this city from the Hotel Wentworth on Monday evening.

That he smiled as though he had eaten unripe persimmons when his girl's other fellow offered him a tow.

WE EXPLAIN.

The *Times* of Monday says: "We copy from the CHRONICLE, whose editor is a member of the present city government," etc. If this is true, somebody has been very remiss in not officially informing us of the fact long ago, so we could have taken our seat in whichever board we belong to. We did belong to the city government once, but supposed our term ended eight or ten years since. —*Chronicle, July 31st.*

The above paragraph may be intelligible within the CHRONICLE office, but it is not so to us and others without. The article referred to by the *Times*, we have reason to know, was written by W. H. Hackett, Esq., who is a member of the city government, and if he has ceased to be the editor of the CHRONICLE, and that place is now filled by another, we were not aware of the change, and have neither seen nor heard of any announcement of his retirement. Certainly the earmarks of his writing have never ceased to appear in the editorials of the CHRONICLE. These being the facts, we think some explanation is due to the *Times* and to the public regarding the paragraph quoted from the CHRONICLE.—*Times.*

As our neighbor thinks "some explanation is due the *Times*," we will give it in a simple and concise form: No announcement has been made of Col. Hackett's retirement from the position of editor of the CHRONICLE, because he has not retired; this accounts for the *Times* being "not aware of the change," no change having occurred. All the same, the editor of the CHRONICLE is not a member of the city government, and has not been for many years. Seems as tho' our brother over the way might understand this easy enough.

SAD ACCIDENT.

Miss Mollie Flynn, a young lady about twenty years old, daughter of Mr. D. A. Flynn, of No. 1 Oneida street, Boston, was drowned at the Shoals on Monday afternoon, while surf bathing. It is said she was considered the most expert lady swimmer at the islands, but while standing on a rock conversing with a friend was struck by a heavy sea, swept off and overwhelmed. The body had not been recovered at last advices.

MATTERS IN YORK.

YORK, ME., July 30th.

On the morning of Wednesday, July 25th, what was known as the "mill-house," near J. P. Norton & Co.'s mill in York, was burned; loss $490 less than $500; no insurance; incendiary.

Eno is burning his third large kiln of 425,000 brick at Norton's yard.

A large quantity of hay was wet by the shower of Saturday morning, and it got wet some more Sunday morning, and for a P. S. again Sunday P. M.

Michael Connell of Dover, N. H., who keeps a confectionery saloon at York beach, was on Saturday interviewed by deputy sheriffs Stewart of York and Roberts of Alfred. Mr. Connell was caught napping, and the interview resulted in the find of one quart of Jersey lightning and two-thirds of a quart of new rum. Mr. Connell rode to Alfred with Dr. Stewart on Monday morning, "then and there in our said court" to pay a fine of $100 and costs, under the search-and-seizure act. He says he shall pull up stakes and "go to a better country"—or in other words he is going home—York beach is too hot!

And by the way, that John C. Stewart is quite a formidable personage, being a deputy sheriff; a constable; collector of taxes; an officer in the order of the Golden Cross; a large owner in the C. L. Grant & Co. line of stages; carrying the weapons of death in his medicine trunk, and instruments of torture in his dentist's pocket case! and has a large and continually-increasing practice in medicine.

There are two others who are selling the "critter" at York beach who are spotted, and "their calling and election is sure," it only being a question of time, and not a very long time either!

Mr. Charles Moulton has recently had his house repainted, making very much improvement in the appearance.

G. F. Plaisted, agent for the Furber pumps, has recently put one in the well near Mr. Walker's store, and it works admirably well. Mr. George T. Bragdon, butcher, paid for it, showing in Mr. Bragdon very much public spirit, as well as some self-interest. P.

The Wentworth house orchestra, which with Mrs. Shepard and Miss Wendell will give a concert in Music hall next Sunday evening, comprises sixteen pieces, including the zither soloist of the Germania band of Boston, and the first horn from the orchestra of Her Majesty's Opera Co. The performance on the zither will be an entirely new revelation to musical people, as to the capacities of this instrument. A choice programme has been arranged for the occasion.

The goods in Mr. J. Howard Dodge's store, No. 37 Congress street, are being sold by auction at far less than wholesale prices. The sale continues to-day, and there are many desirable articles yet to be disposed of.

The Crocker S. F. E. Co., of Turner's Falls, Mass., have arranged to come here during the muster. Reliance Hose Co., of Laconia, and Phenix Hose Co., of Keene, have also entered for the muster.

A meeting of the stockholders of the Wolfeborough railroad is called, to be holden at the Eastern railroad station in this city on Tuesday, August 28th, to choose a board of directors, and transact any other business that may legally come before the meeting.

There is a dead-lock in the school committee of Malden, Mass., over the election of a principal of the high school, five members supporting Mr. A. Daniels, who has held the position many years, and five favoring Mr. E. J. Goodwin of this city. Five ballots were taken last Thursday night, each resulting in a tie, and an acrimonious discussion ensued; finally a sub-committee received instructions to report candidates for submaster, and it is supposed the school will be left without a principal until the people have voted on the matter at the municipal election.

The following "locals" we clip from the Newmarket *Advertiser* of July 28th: "The Newmarket Cornet Band will accompany the Granite Engine Co. to the firemen's muster at Portsmouth next month. —— Geo. B. French of Portsmouth is spending a short season on his farm at Red Oak hill, Epping."

The cut-off at Alley's point in the Cocheco river was finished on Monday of this week, and hereafter all vessels will pass through the new channel. The old channel is to be filled up, so that all the water will have to flow through the cut.

Commodore Theodore D. Wilson, chief constructor of the United States navy, and family, arrived in this city on Tuesday forenoon from Washington, and at 10:30 o'clock proceeded to the navy yard in the president's barge. They will occupy quarters on the yard during the rest of the hot season. The regulation salute was fired in the commodore's honor at noon from the navy yard battery.

The brig American Union was towed to the sea on Monday by the tug Clara Batemen, and sailed away to the eastward. When between Fort point and Whalesback the vessels were met by the tug Nat Wales, a big Boston tow-boat which the captain of the brig had previously telegraphed for to tow him around to Boothbay, Me.; but in the meantime the captain had shipped men from a crew which had just left a schooner at the north end, so he refused to take the Nat Wales, alleging that she should have got here before.

The practice-ship Constellation was towed to sea from the navy yard on Tuesday forenoon by the United States tug Leyden.

Comptroller Knox, of the United States treasury, who with his family is stopping at York beach, was in this city on Tuesday.

Andrew McDonald, Esq., and family, of Orange county, Florida, are occupying the Atlantic Cottage at Long sands, York beach, for the season.

B. P. Shillaber, Esq., and his daughter, Miss Carrie Shillaber, are summering at York beach as the guests of Mrs. Shipley W. Ricker.

Recent transfers of real estate in York county include the following: Solon Frisbee of Kittery to James E. Witham of Kittery, tillage land and buildings for $100; Charles H. Grant of York to Lewis B. Hanson of South Berwick, land at Long sands, York beach, for $250; Charles G. Gerry of South Berwick to Clinton Goodwin, land in South Berwick for $175.

Chauncy Hoyt, the obliging young clerk of the Hotel Bartlett, York beach, reports the arrival of nearly one hundred boarders at that house for the week ending July 28th.

From all the accounts we hear concerning the summer hotels and boarding houses, from the Merrimac river to Wells beach, the patronage this season is much behind that of last year. The White Mountain traffic, too, is reported as being comparatively light.

At each end of the Eastern railroad station in this city, between the rails and at a suitable distance from the building, is a pit twelve feet long and four feet deep, into which the cinders collected by the spark-arresters of the locomotives are deposited. Between four and five bushels of this matter is dropped into the pits each day—a great improvement over having it distributed among the eyes of passengers or on the roofs of barns along the route. Mr. Daniel Mrson is using the stuff to grade up the made land near his steam sawmill, and it appears to be excellent material for this purpose.

—Before cutting a man's head off in China, the authorities considerately make him drunk. The beauty of the system is that a man can get intoxicated without having a head on him the next morning.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

HAIR WORK!

I MANUFACTURE **Invisible Hair and Cap Nets**, made of **good strong hair** prepared by me especially for that purpose, and **never** use any refined or rotten hair. Prices from **5 cents** upward.

SKIN HUMORS

Wonderful Cure of a Lad 12 years old, who for 8 years, from the top of his head to his ankles, was One Mass of Scabs.

MY SON, a lad twelve years of age, was afflicted with the worst form of Eczema for a period of eight years. So virulent was it that from the top of his head to within a few inches of his ankles he was one mass of scabs, which refused to yield to any treatment that was attempted. Every remedy that was suggested by friends or physicians was tried in vain. Allopathy, homeopathy, herbs, roots, salt-water baths, flaxseed poultices, soaps, ointments, and in short everything that could be done to eradicate the disorder seemed only to aggravate it, and the child's life became a burden to him, and the expense of the various experiments was a constant drain upon our resources.

My wife, reading the advertisement of the CUTICURA REMEDIES in one of the daily papers, resolved to make one more attempt at a cure. (The disease was now encroaching upon his face, and seemed incurable.) I gave a reluctant consent to the proposal, and an interview was sought with a famous indy physician of New York, who made a most thorough examination of the case, and promised a cure without the least hesitation by the use of your CUTICURA REMEDIES. In ONE WEEK there was a marked change; the raw and angry sores began to grow pale and along the outer edges scaled off, and as time wore on they began to disappear entirely, until at the present writing the only vestage is one small spot upon the forearm, scarcely visible and fast disappearing.

Thus after eight years of expense and anxiety, we have the intense satisfaction of seeing the child's skin as fair and smooth as it was before this dreadful cutaneous disorder attacked him.

Sincerely yours,
CHAS. EAYRE HINKLE.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and thoroughly dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipes to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.
July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion, or from early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the greatest work on Physiology ever published. There nothing whatever that the married or single, either require or wish to know but what is explained.—'London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

PEABODY MEDICAL INSTITUTE, or W. H. PARKER, M. D., 11 dwjy 4 Bulfinch St., Boston, Mass

HEART DISEASE

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who shows all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed. Mrs. Pinkham's Liver Pills, mild and positive cathartic, 25 cts. per box.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier cures in special lines and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good, to others.

"Philadelphia, Pa. MRS. A. M. D.

SHARP PAINS

Crick, Spasm, Wrenches, Rheumatism, Neuralgia, Sciatica, Pleurisy Pains, Stitch in the Side, Slow Circulation of the Blood, Heart Diseases, Sore Muscles, Pain in the Chest, and all pains and aches either local or deep-seated are instantly relieved and speedily cured by the well-known *Hop Plaster*, compounded, as it is, of the medicinal virtues of fresh Hops, Gums, Balsams and Extracts. It is indeed *the best* pain-killing, stimulating, soothing and strengthening Plaster ever made. *Ask for the Hop Plaster* at any drug store. Price 25 cents or five for $1. *Hop Plaster* Co., Proprietors, CARTER, HARRIS & HAWLEY, Gen'l Ag'ts, Boston, Mass.

The store of John & Daniel Huckins, at Strafford Bow Lake, was robbed of $50 last Sunday night. The post-office, in the same building, was robbed of $20 in stamps and currency.

LONE JACK, MO., Sept. 14, 1880.

I have been using Hop Bitters, and have received great benefit from them for liver complaint and malarial fever. They are superior to all other medicines.
P. M. BARNES.

A horse belonging to Hosea Snell of Madbury was recently gored to death in a pasture by a bull belonging to Samuel Hoitt.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ella's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

The people of Dover are particularly interested in the failure of F. Shaw & Bros., of Boston, Fayette Shaw being a special partner with Charles W. Clement, who lately started up the shoe manufacturing business in the long-idle shop of Strong & Burt. It is hoped that Shaw's suspension will not injure Clement's business.

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. This original Nutrient and Tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into new life the entire process of digestion.

William Hennessey, formerly of Dover, is under arrest in Manchester on a charge of murdering his newly-born infant in a fit of drunken frenzy. His friends claim that the child was still born. Mrs. Hennessey bears upon her face and body numerous marks of brutal treatment by her ruffianly husband.

☞For five cents, Well's, Richardson & Co., Burlington, Vt., will send colored sample colors of Diamond Dyes.

Homer E. Slack's stable in Manchester was burned July 29th, with two horses, carriages, etc. Loss $2700; insured.

The Bilious,

dyspeptic or constipated, should address, with two stamps for pamphlet, World's Dispensary Medical Association, Buffalo, N. Y. c

The name of the post-office at Fisherville has been changed to Penacook.

"Those who deaden sensation and stupefy the patient to relieve suffering make a grave mistake. They proceed upon the false idea that it is legitimate to procure relief from pain by destroying physical sensibility. This method, carried to the last extremity, would kill the patient to end suffering. It is not presmed that Lydia E. Pinkham's Vegetable Compound will raise the dead, but it often does restore those who are given up as hopeless cases.

A destructive hailstorm passed over South hill, Stewartstown, Sunday afternoon; hail fell four inches deep, and half as large as hen's eggs. Crops are nearly ruined, and much glass is broken.

Hood's Sarsaparilla is made of roots, herbs, and barks. It gives tone to the stomach and makes the weak strong. Sold by druggists.

Charles Johnston, a farmer on Bush hill, Hudson, was found dead in the woods last Sunday. He visited Nashua on Friday, went home, and started for his pasture at night for his cows, but was not seen again alive. It is supposed drink was the cause of his death, a rum bottle being found in his pocket.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Charles Campbell, an escaped jail-bird, is plying the vocation of tramp and deadbeat in Tilton and Franklin.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian File Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Boscawen will celebrate the 150th anniversary of its settlement on Aug. 16th.

Dr. Theo. West, Marianna, Fla., says: "I consider Brown's Iron Bitters the best tonic that is sold."

An old lady named Sawyer hung herself to a door-knob in Tilton, July 30th.

A stick of timber, evidently placed on the track purposely, was struck by a train from Alton Bay to Dover over the Dover and Winnipiseogee railroad on Saturday evening, July 28th. No harm was done, the cow-catcher throwing the obstruction to one side.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Daily Chronicle.

Five million nominal assets, three million and a half liabilities, is said to be the condition in which the suspended firm of F. Shaw & Bros. of Boston stands.

The Sea of Oblivion

would long since have swallowed up Sozodont in common with so many forgotten tooth pastes and dentifrices, did not the experience of a whole nation prove that it possesses signal advantages. It thoroughly cleans the teeth, dissolving and removing their impurities; it revives their fading whiteness and strengthens their relaxing hold upon their sockets; it renders colorless, ulcerated gums hard and healthy; and besides neutralizing an unsavory breath, invests it with its own fragrance.

A "testimony meeting" at a down-town Chicago mission, recently, went on smoothly until a man in the rear of the room arose and with a Hibernian accent exclaimed, "I'm a dimicrat, I am." It took several hymns to get the meeting on its feet again.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

The announcement that 660 democrats of Salem, Mass., whose names were not on the list last year, have just been registered, appears not to be well founded. No registration at all has taken place yet.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

At Milton, Vt., Peter Brunelle and John Shortsleeves got drunk and had a fight; Brunelle is dead, and Shortsleeves has ran away.

One voice all over the land goes us from mothers, that says, "My daughterp are so feeble and sad, with no strength, all out of breath and life at the least exertion. What can we do for them?" The answer is simple and full of hope. One to four weeks' use of Hop Bitters will make them healthy, rosy, sprightly, and cheerful.

A number of firms and individuals which had dealings with F. Shaw & Bros. have failed, and others it is feared will go down.

Wells' "Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

A boy makes Providence spiritualists believe that with his bare finger he draws and colors pictures of flowers on unprepared paper.

Dr. Theo. West, Marianna, Fla., says: "I consider Brown's Iron Bitters the best tonic that is sold."

Thirty-two printers at San Francisco, Cal., members of the Typographical union, struck work July 30th in the *Morning Call* printing office. They insisted that ten others, non-union men, be discharged, but the proprietor refused, claiming that in the management of his own property he had a right to employ whom he saw fit. The places of the strikers were quickly filled by non-union men.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

A Denver, Col., despatch says that Osmond Tearle, the leading man of Wallack's company, was married there Tuesday morning, July 31st, to Minnie Conway, the well known stage beauty. The wedding occurred in Miss Rose Coghlan's rooms at the Windsor hotel. Tearle's wife recently procured a divorce from him in New York, and Miss Conway was also recently divorced from her husband, Jules Levy, the cornetist.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

At the inquest on the body of Capt. Webb, held at Niagara Falls, N. Y., July 31st, his widow, several physicians, his manager and various other persons who witnessed the swim, gave their testimony. The jury returned the following verdict: "We find that Capt. Matthew Webb came to his death while attempting to swim the whirlpool rapids of the Niagara river. The immediate cause of his death the jury is unable to determine."

If you feel dull, drowsy, debilitated, have frequent headache, mouth taste bad, poor appetite, tongue coated, you are insuffering from a torpid liver, or "billiousness." Nothing will cure you speedingly and permanently as Dr. Pierce's "Golden Medical discovery." By all druggists. *a*

Albert Porter, thirty-seven years of age, son of Maj. William Porter of Pownal, Vt., was killed by a freight train on the Troy & Boston track, near Pownal, July 30th. He lay on the track asleep. He leaves a wife and two children, well-to-do. There is no theory for his going to sleep on the track.

Didn't Want a Girl.

Last summer my wife's health was all run down, and she wanted me to hire a girl to do the work. In a little while I found one I thought would suit her, when to my surprise she said I need not hire any one, as she felt better, and thought another bottle of Sulphur Bitters would cure her. DONALD GREY, 41 Worcester square, Boston.

Five men from Lancaster, in a two-horse carriage, ran against a carriage at St. Johnsbury, Vt., July 31st, containing two women and a child, injuring all of them, one seriously. Four of the men were arrested and lodged in jail.

Many persons who seemingly have consumption have perfectly sound lungs, and their distress originates altogether from disordered kidneys and liver. Now there are thousands of remedies that will relieve kidney and liver diseases but there is only one that can be depended upon for effecting a permanent cure, and that is Brown's Iron Bitters. Its efficacy has been satisfactorily proven in thousands of instances after all other remedies have failed.

The Cook's Dilemma.

"Two teaspoonfuls of tartar and one of soda to a quart of flour" was formerly the standing direction in every kitchen for making light biscuit, cake, etc. It has been found of late that the old rule won't work, double this quanity of cream of tartar being frequently required to produce the former result, and even then, owing to the great variation in strength of the best cream of tartar that can be purchased at the stores, uniform results can no longer be depended upon in its use.

The cause of this inferiority of modern cream of tartar is explained by the Massachusetts State Board of Health, and also by the New York Board of Health, which in a recent examination of 27 samples of cream of tartar, claimed by dealers to be of the best of quality, found them adulterated with alum, terra alba, phosphate of calcium, etc., from 3 to 93 per cent. Five samples were adulterated with terra alba to such an extent that they were really terra alba with a little cream of tartar added. In the soda examined, from 17 per cent of carbonate of lime to 25 per cent of ground gypsum were found. Of course it is impossible to produce light or wholesome bread with such stuff as this for a leavening material, and the best cooks, if relying upon its use must frequently fail in their work. The old formula, therefore, no longer to be relied upon, must give way to new methods.

Science, fortunately, comes to the aid of the cook in this dilemma with the ever-ready baking powder; but here again the greatest care is necessary in selecting a baking powder, to avoid one that may not only spoil the work of the cook but will make the cookery produced an instrument of danger to the health. Most of the baking powders and bread preparations of the market are made either from the very cream of tartar above described, from alum, which is poison, or from phosphates derived by disgusting processes from the solution of old bones in sulphuric acid, and hence their use is attended with the same inconvenience and dangerous results that follow the use of adulterated cream of tartar. The only way to overcome these difficulties would seem to be in the selection of a baking powder of a thoroughly well established reputation, whose absolute purity, wholesomeness, and effective power as a leavening agent have been confirmed beyond contravention. The Royal Baking Powder meets this want more nearly than any other, and has been recommended by the Government chemist as the most acceptable and perfect substitute for the old-fashioned cream of tartar and soda. It is undoubtedly pure, and its merits have given it a sale probably equaling that of all other baking powders combined. Its manufacturers have an advantage over all others in possessing facilities for obtaining pure materials. They refine their cream of tartar direct from the imported crude grape acid by means of patented processes, exclusively their own, by which the cream of tartar is rendered absolutely pure and uniform in strength. In addition to this, they employ a number of expert chemists who thoroughly test every pound of ingredient used, and admit no material into the Royal Baking Powder compound until they have demonstrated it chemically pure. As a consequence, the action of this powder is always uniform, as well as of the highest degree of power, and never fails to produce light, sweet, wholesome and palatable bread, biscuit or cake. With its universal market, and the great magnitude of its sales, this company finds it to its interests to adopt these extraordinary methods, which no baking powder maker whose market is limited to a single State or locality can afford.

MEDICAL.

MRS. C. W. CHAMBERLIN

State and Ark Sts., Springfield, Mass.—Her Good, Kind Words will do Much for the Afflicted.

Mrs. Chamberlin is the wife of C. W. Chamberlin, an employee in the United States Armory in Springfield, Mass. She says: "Every Spring I have been, for some time past, more or less troubled with nervous debility and weakness. Some years I've been completely run down. My physician has recommended various strengthening and blood medicines, but I never received any permanent benefit until I tried Dr. Kennedy's FAVORITE REMEDY. It was recommended to me by Mrs. Newcombe, on State St. I think it a wonderful medicine to give one strength and enliven a person. I have recommended it to family after family among my acquaintances in Springfield, Mass., and FAVORITE REMEDY has done a great deal of good wherever it has been placed. I have a sister, Mrs. Harmon, 29 Tremont St., Lowell, Mass., who was troubled with nervous weakness and loss of strength and appetite, but by using Dr. Kennedy's FAVORITE REMEDY her health was completely restored. I consider it an excellent medicine. Dr. Kennedy's FAVORITE REMEDY is used extensively among the Armory men here."

No, Sir!

A Scotch minister once said no woman could bear pain as well as man. That is not so. The fact is generally the other way. Mrs. Edward Meyers of Rondout, N. Y., submitted to the operation of the removal of her hand by amputation, without taking ether, or moving a muscle or uttering a groan. Dr. Kennedy, also of Rondout, N. Y., who performed the operation, said he never saw such heroism. The lady's disease was erysipelas, and afterward the doctor gave her FAVORITE REMEDY to cleanse the blood. Mrs. Meyers is now well and strong.

TELEGRAPHIC BREVITIES.

Two hundred caulkers employed at the boat yards in Pittsburg, Pa., have struck against a reduction of wages.

John Brixius, Jr., shot his uncle, John Brixius Sr., Tuesday evening, at Newark, N. J., and then committed suicide by shooting and drowning.

In a quarrel in Warwick, R.I., Tuesday evening, Christopher Wilcox was shot in the mouth shoulder and lungs by Capt. E. W. Congdon, and will probably die.

Charles C. Foster of Dover, N. H., one of the proprietors of Foster's Daily and Weekly Democrat, was united in marriage Tuesday to Miss May Bell Clements of that city.

Edward Ridley of the firm of E. Ridley & Sons of New York, died suddenly Tuesday night from apoplexy. He was 57 years old, and had acquired a large fortune in the retail dry goods trade.

F. G. Stickney of Bangor, Me., having resigned his appointment as commissioner to the Denver national industrial and mining exposition, the governor has appointed O. W. Davis, Jr., of Bangor to that position.

The will of the late Col. Frank G. Allen of Providence, R. I., filed Tuesday, provides in certain remote contingencies for bequests to five local charities, as provides for establishing a Bradford-Allen free public library.

The governor of Maine has nominated D. C. O'Donohoe of Portland trustee of the reform school, and appointed William F. Haynes of Waterville trustee of the state college of agriculture and mechanic arts.

The new railroad from Baltimore to Philadelphia is mostly under contract and in process of construction.

The annual meeting of the St. Johnsbury & Lake Champagne railroad company will be held at St. Johnsbury, Vt., on Wednesday, Aug. 15.

Freight brakeman on the Canada Southern division of the Michigan Central road threaten to strike because their salaries have been reduced from $60 and $70 per month to $50.

The Erie canal is reported doing twice the business that it did last year at this time, and there are indications that 1000 new boats will be built the coming winter for next season's service.

Miss Anna Jacques of Oldtown, Newbury has given $30,000 for building an invalid's home in Newburyport. She has also given a handsome upright piano to the church at Oldtown, Mass., over which Rev. Nathaniel Withington is pastor emeritus.

A Denver, Colorado dispatch says Osmond Tearle, the leading man of Wallack's company, was married there Tuesday morning to Minnie Conway, the well-known stage beauty. Tearle's wife recently procured a divorce from him in New York, and Miss Conway was also recently divorced from her husband, Jules Levy, the cornetist.

Ex-policeman John Nugent and Edward Farrell of Jersey City, two of the parties implicated in the attempt to rob Bank Officer Smith of a bag containing $100,000, on a railroad train in Hoboken on Saturday, have been sentenced to 10 years in state prison.

It is said at the treasury department that the reduction of the public debt for the month of July will be unusually small, if there be any.

An evening paper advances the theory that Senor Barca committed suicide because he had lost in Wall street the money sent him by the Spanish government for the payment of the awards against Spain made by the Spanish American claims commission.

A correspondent of the agricultural bureau writes that the Texas cotton crop promises a good yield.

Notice of a general advance of 10 cents per ton in the tolls on coal shipped both by rail and canals was given to-day by the Philadelphia & Reading railroad company, to take effect August 1.

Safe and Sound.

BOSTON, August 1.—The following telegram from Denver in response to a despatch filed in Boston yesterday noon was received at G. A. R. headquarters at 10 o'clock this morning:

Colonel Thomas M. Baker, Boston:

There was no accident. The trains were delayed by a washout.

BUSH, TAVERN & Co.,
Proprietors of the Windsor House, Denver.

Mortally Wounded.

HALIFAX, N. S., August 1.—For some time past Fred C. Bowie and another farmer named Randall McDonald have been disputing the ownership of a certain lot of land at Tracadie, and between the two families considerable ill feeling existed. Bowie's son, aged 15, during the past few weeks has been frequently heard to threaten to shoot McDonald. Yesterday the boy carried out his threat. Approaching McDonald while the latter was cutting hay on the disputed land, Bowie attacked him with a gun and inflicted a mortal wound. A deputy sheriff left Antigonish this evening for the scene of the murder to arrest the boy criminal.

Nihilist Conspiracy.

LONDON, August 1.—The Times states that official news has been received from a continental capital that a most dangerous Nihilist conspiracy has been discovered in Russia. A great number of people are implicated, and many arrests have been made.

Louisville's Exposition.

LOUISVILLE, August 1.—The following is the programme of to-day's exercises at the exposition. The President and his escort will arrive at the exposition building promptly at 12 o'clock. The address of welcome will be delivered by the mayor of Louisville. Gov. Blackburn of Kentucky will respond, after which the President will formally open the great exposition by starting the engines that run all the machinery with a silken cord.

Duplicating Pay Accounts.

WASHINGTON, August 1.—The recent details of court-martials to try Post Chaplain Toussaint Mapple and Lieutenant Samuel C. Robertson of the army for duplications of their pay accounts, are likely to be followed by similar steps against other officers in both the army and navy. It is reported that prior to the advent of Secretary Lincoln in the war department and Chandler as secretary of the navy, this custom of duplicating pay was assuming serious regularity among a certain class of officers, and some queer stories are told of peculiar methods resorted to in either keeping such offences quiet when discovered or enforcing settlement through the party parties themselves or their friends, without subjecting to court-martial publicity. If rumors are true this custom was extensively practised, and, though checked somewhat, is still in progress. It is believed, however, that all offenders will shortly be run down, and the sound example of sharply punishing a few of the most notorious, will result in putting an end to the disgraceful business altogether.

Denis Kearney, the wind bag, has gone back to California.

Miseries of Mosquito Time.

They bite at night with great delight, and put most people in a nervous fright. Their bills they stick with poisonous prick in children's flesh and make them sick. On buzzing wing the insects sing, before inserting their wicked sting. Victims complain of cruel pains and would rather not be bitten again. The pain to stop, apply one drop of Perry Davis's Pain Killer from the druggist's shop.

Joseph Pratt, boot and shoe manufacturer of Chicago, has suspended; liabilities from $75,000 to $90,000.

Col. A. L. Campbell, Waterborough, S. C., says: "A member of my family used Brown's Iron Bitters with good results."

Eben Willey, of Monroe, got into a difficulty with a side-ticket seller at Forepaugh's show, July 31st, and the showman struck him with brass buckles, and smashed his nose terribly.

An Experience of Twenty Years

in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

The Senatorial Fight.

The 39th joint ballot for United States senator was taken on Wednesday, Aug. 1st, with the following result:

Whole number of votes	316
Necessary for a choice	159
Bingham had	112
Pike	89
[illegible]	49
Marston	35
Chandler	13
Gallinger	8
Scattering	11

and there was no choice.

A Much-Uniformed Navy.

The order directing a change of uniform for the officers of the United States navy, recently promulgated and immediately suspended from operation until further orders, has caused considerable talk in the newspapers, and considerable purturbation among the officers who will be—or would have been—affected by it. The New York *Tribune* thus refers to the matter:

The average citizen who finds two or three suits of clothes as many as he likes to have the trouble of wearing, and more than he cares to pay for, may be interested to know how the naval officer was to find use for six. The gentle gradation in their quality is well indicated by the official nomenclature proposed, which is as follows: Special full-dress; full-dress; social full-dress; dress; undress; service dress. If the officer was not thoroughly dressed by the time that he had passed through these various stages of clothing, it would not, surely, be the fault of the naval man-milliners.

Special full-dress, it appears, was to be worn on occasions of special ceremony, and at general muster on the first Sunday of every month. Its most important feature was to be the special full-dress coat—a portentous garment which the order describes in half a page of print. The remainder of the special full-dress uniform is made up from the full-dress uniform, which in its turn is to be worn on occasions of ceremony, as in making the first visit in each port to officers of flag-rank, and on social occasions to which officers are invited in their official capacity and at which evening dress would be expected. This uniform consists of full-dress coat, which is duly described, and is always to be worn open, full-dress trousers, full-dress waistcoat, stiff cocked hat, epaulets, sword, full-dress belt, and a sword-knot. The sword-belt is to be worn under the waistcoat in this uniform. The cocked hat falters at the thought that some careless officer might not wear his sword-belt under his waistcoat, but no doubt it would be made obligatory on officers to dress with a copy of the regulations hanging beside the mirror, with accompanying diagrams and lithographs, and the danger that they might mix their trousers up, or wear the wrong waistcoat under the right coat, could hardly be great.

The social full-dress to be permitted by commanding officers, on occasions of a strictly social nature, would be the full-dress uniform without the stiff cocked hat, epaulets, sword-belt or sword-knot, and with plain blue trousers.

The dress uniform would be worn on all occasions of ordinary ceremony, in boarding men-of war, in making the first visit in port to commanding officers and at Sunday inspection, except on the first Sunday in the month, when, as has already been said, the special full-dress would be worn. The dress uniform would comprise a frock coat, blue or white trousers, stiff cocked hat, or helmet, as ordered by the senior officer present, epaulets, sword, etc.

The undress uniform drops a little in its esthetic effect and social grade. There would be no epaulets; the head would bear a cap or helmet. This would be worn when reporting for duty, when serving on courts or boards, except boards of survey, and when calling officially on foreign officers below commander rank.

The service dress would be worn at all times not provided for by the other five uniforms, and has characteristics too numerous to mention. The service coat would be rich in lustrous black braid.

It would take a volume to tell all about the sleeve ornaments, collar devices, embroidery for frogs, and all the rest. The younger element of the service are said to have pushed forward this movement for a navy with six uniforms instead of three, which is the present number. A majority of the officers ridicule it as a slavish imitation of the British navy. They feel dressed enough as they are, and the thought of a stiff cocked hat fills them with indignation. But it is impossible not to regret that the order was not enforced. There is a great deal of gold lace in these uniforms. The navy would have glittered in the eyes of the world. It would have been irresistible—at least in the drawing-room. And when we had got such a finely dressed corps of officers, perhaps Uncle Sam would have been willing to build a navy for them.

The Dover *Republican* of July 31st says: "Judge Woodman, C. H. Trickey and A. Christie, as a committee of the Dover board of trade, went to Portsmouth to-day, and met the engineer of the Eastern railroad, Mr. H. Bissell, to consult with him in regard to having longer piers constructed at the draw in the Portsmouth bridge, so that the larger vessels can be better accommodated in passing through the draw. The improvement is very much needed. The present piers were good enough for the ancient mariners, but are not sufficient for the larger vessels that come to Dover in these latter days. We have not learned what success the committee met with, but we hope it will turn out to be good. Dover men mean business in their river enterprises."

BORN.

GOULD. In this city, August 1st, to Rev. S. J. Gould, a daughter, Maud Anna.

MARRIED.

FOSTER—CLEMENTS. In Dover, July 31st, Charles J. Foster, one of the proprietors of *Foster's Democrat*, and Miss May Bell Clements.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City
eod&g10Oct83

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

A. GREENOUGH & Co., 31 Milk St., Boston, Mass. 6 t d 2 t w, a 2.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon Hoon's SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of billiousness to take these pills in connection with the Sarsaparilla for the first tea days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars.

Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH

ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *It is not a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

WANTS.

Wanted.

LADIES and young men will find something to their advantage and profitable work where from $1 to $3 per day can be easily made during spare time, without interfering with regular occupation. Those desiring work can address for particulars,
J. BUTLAND & CO.,
tag4 Boston, Mass., Box 2067.

Checklist Notice.

THE Board of Inspectors of Check-Lists give notice that they will be in session at the City Building, Friday, July 27th, Monday, July 30th, and Thursday, August 2d, 1883, from 9 o'clock A. M. to 12 M. and from 2 to 5 o'clock P. M. on each of said days, for the purpose of revising and correcting the list of voters.

They will also be in session at the same place, from 8 to 10 A. M. and from 1 to 2 o'clock P. M., on the day of election, for the purpose of furnishing certificates to any persons whose names may have been omitted and whom the Board are satisfied have resided in the ward one year next preceding said election. By Order of the Board,
JOS. H. GARDINER, Clerk.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and the excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

THE DROWNING ACCIDENT AT THE SHOALS.

The body of Miss Mollie Flynn, the young woman drowned at the Appledore on the afternoon of July 30th, was found at five o'clock in the morning on the 1st inst. by Judson Randall and Igerbret Ingerbretson, within a few feet of where she sank; it was between two rocks, which prevented it from being carried away by the tide or undertow, and was discovered through the motion of the kelp exposing to view one hand and one foot. There were no bruises nor cuts on the body. The Laighton Bros. made every effort to find the body, and had parties at work day and night seining and dragging for it. The girl's father, D. A. Flynn, superintendent of the Wayfarer's Lodge on Chardon street, Boston, was on the shore when the body was found, and her mother and aunt arrived at the Shoals by the forenoon boat. The remains were taken to Boston in the afternoon.

Mr. Flynn gave our reporter the following particulars of the girl's death. She was in bathing, and when she attempted to land she was repeatedly carried back by the undertow, until she sank from exhaustion; the com panions who were with her did not realize her situation until too late, when they gave the alarm, and a plank was thrown to her, but she sank before it reached her. She was about twenty years old.

MORE EXPLANATION.

The *Times* copies the "explanation" we gave it, viz: "The editor of the *Chronicle* is not a member of the city government, and has not been for many years,"—and adds:

As we have before remarked, it is plain that Mr. Hackett has not retired, [from the editorship of the *Chronicle*] and that he is a member of the city government.

What the *Times* "before remarked," and what we before denied, was that the editor of this paper "is a member of the present city government." If the *Times* has been as wide of the truth in its assertions about the board of instruction as it is in this statement concerning us, there is no wonder that John Pender's broadside shut it up so effectually.

THE POOL TOURNAMENT.

The fine meerschaum pipe put up as a prize for whoever should pocket the largest number of balls at pool in any one game during the months of June and July, at the Eureka Pool Rooms, No. 31 Congress street, was won by Mr. Archie Jenness of Rye, with a score of fifteen balls—the entire number used in the game; there were several scores of fourteen, one being made on the last evening of the contest. For the largest number of balls pocketed in any one game during the month of August and September, the prize will be a box of choice cigars. The room maintains its popularity as a place of amusement, and has been well patronized in spite of the warm weather of the past two months.

The hair-dressing business in all branches continues to be conducted in the front saloon as heretofore.

"MR. PENDER'S PLEA."

Mr. Editor: In the *Times* of July 31st, under the above heading, was what purported to be a rejoinder to Mr. John Pender's communication regarding the board of instruction, published in the CHRONICLE of that morning; and considering the virulence and venom of the *Times'* previous assaults on the board, and the sweeping recklessness of its charges against the manner in which the school affairs have been managed by it, the feebleness and inanity of the rejoinder to Mr. Pender's strong paper must have attracted the notice of every person who read the two articles.

The editor of the *Times*——or was it some editor *pro tem.*, who in consideration of his making the election of a school board a political question, has been allowed to have his writings appear as editorial?——has persistently endeavored to convince the people that the school affairs have been, by the board of instruction, conducted in the interest of a political party, or a faction of a party; that party, of course, being the republican. It explicitly stated that "the schools have been made an appendage to the political ring." Mr. Pender, in his manly and bold, but temperately-written article, proved this statement to be an absolute falsehood; and the only answer the *Times* writer can make is to reply that the board "does not owe its existence to the election of the people"—which is no answer at all to Mr. Pender's convincing proof that "the schools have *not* been made an appendage" to any political ring, democratic or republican. The *Times* writer, in closing, begs the question as follows:

It all resolves itself into this—shall the people elect the school board or shall it be the creature of the city ring?

That is his opinion merely, and is worth no more than other men's. My opinion is, that the people are far less interested in the question as to whether the school board shall be elected directly by the people, or by the people's chosen representatives in the city government, than they are in having the school affairs so conducted by the board, when elected, as to get the best possible results for a given expenditure. The public care nothing as to whether Mr. Blank and Miss Dash receive their appointments as teachers from a committee chosen at the polls or from one elected by the board of aldermen; what is demanded is that Mr. Blank and Miss Dash shall render effective service as teachers, at reasonable salaries. The schools prove for themselves that they are at least as good today as they were six years ago; and Mr. Pender's figures show that the annual expenditures are more than $4000 less now than then.

The *Times* man's song has been all on one key; he has not made one single specific charge against the management of the school board; he has dealt only in vague generalities, unless his statement that "the schools have made an appendage of the political ring" may be regarded as a specific charge—and that statement Mr. Pender shows to be a baseless slander. And yet the persistence with which his attacks have been kept up, and the contemptuous silence regarding them maintained by the board of instruction, have misled many citizens into believing that there was some ground for his charges. I was one of those thus misled, and up to the time of reading the *Times* man's reply to Mr. Pender was in favor of a return to the old plan of electing the school committee; but the outspoken and convincing article of Mr. Pender, and the wretchedly flat and pointless reply, have satisfied me that the assaults on the board have been prompted by some motive far different from a desire to benefit the public schools.

Mr. Pender may be obnoxious to some person or persons; a pushing, energetic man is quite likely to make enemies; but the personal dislike of some one to a member of the school board is hardly a sufficient reason for overthrowing a system which its friends apparently prove has worked well, and which its opponents have not adduced an atom of real evidence to prove has worked ill in any one particular. REPUBLICAN VOTER.

TEMPLARS' BANNER.

A fac simile of the banner of De Witt Clinton Commandry of Knights Templar, painted by a young lady of this city, will be exhibited in the window of E. S. Fay's store on Congress street, Thursday and Friday of this week. This banner will be borne in the procession at the triennial conclave of Knights Templar of the United States, to be held in San Francisco, Cal., the last of this month; and will be left with the San Francisco Commandry as a souvenier of the occasion. Sir Knights John R. Holbrook and Thomas E. Call, Sr., of De Witt Clinton Commandry, will attend the conclave, both accompanied by ladies; and we believe will be the only ones from this city to attend.

The alarm of fire about eight o'clock in the morning on the 1st inst. was occasioned by a slight blaze in a closet of the house on Creek street occupied by Mr. John Hand. A quantity of female apparel was burned, but little other harm was done; the brewery workmen quickly putting out the fire.

The auction sale of glass, China, silver-plated ware, cutlery, kitchen furnishings, antique goods, etc., at J. Howard Dodge's store on Congress street, will be continued to-day. There are some very desirable articles still left in the store.

A number of carpenters and fasteners were taken on in the construction department at the navy yard on the 1st inst., to go to work on the U. S. S. Omaha.

It is reported the two upper stories of Franklin block are to be remodelled and made into a hotel. We should say that this was a good move—*Times.*

The last meetings of the inspectors of checklists, before the election, will be held to-day. See advertisement.

C. Sullivan & Co. on the 1st inst. received a number of freshly caught bluefish, taken in the weirs at the mouth of the harbor; and also two halibut, one weighing 178 pounds, and the other a "baby" weighing eleven pounds, caught by Mr. Daniel Clark off Little ledge at the Shoals.

The democrats of ward one will hold their caucus this evening at the Elm street ward room, at 7:30 o'clock.

The democratic mayoralty nomination will probably be made to-morrow evening.

A dividend of $1850 was served out to the owners of the schooner Annie F. Conlon on Wednesday.

The largest party yet brought to this city from Boston by the steamer Taurus arrived on Wednesday, the 1st inst.

The Dover board of trade and invited guests by invitation of the river and harbor committee of the same board, had an excursion July 31st on board the steam tug Ann down the Cocheco river, to inspect the improvements made and making from expenditures of the appropriation of the last Congress, and were highly pleased with the same. A cut fifteen feet deep and sixty-five feet wide at Alley's point does away with the necessity of schooners passing through the crooked old channel, and enables vessels drawing ten feet of water to pass up and down to the wharves.

The practice-ship Dale was towed to sea from the navy yard on the 1st inst., by the United States tug Leyden.

THE FIREMEN'S MUSTER.

Many persons who have subscribed to the muster fund think it is to be paid at the time of subscription. Such is not the case, as a duly authorized collector will be sent for such collection—probably a police officer—at some future day.

W. J. SAMPSON, *Chm. Com.*

REPUBLICAN MAYORALTY CAUCUS.

The Republican Caucus for the nomination of a candidate for Mayor to be supported at the polls on Tuesday, August 6th, will be held at the Court House on Thursday afternoon, August 2d, from four o'clock to eight. PER ORDER.

FURNITURE.—Paine's Manufactory on Canal St., Boston, is furnishing a large number of houses in this vicinity with curtains, window shades, Lambrequins, Upholstered Parlor and Sitting room furniture, Chamber, Dining room and Library sets in Ash, Oak, Mahogany, Walnut, and imported fancy woods. New patterns are now being introduced. One great advantage in selecting from this place is the large assortment and low prices for the superior quality of the work, which is warranted to be in every respect as represented.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.45 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

Proposals for the Construction of a Life-Saving Station.

TREASURY DEPARTMENT:
OFFICE OF GENERAL SUPERINTENDENT,
U. S. LIFE-SAVING SERVICE,
WASHINGTON, D. C., July 23d, 1883.

SEALED PROPOSALS will be received at this office until 12 o'clock, noon, of Saturday, the 11th day of August, 1883, for the Construction of a Life-Saving Station on Hunniwell's Beach, on the coast of Maine.

Bidders will state in their proposals the time within which they will agree to have the building completed ready for occupancy.

Each bid must be accompanied by a bond in the sum of five hundred dollars, with two good and sufficient sureties, conditioned that the bidder shall enter into contract without delay and give such bonds as security for the faithful performance thereof as may be required; if his bid be accepted, or by a deposit of five hundred dollars U. S. Currency or bonds to be returned to the unsuccessful bidder after the award of the contract, and to the successful bidder after his contract and bond for the faithful performance of the terms thereof shall be approved by the Secretary of the Treasury.

Specifications and plans, forms of proposal, contract and bond, can be obtained at the offices of the Collectors of Customs at Portsmouth, N. H., and Bath, Me., the Deputy Collector of Rockland, Me., J. M. Richardson, Superintendent First Life-Saving District, Portland, Me., and Captains G. R. Silcox and J. H. Merryman, U. S. R. M., Superintendents of Construction of Life-Saving Stations, No. 38 State Street, New York city; and also upon application to this office. j26,28 au2,6

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Moore, on North-West side of Pleasant Point on the Piscataqua River. The house is of modern built, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 163 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

35 Central St., Boston, Mass.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be effectually cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

26th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the best medical work on Physiology ever published. There is nothing what ever that the married or single can desire to know but what is explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the leading physicians in this country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver." Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All seem respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. Mrs. A. M. D.

SHARP PAINS Crick, Sprains, Wrenches, Rheumatism, Neuralgia Sciatica, Pleurisy Pains Stitch in the Side, Slow Circulation of the Blood, Heart Diseases, Sore Muscles, Pain in the Chest, and all pains and aches either loose or deep-seated are instantly relieved and speedily cured by the well-known *Hop Plaster*, compounded as it is, of the medicinal virtues of fresh Hops, Gums, Balsams and Extracts. It is indeed the best pain killing, stimulating soothing and strengthening Plaster ever made. Ask for the *Hop Plaster* at any drug store. Price 25 cents or five for $1. Hop Plaster Co., Proprietors, CARTER, HARKER & HAWLEY, Gen'l Ag'ts, Boston, Mass.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

The barn of Horatio Perry in Danvers, Mass., was burned by an incendiary fire July 31st, with hay, eleven cows, two oxen, four horses and fifteen pigs. Loss $5300; insurance $1800.

Could not Keep

Shop without them. I consider your Sulphur Bitters a remarkable blood purifier. I know of several people whose cases were considered hopeless, that have been entirely cured by your medicine. The sale of Sulphur Bitters is so large here that I could not keep shop without them. E. S. YATES, Pharmacist, 99 Essex street, Lawrence, Mass.

John Nugent, an ex-policeman of Jersey City, N. J., and Edward Farrell, with one other man, on Saturday, July 28th, attempted to rob a bank cashier named Smith of a bag containing $10,000, on a railroad train in Hoboken. Nugent and Farrell were caught, and on July 30th were sent to state prison for ten years each. Jersey justice has both eyes wide open.

LONE JACK, Mo., Sept. 14, 1880.

I have been uling Hop Bitters, and have received great benefit from them for liver complaint and malarial fever. They are superior to all other medicines.
P. M. BARNES.

Edwin Arnold has finished another Indian poem which will be published in October.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ells's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

The story is that a lady at Saratoga has become blind from using drugs to make her eyes bright.

Did you read how Josiah Pitkin of Chelsea, Vt., was cured of a terrible sore leg, by Hood's Sarsaparilla, the blood purifier?

The boys who go swimming after Sunday school probably do so under the impression that "Cleanliness is next to Godliness.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

The story sent from some western city on Tuesday evening, July 31st, that a terrible accident had occurred to a Grand Army excursion train on the Denver & Rio Grand railroad, was a lie made out of whole cloth. It is to be hoped that the scoundrelly dastard who originated it will get his deserts—a long rope and a very short prayer would be about the thing for him.

Positive Cure for Piles.

To the people of this County we would say we have been the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The Boston board of health has determined to erect at once on Gallop's island a building to be used for the storing of infected cargoes of vessels coming from foreign ports, without waiting for concurrent action of the city council authorizing the expenditure of $10,000 recommended by the board. The action taken by the board of health is justified on the ground that the emergency demands prompt attention.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

An explosion at Follett's limekiln, located between Adams and North Adams, Mass., July 31st, killed Barney Fox instantly, and injured Michael Liverside so badly that he cannot recover. They were drawing a charge of powder, when it exploded prematurely, tore Fox's body into several pieces, blew out Liverside's eyes and broke his arms. Both men were married, and had large families.

Daily Chronicle.

The Sea of Oblivion

would long since have swallowed up Sozodont in common with so many forgotten tooth pastes and dentifrices, did not the experience of a whole nation prove that it possesses signal advantages. It thoroughly cleans the teeth, dissolving and removing their impurities; it revives their fading whiteness and strengthens their relaxing hold upon their sockets; it renders colorless, ulcerated gums hard and healthy; and besides neutralizing an unsavory breath, invests it with its own fragrance.

—A summer resort—borrowing your neighbor's lawn mower.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

—The man who has no respect for wealth is always trying to borrow a little of it.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

—Dodge City, Kansas, is so named, we believe, because the inhabitants spend most of their time dodging bullets.

One voice all over the land goes us from mothers, that says, "My daughterp are so feeble and sad, with no strength, all out of breath and life at the least exertion. What can we do for them?" The answer is simple and full of hope. One to four weeks' use of Hop Bitters will make them healthy, rosy, sprightly, and cheerful.

—An Albany woman woke her husband during a storm the other night, and said: "I do wish you would stop snoring, for I want to hear it thunder."

Wells' "Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

—In a recent article on etiquette appears the advice, "Never pull your watch out in company unless you are familiar with the people." This is simply a new version of the old warning, "Beware of pick-pockets."

Dr. Theo. West, Marianna, Fla., says: "I consider Brown's Iron Bitters the best tonic that is sold."

—Mrs. Mountjoy Belassis (after several collisions) —"It strikes me, Mr. Rudderford, you're much more at home in a boat than in a ball-room!" Little Bobby Rudderford, the famous Oxford coxswain —"Yes, by Jove! And I'd sooner steer eight men than one woman any day!"

It is the manifast destiny of Glenn's Sulphur Soap to supersede oily unguents for cutaneous eruption.

Dyspeptic, nervous people, "out of sorts," Colden's Liquid Beef Tonic will cure. *Ask for Colden's.*

—The strike recalls the story of the old darkey, who, hearing the instrument suddenly begin to click while the operator was away, stepped up to it and shouted with all his power of lung: "De oppahratah isn't h'yar."

Who has not seen the fair, fresh young girl transformed in a few months into the pale, haggard, dispirited woman? The sparkling eyes are dimmed, and the ringing laugh heard no more. Too often the causes are disorders of the system which Dr. Pierce's "Favorite Prescription" would remedy in a short time. Remember, that the "Favorite Prescription" will unfailingly cure all "female weaknesses," and restore health and beauty. By all druggists. Send three stamps for Dr. Pierce's treatise on Diseases of Women (96 pages). Address World's Medical Association, Buffalo, N. Y. *b*

—Neighbor's pretty daughter—"How much is this a yard?" Draper's son—"Only one kiss." "If it is so cheap I will take three yards, and grandma will pay you."

Hay Fever.

For twenty years I was a sufferer from Catarrh of the head and throat in a very aggravated form, and during the summer months with Hay Fever. I procured a bottle of Ely's Cream Balm and after a few applications received decided benefit—was cured before the bottle was used. Have had no return of the complaint. Charlotte Parker, Waverly, N. Y.

One and one-half bottles of Ely's Cream Balm entirely cured me of Hay Fever of ten years' standing. Have had no trace of it for two years. Albert A. Perry, Smithboro, N.Y.

Since boyhood I have been troubled with catarrh and Hay Fever, and have been unable to obtain permanent relief until I used Ely's Cream Balm. It has cured me. E. L. Clickener, New Brunswick, N. J. Price 50 cents.

—Professor to young lady student: "Your mark is very low, and you have only just passed." Young lady: "O, I am so glad." Professor, surprised: "Why?" Young lady: "I do so love a tight squeeze."

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

—A young lady reading in a newspaper, the other day, of a girl having been made crazy by a sudden kiss, called the attention of her uncle, who was in the room, to that rather singular occurrence, whereupon the old gentleman gruffly demanded what the fool had gone crazy for. "What did she go crazy for?" archly returned the ingenuous maiden; "why, for more, I suppose."

Take Up Arms.

TOLEDO, OHIO.—Mr. H. Arms, the prominent liveryman of Chicago, and this city, says that St. Jacobs Oil is superior to anything he ever used for curing pain in man or beast in an experience of twenty years.

—"Well, may I hope then, dearest, that at some time I may have the happiness of making you my wife?" "Yes, I hope so, I am sure," she replied; "I am getting tired of suing fellows for breach of promise."

***"He that is discontented in one place will seldom be happy in another." People are constantly changing their homes from East to West and from North to South or *vice versa*, in search of a healthy State. If they would learn to be contented, and to use the celebrated Kidney-Wort when sick, they would be much better off. The whole system can be kept in a healthy state by this simple but effectual remedy.

—When an editor proposed and was accepted, he said to his sweetheart: "I would be glad if you would give me a kiss;" then observing her blush, he added, "not necessarily for publication, but as a guarantee of good faith." She could not resist that.

*Those who deaden sensation and stupefy the patient to relieve suffering make a grave mistake. They proceed upon the false idea that it is legitimate to procure relief from pain by destroying physical sensibility. This method, carried to the last extremity, would kill the patient to end suffering. It is not presmed that Lydia E. Pinkham's Vegetable Compound will raise the dead, but it often does restore those who are given up as hopeless cases.

—A Portland woman hit a man with an egg because he kissed his hand to her. Served him right. Next time he'll know enough to kiss the woman.

The *Hop Plasters* have a wonderful sale, and why! Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggists, 25 cts.

—A vigilant sentinel is posted at the door of a picture gallery, with strict orders of the customary character. A sightseer happens along, and is promptly halted. "Here, sir, you must leave your cane at the door." "But, my friend, I haven't got any cane." "Then go back and get one. No one is allowed to pass in here unless he leaves his cane at the door. Orders is orders."

"Hart" means a stag or male deer, and ought not to be confounded with "heart," which signifies a muscular viscur, the primary organ of the blood's motion in an animal body. For diseases of the heart, Dr. Graves' Heart Regulator is an absolutely infallible specific.

—An elderly English lady who wanted a page, advertised: "Youth wanted." The next day she received a bottle of "wrinkle-filler and skin-tightener," a pot of "fairy bloom," a set of false teeth, a flaxen wig and some iodine soap.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

—A French lion tamer quarrelled with his wife, a powerful virago, and was chased by her all round his tent. On being sorely pressed, he took refuge in the cage among the lions. "Oh, you contemptible coward!" she shouted, "come out if you dare!"

Many persons who seemingly have consumption have perfectly sound lungs, and their distress originates altogether from disordered kidneys and liver. Now there are thousands of remedies that will relieve kidney and liver diseases but there is only one that can be depended upon for effecting a permanent cure, and that is Brown's Iron Bitters. Its efficacy has been satisfactorily proven in thousands of instances after all other remedies have failed.

STATED MEETINGS.

MEDICAL.

MRS. C. W. CHAMBERLIN

State and Ark Sts., Springfield, Mass.—Her Good, Kind Words will do Much for the Afflicted.

Mrs. Chamberlin is the wife of C. W. Chamberlin, an employee in the United States Armory in Springfield, Mass. She says: "Every Spring I have been, for some time past, more or less troubled with nervous debility and weakness. Some years I've been completely run down. My physician has recommended various strengthening and blood medicines, but I never received any permanent benefit until I tried Dr. Kennedy's FAVORITE REMEDY. I was recommended to me by Mrs. Newcombe, on State St. I think it a wonderful medicine to give one strength and enliven a person. I have recommended it to family after family among my acquaintances in Springfield, Mass., and FAVORITE REMEDY has done a great deal of good wherever it has been placed. I have a sister, Mrs. Harmon, 29 Tremont St., Lowell, Mass., who was troubled with nervous weakness and loss of strength and appetite, but by using Dr. Kennedy's FAVORITE REMEDY her health was completely restored. I consider it an excellent medicine. Dr. Kennedy's FAVORITE REMEDY is used extensively among the Armory men here."

No, Sir!

A Scotch minister once said no woman could bear pain as well as man. That is not so. The fact is generally the other way. Mrs. Edward Meyers of Rondout, N. Y., submitted to the operation of the removal of her hand by amputation, without taking ether, or moving a muscle or uttering a groan. Dr. Kennedy, also of Rondout, N. Y., who performed the operation, said he never saw such heroism. The lady's disease was erysipelas, and afterward the doctor gave his FAVORITE REMEDY to cleanse the blood. Mrs. Meyers is now well and strong.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 10, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1883. eodly

WHIPS All qualities and prices. Larrabee's, Congress St.

Miseries of Mosquito Time.

They bite at night with great delight, and put most people in a nervous fright. Their bills they stick with poisonous prick in children's flesh and make them sick. On buzzing wing the insects sing, before inserting their wicked sting. Victims complain of cruel pains and would rather not be bitten again. The pain to stop, apply one drop of Perry Davis's Pain Killer from the druggist's shop.

Charles T. Henderson of Dover is the owner of the largest hog ever raised in the state, if not in the country. It now weighs 1,370 pounds, and is on exhibition at Old Orchard beach. During the coming winter Mr. Henderson will exhibit it in the large cities.

Col. A. L. Campbell, Waterborough, S. C., says: "A member of my family used Brown's Iron Bitters with good results."

The annual state convention of Universalists in New Hampshire will be held, this year, at the new Universalist (Pierce Memorial) church in Dover, commencing Tuesday, Oct. 2d, and continuing three days.

An Experience of Twenty Years in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Portsmouth Chronicle.

FRIDAY, AUGUST 3, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

The Senatorial Contest Ended.

The ballot at noon on the 2d inst. was as follows:

Whole number of votes	318
Necessary for a choice	160
Bingham had	114
Pike	97
Burns	47
Chandler	6
Gallinger	6
Scattering	13

and there was no choice.

A second ballot was taken at 2:30, there being again no choice, though Mr. Pike's gain showed that he was the coming man.

A third ballot, the 42d taken by the convention, resulted as follows:

Whole number of votes	316
Necessary for a choice	159
Austin F. Pike had	161
Harry Bingham	113
Gilman Marston	18
Scattering	4

and Austin F. Pike was declared elected to fill the vacancy existing in the United States senatorial delegation from New Hampshire since March 4th, 1883.

The Result.

The long contest over the senatorship has resulted in the election of Hon. Austin F. Pike, of Franklin, by a good majority. The prospect on Wednesday hardly indicated this result, but the legislators had begun to be wearied at the delay, as had their constituents.

Mr. Pike was born in October, 1819, and after an academic education studied law, and was admitted to the Merrimack County bar in July, 1845. He was in his early practice in copartnership with Hon. George W. Nesmith, subsequently with Hon. Daniel Barnard, and later with Hon. I. N. Blodgett; and at present has associated with him, his son-in-law, F. N. Parsons, Esq. He is an able lawyer, and his legislative experience has been of no small degree. He was a member of the house of representatives in 1850, '51, '52, '65 and '66, and speaker the last two years. In 1857 and '58 he served as state senator, and was president of the senate during the last of these years. He was chairman of the republican state committee in 1858 and 1859, and a delegate to the convention which nominated Fremont for president in 1856. He was elected a member of the 43d Congress, and served through his term with credit to the state.

Mr. Pike's legal training, his freedom from all entangling alliances, his unspotted public life and his private character, will give us an able, patriotic and practical man in the senate. His election is the triumph of no faction, but is the choice of the legislature after a long, patient and vigorous contest, from which we hope the republican party emerges with renewed zeal for its future usefulness.

A Murderer Murdered.

The report that the miserable "informer," James Carey has been assassinated, is confirmed. It appears that O'Donnell, who claims to be an American, dogged Carey from London. Both sailed in the steamer Kirfauns Castle. The British government have little doubt that Carey was followed from Dublin. They believe that the Fenians had taken most elaborate measures to prevent his escape. The murder occurred at sea. Carey was not killed outright, but died shortly after he was shot. O'Donnell surrendered himself quietly. He was placed in irons, and was handed over to the police when the steamer arrived at Port Elizabeth.

Carey was one of the most infamous criminals of modern times. He was a prime organizer of the "invincibles," planned the brutal butchery of Lord Frederick Cavendish and Mr. Burke, and then to save his own worthless neck betrayed those whom he had led into crime. Setting aside the manner of his death, the world is none the worse off for his departure.

As Carey was murdered on Sunday afternoon, July 29th, at four o'clock, and the steamer Melrose, on which the shooting was done, did not arrive at Port Elizabeth until two o'clock the next afternoon, the crime was probably committed on the high seas, outside of colonial jurisdiction, in which case O'Donnell will be tried in England.

Wife Murder.

On Monday morning, July 30th, Jacob Suow called at the city marshal's office in Brockton, Mass., and said that on the previous Sunday morning his daughter Mary, thirty-five years of age, went away from his home in search of berries, and as nothing had been heard of her since, that he would like to have the case investigated, as he thought something might be wrong, as she was seen in company with her husband, Asa B. Baker, whom she married several years ago, but had not lived with for some time on account of domestic troubles. The woods and swamp in the vicinity of her house were searched during the day, but no trace could be found. On the 1st inst. Myron L. Hollis, while gunning in the vicinity of the Abington line, came across the dead body of Mrs. Baker, in a decomposed state, and partly covered with leaves. A stone was also found beside her, covered with blood. The post mortem examination showed three bullet wounds on the side of her head, near the temple, and another on her hip. The skull was also badly crushed. Baker has been arrested, but is very reticent and declines to say anything about the affair. When asked if he didn't hope the body might be found, he said he didn't care where she was; all he wanted was for her to keep away from him; but afterward said he hoped if she was dead, that they would give her a decent burial.

Annie F. Upham, aged twelve years, and her little cousin, Benjamin F. Upham, were drowned in a pond at East Saugus, Mass., Aug. 1st, by falling from a raft on which they were at play.

Philip Meyer, a German tailor of Hartford, Conn., on July 28th married a girl just from Germany, and on the morning of Aug. 1st committed suicide in the park at Hartford.

Two freight trains on the Troy & Boston railroad collided about half-way between Petersburg junction and Pownal, Vt., Aug. 1st; both engines and trains were wrecked, and then took fire. Six men were killed, including both engineers, one conductor, two brakemen, and a telegraph operator; five other men on the two trains were more or less injured. The bodies of the killed were almost destroyed by the fire.

Wednesday afternoon, Aug. 1st, a horse attached to a dog-cart containing two lady guests at the Crescent Beach house, Gloucester, Mass., ran away from Riverdale a distance of nearly two miles, and plunged off the wharf at the town landing. One of the ladies jumped out on reaching the wharf, and the other, Miss Ellen Mackay, was carried overboard, falling backward into the mud and water. The tide was fortunately out, and she was rescued without serious injury except the fright and nervous shock.

A three-year-old boy, named Thomas Walsh, stepped in front of a passenger train on the Old Colony road near Clinton Four Corners, Mass., and was instantly killed.

The city council of Lowell, Mass., has appropriated $10,000 for electric lights in the public streets. This is the first appropriation made for this purpose in that city.

The Sunday law in St. Louis is being rigidly enforced.

The 7th annual session of the New Hampshire State Temperance campmeeting will be opened at Weirs on the 14th inst., to continue to (and including) the 17th. Gov. Hale, Senator Blair, Hon. O. C. Moore, Hon. Nelson Dingley of Maine, Mrs. Emily McLaughlin of Boston, Mrs. Sarah A. Leonard, and other well known temperance speakers, have accepted invitations to be present. All societies and persons interested in temperance work are invited to take part.

"Up From the Cape: a plea for Republican Simplicity." Boston; Estes & Lauriat; price, $1.

This book is full of bits of wisdom, in its pictures of one branch of a family originating at Cape Cod which maintains the early traditions of the country, contrasted with the other members who are influenced by a desire for wealth and the excitement of society, and fashionable life. There is much in the book which will prove serviceable to the present generation. The solid, substantial man who remains at the cape, cultivates his mind, is contented with a moderate fortune, brings up his family in a manner to do him honor, and lives a long and happy life, is here sketched; while his city brother, overworked, feverish, ambitious to amass a fortune to be dissipated by his ill-bred sons, dies from overwork, and leaves his sons to begin at the bottom round of the ladder. If in a somewhat recent publication by a Boston house, the residents of the Cape thought they had been libelled, in this book they certainly have no occasion to be dissatisfied with the good qualities portrayed in the Cape people. The writer shows that if the Cape was a good place from which to emigrate like New Hampshire, there has remained at home much material which tends to the true growth and respectability of the Republic.

We have received the first number of the *American Counting-room*—a neat sixty-four page monthly magazine, published in New York city. Judging from its contents, many of our readers will be glad to learn of this new contribution to business and commercial literature. The illustrated article on the new York Produce Exchange, with which the number opens, furnishes information that is both historical and descriptive in character, and adds an interesting chapter to the commercial history of the country. All the articles are original, and either reported or prepared expressly for this magazine. In an interesting department devoted to "Counting-room Chats" various interesting questions are discussed by correspondents whom we should judge are posted and know whereof they speak. A department of the magazine is devoted to very comprehensive reports of the markets and exchanges, in which appear the quotations of stocks, etc., for each day in the month of June. The magazine may be procured of newsdealers or from the publishers.

—Prof. Huxley holds that an acre of good fishing ground will yield more food in a week than an acre of the best land will produce in a year. Huxley evidently never tried catching fish himself. If he had he would know that one fish to each square mile of water is about the average nowadays.

Portsmouth City Directory. 1883—84.

The canvass for the Directory having been finished, persons who have made changes in business, business location or place of residence, or who have cause to think their names were not correctly given, should report the same AT ONCE to W. A. GREENOUGH & Co., 31 Milk St., Boston, Mass. 6 1d 2 1w, a 2.

IN A STILL HOUR

Two Learned Men Have a Talk and Come to a Common Conclusion.

"There can be no question as to that," said Dr. P——, who is prominently connected with a certain hospital, to his friend, the House Surgeon, as the two sat having a smoke and a quiet chat in the reception room late on a recent stormy night—"no question at all." Ever since I began practice in that little country village you've heard me speak of, away up near Lake Ontario, thirty years ago, I have felt—in common with all other physicians—the need of a reliable plaster. There are so many diseases—if, indeed, the majority do not come under the rule—for which a good external application is better than remedies poured into a patient's stomach."

"That's so, doctor, and to show you my faith in your theory, I may say that since I have held my position here, I have opposed the idea of dosing people, except in cases when we were at our wit's end and it seemed to be that or nothing. Some soothing application, if the patient needs anything, combined with rest and good nursing, will do the business—save where cases of accidents require heroic treatment."

"I say, doctor," said the other, "you can speak of it, or not, just as you like, but in my private practice, when I want anything of the sort, I use BENSON'S CAPCINE POROUS PLASTER. It's a proprietary thing, of course, but it is by all odds the best article I have come across. It is scientifically prepared, quick in taking hold, sure to relieve when relief is possible, and neat as wax to handle. It is just the perfect flower of all that has ever been done in that line. I happen to know, too, that it is being rapidly introduced in the principal hospitals of London, Paris and other leading cities in Europe."

"You needn't fret, my friend," laughed the House Surgeon, "over the chance of being caught in an act of professional heterodoxy, for we use Benson's here every day, and so they do at the other city hospitals. We find it so much better than liniments, lotions, &c., that the bottles are actually getting scarce in the house."

Benson's plasters are prepared from an improved formula by distinguished physicians and chemists to meet a want felt for years. You will not be disappointed in them. In the middle of the genuine is CUT the word CAPCINE. Price 25 cents. Seabury & Johnson, New York.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars. Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH

ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *It is not a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—samples received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, bathing and sailing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Hadley, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

Overseer of Poor—Wm. C. Newton.

The nominations were made by acclamation, and were unanimous.

WARD FOUR.

Aldermen — Benjamin Atwell, James Janvrin.

Councilmen—Oliver H. Cook, Horace Gray, James Cunningham, George Trafton.

Overseer of Poor—Augustus Walden.

Assessors of Taxes—Charles W. Norton, Wm. P. Bennett.

MISDIRECTED ENTERPRISE.

The police on Thursday arrested a man on Bow street, he having in his possession a large bag such as seamen use to hold their clothing, the said bag being suffed with a lot of articles, among which were nineteen pairs of stockings, some of them very long, some very short, and of many different sizes and colors; second-hand overalls, shirts, and neckties; underwear, of various kinds; a dozen pairs of boots and shoes; and a pass-book belonging to Patrick Keefe, of Chapel street, an employe of the Portsmouth Brewing Co. Further investigation showed that the plunder was all taken from Mr. Keefe's house, which had been broken into on the previous night. The arrested man gave the police a large and select assortment of aliases to choose from, but finally settled on the name of Matthew Power; he said he belonged in Montreal, arrived in this port from New York in a schooner, and had been looking for another vessel to ship in.

Shortly after Power's arrest a man named Young, who keeps the Bay View house on Bow street, appeared at the station and reported that a man called him up very early Thursday morning for refreshments, and after he had gone, Young missed two boxes of cigars. He recognized Power as his early patron.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, August 2d, Mayor Treat in the chair:

Present the full board, except Ald. Sampson and Atwell.

The records of the last meeting were read and approved.

Communication from Northern Telephone Co., as to establishing fire alarm telephone, was referred to com. on fire department.

The city marshal's report for the quarter ending June 30th was accepted. The number of arrests during the quarter was 214; number of persons lodged, ninety-one. Amount of fines collected, $85; costs, $169.68: total $254.68. Paid for witness fees, interment of dogs, etc., $25.02; paid into the treasury, $230.64.

Report on S. Gilbert's claim for hens killed by dogs, leave to withdraw; same report on claims of Richard May, for hens killed by dogs, of Geo. W. Gove, for breaking out private road, and of S. C. Whittier, for medical service rendered to a patient confined in the watch house.

A vote was passed requiring persons presenting claims for sheep killed by dogs to present with the claims evidence of the loss or damage.

Report of special com. on exemption of Portsmouth Machine Co., was recommitted.

The mayor, Ald. Sampson and Ald. Hackett were appointed to represent the city at the annual meeting of the Portsmouth & Dover railroad on Wednesday, Aug. 8th.

Supervisors of elections were appointed: Ward one, A. S. Waldron, Francis R. Johnson; ward two, James L. Parker, Benjamin F. Parker; ward three, Frank E. H. Marden, Simon H. Mills; ward four, Oliver H. Locke, Edward Smith.

Communication from Mayor Woodman of Concord, secretary of the mayors who met recently in Boston, was read, but no action was taken.

Petition for widening Middle street near its junction with Lafayette road was reported on by Ald. Martin, leave to withdraw. The alderman said there was no appropriation for this expenditure, and the taxes were high. Report laid on the table, the board to visit the premises on Friday at three o'clock P. M.

Shannon and others, petitioners for a new highway leading from North road, were voted leave to withdraw.

Adjourned for one week.

Reserved seat tickets for the concert at Music hall on Sunday evening can now be procured at Goodrich's Congress Block bookstore.

Mr. George Riddle, the eminent elocutionist, gave readings at the Appledore house, Isles of Shoals, on the evening of the 1st inst., from "Antony and Cleopatra."

Stephen Bradshaw Ives died in Salem, Mass., July 31st, at the age of eighty-two years—on the same day that his elder brother, John S. Ives, aged eighty-four years, was buried. Stephen B. Ives learned the printer's trade in the Portsmouth *Journal* office, and afterward, on the 6th of January, 1823, in partnership with his brother William, founded the Salem *Observer*; he was connected with that paper until 1853, when he retired, and went into the bookbinding, bookselling and stationery business, which he gave up a few years ago to take an interest with two of his sons in the firm of D. P. Ives & Co. of Boston. He leaves four sons and four daughters. He was a large owner of real estate, and a prominent member of St. Peter's Episcopal church in Salem; was president of the Essex Mutual Ins. Co.; and at different times served many terms in the common council and board of aldermen in the city.

The workmen in Philbrick's stone and marble works are to have a picnic and chowder party at Gerrish's island on Monday, and will probably be joined by a number of guests from Dover.

A bass weighing sixty-eight pounds was taken on a hand line by Mr. Gus. Fernald, close by the weir near the Hotel Wentworth on the 2nd inst. It was brought to this city, and sold to go back again, to be served up to the patrons of the Wentworth, Severe halibut, caught off the Shoals, were brought in the same day.

The schooner Cocheco, Capt. Seaward, arrived at Lynn, Mass., from Philadelphia, July 31st, with 360 tons of coal.

Hon. Zenas Clement died in Stamford, Conn., July 26th, at the age of eighty-two years. He was born in Unity, in this state, and in early manhood went to Claremont, where he kept a variety store; he was a strong democrat while the town was strongly whig, but owing to a dispute about some desired act of incorporation which Mr. Clement favored and his party in the town opposed, he was sent to the legislature by the whigs. From 1837 to 1843 he was treasurer of the state, and afterward engaged in woollen manufacturing at Sanborton Bridge, now Tilton. In 1853 he was appointed collector of the port of Portsmouth by President Pierce, and it is said was very influential in getting the Pierce administration to build the custom house here. He was for a short time engaged in business in this city, after retiring from the collectorship, and then moved to another state. He has lived in Stamford for some years past, but his health has prevented him from taking any active part in business or politics. He leaves a widow, a daughter and a son.

The "Faith convention" at Old Orchard, conducted by Rev. Dr. Cullis, closed on Thursday of this week. Some wonderful "prayer cures" are reported, and the list is to be published for the benefit of skeptics. It is alleged that Edith Lord, of Berwick, was cured of St. Vitus dance; for three weeks before going to Old Orchard she was constantly on the move, but from the instant Dr. Cullis prayed with her, up to the present time, she has been in perfect health. Jennie C. Clark, of North Berwick, was cured of heart disease July 31st; she was so low that it was with difficulty she was carried to the convention, but after prayer felt perfectly well, and attended all the meetings. Ruth Snowdon King, of Rahway, N. J., was instantly cured of deafness of twenty years standing, having previously recovered her voice in answer to prayer.

Assistant Naval Constructor John F. Hanscom has been detached from the navy yard at Boston, and ordered to duty at Chester, Pa., superintending the construction of the Dolphin.

Work has commenced in the sail loft at the navy yard, at making new sails for the U. S. S. Omaha, and repairing her old ones. The riggers will be set to work as soon as needed material arrives. The ship will be all planked up this week.

THE FIREMEN'S MUSTER.

Many persons who have subscribed to the muster fund think it is to be paid at the time of subscription. Such is not the case, as a duly authorized collecter will be sent for each collection—probably a police officer—at some future day.

W. J. SAMPSON, *Chm. Com.*

—Truth lies in a well. This is because there are no fish stories connected with well-water.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

Proposals for the Construction of a Life-Saving Station.

TREASURY DEPARTMENT:
OFFICE OF GENERAL SUPERINTENDENT,
U. S. LIFE-SAVING SERVICE,
WASHINGTON, D. C., July 23d, 1883.

SEALED PROPOSALS will be received at this office until 12 o'clock, noon, of Saturday, the 11th day of August, 1883, for the Construction of a Life-Saving Station on Hunniwell's Beach, on the coast of Maine.

Bidders will state in their proposals the time within which they will agree to have the building completed ready for occupancy.

Each bid must be accompanied by a bond in the sum of five hundred dollars, with two good and sufficient sureties, conditioned that the bidder shall enter into contract without delay and give such bonds as security for the faithful performance thereof as may be required if his bid be accepted, or by a deposit of five hundred dollars U. S. Currency or bonds to be returned to the unsuccessful bidder after the award of the contract, and to the successful bidder after his contract and bond for the faithful performance of the terms thereof shall be approved by the Secretary of the Treasury.

Specifications and plans, forms of proposal, contract and bond, can be obtained at the offices of the Collectors of Customs at Portsmouth, N. H., and Bath, Me., the Deputy Collector of Rockland, Me., J. M. Richardson, Superintendent First Life-Saving District, Portland, Me., and Captains G. B. Slicer and J. H. Merryman, U. S. R. M., Superintendents of Construction of Life-Saving Stations, No. 34 State Street, New York City; and also upon application to this office.

All proposals must be endorsed "Proposals for the Construction of a Life-Saving Station," and addressed to the General Superintendent of the U. S. Life-Saving Service, Washington, D. C.

The right to reject any or all bids, or to waive defects if deemed for the interest of the Government, is reserved. W. D. O'CONNOR,
Acting General Superintendent.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, situated at Newcastle, Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cisterns from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt the truth of this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the best medical work on Physiology ever published. There is nothing what ever that the married or single can desire to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is exclusively devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, for *free* advice and relief. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of the above.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. She says: "It works like a charm and saves much pain. It will cure entirely the worst form of Falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed; as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good, to others"

"Philadelphia, Pa. Mrs. A. M. D.

SHARP PAINS Cuts, Sprains, Wrenches, Rheumatism, Neuralgia, Sciatica, Pleurisy-Pains, Stiffness in Joints or Side, Sore Circulation of the Blood, Heart Disease, Sore Muscles, Pain in the Chest, and all pains and aches either local or deep-seated are instantly relieved and speedily cured by the well-known *Hop Plaster*, compounded as it is, of the medicinal virtues of fresh Hops, Gums, Balsams and Extracts. It is indeed *the best* pain-killing, stimulating, soothing and strengthening Plaster ever made. Ask for the *Hop Plaster* at any drug store. Price 25 cents or five for $1. Hop Plaster Co., Proprietors, CARTER, HARRIS & HAWLEY, Gen'l Agts., Boston, Mass.

15 CONGRESS STREET,
MAIN & WINCHESTER BLOCK.

WHIPS All qualities and prices. Larrabee's, Congress St.

The body of an unknown woman was found floating in the north canal in Lawrence, Mass., Aug. 1st. It was supposed to have floated from Lowell.

The Star coal mine at Shamokin, Pa., has been abandoned by the proprietor, on account of its dangerous condition.

Files and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Three burglars entered the residence of George W. Plumer, at Lee, on the night of July 25th, and were fired at several times by Mr. Plumer, but escaped, without any plunder.

Pure blood helps to make a clear conscience. Hood's Sarsaparilla purifies the blood. Enough said. Send us a big bottle.

Ex-Gov. Harriman is slowly improving, but it is thought doubtful if he ever fully regains his health.

☞ For five cents, Well's, Richardson & Co., Burlington, Vt., will send colored sample colors of Diamond Dyes.

At Warwick, R. I., July 30th, Capt. E. W. Congdon shot Christopher Wilcox in the mouth, shoulder and lungs, and he shortly died.

LONE JACK, MO., Sept. 14, 1880.

I have been uling Hop Bitters, and have received great benefit from them for liver complaint and malarial fever. They are superior to all other medicines. P. M. BARNES.

Mrs. Lucy Blackinton, the old lady of eighty-seven years who was lost at New Salem, Mass., while picking berries, was found Tuesday morning, July 31st, in a swamp about a mile and a half from her home, and searchers had been so near her that she heard their voices, though she had not the strength to call them. Her clothing was torn and she had eaten nothing for eight days. She says she had lain herself down to die just before she was found.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ells's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

The school-ship St. Marys, from Lisbon, Portugal, arrived at Newport, R. I., July 30th.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

At Great Barrington, Mass., Aug. 1st, thieves stole a horse belonging to Chas. Shaw, and were traced to the woods, where officers found the horse and surprised the thieves, who were asleep. Officer Vandeusen came upon them suddenly, when one of them shot him through the hand, and all made their escape.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian File Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The coroner's jury in the case of Christopher G. Wilcox, shot July 31st at Old Warwick, R. I., returned a verdict that he came to his death by four pistol shots fired with malice aforethought by Geo. W. Congdon. Congdon claims he fired the pistol in self defence.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling, irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Near Essex Centre, Vt., Wednesday evening, the 1st inst., Simon Cunningham, in a wagon with his wife and a four-year-old child, attempted to cross the railroad track in advance of a train, and was struck by the locomotive. Cunningham was instantly killed, his wife fatally injured, and the child's leg broken. Cunningham was a farmer thirty-five years old.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSE, Vice-President,
Jamestown, Dakota.

Daily Chronicle.

The Sea of Oblivion

would long since have swallowed up Sozodont in common with so many forgotten tooth pastes and dentifrices, did not the experience of a whole nation prove that it possesses signal advantages. It thoroughly cleans the teeth, dissolving and removing their impurities; it revives their fading whiteness and strengthens their relaxing hold upon their sockets; it renders colorless, ulcerated gums hard and healthy; and besides neutralizing an unsavory breath, invests it with its own fragrance.

—"I am trying to break myself of slang phrases," said the Centralville girl, "and have been for some time. But actually I used the word 'racket' to-day before I thought, and I'm so ashamed of myself. You won't give it away, will you?"

Wong Shok Loo, President of the Hop Wo, Chinese Company, San Francisco, Cal., endorses the great-pain-reliever, St. Jacobs Oil.

—One of the Yale student waiters at a White Mountain hotel has been thrashed by the head cook. He gave an order in Latin, and the culinary artist thought he was calling him names.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

—A schoolmistress of Yreka, Cal., while on her way to school, was attacked by an infuriated steer. "She seized the animal by the horns and held him until help came." The next day she saw a rat in the school room, when she hastily gathered her skirts about her, jumped up on a desk, and yelled murder. A rat has no horns for a woman to grab hold of.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

—Beauty is only skin-deep, and sometime it is only as deep as the powder and paint.

One voice all over the land goes us from mothers, that says, "My daughterp are so feeble and sad, with no strength, all out of breath and life at the least exertion. What can we do for them?" The answer is simple and full of hope. One to four weeks' use of Hop Bitters will make them healthy, rosy, sprightly, and cheerful.

—"Come down," said the young man, stroking his upper lip.

Wells' "Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

—A mule is unlike a poor rule, because he works both ways.

Dr. Theo. West, Marianna, Fla., says: "I consider Brown's Iron Bitters the best tonic that is sold."

—Expounders—retired preachers and reformed pugilists.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

—An anonymous article—a baby before it is christened.

The Bilious,

dyspeptic or constipated, should address, with two stamps for pamphlet, World's Dispensary Medical Association, Buffalo, N. Y. c

—A letter was received at the post office department recently from Richmond, Va., addressed to "Dr. Franklin, postmaster general of the Colonies." Within Dr. Franklin was requested to return a letter supposed to be in the dead letter office for the writer.

Didn't Want a Girl.

Last summer my wife's health was all run down, and she wanted me to hire a girl to do the work. In a little while I found one I thought would suit her, when to my surprise she said I need not hire any one, as she felt better, and thought another bottle of Sulphur Bitters would cure her. DONALD GREY, 41 Worcester square, Boston.

—The Winterport correspondent of the Belfast *Journal* relates that little Josie was accused by her sister of telling a falsehood. She at first denied, but afterward said by way of extenuation. "Well, suppose I did lie; everybody lies but God and George Washington." This same little girl was asked if she said her prayers. She replied: "No; I have to take Kennedy's medicine, and that is enough without saying my prayers."

TERRIBLE itching and scaly humors, ulcers, sores and scrofulous swellings cured by the Cuticura and Cuticura Soap (the great skin cures) externally, and Cuticura Resolvent (blood purifier) internally. Ask about them at your druggists.

—An Englishman, writing from this country to a London paper, says: "We have always supposed Englishmen to be stronger physically than Americans, but I think we must certainly overestimate our strength. I am told, upon good authority, that there is an old man in this country named Tilden who could have slapped Daniel Lambert down three flights of stairs. This old man is so powerful that he amuses himself by lifting cattle from one pasture to another."

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

—The song of the bricklayer—"Still there's mortar follow."

CLEAR HEAD and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions brought about in catarrh by the use of Sandford's Radical Cure. Complete treatment for $1.

—"Is your railroad well equipped?" asked the would-be stockholder, and the president drew himself up and remarked: "Well equipped! I should say it was. Splendidly equipped, sir, splendidly. For instance, there are our first-mortgage sevens, and our second-mortgage sixes, and our land-grant bonds, and our common stock, and our preferred stock, and the biggest floating debt of any road in the country. But that isn't all, sir. We've got the finest lobby that any corporation can show; a perfect daisy, sir. If you know a road that's better equipped than ours is, name it, sir; name it, if you please." He couldn't name it, and didn't want it.

Many persons who seemingly have consumption have perfectly sound lungs, and their distress originates altogether from disordered kidneys and liver. Now there are thousands of remedies that will relieve kidney and liver diseases but there is only one that can be depended upon for effecting a permanent cure, and that is Brown's Iron Bitters. Its efficacy has been satisfactorily proven in thousands of instances after all other remedies have failed.

IN A STILL HOUR

Two Learned Men Have a Talk and Come to a Common Conclusion.

"There can be no question as to that," said Dr. P——, who is prominently connected with a certain hospital, to his friend, the House Surgeon, as the two sat having a smoke and a quiet chat in the reception room late on a recent stormy night—"no question at all." Ever since I began practice in that little country village you've heard me speak of, away up near Lake Ontario, thirty years ago, I have felt—in common with all other physicians—the need of a reliable plaster. There are so many diseases—if, indeed, the majority do not come under the rule—for which a good external application is better than remedies poured into a patient's stomach."

"That's so, doctor, and to show you my faith in your theory, I may say that since I have held my position here, I have opposed the idea of dosing people, except in cases when we were at our wit's end and it seemed to be that or nothing. Some soothing application, if the patient needs anything, combined with rest and good nursing, will do the business—save where cases of accidents require heroic treatment."

"I say, doctor," said the other, "you can speak of it, or not, just as you like, but in my private practice, when I want anything of the sort, I use BENSON'S CAPCINE POROUS PLASTER. It's a proprietary thing, of course, but it is by all odds the best plaster I have come across. It is scientifically prepared, quick in taking hold, sure to relieve when relief is possible, and neat as wax to handle. It is just the perfect flower of all that ever been done in that line, I happen to know, too, that it is being rapidly introduced in the principal hospitals of London, Paris and other leading cities in Europe."

"You needn't fret, my friend," laughed the House Surgeon, "over the chance of being caught in an act of professional heterodoxy, for we use Benson's here every day, and so they do at the other city hospitals. We find it so much better than linliments, lotions, &c., that the bottles are actually getting scarce in the house."

Benson's plasters are prepared from an improved formula by distinguished physicians and chemists to meet a want felt for years. You will not be disappointed in them. In the middle of the genuine is CUT the word CAPCINE. Price 25 cents. Scabury & Johnson, New York.

WILL CURE ALL DISEASES of the SKIN.

Vegetine

THE GREAT BLOOD PURIFIER

Dizziness, Liver and Kidney Complaint.

CINCINNATI, O.

H. R. Stevens—Dear Sir: I have received great benefit from the use of the Vegetine, and can safely recommend it for *Dizziness, Rush of Blood to the Head*, and a general blood purifier. It has also been used by other members of my family for *Liver* and *Kidney Complaints*. MRS. A. C. ULRICH, 290 Baymiller St.

PURIFIES THE BLOOD.

BOSTON, MASS.

Mr. H. R. Stevens—Dear Sir: I have been using Vegetine for some time with the greatest satisfaction, and can highly recommend it as a great cleanser and purifier of the blood. J. L. HANNAFORD, Pastor of Egleston Square M. E. Church.

A MEDICINE FOR CHILDREN AND ADULTS.

I testify to the beneficial effects of VEGETINE, as used in my family for the past six years. We consider it invaluable as a blood medicine for both children and adults, and endeavor to always keep a supply on hand. Yours, &c., C. A. JACKSON, Business Manager South Boston Inquirer

MEDICAL.

MRS. C. W. CHAMBERLIN

State and Ark Sts., Springfield, Mass.—Her Good, Kind Words will do Much for the Afflicted.

Mrs. Chamberlin is the wife of C. W. Chamberlin, an employee in the United States Armory in Springfield, Mass. She says: "Every Spring I have been, for some time past, more or less troubled with nervous debility and weakness. Some years I've been completely run down. My physician has recommended various strengthening and blood medicines, but I never received any permanent benefit until I tried Dr. Kennedy's FAVORITE REMEDY. It was recommended to me by Mrs. Newcombe, on State St. I think it a wonderful medicine to give one strength and enliven a person. I have recommended it to family after family among my acquaintances in Springfield, Mass., and FAVORITE REMEDY has done a great deal of good wherever it has been placed. I have a sister, Mrs. Harmon, 26 Tremont St., Lowell, Mass., who was troubled with nervous weakness and loss of strength and appetite, but by using Dr. Kennedy's FAVORITE REMEDY her health was completely restored. I consider it an excellent medicine. Dr. Kennedy's FAVORITE REMEDY is used extensively among the Armory men here."

No, Sir!

A Scotch minister once said no woman could bear pain as well as man. That is not so. The fact is generally the other way. Mrs. Edward Meyers of Rondout, N. Y., submitted to the operation of the removal of her hand by amputation, without taking ether, or moving a muscle or uttering a groan. Dr. Kennedy, also of Rondout, N. Y., who performed the operation, said he never saw such heroism. The lady's disease was erysipelas, and afterward the doctor gave his FAVORITE REMEDY to cleanse the blood. Mrs. Meyers is now well and strong.

INSURANCE.

PATENTS!

R. H. EDDY,

No. 76 State St., opposite Kilby: Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior abilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

BOSTON, January 1, 1884. eodtf

WHIPS All qualities and prices. Larrabee's, Congress St.

Miseries of Mosquito Time.

They bite at night with great delight, and put most people in a nervous fright. Their bills they stick with poisonous prick in children's flesh and make them sick. On buzzing wing the insects sing, before inserting their wicked sting. Victims complain of cruel pains and would rather not be bitten again. The pain to stop, apply one drop of Perry Davis's Pain Killer from the druggist's shop.

A company from Boston has started a new business in Fort Fairfield Me. The object is to gather and prepare for market the immense quantities of raspberries which grow spontaneously in that region. Many tons were shipped in casks last year to Boston.

Col. A. L. Campbell, Waterborough, S. C., says: "A member of my family used Brown's Iron Bitters with good results."

A sperm whale fifty feet long was captured a few days ago off Mt. Desert, Me., and towed to Turtle island, near by, where large crowds of tourists visited it.

An Experience of Twenty Years

in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Maine imports most of her hackmatack for ship knees from Ontario, Can., a colony of Maine lumbermen having been organized there.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Portsmouth Chronicle.

SATURDAY, AUGUST 4, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

On the election of a senator by our legislature Mr. Chandler telegraphed over the country that "Patience has had her perfect work." Whether the secretary had gone through this labor hand in hand with Patience, it is not stated; but the secretary's despatch is decidedly cheerful coming from a defeated candidate.

"Who held the pass of Thermopylæ against the Persian host?" demanded the teacher; and the representative's son down at the foot of the class spoke up and said, "Father, I guess; he holds an annual pass over all the railroads in the state as long as the legislature sits." The boy stood at the head—after the others sat down.

The Legislature.

The selection of a senator has consumed so much time of the present session of the legislature that it will be necessary for the members to apply themselves diligently for the remainder of the term to their duties. The railroad legislation is now in order. The great work of convincing the members that some of the projected schemes were proper, legitimate, and ought to be allowed to become enactments, has for the most part been confined to the members of that party which abided by its caucus nomination. Indeed, the members of the lobby found it was simply effort spent in vain to look after republican members pending the senatorial contest. Now the coast is clear.

We have heard of no evidence being presented to the railway committee, but the present proposition seems to be very much like the lawsuit which the Hillsboro' county lawyer said that Frank Pierce could argue just as well without hearing the evidence. It seems to be a question of eloquence, and we regard it as about time that outside speakers should permit the members of the house to take a hand at the discussion, though in regard to the Colby bill, the speakers may be found in the same condition in which one of the retained attorneys said he discovered himself, namely, in favor of the main provisions of the bill, "but he did not exactly know the conditions of the bill *in all particulars!*"

It is supposed that after the long harangues during which several able and eloquent lawyers have sawed the heated air of the chamber of the house of representatives, something will be evolved which will perhaps satisfy some of the sojourners at Concord without the presence of whom the session would be, to some in attendance, "Stale, flat, unprofitable!" At the same time, it is by no means improbable that the opposition, which has apparently been inactive during the senatorial campaign, may develope strongly, and as is predicted by many, defeat the labors of the past two months performed by the friends of the Colby bill.

The Telegraphers' Strike.

George F. Edgerly, of Brookfield, thirty years old, died Aug. 1st from a pistol-shot wound in the head, inflicted by himself. He was found insensible in a field, after having been twelve hours missing.

The temperance campmeeting under the management of the National Woman's Christian Temperance Mission commenced its sessions at Old Orchard on Friday, the 3d inst.

The Webster Historical society has accepted the invitation of Hon. James O. Adams, secretary of the New Hampshire state board of agriculture, to meet at his grounds at Boscawen, Aug. 17th.

A fifteen-mile friction railroad up Mount Kearsarge is contemplated; in fact the survey has already begun. The old fashioned way of mountain climbing is in danger of becoming a lost art.

The total number of deaths in Egypt, by cholera, is estimated at over 16,000 since the late outbreak of the disease.

A mob broke into the jail at Maysville, Louisana, on the night of Aug. 1st, took out D. W. Pressel, and hanged him in the court house yard. He was guilty of rape on a little girl.

Eleven partially suffocated persons were rescued from a burning building in Brooklyn on the morning of Aug. 2d. Two will die.

On Monday, the 30th ult., a large and enthusiastic meeting of the best citizens of Banks and Jackson counties, Georgia, was held at Marysville to take some action in regard to the late raids of a lot of lawless persons who have been going to negroes' houses and whipping and shooting the occupants. From the number of citizens present at the meeting and the tone of the speeches it was shown that they did not hold with the actions of the mob. Resolutions strongly condemning such violence were passed. It seems that for some time past there has been a gang of Ku Klux molesting the negroes in the vicinity of Marysville. Numerous outrages have been committed during the past two weeks.

George Gonst and his sister Lena were drowned in the North river at New York on the 2d inst., by the capsizing of a row-boat.

Joseph Diaz, a negro, is under arrest in New York for fatally shooting Mrs. Marcia Marthorne, who refused to leave her husband to live with him. He also shot the woman's baby, but not fatally.

The training ship Portsmouth arrived below at Boston on the 2d inst.

Newichewannock Tribe, No. 4, Improved Order of Red Men—Each Friday evening at Pythian hall No. 25 Market street.

The fearful accident on the Troy & Boston railroad, by which two freight trains were wrecked, and six men killed and their bodies consumed, was caused by the error of a telegraph operator, a lad seventeen years old, named Thompson, who had been on duty all night, and at nine in the forenoon was still not relieved. The niggardly management of the road caused the error. The loss to the road by the accident will be $75,000.

Meetings for rejoicing were held in many places in Ireland when Carey's murder was announced.

The cholera is announced to be epidemic in Bombay.

Arthur W. Oliver, aged twenty-three years, committed suicide in Lynn, Mass., Aug. 2d, with chloroform, saturating a sponge with the drug, and then fastening it over his mouth and nostrils with a towel. There was no known cause for the act, except that he had been heard to express a fear that he could not make a living.

At Baltimore, Md., Aug. 2d, Wm. Smith shot his wife and himself, both fatally.

Highwaymen who robbed a stage-coach between Deer Lodge and Helena, Montana, a few days ago, have been captured, and part of the stolen property recovered.

An express train from Boston to Montreal left the track near North Troy, Vt., Aug. 1st, and fifteen persons were hurt, two or three perhaps fatally.

The public debt was decreased $7,900,000 during the month of July.

An incendiary set fire to Deacon Thompson's barn at South Framingham, Mass., Wednesday morning, the 1st inst. After firing the building in two places he awoke the family in the adjoining house, told them of the fire and then disappeared.

A special from Kansas City, Mo., says Charles Ford, the slayer of Jesse James, the infamous outlaw, has been arrested under the old indictment for the Blue Cut train robbery. Ford does not know yet what has caused his arrest. He is said to have been dumfounded, and is evidently badly frightened.

MARINE CHRONICLE.

Stmr Indiana, Sargent, from Liverpool arr at Philadelphia 2d inst.

Sch Royal Arch, ——, for this port passed down at Newcastle, Del, July 31st.

Sch Clara E Simpson, Swett, from Kennebec river arr at Washington, D C, 31st.

Sch Mary, Magee, Hoboken for this port, passed through Hell Gate 1st inst.

A Card.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars. Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH

ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *Is not a liquid or snuff.*

Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

THE Admiration OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England Coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in the best manner, **with the ease of Beds,** large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

GEORGE F. THOMPSON, Manager.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
August 4, 12:00 A. M.

Probabilities for New England:—

Generally fair weather, rising barometer, cool north westerly winds.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 52 degrees above zero.

Sky clear.

ELECTION OF SCHOOL BOARD.

The senate committee having under consideration the bill to change the method of electing the board of instruction of this city, have been granted further time, and will report a bill providing for the election, at special meetings of the voters, of members of the board to take the place of those whose terms expire,—such meetings to be held on days other than those of any state or municipal elections, in order that the school management may not be mixed with politics, and to be held in the afternoon and evening, that ladies qualified under the law to vote for school committee may have an opportunity to do so.

POLICE COURT--BATCHELDER, J.

FRIDAY, Aug. 3d.

Patrick Peer, Reuben Rand, Jr., and Benjamin Brown, for drunkenness, were each assessed $9.90, fine and costs, with the alternative of a residence at the county farm.

Matthew Power, charged with breaking and entering the dwelling of Patrick Keefe, and stealing therefrom, was held in $400 for trial at a higher court.

REPUBLICAN NOMINATIONS.

WARD ONE.

Aldermen—William R. Martin, George W. Green, Willard J. Sampson.

Councilmen—Charles H. Clough, Joshua M. Bickford, John H. Rose, Wilbur L. Davis, Charles W. Dennett, Willis B. Hodgdon.

Overseer of the Poor—Frank Wells.

Assessors of Taxes—George W. Pendexter, Joseph H. Berry, Robert King.

WARD TWO.

Aldermen—Alfred Stavers, Albert C. Anderson, William H. Hackett.

Councilmen—James M. Jarvis, Moses Plummer, William G. Billings, Albert R. Junkins, Frank W. Grogan, Arthur L. Hersey.

Overseer of the Poor—George H. Abbott.

Assessors of Taxes—Joseph H. Gardiner, John W. Prior, Samuel S. Green.

GOSSIPS SAY

That the attraction to Pike's peak was irresistible.

That the Portsmouth delegation were in at the finish.

That one of the delegation unfortunately got left.

That the local leaders, except Cols. Howard and Sides, were not on the field in the final charge.

That "Put" did it with his little pike.

That Gen. Marston and his little band of Spartans died at their guns.

That the list of slain includes a large proportion of the prominent republicans in the state.

That Senator Blair thanks his lucky stars that but one senator was chosen.

That he has managed his senatorial affairs with consummate tact and skill, and is considered by many to be the shrewdest politician in the Granite State.

That Speaker Eastman led the stampede.

That it is thought by many that he was purposely in a position to stampede at the proper time.

That the democrats had no opportunity to meditate in the family quarrel.

That the senatorial quarrel having ended well, "let us have peace."

That many republicans desire the contest for the mayorship to lay between Mayor Treat and Ex-Mayor Sise—and may the best man win.

That a revenue cutter and a light-house steamer were in the lower harbor on Thursday afternoon.

That eight sword fishermen were anchored in Pepperell's cove on Friday.

That a Manchester gentleman, encamped with his family at Gerrish's island, has put up a hundred and fifty cans of lobsters and fifty cans of berries for home consumption next winter.

That the workmen of the Harvard Clock company do not wish to come to Portsmouth.

That as the wife of Mayor Treat was driving through Vaughan street on Thursday evening her team collided with that of Street Commissioner Ham, cutting off a wheel of his wagon and throwing the gentleman out, happily without injury to either party.

That J. Albert Walker is talked of as being a promising dark horse in the race for the mayorship.

That the apple crop in this vicinity will be light.

PORT OF PORTSMOUTH.

The number of vessels entered at the custom house as arriving at this port with cargoes during the month of July was 117, with a total registered tonnage of 22,100, and carrying 618 men. Five of these vessels were steamers, 107 American schooners, three British schooners, one American brig and one British brig.

The Newburyport *Herald* says the report is current that John Wooldredge of Lynn has suspended payment, he having been connected with one of the large leather firms which recently failed. It says that Mr. Wooldredge is reported to be "greatly handicapped through suits instituted against him on old Eastern railroad notes, he signing them when he was president of the road about ten years ago. Frank Jones of Portsmouth has a heavy suit pending against him in this matter."

The register of the Hotel de Entwistle for the month of July bears the names of 140 persons, lodgers and individuals arrested.

It was rumored on Friday that when the U. S. S. Tallapoosa leaves the navy yard she will make a trip to the eastward with Secretary Chandler and a number of invited guests, and that the secretary will afterward visit several other navy yards. Also that the training-ship Portsmouth, which arrived at Boston on the 2d inst., will shortly come here; and that the Powhatan will be one of the men-of-war to rendezvous in the lower harbor the last of this month.

Alderman John W. Caswell, whose name had for some weeks been quite prominently mentioned in connection with the democratic nomination for mayor, on Friday published a card requesting his friends not to vote for him in the caucus.

It is stated that a line of coaches is to be put on between this city and York beach, especially to connect with the steamer Taurus; and that round trip tickets from Boston to York beach and return, passengers having their luggage checked through and being allowed to stop over at York for two or three days, will be sold at $2 each.

The fac simile of the banner of De Witt Clinton Commandry of Knights Templar, which has attracted so much attention and admiration while in the window of E. S. Fay's store, was painted by Helen I. Tilton, daughter of Mr. E. A. Tilton.

At the closing day of the Faith convention at Old Orchard beach, on the 2d inst., forty conversions were reported, and 6,000 people attended the meetings. The farewell meeting was held at the stand. Baptismal services were held at the beach at 5:30 o'clock, Rev. Mr. Dennis officiating. The meeting at the stand in the evening was conducted by Rev. J. M. Sutherland and others. A grand revival meeting closed the convention.

A substantial wire fence has been built along some parts of the Maine Central railroad and its branches. It consists of cedar posts, set about a rod apart, with four or five barbed wires, connected with each other in the middle by short wires.

SUNDAY SERVICES.

Episcopal church. Services at St. John's church at 10:30 A. M.; Sunday school at 3:30 P. M. Service and sermon at Christ church, at 5:00 P. M. Rev. H. E. Hovey, rector.

At the South Parish, morning service at 10:30; Sunday school at Chapel on Court street at 2:45. P. M.

At the Congregational church, preaching a 10:30 A. M. Sunday school immediately afterward Prayer meeting on Friday evening at 7:30 P. M. Rev. Wm. A. McGinley, pastor.

At the Methodist church, Rev. J. E. Robins, pastor, preaching at 10:45 A. M. and 2:45 P. M. Sunday school after morning service, in the church.

At the Middle street (Baptist) church, Rev. W. H. Alden, D. D., pastor, services at 10:30 A. M. and 7:30 P. M.; Sunday school at the church at 3:45 P. M.

At the Court street (Christian) church, Rev. J. A. Goss, pastor, preaching at 10:30 A. M. Prayer meeting at 7:30 P. M. All are welcome.

At the Freewill Baptist church, on Pearl street, Rev. S. J. Gould, pastor, service at 2:45 o'clock P. M.; Sabbath school at 10:30 A. M.; prayer meeting at 7:30 P. M. Prayer meeting Tuesday and Friday evenings at 7:45.

At St. Mary's (Catholic) church, Rev. E. M. O'Callaghan, pastor, Childrens' Mass at 8:30, Solemn Mass at 10:00 A. M.; Sunday school at 3:00 P. M.

At the Adventchurch, services at 10:15 A. M., 2:45 and 7:30 P. M.

Society of Spiritualists, in Good Templars' hall (over Morse & Hisley's office,) services at 3:45 and 7:30 P. M.

Elder J. Chamberlain will preach in the Advent church on Sunday.

Mr. E. B. Maglachin of Harvard will preach in the Unitarian church.

The democratic mayoralty caucus will be held in the State street school house this evening at half-past seven o'clock.

Early in the morning on the 1st inst. a burglar entered the room of Waldron Shapleigh and wife at the Bay View house, Old Orchard. He awoke the occupants by a slight noise, when Mr. Shapleigh sprang from his bed, and grasping a revolver fired at the intruder, who had retreated to the veranda. The man fell to the ground, but arose and ran for the woods, and escaped. He secured $20 in money, and a check, payment on which has been stopped.

Five Italian laborers on the railroad at Franklin, Mass., were thrown from a dump car Aug. 2d by the tipping of the car. The train was going at the rate of eighteen miles an hour. One had a leg broken, and the others were injured about the head and body.

A remarkable shower visited Chatham, Mass., the other day. It watered the main street and a strip perhaps a quarter of a mile wide on each side of it plentifully, from a point near the Congregational church down to the harbor lights, while the balance of the town was left day as an ash heap. Where it did rain it fell in torrents, and half a dozen rods off not a drop fell.

Judge Thomas Hoone, one of the victims of the Carlyon, N. Y., railroad disaster, was a highly respected citizen of Chicago, and while acting as city clerk in 1840 drew up the first thanksgiving proclamation ever issued in Illinois. President Pierce appointed him United States district attorney for Illinois, and in his first prosecution he succeeded in convicting a mail robber who was defended by Abraham Lincoln.

The steamship Saratoga arrived at New York from Havana on the 2d inst., with one case of yellow fever on board.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MISCELLANEOUS.

SKIN HUMORS

Wonderful Cure of a Lad 12 years old, who for 8 years, from the top of his head to his ankles, was One Mass of Scabs.

MY SON, a lad twelve years of age, was afflicted with the worst form of eczema for a period of eight years. So virulent was it that from the top of his head to within a few inches of his ankles he was one mass of scabs, which refused to yield to any treatment that was attempted. Every remedy that was suggested by friends or physicians was tried in vain. Allopathy, homoopathy, herbs, roots, salt-water baths, flaxseed poultices, soaps, ointments, and in short everything that could be done to eradicate the disorder seemed only to aggravate it, and the child's life became a burden to him, and the expense of the various experiments was a constant drain upon our resources.

My wife, reading the advertisement of the CUTICURA REMEDIES in one of the daily papers, resolved to make one more attempt at a cure. The disease was now encroaching upon his face, and seemed incurable. I gave a reluctant consent to the proposal, and an interview was sought with a famous lady physician of New York, who made a most thorough examination of the case, and promised a cure without the least hesitation by the use of your CUTICURA REMEDIES. In ONE WEEK there was a marked change; the raw and angry sores began to grow pale and along the outer edges scaled off, and as time wore on they began to disappear entirely, until at the present writing the only vestage is one small spot upon the forearm, scarcely visible and fast disappearing.

Thus after eight years of expense and anxiety, we have the intense satisfaction of seeing the child's skin as fair and smooth as it was before this dreadful cutaneous disorder attacked him.

Sincerely yours,
CHAS. LAYRE HINKLE.
249 FAIRMOUNT AVE.,
JERSEY CITY HEIGHTS, N. J.

CHILDHOOD and youth are the periods when such diseases yield most readily to those unfailing Skin and Blood Specifics, CUTICURA RESOLVENT, the new Blood Purifier, and CUTICURA and CUTICURA SOAP the great Skin Cures. Proposals for the Construction of a Life-Saving Station.

TREASURY DEPARTMENT:
OFFICE OF GENERAL SUPERINTENDENT,
U. S. LIFE-SAVING SERVICE,
WASHINGTON, D. C., July 23d, 1883.

SEALED PROPOSALS will be received at this office until 12 o'clock, noon, of Saturday, the 11th day of August, 1883, for the Construction of a Life-Saving Station on Hunnitwell's Beach, on the coast of Maine.

Bidders will state in their proposals the time within which they will agree to have the building completed ready for occupancy.

Each bid must be accompanied by a bond in the sum of five hundred dollars, with two good and sufficient sureties, conditioned that the bidder shall enter into contract without delay and give such bonds as security for the faithful performance thereof as may be required if his bid be accepted, or by a deposit of five hundred dollars U. S. Currency or bonds to be returned to the successful bidder after the award of the contract, and to the successful bidder after his contract and bond for the faithful performance of the same shall thereof shall be approved by the Secretary of the Treasury.

Specifications and plans, forms of proposal, contract and bond, can be obtained at the offices of the Collectors of Customs at Portsmouth, N. H., and Bath, Me., the Deputy Collector of Rockland, Me., J. M. Richardson, Superintendent First Life-Saving District, Portland, Me., Capt. Joseph G. R. Sliver and J. H. Merryman, U. S. R. M., Superintendents of Construction of Life-Saving Stations, No. 24 State Street, New York City, and also upon application to this office.

All proposals must be endorsed "Proposals for the Construction of a Life-Saving Station," and addressed to the General Superintendent of the U. S. Life-Saving Service, Washington, D. C.

The right to reject any or all bids, or to waive defects if deemed for the interest of the Government, is reserved. W. D. O'CONOR,
Acting General Superintendent.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale the desirable estate, the House and Land of WILLIAM H. LOWELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point, on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to the room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the side renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 23 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the best work on Physiology ever published. There is nothing what ever that the married or single require or wish to know but what is explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

PEABODY MEDICAL INSTITUTE, or W. H. PARKER, M. D.,

DISEASE

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It acts like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaints of *either* sex this compound is unsurpassed, as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose soft ambition is to do good to others.

Wilmington, Pa. (2) Mrs. A. M. B.

SHARP PAINS Crick, Sprains, Wrenches, Rheumatism, Neuralgia, Sciatica, Pleurisy Pains, Stitch in the Side, Slow Circulation of the Blood, Heart Diseases, Sore Muscles, Pain in the Chest, and all pains and aches either local or deep-seated are instantly relieved and speedily cured by the well-known *Hop Plaster*, compounded, as it is, of the medicinal virtues of fresh Hops, Gums, Balsams and Extracts. It is indeed *the best* painkilling, stimulating, soothing and strengthening Plaster ever made. Ask for the *Hop Plaster* at any drug store. Price 25 cents or five for $1. Hop Plaster Co., Proprietors, CARTER, HARRIS & HAWLEY, Gen'l Ag'ts, Boston, Mass.

Lost His Character.

Zach Chandlar had a deal of dry humor. He was once narrating an electioneering visit to the western reserve of Ohio. "At a place called Akron," said he, "some fellow stole my hat while I was speaking, and left me a dilapidated specimen of head covering. Then I lost my gold-headed cane, which I had had for twenty years. But, worst of all, while I was at Chardon, I lost my character. It was rather curious, too. I shouldn't have found it out if John Beatty hadn't told me. You see I was speaking there in the open air, and the wind troubled me by blowing the little pieces of paper on which my notes were; so I took out my jack-knife and laid it down on the paper to prevent this. And what do you think? That is a strong temperance community; and there I looked for two hours, with the back of that knife toward that audience, with a cork-screw in plain sight—and it showed that it had been used, too! I might get back my hat, and possibly, some one will relent and return my cane; but my character in that community is gone forever."

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

—"They say Smith and his wife do not get along well together. Is that true?" asked Brown. "Not a bit of it," replied Fogg; "they're never together."

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. This original Nutrient and Tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into new life the entire process of digestion.

—The average boy, when sent on an errand, develops wonderful "staying qualities."

Hood's Sarsaparilla is an extract of the best remedies of the vegetable kingdom known as alteratives, and blood-purifiers.

—Dr. Hawks, an eloquent and popular New York divine, once asked the vestrymen of his church to increase his salary because of his increased family expenses. "Don't trouble yourself," said the vestryman, "the Lord has said he will care for the young ravens when they cry." "I know that," said the clergyman, "but nothing is said about the young Hawks."

Could not Keep

Shop without them. I consider your Sulphur Bitters a remarkable blood purifier. I know of several people whose cases were considered hopeless, that have been entirely cured by your medicine. The sale of Sulphur Bitters is so large here that I could not keep shop without them. E. S. YATES, Pharmacist, 99 Essex street, Lawrence, Mass.

—A street car conductor carelessly carried his bell-punch home and allowed his children to play with it. The next day the conductor found himself charged with 9,900,999 fares short. He has offered to leave the children in pawn until he makes up the money.

LONE JACK, MO., Sept. 14, 1880.

I have been uling Hop Bitters, and have received great benefit from them for liver complaint and malarial fever. They are superior to all other medicines. P. M. BARNES.

—Longfellow said: "In this world a man must be either anvil or hammer." Longfellow was wrong, however. Lots of men are neither the active hammer nor the sturdy anvil. They are nothing but bellows.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ells's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

—Now the summer boarders take infinite delight in rural pleasures, and drive the cows home at night with a glee that makes the small boy smile as he sits on the fence and whittles a stick.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

—Cicero thus praised silence; "There is not only art, but even an eloquence in it." Yes, indeed. When one is setting with one's girl on the back porch in the still night, things can not be too silent. Even the striking of the midnight hour grates harshly on one's ear.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

my30 Chronicle Office.

Portsmouth Daily Chronicle.

BY CHRONICLE & GAZETTE PUBLISHING COMPANY. | PORTSMOUTH, N. H., MONDAY MORNING, AUGUST 6, 1883. | $6 PER YEAR IN ADVANCE. THREE CENTS PER COPY.

THE PORTSMOUTH DAILY CHRONICLE

(Established August 2d, 1882,)

Is Published Every Morning, Sundays excepted, at No. 7 Exchange Building, Pleasant street, opposite the Post Office, by the

Chronicle and Gazette Publishing Company.

TERMS $6.00 PER YEAR.

The New Hampshire Gazette

(The Oldest Newspaper in the United States, established Oct. 7th, 1756,)

is published every Thursday at the same office. Terms, $1.50 per year; $2.00 per year, if not paid in advance.

ADVERTISEMENTS inserted on reasonable terms, in either or both papers. The GAZETTE, having a large country (in addition to its local) circulation, is an excellent medium of advertising. A liberal reduction made when advertisements appear in both papers.

☞ Correspondence from neighboring towns containing items of public interest, will be gladly received. All communications should be addressed and all checks made payable to the

CHRONICLE & GAZETTE PUBLISHING CO.,

PORTSMOUTH, N. H.

The Job Printing Business is conducted in the same office by Mr. Richard I. Walden, who keeps on hand a large and and well-selected stock of all materials required in his line.

Mr. J. H. Bates Newspaper Advertising Agent, 41 Park Row (*Times* building,) New York, is authorized to contract for advertisements in the CHRONICLE and GAZETTE, at our best rates.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loan; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSE, Vice-President.

KIDNEY-WORT

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Dyspepsia? Why suffer with Rheumatism? Why suffer with Nervous and Chronic Diseases? Why suffer with that terrible Headache? Why suffer with Biliousness? Why suffer with Costiveness? Why suffer with all those diseases that are caused by an impure state of the blood, or a torpid liver? You can easily rid yourselves of all these diseases by the use of SULPHUR BITTERS. Why suffer with Blotches, Boils, Pimples, Tetter, Ringworm, Scald Head, Sore Eyes, Ulcers, Sores, Swellings, Tumors, Salt Rheum, Scaly or Scrofulous Diseases? Why suffer with that terrible Scourge, Consumption? Why suffer with that universal complaint, Dyspepsia? Why suffer with that terrible Nervous Disease, Sick Headache? Why suffer with that universal complaint, Costiveness? Why suffer with Female Weakness, Leucorrhœa, Irregularities, Prolapsus, Ulceration, Inflammation, Fever and Ague? Why suffer with Malaria? Why suffer with Mercurial Diseases? Why suffer with Mercurial Rheumatism? Why suffer with Mercurial Mercurial Mercurial

Fright In the Farm House.

Family all taken sick at night. Unusual symptoms. Seemed like poisoning. What could it be? What had they eaten? Was it arsenic in the soup? Was it strychnine in the coffee? Was it rats'-bane in the pie? None of these. The cistern had not been cleaned for a long time. The family had been drinking impure water. They might have died, only that they took Perry Davis's Pain Killer. Family well. Farm-house happy. Everybody pleased.

The training-ship Portsmouth arrived at Gloucester, Mass., on the 4th inst., from Boston.

"Rev. G. W. Offley, New Bern, S. C., says "I have taken Brown's Iron Bitters and consider it one of the best medicines known."

Lieut. Comdr. F. W. Dickens has relieved Lieut. Comdr. Thomas M. Gardner of the command of the storeship Onward, at Callao, Peru.

Col. A. L. Campbell, Waterborough, S. C., says: "A member of my family used Brown's Iron Bitters with good results."

Rear Admiral Hughes, commanding the Pacific station, on July 12th transferred his flag from the Pensacola to the Hartford, and the Pensacola sailed the same day for the United States, via Japan and the Cape of Good Hope.

Catholic Seminarian.

Mr. John Cusack, St. Mary's Theological Seminary, Baltimore, Md., says after having suffered for months with pleuradinis (rheumatism of the chest) and having tried everything that medical talent could suggest, without relief, the paincure, St. Jacobs Oil, was recommended and it cured him.

The sentence of Passed Asst. Engr. Entwistle, of one year's suspension on leave pay, and to retain his present number on the navy list, for abandoning his post of duty at the time the Ashuelot was wrecked, has been approved by the acting secretary of the navy. Passed Asst. Engr. Robert R. Leitch is publicly reprimanded by the secretary, for the same reason.

An Experience of Twenty Years

in selecting Whiskey enables the proprietor of the G. O. Taylor Old Bourbon to guarantee this brand as being what it is reported—an absolutely pure Whiskey. Sold by leading Druggists and Grocers.

Commander Reed, commanding the Alliance, reports to the navy department under date of July 30th that he found everything quiet in Newfoundland and Nova Scotia, the fishermen making no complaint of interference. The Alliance was to visit several ports in Cape Breton, and would be at Pictou, N. S., about Aug. 8th.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

—A woman in Philadelphia gave her husband six commissions to execute in New York. He telegraphed back that he had executed five, and forgotten the last. It was an order for an illuminated sentence for a Sunday school room. He was a good deal astonished when he received the reply: "Unto us this day a child is born—two feet wide and nine feet long."

It is the manifest destiny of Glenn's Sulphur Soap to supersede oily unguents for cutaneous eruption.

Dyspeptic, nervous people, "out of sorts," Colden's Liquid Beef Tonic will cure. *Ask for Colden's.*

Portsmouth Chronicle.

MONDAY, AUGUST 6, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

What Might Have Been.

Among the number of men who were started up as candidates for senator we are surprised that Dr. Quint, or some other man from the Cocheco region, did not bring forward the irrepressible Christie, whose senatorial experience would be certainly of more value, if not credit to the state, than that of some who were voted for and put to sleep as candidates.

The Chicago *Inter-Ocean* says: "J. I. Christie, deputy sergeant-at-arms of the United States senate, and of the select committee appointed by the senate to investigate the grievances of the Indians on the reservations in Montana and Dakota, is at the Grand Pacific hotel making all necessary arrangements for the committee, who meet in Chicago ere starting for the west. Mr. Christie has been deputy sergeant-at-arms of the senate for twenty-two years, and has seen many senates come and go. He has been the trusted officer allowed to remain in the chamber during executive sessions, and has kept the secrets so well that he is sure of his place so long as he may desire or his health will permit, and from present appearances, that will be for more years than would be safe to predict. He has managed the junketing trips of senators for years, and knows just what to provide for an Indian investigation. He does not doubt he will find all necessary supplies in Chicago, and be able to take the committee through with entire safety and perfect comfort."

Report of the Cattle Commission.

The cattle commission has made a report to the treasury department in regard to the alleged existence of the foot-and-mouth disease among the cattle in this country. "Charges have been recently made in the British parliament that cattle were being shipped from our ports, infected with the foot-and-mouth disease, and a majority of the house of commons having voted for a resolution opposing the importation into Great Britain of cattle from any other country in which said disease exists, we feel it our duty to state the facts of the case so far as this country is concerned. After a most extended and almost exhaustive enquiry your commission have been able to find no trace of foot-or-mouth disease apart from herds just landed from Great Britain, and which herds have been in every case segregated until the infection has entirely disappeared. The nature and scope of our enquiry may be deduced from our report for 1881. Beginning with the great rendezvous of cattle at Kansas City, Council Bluffs and Omaha, we have made careful investigation along the lines of cattle traffic as far as the eastern seaboard. Apart from the imported cases above referred to we have been unable to find a single case of the foot-and-mouth disease complained of."

The Assassin's Assassin.

A despatch to the London *News*, from Cape Town, South Africa, says: "O'Donnell, who killed James Carey, the informer, was to-day committed for trial on the charge of wilful murder. In the ordinary course of events he will be tried at the Port Elizabeth assizes in October. At the final examination of O'Donnell, a box was produced belonging to the prisoner, labelled Cape Town, and containing a woodcut of Carey, and a paper of American citizenship, dated November, 1876. Carey's son was called as a witness, and denied that Kelly, an Irish passenger on the steamer Kinfauns Castle, was identical with Kavanagh, one of the informers. He testified that his father was smiling and talking to O'Donnell when he (the witness) saw the latter draw a revolver and fire one shot; he (witness) then ran to fetch his father's revolver; his mother was holding his father when the third shot was fired. O'Donnell declared that Carey first drew a revolver, which he (O'Donnell) seized and fired at Carey in self-defence. He describes himself as Patrick O'Donnell, aged forty-five years, a native of Goodsall, County Donegal, Ireland, a laborer, formerly a butler."

From a list of confederate bondholders just published, it appears that Hon. Wm. E. Gladstone, prime minister of England, invested £20,000 in confederate bonds during our civil war. Mr. Gladstone has figured as a friend of the Union during the war, in spite of his declaration in the house of commons that "Mr. Jefferson Davis has made of the confederacy a nation;" but his friendship appears not to have been strong enough to prevent him from contributing $100,000 to the other side. Other heavy subscribers to the rebel loan were the editors and proprietors of the London *Times*, which accounts for the disinterested zeal which that paper displayed in support of the rebellion.

A cable despatch says "The steamer Pathan has arrived at Melbourne, Australia, from Adelaide. Kavanagh, Jos Hanlon and Joseph Smith, informers in the trials of the Phoenix park murders, who were on board, were identified and prohibited from landing. Seven other passengers on the Pathan were suspected of having been witnesses for the government in those trials, but were not identified." A Dublin despatch says the informers Kavanagh, Hanlon and Smith were prevented from landing at Melbourne because a plot to murder them had been discovered.

A box of dynamite, to which a lighted fuse was attached, has been discovered in a large linen factory at Cupar Fife, Scotland. The fuse was extinguished before it reached the explosives. The attempt to blow up the factory is attributed to Fenianism. Great excitement has been caused by the affair, and the police are searching for the persons who placed the box where it was found.

Sam Spry and Mrs. Armar of Raleigh, N. C., eloped a few days ago. After leaving the house of Mr. Armar they proceeded down the Elizabeth in a boat, pursued by the husband. The latter caught up, and gave Sam a good beating. As the wife was attempting to get into the boat with her husband, or during the struggle of the two men for the possession of her, Mrs. Armar fell in the water between the two boats, and was drowned. The coroner's jury charged her death equally to both, and they are in confinement.

If you suffer with Sick Headache, Constipation, Sour Stomach, or Bilious attacks, **Emory's Little Cathartic Pills** will relieve you.—25 cts.

Of the many remedies before the public for Nervous Debility and weakness of Nerve Generative system, there is none equal to Allen's Brain Food, which promptly and permanently restores all lost vigor; it never fails. $1 pkg., 6 for $5.—At druggists.

A man from Boston appeared at St. Johnsville, N. Y., one day last week, and engaged a carriage for Oppenheim, Fulton county, six miles from Utica, N. Y. On the route he said that his wife had left him and taken their child. He had traced her to Oppenheim, where she was living with another man. He obtained a warrant and a constable, and appeared before the mother, who stripped the child and gave it up, after the officer had shown his warrant. The father covered the babe as best he could, returned to St. Johnsville, and while he was waiting for a train the mother, with a party of Oppenheim neighbors, made her appearance. She seemed desperate and determined, and before the Boston man knew what was up the mother had recaptured her baby and disappeared. He found himself in a decided minority, and finally decided to go east. He says that he will return and secure his child at all hazards.

A young couple from St. Louis, who have evidently been feasting on yellow covered literature, got married in the surf at Ocean City, N. J., the other day. They marched into the sea together, standing in water to the depth of the bride's shoulders. The bathers had withdrawn, and the bridal party had the beach to themselves. A few friends stood at the edge of the white sand, when the clergyman stepped in and did his best to tie the knot in Jack Tar style. The sky was bright, the breeze was grateful, and the waves were just frisky enough to lend zest to the occasion. Indeed, one bouncing billow gave the bride a complete ducking.

—One of the usually staid and decorous residents of Grand Rapids was chased up this street and down that by a stranger, to the great excitement of the spectators, who finally rescued him, and heard his confession that he had heedlessly winked at the traveller's pretty wife.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the Best Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars. Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH ELY'S CREAM BALM

has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *Is not a liquid or snuff.*

HAY-FEVER Applied by the finger into the nostrils.

When absorbed it effectually cleanses the nasal passages of Virus-causing healthy secretions. THE Admiration OF THE WORLD, Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. Allen has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the falling hair. If gray, it changes it to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE WENTWORTH,
NEWCASTLE, N. H.
THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its delightful situation affords beautiful views both inland and seaward; its beautiful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives, and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. Its rooms are spacious and well ventilated rooms, furnished in black walnut, with the best of beds, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam. Music Hall for dancing and theatricals.
An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.
At the station in Portsmouth the conveyance of the Hotel are always in waiting. Address, Portsmouth, N. H.
GEORGE F. THOMPSON, Manager.

Sky clear.

REPUBLICAN MAYORALTY CAUCUS.

The adjourned caucus was held Saturday evening, with Charles W. Bailey as chairman, and James L. Parker as secretary. The ballot resulted as follows:

Whole number of votes	191
Necessary for a choice	96
James W. Goodwin had	1
Edwin Underhill	1
Andrew P. Preston	1
Danger Lord	1
John H. Hutchinson	1
D. Webster Barnabee	2
William R. Martin	2
John H. Broughton	3
Willard J. Sampson	3
William H. Sise	3
Charles H. Mendum	188

and Mr. Mendum was declared the nominee of the republican party, to be supported for mayor at the election on the 7th inst.

Messrs. John H. Broughton, A. C. Anderson and Charles H. Clough were appointed a committee to wait upon Mr. Mendum, inform him of the nomination, and request his acceptance. This duty was attended to by the committee, and Mr. Mendum consented to the use of his name.

DEMOCRATIC MAYORALTY CAUCUS.

The democratic caucus for the nomination of a candidate to be supported at the polls on the 7th inst. was held in the State street school house on Saturday evening, and a ballot was taken, with the following result:

Whole number of votes	324
Necessary for a choice	163
Henry Peyser had	1
John S. Tuckerman	1
John W. Caswell	46
John S. Treat	276

and Mr. Treat was declared the nominee. On motion of John W. Caswell the nomination was made unanimous.

A committee appointed to wait upon Mayor Treat and inform him of his renomination, returned to the caucus with that gentleman, who in a few remarks accepted the honor.

Major Urch was called upon and responded briefly and appropriately, after which the meeting dissolved.

DEMOCRATIC NOMINATIONS.

WARD THREE.

Alderman—John W. Caswell.

Councilmen—John Hand, George A. Blaisdell.

Overseer of the Poor—David J. Norton.

Assessor of Taxes—Daniel F. Ackerman.

COMMISSIONER'S COURT.

Geo. H. Lord, of Freedom, was brought before United States Commissioner Hackett last week, charged with being a retail dealer in liquors, without payment of the special tax. Lord contended that he was the duly appointed town agent of Freedom for the sale of liquors under the state law, and authorized to sell without payment of such tax. He was recognized to appear at the Circuit court, Oct. 8th.

On a charge of being a retail dealer in tobacco without having a license as required by law, Lord pleaded guilty, and was held to answer at the October term of the court.

The defendant was brought before the commissioner by Dep. U. S. Marshal Kent.

THE VALVE SUITS.

In the United States Circuit court, last week, judgment on the verdict for the defendant was entered in case Norton and others vs. Dover; and in the other four suits, non-suit was entered. It is understood that Messrs. Roberts have given a release as will protect the cities in New Hampshire from any renewal of this litigation.

FAILURE OF CHAS. W. CLEMENT.

The shoe factory of Charles W. Clement at Dover was on Saturday attached by the National Bank of Commerce, Boston, for $20,000, and by the National Exchange bank, Boston, for $11,000. Clement had for a special partner Fayette Shaw, of F. Shaw & Bros., Boston, and has been carried down by the failure of that firm. Mr. Clement had factories in Brockton, Randolph, Rockland, Haverhill and Lynn, Mass., besides the large one recently started up in Dover, and employed about 1000 operatives; he made an assignment of all his property on Saturday, as soon as word was received of the attachments at Dover. The liabilities are placed at over $500,000, with large assets. It is to be hoped that the business will not be permanently suspended, as the Dover factory was an important factor in the prosperity of the city.

UNITED STATES CIRCUIT COURT.

In the United States Circuit court last week, Judge Clark declined to allow the motion filed by Hon. W. L. Foster to dismiss the suit of Bruce vs. the Manchester & Keene railroad. In the meantime the plaintiff has taken his testimony, preparatory to a hearing on the merits.

In the Circuit court on Saturday Judge Lowell ordered the amount paid into court in the driven-well suits to be paid to Green, one of the complainants, after payment of the costs in the several cases, twelve in number. J. L. S. Roberts appeared for Green.

The new steamer "Venture," fitted up by Mr. William C. Locke of Kittery to run between this city and Kittery Point by way of the north channel, touching at the Mystic's landing and Fernald's wharf in Kittery each trip, was inspected by the government inspectors on Saturday, and will commence her regular trips to-day. Her Kittery Point landing place is at Gerrish's wharf.

The Dover *Democrat* says: "There is a movement now on foot to make the Eliot bridge a free bridge, by having the city purchase the stock of the stockholders. Several stockholders will sell their interest in the bridge for half what it cost them. The storekeepers claim a free bridge would cause a largely increased traffic. The farmers living beyond the bridge in Maine say their visits to Dover would be much oftener if it were free. The matter will, we learn, soon come before the city councils."

Paymaster Chas. F. Guild, U. S. N., is sojourning at the Wentworth.

One of the democratic aldermen of the past year, nominated for re-election last week, on Friday last inaugurated a beer and cigar shop in the small building on Commercial wharf formerly used as a fish-buying office by the late John Dixon, the new saloon probably being for the special accommodation of the passengers by the steamer Taurus, which makes a landing at the end of that wharf. The regular refreshment venders in that vicinity are indignant, and assert that the United States law regarding the payment of special taxes has not been complied with by the proprietor of the new saloon.

The torpedo class was disbanded at Newport, R. I., last week. Lt. Wm. H. Reeder arrived at the navy yard on Saturday evening, and reports for duty today.

The schooner Sharon, of Cape Neddick, went on the marine railway at Kittery on Saturday, the 4th inst.

The beach season at Hampton is now well advanced, and so far the hotels have not been as well patronized as during the last few years. Some of the boarding-houses in the village, however, have been over flowing for some time, and have had many more applications for board than they could accommodate.

There will be no preaching service in the Middle street church during August.

The Newmarket *Advertiser* learns that Mrs. Daniel E. Smith of South Newmarket this season mowed over thirty acres of grass with a two-horse mowing machine.

On the 1st inst. Irvin Drake, a boy of Hampton, caught a turtle on the marsh which weighed fifteen pounds, and furnished six pounds of meat when dressed. It was sold to Mr. Whittier of the Union house, to be used for the benefit of his guests. Those who did not understand the anatomy of the heart of the turtle, were interested to see the regular palpitation of that organ eight hours after it had been entirely separated from the other parts.

Reuben M. Stackpole, a native of Berwick, died in Boston July 31st, aged ninety-one years. He was employed for some time as a tanner and currier, and afterward went into the leather business. The deceased was the oldest member of the Dudley street Baptist church in Boston, and leaves a widow and three children.

Joseph Allen, a well-to-do farmer of Wells, and brother-in-law to Mr. Cheney, of the firm of Cheney & Goodwin, expressman of Salmon Falls, was found dead on the afternoon of the 2nd inst. in a pasture near his residence. It is not exactly known what caused his death, but it is supposed to have been either lightning or heart disease. Deceased was married, and was very much esteemed by his neighbors.

An old wooden building in the Newmarket Manufacturing Co.'s yard, used mainly for storing old loom-harnesses and other articles of small value, took fire recently, it is supposed from the spontaneous combustion of a bale of low-grade cotton, of which there were eighteen bales in the lower story. The cotton was gotten out without great damage, and the entire loss did not exceed $1000, which was fully covered by insurance.

John Welch and Henry Riley, boys under seventeen years of age employed in the print works at Dover, were arrested in Dover last week for attempting to hang a French boy named Paul Cody, twelve years old, in the machine room of the printery. Cody was on a stool when the other boys came up, put a noosed rope around his neck, threw the other end of the rope over a shaft, and drew it tight. The Welch boy also struck Cody in the face, a severe blow. The officers of the works brought the charge, and testified that the two are very bad boys. Welch being a noted reader of five-cent novels of the border variety. Welch was sentenced to fifteen days in jail, and to pay $5.52, one-half the costs; appealed, and was held in $100 for trial. Riley was fined $3, and half the costs, which was paid

It has been disputed whether Capt. Webb was alive when last seen in the Niagara whirlpool. The lady who last saw him sets at rest all dispute on this fact. She says that the captain was alive, and that she distinctly saw him raise his hand to his face and wipe the spray therefrom, before diving into the next wave. The theory now is that Capt. Webb got through the whirlpool all right, and when seen was clearing his eyes so that he might better get his bearings; that he dived into the water, and swimming beneath the surface for a long distance, struck out for the lower rapids, and while under water received his death blow. Capt. Webb could hold his breath for a long time, and was fully capable of doing this.

Wood per cord, Hard $7; Pine $5.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quantity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

DESIRABLE ESTATE FOR SALE.
THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Magee furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.
July 4th, 1883.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the best work on Physiology and all the Diseases that either require or wish to know let with explained.—[London Lancet.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

HEART DISEASE

Your HEART IS YOUR SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while of the truth were known, the real cause is at the heart. The renowned Dr. Cheadinning, startlingly says "one-third of my patients show signs of heart disease." The heart weighs about nine ounces, and yet men's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention. Dr. Graves' celebrated prescription for heart trouble is a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator and can be obtained of your druggists, $1 per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

F. E. Ingalls, Sole American Agent, Concord, N. H.

HEART TROUBLES

Yours for Health
Lydia E. Pinkham

LYDIA E. PINKHAM'S VEGETABLE COMPOUND,

A Sure Cure for all FEMALE WEAKNESSES, Including Leucorrhœa, Irregular and Painful Menstruation, Inflammation and Ulceration of the Womb, Flooding, PROLAPSUS UTERI, &c.

☞ Pleasant to the taste, efficacious and immediate in its effect. It is a great help in pregnancy, and relieves pain during labor and at regular periods.

THIS AND MUCH MORE IS TRUE.

☞ FOR ALL WEAKNESSES of the generative organs of either sex, it is second to no remedy that has ever been before the public; and for all diseases of the KIDNEYS it is the Greatest Remedy in the World.

☞ KIDNEY COMPLAINTS of Either Sex Find Great Relief in Its Use.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood. At the same time will give tone and strength to the system. Astonishing results are the Compound.

☞ Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. The Compound is sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Inclose 3 cent stamp. Send for pamphlet. Mention this Paper.

☞ LYDIA E. PINKHAM'S LIVER PILLS cure Constipation, Biliousness and Torpidity of the Liver. 25 cents

☞ Sold by all Druggists. ☞ (2)

HOP PLASTER

This plaster is absolutely the best ever made, combining the virtues of hops with gums balsams and extracts. Its power is wonderful in curing diseases where other plasters simply relieve. Crick in the Back and Neck, Pain in the Side or Limbs, Stiff Joints and Muscles, Kidney Troubles, Rheumatism, Neuralgia, Sore Chest, Affections of the Heart and Liver, and all pains or aches in any part cured instantly by the Hop Plaster.

☞ Try it. Price 25 cents. Sold by all druggists.

Hop Plaster Co., Manufacturers. Mailed on receipt of price.

LAME BACK

Official List of Patents

Granted to citizens of New Hampshire, for the week ending July 31st.

[Compiled weekly expressly for this paper.]

George H. Adams, Hill, knitting-machine needle.

George D. Burton, New Ipswich, electric lamp globe; also, apparatus for lighting cars by electricity.

James S. Pierce, Portsmouth, artificial stone.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

It was announced on the 4th inst. from Concord that Ex-Gov. Harriman was worse, and his recovery very doubtful.

Dr. E. H. Babbitt, Hickory, N. C., says "Brown's Iron Bitters give great satisfaction."

Michael Brehany's barn at Rochester was burned on the 4th inst., with its contents; loss $900.

Are you billious? Try the remedy that cured Mrs. Clement of Franklin, N. H.—Hood's Sarsaparilla, made in Lowell, Mass.

A burglar was surprised early Saturday morning, in Nashua, trying to break into Ex-Mayor Dana Sargent's house. A policeman fired two shots at him, but he escaped.

VEGETINE will cleanse Scrofula and all Scrofula humors from the system.

—In a telegraph office: "What is the charge to Blankville?" "Ten words for twenty-eight cents." "Why, it used to be twenty-five cents." "Yes, but that was before the strike. The additional three cents is for the postage stamp."

☞ For five cents, Well's, Richardson & Co., Burlington, Vt., will send colored sample colors of Diamond Dyes.

—A four-foot rule—Keeping the twins well shod.

LONE JACK, Mo., Sept. 14, 1880.

I have been using Hop Bitters, and have received great benefit from them for liver complaint and malarial fever. They are superior to all other medicines. P. M. BARNES.

—A humane and humorous citizen of Newburyport has petitioned the city fathers for a place to water horses, dogs and milk.

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ellis's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

—Ah You, the prettiest Chinese girl ever brought to America, has married an an Englishman in San Francisco. Ah, you rascal.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

—A little man, caught in the belting and whirled around at the rate of a mile in about two minutes, was rescued uninjured. When asked if he wasn't dreadfully frightened, he answered, "No, I thought my wife had caught me and was running me out by the back of the neck."

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

—Once upon a time a woman died, and as the mourners were carrying her to the grave they tripped against a stump and let the coffin fall. She revived, having been only in a deep trance. Two years after she really died, and as they were carrying her down the same road, and neared the stump, the disconsolate widower sobbed, "Steady, boys, steady there. Be ve-ry careful."

Hay Fever.

For twenty years I was a sufferer from Catarrh of the head and throat in a very aggravated form, and during the summer months with Hay Fever. I procured a bottle of Ely's Cream Balm and after a few applications received decided benefit—was cured before the bottle was used. Have had no return of the complaint. Charlotte Parker, Waverly, N. Y.

One and one-half bottles of Ely's Cream Balm entirely cured me of Hay Fever of ten years' standing. Have had no trace of it for two years. Albert A. Perry, Smithboro, N.Y.

Since boyhood I have been troubled with catarrh and Hay Fever, and have been unable to obtain permanent relief until I used Ely's Cream Balm. It has cured me. E. L. Clickener, New Brunswick, N. J. Price 50 cents.

INVESTMENTS.

7 PER CT. INTEREST

Loans on Improved Farms negotiated and guaranteed by the

NORTH DAKOTA LOAN & TRUST CO.,

JAMESTOWN, DAKOTA.

THESE loans are all secured by FIRST MORTGAGE on improved farms (accepted only after careful personal inspection of the premises by our agents,) worth from two and one-half to four times the amount of loans; run from two to five years; and the interest, payable semi-annually, is collected and paid by the Company at such points as the holders may designate.

TRUSTEES, SAVINGS BANKS, CORPORATIONS or others, will find these loans equally safe and more profitable than either Government, State, City or Mining Securities. They pay a large interest, and are absolutely safe for the reasons stated above.

On application we will take pleasure in sending references to leading Bankers East and West. Address, for pamphlet and full information,

RODERICK ROSE, Vice-President, Jamestown, Dakota.

In the Spring, to cleanse the System, every one should take a thorough course of it.

$1. SOLD BY DRUGGISTS. Price $1.

KIDNEY-WORT

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE EVER KNOWN.

It will drive the Humor from your system, and make your skin clear and healthy. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier, SULPHUR BITTERS. Why suffer with Dyspepsia or Sick Headache? Why suffer with Biliousness? Why suffer with Rheumatism? Why suffer with that horrible feeling called Blues? Why have your blood made to boil with Malaria, when a few bottles of Sulphur Bitters will drive it out of your system? Why have your blood made impure, and your system full of poison, when a few bottles of Sulphur Bitters will make it pure and healthy? Why have your system run down, when a few bottles of Sulphur Bitters will build it up? Why have your nerves all unstrung, and your system full of nervous diseases, when a few bottles of Sulphur Bitters will cure you? Why have your digestive organs all out of order, when a few bottles of Sulphur Bitters will make them perfect? Why have your liver torpid, and your system full of bile, when a few bottles of Sulphur Bitters will make it healthy? Why have your system full of Malaria, when a few bottles of Sulphur Bitters will drive it out? Why have your system full of Mercurial poison, when a few bottles of Sulphur Bitters will remove it? Why suffer with Anything, when Sulphur Bitters will make you well? Why suffer with Everything, when Sulphur Bitters will make everything right? Why suffer with Nothing, when Sulphur Bitters will make you feel like a million? Why suffer with Anything, Everything, Something, Nothing, when Sulphur Bitters will make you well

Fright in the Farm House.

Family all taken sick at night. Unusual symptoms. Seemed like poisoning. What could it be? What had they eaten? Was it arsenic in the soup? Was it strychnine in the coffee? Was it rats'-bane in the pie? None of these. The cistern had not been cleaned for a long time. The family had been drinking impure water. They might have died, only that they took Perry Davis's Pain Killer. Family well. Farm-house happy. Everybody pleased.

A. A. Spaulding, for the past four years instructor of music in the Concord schools, has been elected to a similar position in the Gloucester (Mass.) schools, at a salary of $1000 per annum for four days' service per week.

"Rev. G. W. Offley, New Bern, S. C., says "I have taken Brown's Iron Bitters and consider it one of the best medicines known."

The boot bottomers of Austin & Parker, shoe manufacturers of Bow Lake, have struck because the boss bottomer was discharged and a new one installed. The employés demand the old boss reinstatement, and will not work till this is done. Austin & Parker are trying to get Lynn hands to take the places of the strikers.

Physicians recommend as a fine Bourbon Whiskey the G. O. Taylor brand bottled by the old and honorable house of Chester H. Graves & Sons, Boston. For purity and excellent this Whiskey is unsurpassed. To be obtained of Druggists and Grocers.

The Universalists on Sunday last closed their second season of camp meetings at Weirs, with about 2,000 people present. The meetings lasted four days and were very successful, good speakers being the attraction.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflammation and ulceration, falling and displacement or bearing down feeling. Portsmouth Chronicle.

TUESDAY, AUGUST 7, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

The Woman's National Temperance convention at Old Orchard beach closed last Sunday. About 1,000 people attended the meeting, at which there was an address by Mrs. Hannah Smith of Philadelphia, who related instances of temperance work in Washington, Philadelphia and other places. Mrs. Mary H. Hunt of Boston spoke on the importance of Christianity. The closing address of the convention was made in the evening by Mrs. Mary Burt. Every evening of the present week Rev. J. M. Sutherland will hold revival meetings. The National Holiness meetings begin Aug. 27th, and the National Temperance meeting in September, when many noted advocates of the cause will be present.

The English parliament is driven from cover to cover in its attempts to find pretexts for prohibiting the importation of American cattle. The United States treasury commission having exploded the foot-and-mouth fiction by showing that the disease does not exist in the country and has not for two years, Mr. Dodson got up in the house of commons last week and said there was pleuro-pneumonia in the eastern states, and they could not discriminate in favor of the western states. This persistence in working up a prejudice against American beef in England is simply and wholly in the interests of the Canadian and colonial stock raisers. With the rank and file of consumers it is probably more a question of purse than patriotism. If they can get American beef cheaper than Canadian they would prefer it.

As an indisputable evidence of the growth of the territory of Dakota, it is stated at the post office department that the mail for the territory has more than doubled itself during the past year. Every county has several petitions on file for the establishment of new offices. The names suggested for these depositories of mail matter are more unique than euphoneous. The following are a few samples: "Total Wreck," "Hard Times," "Lousy Canon," "Crazy Prairie," "Pill Taker," "Clean Shirt," "Empty Butts," "Clear Grit," "Merry Corners" and "Music Snake."

The Branches of Odd Fellowship.

Grand Master J. W. Gregg, of the Independent Order of Odd Fellows, Manchester Unity, for the district of Rhode Island, Massachusetts and New Hampshire, states that there are in existence, not including the two grand independent orders of Odd Fellows, twelve different organizations who claim the title of Odd Fellows. In 1875 the total membership of the Independent Order of Odd Fellows, Manchester Unity, was 508,013, and the Independent Order of Odd Fellows of America, 438,701. The membership of the other bodies, the Grand United Order of Odd Fellows included, was 253,139, the membership of the latter organization being 95,161. The gain of the I. O. O. F. M. U. last year was 17,499, and of the I. O. O. F., of America, 17,490, there being a difference of nine in favor of the former. The reserve fund of I. O. O. F. M. U., for sick and death benefits amount to $26,500,000. It will be seen from the figures Grand Master Gregg, that the Manchester Unity is more prosperous in point of membership and finances than any other organization bearing the title of Odd Fellowship.

News and Notes.

The insurance of $5,000 on the life of Mrs. Carlton, who was murdered at Watertown, Mass., still remains uncalled for at the office of the Massachusetts Benefit association. Mr. Carlton was given the necessary blanks to fill out last May, but has not yet put in an appearance.

John Dennis of Portland, Me., has arranged to send ten freight cars loaded with canned goods to Portland, Oregon, as soon as direct communication is obtained. The Northern Pacific railroad company has agreed to rush the cars through in the shortest possible time.

Miss Winifred H. Madigan, daughter of the late Hon. James C. Madigan of Houlton, Me., took the white veil and was received as a novice of the Sacred Heart, at the convent of the Sacred Heart at Kenwood, near Albany, N. Y., July 25th. Bishop Healy of Portland, Me., was present at the ceremony.

Ira Padley was arrested at Pawtucket, R. I., Saturday, for bigamy, on a complaint made by his young wife, formerly Edith Elizabeth Hamilton, eighteen years old, whom he married last month. He went to Newport, and in his absence letters were found in his trunk from a wife who is in England, which country he left three years ago. He pleaded guilty, and was held for the action of the grand jury.

The jewelry firms of William Eaves and E. & A. Eaves of Montreal, Canada, have made a compromise with the customs authorities on a case against them for having in their possession smuggled goods, by the payment of $12,000, the amount of duty and fine.

An old lady who escaped from the Painsville, Ohio, insane asylum, and who passed herself off as Mrs. Hunter, a daughter of Vice President King and wife of Gen. Hunter Jackson, formerly minister to St. Petersburg, has been captured in Baltimore, and will be returned to the asylum.

Engineer Boynton, who was in charge of the first locomotive of one of the trains that were wrecked at Carlyon, N. Y., last week, and who escaped, has resigned and given up railroading. This was not his first narrow escape.

General Butler is said to have planned a trip through the south next winter. His first move will be to to New Orleans. If, after seeing that he does not wear horns, the southern democrats should mention him for the presidency, he would not feel hurt.

One day last week an immense iceberg floated past Cape Lookout, N. C. Three pilots went to it in boats, and found a Greenland kayack, or boat, on it, with the frozen body of an Esquimaux lying inside. The body was carried ashore and buried.

In a speech at Cincinnati last Thursday evening that distinguished Ohio democrat, W. S. Groesbeck, committed himself unreservedly and enthusiastically to the principles of civil service reform embodied in the Pendleton law.

Mr. Bryant's poetry sells better now than during his lifetime. Miss Bryant receives the royalty on his books, besides having the $500,000 he left her.

The well known schooner yacht Tarolinta has been bought by Capt. John R. Cummings, a Boston pilot, and will be used as a pilot boat.

Nine boy inmates of the Massachusetts reform school escaped in two gangs during last week. All but two of them have been recaptured.

Thomas O'Rourke of Taunton, Mass., who stole a horse and buggy of Dr. Nomus Paige of that city in March, 1882, was arrested in New Bedford Saturday last.

Suits to recover damages for injuries sustained in the Brooklyn bridge disaster still continue to be brought. Seven new claimants, who have just entered actions, demand amounts ranging from $2000 to $20,000.

Frank Crome, colored, was shot in the highway twelve miles from Raleigh, N. C., Aug. 3d, by Wesley Bunn.

At New Bedford, Mass., Aug. 4th, George H. Price dropped dead on board the yacht Starling, of which he was sailing-master.

Michael Conway of Worcester, Mass., thirty years old, was drowned while bathing in Lake Quinsigamond on the 3d inst., in three feet of water.

A letter addressed to "Widow Smith, Richford, Vt.," is worse than the fifteen puzzle to the postmaster; there are eleven widows named Smith in Richford.

It is stated that ten per cent of the children attending the Colburn school in Dedham, Mass., have died this year.

Willie Tatro, eleven years old, was fatally kicked by a horse in North Adams, Mass., Aug. 3d.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

eodtJan3,84

For Dyspepsia, Indigestion, Depression of Spirits and General Debility, in their various forms; also as a preventive against Fever and Ague, and other Intermittend Fevers, the "**Ferro-Phosphorated Elixir of Calisaya,**" made by CASWELL, HAZARD & CO., New York, and sold by all Druggists, is the best tonic; and for patients recovering from Fever or other sickness, it has no equal. TI

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, June 21, 1883.

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Monday, September 24, 1883, at which time and place they will be opened, for the purchase of certain vessels which have been stricken from the Navy Register, under authority of an act of Congress approved August 5, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered, their appraised value and their locality are, the Congress, $25,450; Guard, $3,300; Kansas, $6,105; and Sabine, $10,400; at Portsmouth, N. H. Iowa, $44,500; Niagara 29,000; and Ohio, $15,700, at Boston. Blue Light, $300, and Florida, $64,400, at New London, Conn. New Orleans, $200, (on the stocks), at Sackett's Harbor, N. Y. Susquehanna, $8,000 at New York. Burlington, $3,000; Glance, $400; Supply, $1,200; Sorrel, $200, and Dictator, $35,800; at League Island, Pa. Frolic, $6,500; and Relief, $2,600, at Washington, D. C. Worcester, $25,450; Shawmut, $5,300, and Savannah, $10,800, at Norfolk. Roanoke, $37,200, at Chester, Pa. Fortune, $5,500, and Seaweed, $500, at Port Royal, S. C.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest bonus above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certificate of deposit) of not less than ten per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent., or any part thereof, within that time, said cash deposit of ten per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandants of the Yards.

The purchasers must remove the vessels purchased from the limits of the Yards or Stations within such reasonable time as may be fixed by the Department.

WILLIAM E. CHANDLER,
Secretary of the Navy.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars. Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH

ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *It is a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrile.

When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

THE *Admiration* OF THE *WORLD.* *Mrs. S. A. Allen's* WORLD'S *Hair Restorer* IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

Probabilities for New England:—

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 52 degrees above zero.

Sky clear.

ELECTION DAY.

The legal voters of the city will to-day decide who shall serve as mayor, aldermen, councilmen, assessors of taxes and overseers of the poor, for the coming year. The political complexion of the city government we do not expect to see changed, for if the democrats carry either of the republican wards, or the republicans either of the democratic ones, it will be owing to the apathy of the dominant party in such ward rather than the activity of their opponents, tho' there is some talk of a strong effort to be made by the democrats to carry ward one, in order to secure the offices for the party.

For the mayoralty, the democrats have renominated Hon. John S. Treat. The republican candidate for mayor is Charles H. Mendum, Esq., a gentleman whose skillful management of large and varied private interests is a sufficient guarantee that if elected,—as he will be if he receives the full vote of the party, which he is entitled to,—the affairs of the city will be managed in a prudent and business-like manner. Mr. Mendum served the city several terms as alderman, a number of years ago, and no member of the board was more constant in attendance, or more watchful of the city's interests, than he; and the republicans will have no valid excuse to offer if they allow the city to be deprived of his services as mayor the coming year.

If the clerks of the several wards will kindly furnish us with the election returns as soon as convenient after the closing of the polls, they will confer a favor.

DEMOCRATIC NOMINATIONS.

WARD TWO.

Aldermen—George B. French, Howe Call, William J. Fraser.

Councilmen—John S. Wendell, George W. Hall, Dennis H. Trefethen, Levi W. Marden, Nathan Tarlton, Lewis Green.

Assessors—William P. Burleigh, Ebenezer G. Adams, John Conlon.

Moderator—Calvin Page.

Overseer of the Poor—Benjamin Russell.

GOSSIPS SAY

That through the instrumentality of Senator Blair, C. Dwight Hanscom of this city has had his pension increased to twenty-five dollars per month.

That if there have been any breaks in the city machine heretofore, the republicans this time propose to mend 'em.

That they will either do this or stand Treat.

That the yacht Republic, of Providence, a remarkably handsome vessel, was in the lower harbor on Monday.

That the steamer City of Portsmouth, on her last trip out Saturday night, met with a slight accident to her boilers when just outside of this harbor, and was obliged to proceed to York under sail.

That the Sunday trip in consequence was made by the steamer Mystic.

That the New England Distillers' Association will dine at the Wentworth to-day (Tuesday) as the guests of William Ward, Esq., of this city.

That a number of the leading democratic politicians are conveniently out of town to-day.

That Mayor Treat should find out "why this is thus."

That Music hall receives the largest rent per night of any theatre hall in the state, namely, $55.

That the farmers are praying for rain.

That they are also swearing because potatoes are on the decline.

That the Taurus excursionists throng our streets every day between two and three o'clock P. M.

That this splendid boat is well patronized by Portsmouth people.

THE FIREMEN'S MUSTER.

The Strafford Guards, of Dover, last week voted to attend the firemens' muster.

The Tempest engine company of Richmond, Me., entered for the muster on Monday of this week.

Editor of Chronicle—Dear Sir: Will you allow me to say through your columns, that *if*, in the article which appeared in your issue of July 31st, under the head of "Boards and Rings," the accusation of using "Coarse and ungentlemanly talk in the schoolroom" referred to *me*, I pronounce it *absolutely false*, as is also the *insinuation* that my work was not carefully and energetically performed. I have *never favored* the present system of election, and if I did not *oppose* it two years ago, it was on account of the wishes of some of the school board at that time.

Yours respectfully,
CHARLES E. BUZZELL.

There was paid into the city treasury this year for taxes, prior to August 1st, $91,500, against $72,000 paid in up to the same date last year.

Cape Ann parties were in this city on Monday, to hire a wharf as a landing place for the steamer Swan, of Gloucester, which they contemplate putting on the line between this city and Kittery Point.

There was but a small audience at Music hall on Sunday evening, when and where a concert was given by the Wentworth house orchestra, assisted by Miss Wendell and Mrs. Shepard; but the excellent programme was faithfully gone though with, and was highly appreciated by those who did attend, as was indicated by the generous applause given by the thinly-peopled house. The orchestral portion of the entertainment was finer than anything of the kind ever put on the Music hall stage. Miss Wendell as a vocalist, and Mrs. Shepard as a pianist, are so well known to Portsmouth audiences that no commendatory remarks are needed.

We were pleased to meet in town on Monday our old friend "Bob" McGill—we believe he signs his name Robert G. McGill, but that is only his company name—who years since used to play second base in the Whipple base ball club of Kittery, and for recreation worked on the navy yard when there was no base ball match going on. He is now living in Brooklyn, N. Y., and is connected with a large railroad combination in New York city. He is making a brief visit to his former residence, and on Monday had a look over the office at the navy yard wherein he toiled through so many long and weary days in the long ago, when he was young and innocent.

The Ellis family of bell-ringers are stopping in the Mayo cottage at Union Bluff, York beach; they are having a nice cottage built at the bluff, to be hereafter occupied by them as a summer home.

On Saturday evening last Mr. Usher B. Thompson and wife, of Kittery, were agreeably surprised by about forty of the neighbors and friends with whom they have been associated while living in the town, who came upon them unheralded, and insisted on taking possession of the premises, which the regular occupants surrendered at discretion. The welcome intruders brought with them all that was required for a generous collation, and the occasion was thoroughly enjoyed by all who participated. A general feeling of regret was expressed that Mr. Thompson's connection with the navy yard has been severed, and all hoped his service might again be required there. Should he and his wife leave Kittery, they will carry with them the best wishes of a large circle of friends. P.

Dr. Gurney and family, of Concord, N. H., have taken rooms for the season in Mr. Charles L. Bowden's cottage at York beach.

The hotels, boarding houses and cottages at Union bluff, York, were on Saturday evening last beautifully illuminated with hundreds of Chinese lanterns, red and blue lights, transparencies, etc.; the scene as viewed from the beach was one of great splendor.

Chief Engineer Garvin, Chief Engineer Whittaker and Passed Asst. Engr. Norman, have been appointed on a board of survey to inspect the machinery of the U. S. S. Marion, which will probably be overhauled at this yard this winter, at an expense of from $60,000 to $75,000.

It is reported that a man named Le Brun, occupying a cottage at York beach, fell dead in a boat one day last week from heart disease, while on a fishing excursion.

The steamer Taurus brought over 1000 passengers on her trip to this city from Boston on Monday. She is beyond question the finest steamer that ever ran here, and is officered as follows: Captain S. G. Martin; mate, Edward N. Colbath; pilots, C. A. Pierce, F. L. Bird; clerk, N. W. Robertson; quartermaster, James Carrody; engineer, Eugene Irvin; assistant engineer, G. H. Howland: electric engineer, F. E. Van Leon; steward, A. F. Pitman. Mr. N. L. Newcomb is general superintendent of the Iron Steamboat Co.'s line, to which the Taurus belongs. It is stated that after the excursion season is over, during the cold months, a smaller boat, suitable for carrying freight, will be placed upon the line between Boston and this city.

Between 150 and 200 excursionists arrived in this city on Sunday over the Concord railroad, from Nashua, Manchester and other places in the interior of the state, bound to York beach by the steamer City of Portsmouth; but the steamer was unfortunately delayed at York beach by a trifling accident to the boiler on the previous evening, so the steamer Mystic took around a load of the passengers, and the others went over in barges and private teams. Had the services of a boiler maker been procurable at the beach, the City of Portsmouth would have been on time for her party; as it was, she was obliged to wait until a man and tools could be procured from this city.

The sons of York county resident in Portland have formed an association to be called the "York society," and have organized by the choice of the following officers: President, Hon. Bion Bradbury; vice presidents, Hon. L. D. M. Sweat, Horatio N. Jose, Harrison J. Libby, Wm. G. Davis and Wm. H. Clifford; treasurer, Emery S. Ridlon; secretary, David B. Kicker; executive committee, Hon. Joseph A. Locke, Joseph S. Ricker, J. B. Pike, Mayor John W. Deering, Wilbur F. Lunt, Richard O. Conant and Charles E. Jose. The natives of that county in Portland number nearly 400, and are among its best known and most enterprising citizens. A reunion will be held at an early day, and annually thereafter.

It is not generally known the hen is cock of the walk, and yet she appears to be. Statistics for 1882 show that the value of the poultry produced in America exceeds the value of either hay, wheat, cotton or dairy products. The figures for that year are: Wheat, $488,000,000; hay, $436,000,000; cotton, $410,000,000; dairy products, 254,000,000; poultry, $660,000,000. Notwithstanding these large figures, poultry is about the only product we do not send abroad, but find a market for it entirely at home. France and England send large quantities of eggs to this country, for which there is always a ready market. In 1882 we received 13,000,000 dozen from foreign countries, and still we are not satisfied. Let the hen be respected.—*Mining and Industrial Journal.*

Tea per ℔, Black 30c @ 50c; Green 45c @ 60c.
Wood per cord, Hard $7; Pine $5.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

HAIR WORK!

I MANUFACTURE **Invisible Hair and Cap Nets**, made of **good strong hair** prepared by me especially for that purpose, and **never** use any refused or rotten hair. Prices from **5 cents** upward.

THE WENTWORTH,
NEWCASTLE, N. H.
THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high situation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds**, large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.
An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.
At the station in Portsmouth the coaches of the Hotel are always in waiting. Address, Portsmouth, N. H.

DESIRABLE ESTATE FOR SALE.
THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Mason furnace, heating two stories, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every one commends a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 220 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.
July 4th, 1883.

"THE ELLIS' HORSE REMEDIES ARE THE BEST."

Solidly Endorsed by the "Spirit of the Times," and Leading Veterinary Surgeons.

"ELLIS'S SPAVIN CURE.—Of course, it is generally regarded as impossible to completely cure a bone spavin and remove the enlargement. But *it is positively astonishing* what curative properties exist in the mixture known as Ellis's Spavin Cure, and those who have given it a fair trial say *it is the best remedy* they ever applied. In many cases it has not only removed the lameness, but also the lump, and we assume it was far superior to the ordinary blisters prescribed by the faculty. We also learn that Ellis's condition, colic, worm, and horse powders are *the best of their kind*, and just what every horse owner should have at hand ready for use. *May 12th, 1883.*"

Sold by all druggists and harness men.

☞ Our $5 and $10 assortment of Ellis's horse remedies should be in every stable.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** It treats vitally, nervous and Physical debility, premature decline of pain, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the best work on Physiology ever published. There nothing what ever that ought to be required, and nothing required that ought to be left unexplained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and search for Kidney or liver troubles, or Dyspepsia, while of the truth were known, the real cause is at the heart. The renowned Dr. Cundining, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet makes twenty pounds of blood pass through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles as Palpitation, etc. This is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1.50 per bottle, six bottles for $5 by express. Send things for Dr. Graves' thorough and exhaustive treatise.* (2)

At Sligo, Ireland, last week, Edward Fox, Patrick Connolly and William Driskenj were sentenced to twenty years in prison for participation in the murder of a man named Herdsman, a bailiff on the estate of Lord Ardilsaun.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

The Brooklyn health department have found a number of cows afflicted with pleuro-pneumonia, and state that they have found inoculation to be very successful in not only curing the contagion, but in preventing its spread.

Dr. E. H. Babbitt, Hickory, N. C., says "Brown's Iron Bitters give great satisfaction."

A man named Baker, living near the village of Hurricane, in Saline county, Ark., on the 4th inst. split his daughter's skull with an axe, because she intended to marry a young man he disliked. Baker's neighbors immediately assembled, hanged him to his own doorpost, and then dispersed, leaving him hanging.

How can you remain a sufferer from dyspepsia when worse cases than yours are being cured by Hood's Sarsaparilla. Try it.

The Jewish residents of Ekaterinoslay, Russia, were attacked by a mob on the 2d inst. The soldiery had to be called out to disperse the rioters, ten of whom were killed and thirteen wounded. The trouble was caused by a Jew insulting a peasant woman. The town council of Ekaterinoslay has resolved to give the Jews 5,000 roubles to compensate them for their losses, and to provide shelter for those who were rendered homeless.

Could not Keep

Shop without them. I consider your Sulphur Bitters a remarkable blood purifier. I know of several people whose cases were considered hopeless, that have been entirely cured by your medicine. The sale of Sulphur Bitters is so large here that I could not keep shop without them. E. S. YATES, Pharmacist, 99 Essex street, Lawrence, Mass.

Chief-Engineer C. H. Baker, Lieut. N. J. P. Patch, Sailmaker H. C. Stocker, and Captain R. W. Huntington, U. S. M. C., all attached to the Boston navy yard, have all gone on leave of absence for one month.

LONE JACK, MO., Sept. 14, 1880.

I have been using Hop Bitters, and have received great benefit from them for liver complaint and malarial fever. They are superior to all other medicines. P. M. BARNES.

A train on the Nashua & Rochester railroad, when near Lawrence corners in Hudson, on Saturday, struck a horse and wagon driven by James Corliss and H. B. Wallace. The locomotive struck the wagon, throwing the two men and the body of the wagon nearly fifty feet, killing both men instantly. The horse escaped injury. Every effort on the part of the train men was made to warn the men of their danger. Both men were farmers with families residing in Hudson.

Erem Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ellis's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

Samuel P. Tolman of Dover, who was visiting relatives in Boston, was found in the back yard of the house where he was stopping, at an early hour last Sunday morning, so badly injured that he died in a few hours. He either fell or jumped from the third-story window, where he slept.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

Owing to the recent threats made by "Invincibles," a guard is to be mounted at Rideau hall, the vice-regal residence at Ottawa, Ontario, after the arrival of the Marquis of Lansdowne, and it is to be supplied with ball cartridges. Lord Lorne and the Princess Louise will remain there until the arrival of Lord Lansdowne.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? Why have your blood terribly impure? Why have Headaches? Why have your system full of pain with Rheumatism? Why let the poisonous humors which your kidneys are all running and need a gentle soothing tonic to assist nature to remove? Your nerves are all unstrung and need a good nourishing tonic to make them strong. Why suffer with Dyspepsia? Why be so costive? Why have your stomach out of order? Why have a coated tongue? Why have a foul breath? Why have a sallow complexion? Why have a poor appetite? Why be so nervous? Why have Chills and Fever? Why have Ague? Why have Liver Complaint? Why have Kidney Complaint? Why have Female Complaints? Why have Pimples? Why have Blotches? Why have Boils? Why have Tetter? Why have Ringworm? Why have Scaly Skin? Why have Scrofula? Why have Blood Poison? Why have Rheumatism? Why have Neuralgia? Why have Sciatica? Why have Lumbago? Why have Pain in the Back? Why have Pain in the Side? Why have Pain in the Bowels? Why have Pain in the Stomach? Why have Pain in the Head? Why have Pain in the Face? Why have Pain in the Limbs? Why have Pain in the Joints? Why have Pain in the Muscles? Why have Pain in the Nerves? Why have Pain in the Flesh? Why have Pain in the Bones? Why have Pain in the Skin? Why have Pain in the Hair? Why have Pain in the Ears? Why have Pain in the Eyes? Why have Pain in the Nose? Why have Pain in the Mouth? Why have Pain in the Lungs? Why have Pain in the Heart? Why have Pain in the Liver? Why have Pain in the Kidneys? Why have Pain in the Bladder? Why have Pain in the Feet? Because SULPHUR BITTERS will do all this and more, if you will only give them a fair trial. Why not try SULPHUR BITTERS? Why not be cured? Why not be made well? Why not be made strong? Why not be made healthy? Why not be made happy? Why not be made joyful? Why not be made glad? Why not be made to sing? Why not be made to shout? Why not be made to praise the Lord? Because SULPHUR BITTERS is the great Blood Purifier, Life Giver, Health Restorer, Pain Killer, Nature's Own Remedy, Nature's Own Tonic, Nature's Own Stimulant, Nature's Own Cordial, Nature's Own Medicine, Nature's Own Cure-all, Nature's Own Relief, Nature's Own Comfort, Nature's Own Blessing, Nature's Own Boon, Nature's Own Delight, Nature's Own Joy, Nature's Own Gladness, Nature's Own Happiness, Nature's Own Peace, Nature's Own Rest, Nature's Own Sleep, Nature's Own Health, Nature's Own Life, Nature's Own Strength, Nature's Own Vigor, Nature's Own Manhood, Nature's Own Womanhood, Nature's Own Beauty, Nature's Own Grace, Nature's Own Glory, Nature's Own Power, Nature's Own Wisdom, Nature's Own Truth, Nature's Own Light, Nature's Own Life, Nature's Own Love, Nature's Own God, Nature's Own Heaven, Nature's Own Everything, Nature's Own Nature, Nature's Own Self, Nature's Own Sulphur Bitters.

The Dose is small—only a Teaspoonful. It is the *best and cheapest* medicine. Try it and you will be satisfied. Get it of your druggist. DON'T WAIT. GET IT AT ONCE.

H. B. Buzzell & Son, 4 Market Sqtare.

ODD JOBS

OF ALL KINDS done to order; *specialties*—Beating Carpets, Sawing and Splitting Wood, Digging Graves and Digging and Making Gardens. WILLIAM P. GARDNER, No. 19 Gates Street.

☞ Order slate at E. J. Tuckerman's, No. 7, Daniel street.

Daily Chronicle.

Wells' "Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

Capt. Robert L. Phythian has been detached from the navy yard, Boston, the 20th inst., and ordered to command the Trenton on the 21st inst.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

Lieut. Joseph B. Murdock is detached from the naval academy, and granted leave of absence for one year.

"Your Skin Cure is superexcellent. It is fast curing my daughter's ring worm, which had spread all over her body." Mrs. E. L. D. Merriam, Blue Hill, Mass., Druggists Keep it, $1 per package.

Orders have been issued for the Alert, now at the Mare island navy yard, to be ready for sea by Sept. 25th.

"My horse was very lame with Navicular Joint disease," says W. E. Peterson, of Waltham, Mass., "Ellis's Spavin Cure has cured him." It never disappoints.

The board of inspection on the tug Pinta reports her as in all respects fitted for sea, except that her machinery requires some repairs.

One voice all over the land goes up from mothers, that says, "My daughterp are so feeble and sad, with no strength, all out of breath and life at the least exertion. What can we do for them?" The answer is simple and full of hope. One to four weeks' use of Hop Bitters will make them healthy, rosy, sprightly, and cheerful.

Civil Engineer *Henry* S. Craven is detached from duty at Coasters' *Harbor* island, and placed on waiting orders.

Hay Fever.

For twenty years I was a sufferer from Catarrh of the head and throat in a very aggravated form, and during the summer months with Hay Fever. I procured a bottle of Ely's Cream Balm and after a few applications received decided benefit—was cured before the bottle was used. Have had no return of the complaint. Charlotte Parker, Waverly, N. Y.

One and one-half bottles of Ely's Cream Balm entirely cured me of Hay Fever of ten years' standing. Have had no trace of it for two years. Albert A. Perry, Smithboro, N.Y.

Since boyhood I have been troubled with catarrh and Hay Fever, and have been unable to obtain permanent relief until I used Ely's Cream Balm. It has cured me. E. L. Clickener, New Brunswick, N. J. Price 50 cents.

Chief Engr. Joseph *H.* Trilley is detached from the Wabash' and ordered to the Trenton.

Be merciful to all dumb animals, says Josh Billings. No man can get to heaven on a sore-backed horse, when he knows one application of St. Jacobs Oil will cure it.

Surgeon Kidder is detached from the naval station at Port Royal, S. C., and ordered to the Norfolk navy yard.

It is the manifest destiny of Glenn's Sulphur Soap to supersede oily unguents for cutaneous eruption.

Dyspeptic, nervous people, "out of sorts," Colden's Liquid Beef Tonic will cure. *Ask for Colden's.*

Lieut. W. P. Ray and Master J. M. Helm, attached to the Ranger, at the Mare island navy yard, have been granted leave of absence, to allow their employment by the governments of Mexico and Guatemala, in connection with the establishment of a boundary line between the two countries.

Our Progress.

As stages are quickly abandoned with the completion of railroads, so the huge, drastic, cathartic pills composed of crude and bulky medicines, are quickly abandoned with the introduction of Dr. Pierce's "Pleasant Purgative Pellets," which are sugar-coated, and little larger than mustard seeds, but composed of highly concentrated vegetable extracts. By druggist.

Lieutenants Schaefer and Walker are detached from the naval academy; Medical Inspector Boger and Passed Asst. Surgeon Ferebel from the Norfolk navy yard; and all ordered to the Trenton.

The Lips we Love to Press

Inclose pearly teeth, and exhale fragrance when opened. If this double charm were wanting, they would lack their main attraction and probably remain unkissed. Sozodont will secure it. Discoloration of the teeth, unhealthiness of the gums, and a breath which causes repugnance, are completely remedied by this incomparable beautifier and antiseptic of the teeth, which is as pleasant to taste and smell as it is reliable in its action.

Lieut. Robert T. Jasper is ordered to the naval academy Sept. 1st.

VEGETINE will cleanse Scrofula and all Scrofula humors from the system.

Lieut. Wm. S. Swinburne, Passed Asst. Surgeon J. D. Gatewood, and Paymaster George A. Lynn, are ordered to the Trenton.

No sensible man prefers wealth to health. Some few have both; very many haven't either. Well, you may have first choice. Which will you take? "health." Very well, what's your ailment? "A little of everything." What's the cause? "Blood out of order, kidneys weak, digestion bad, heart action irregular." Yes, and every disease can be traced to the same sources. Just take a few bottles of Brown's Iron Bitters, it will remove the cause of disease and restore you to robust health. Ask your druggist and use Brown's Iron Bitters.

Bradley Barlow, president of the Southeastern railway of Canada, and a large owner of the stock, failed on the 6th inst., with very heavy liabilities. The Vermont National bank, of St. Albans, Vt., of which Mr. Barlow is president, closed its doors to business the same day, causing great consternation among the depositors. The bank has discounted about $325,000 for the Southeastern railroad.

TERRIBLE itching and scaly humors, ulcers, sores and scrofulous swellings cured by the Cuticura and Cuticura Soap (the great skin cures) externally, and Cuticura Resolvent (blood purifier) internally. Ask about them at your druggists.

Herbert A. Slade, of New Zealand, better known as "Slade, the Maori," and John L. Sullivan of Boston, the eminent bruiser, had a boxing-match in the Madison square garden at New York on the evening of the 6th inst., which resulted in an easy victory for the cultured Bostonian. The receipts were estimated at $16,000, of which the Maori gets forty per cent.

CLEAR HEAD and voice, easy breathing, sweet breath, perfect smell, taste and hearing, no cough, no distress. These are conditions brought about in catarrh by the use of Sandford's Radical Cure. Complete treatment for $1.

The Parson Cornered.

Rev. Dr. Osgood, of Medford, is remembered by many as one of the typical old school divines. He used to say that he was fifteen miles from Andover, and that his geographical position was indicative of his theological one. A well authenticated story of Dr. Osgood is especially appropriate at the present time. On the occasion, the doctor preached a sermon on the text, "There are but few to be saved." He made a rough estimate of the population of the globe, and after ingenious calculation, based on Revelation, said it would not be safe to say that one in fifteen hundred would be saved—"rather less than more."

Dr. Osgood had two deacons in his society, Tanner Hall and Blacksmith Sims. The next day, as he was walking, he came to Deacon Sims' shop. The forge was not going. There were several sitting about in earnest conversation.

"What is the matter?" said Dr. Osgood.

"We are having a good deal of trouble about your sermon yesterday."

"It is a very serious subject," said the doctor. "Well you may!"

"We understood you to say that only one in fifteen hundred would be saved."

"Yes; rather less than more."

"Now, the last census gave Medford fifteen hundred, and we were wondering whether that one would be you or one of the deacons."—*Cambridge Tribune.*

—Nearly one hundred lady teachers in Philadelphia enter the matrimonial state this summer. If these ladies are not obliged to retain their situations in order to support their new husbands, there will be a grand rush for their vacant places, no matter if the salary is low.

IN A STILL HOUR

Two Learned Men Have a Talk and Come to a Common Conclusion.

"There can be no question as to that," said Dr. P——, who is prominently connected with a certain hospital, to his friend, the House Surgeon, as the two sat having a smoke and a quiet chat in the reception room late on a recent stormy night—"no question at all." Ever since I began practice in that little country village you've heard me speak of, away up near Lake Ontario, thirty years ago, I have felt—in common with all other physicians—the need of a reliable plaster. There are so many diseases—if, indeed, the majority do not come under the rule—for which a good external application is better than remedies poured into a patient's stomach."

"That's so, doctor, and to show you my faith in your theory, I may say that since I have held my position here, I have opposed the idea of dosing people, except in cases when we were at our wit's end and it seemed to be that or nothing. Some soothing application, if the patient needs anything, combined with rest and good nursing, will do the business—save where cases of accidents require heroic treatment."

"I say, doctor," said the other, "you can speak of it, or not, just as you like, but in my private practice, when I want anything of the sort, I use BENSON's CAPCINE POROUS PLASTER. It's a proprietary thing, of course, but it is by all odds the best plaster I have come across. It is scientifically prepared, quick in taking hold, sure to relieve when relief is possible, and neat as WAX to handle. It is just the perfect flower of all that has ever been done in that line. I happen to know, too, that it is being rapidly introduced in the principal hospitals of London, Paris and other leading cities in Europe."

"You needn't fret, my friend," laughed the House Surgeon, "over the chance of being caught in an act of professional heterodoxy, for we use Benson's here every day, and so they do at the other city hospitals. We find it so much better than liniments, lotions, &c., that the bottles are actually getting scarce in the house."

Benson's plasters are prepared from an improved formula by distinguished physicians and chemists to meet a want felt for years. You will not be disappointed in them. In the middle of the genuine is CUT the word CAPCINE. Price 25 cents. Seabury & Johnson, New York.

MEDICAL.

MRS. C. W. CHAMBERLIN

State and Ark Sts., Springfield, Mass.—Her Good, Kind Words will do Much for the Afflicted.

Mrs. Chamberlin is the wife of C. W. Chamberlin, an employee in the United States Armory in Springfield, Mass. She says: "Every Spring I have been for some time past, more or less troubled with nervous debility and weakness. Some years I've been completely run down. My physician has recommended various strengthening and blood medicines, but I never received any permanent benefit until I tried Dr. Kennedy's FAVORITE REMEDY. It was recommended to me by Mrs. Newcombe, on State St. I think it a wonderful medicine to give one strength and enliven a person. I have recommended it to family after family among my acquaintances in Springfield, Mass., and FAVORITE REMEDY has done a great deal of good wherever it has been placed. I have a sister, Mrs. Harmon, 29 Tremont St., Lowell, Mass., who was troubled with nervous weakness and loss of strength and appetite, but by using Dr. Kennedy's FAVORITE REMEDY her health was completely restored. I consider it an excellent medicine. Dr. Kennedy's FAVORITE REMEDY is used extensively among the Armory men here."

No, Sir!

A Scotch minister once said no woman could bear pain as well as man. That is not so. The fact is generally the other way. Mrs. Edward Meyers of Rondout, N. Y., submitted to the operation of the removal of her hand by amputation, without taking ether, or moving a muscle or uttering a groan. Dr. Kennedy, also of Rondout, N. Y., who performed the operation, said he never saw such heroism. The lady's disease was erysipelas, and afterward the doctor gave his FAVORITE REMEDY to cleanse the blood. Mrs. Meyers is now well and strong.

INSURANCE.

MORSE & ILSLEY,

FIRE, LIFE & ACCIDENT

INSURANCE AGENCY!

Represent the following old reliable companies:

FIRE DEPARTMENT:

INSURANCE COMPANY OF NORTH AMERICA, Of Philadelphia, Penn., Assets $8,881,000.

PATENTS!

R. H. EDDY,

No. 70 State St., opposite Kilby, Boston,

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1879.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1866, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

Boston, January 1, 1883. eod1y

WHIPS All qualities and prices. Larrabee's, Congress St.

Fright In the Farm House.

Family all taken sick at night. Unusual symptoms. Seemed like poisoning. What could it be? What had they eaten? Was it arsenic in the soup? Was it strychnine in the coffee? Was it rats'-bane in the pie? None of these. The cistern had not been cleaned for a long time. The family had been drinking impure water. They might have died, only that they took Perry Davis's Pain Killer. Family well. Farm-house happy. Everybody pleased.

Senator-elect Pike was serenaded at his home in Franklin last Saturday evening, by his neighbors of both political parties. A congratulatory speech was made by Hon. Daniel Barnard, to which Mr. Pike replied.

"Rev. G. W. Offley, New Bern, S. C., says "I have taken Brown's Iron Bitters and consider it one of the best medicines known."

Officer Rand arrested Fred G. Stanwood in Concord, Monday, for the larceny of several articles of jewelry and clothing at Laconia on Saturday. Stanwood acknowledged his guilt, but says he was intoxicated when the theft was committed.

The *Hop Plasters* have a wonderful sale, and why! Because they cure back ache, stiff joints, pain in the side and all soreness in any part. People appreciate them. Any druggists, 25 cts.

There was great excitement at Pine Cliff, Sunapee lake, Monday forenoon, caused by a fire breaking out in the woods near the elegant summer residences at that place. A line of forty persons, including nearly twenty ladies, under the direction of Attorney General Tappan, Col. John A. White and Horatio Hobbs, was formed for passing buckets of water, and after an hour's hard work the fire was extinguished.

Physicians recommend as a fine Bourbon Whiskey the G. O. Taylor brand bottled by the old and honorable house of Chester H. Graves & Sons, Boston. For purity and excellent this Whiskey is unsurpassed. To be obtained of Druggists and Grocers.

Thieves visited the Alpine and Turner houses in Bethlehem on the night of the 4th inst., getting some clothing and jewelry from the former, and $75 in money and a gold watch at the latter.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per Bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Henry Blake, nineteen years old, son of Jeremiah Blake, member of the legislature from Loudon, was drowned in Rollins' pond in that town on the 4th, while bathing.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass

Portsmouth Chronicle.

WEDNESDAY, AUGUST 8, 1883

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The August Meteors.

On the evenings of Thursday, Friday and Saturday of this week, the astronomers tell us, or the papers say they tell us, meteors may be seen to shoot out frequently from a point in the constellation Perseus. This point is about thirty-five degrees from the North Pole star, and at nine o'clock on the evenings in question will be in the northeast, between Cassiopea's Chair and the horizon. The most favorable time for seeing the meteors is between midnight and break of day. The earth is at this time passing through a ring of minute but solid bodies, which are moving in orbits near to each other, and complete a revolution about the sun in something more than a hundred years. The average height at which these bodies become visible is seventy miles. They are ignited by the friction of the air, and burn up generally within about forty miles of the earth. In this stream of meteors a comet was discovered in 1862, and its orbit was found to coincide so closely with these meteor orbits as to establish the fact that it belongs to the same group of bodies. The tracks of comets in other instances have been found strewn with small particles of matter which have become visible to us in the form of shooting stars. The action of the sun doubtless causes a dissolution of the comet; and this action continues to separate the particles more and more until they become distributed along the whole orbit.

Wellesley College.

Numerous papers in reporting the physical status of the young women of Wellesley college attribute their extraordinary robustness to the domestic system, which requires an hour of kitchen or dining-room service for each girl daily, but have in many instances utterly ignored the extensive grounds of Wellesley, where girls play ball and tennis, and the lake covered with boats, where they are taught to row and to swim with as much ease as they are taught to decline Latin nouns or to solve an equation. Moreover, Wellesley, not caring to have a reputation for breaking down the constitutions of girls, is very careful about accepting weaklings; every girl entering must pass a medical examination, and the only relatively sound are admitted.

WARRANT FOR CLOSING THE CHURCHES IN AUGUST.

From a new August-inian Version of the Scriptures.

"I will come into Thy house in the multitude of Thy mercy, except in August."

"The Lord is in His holy temple, except in August."

"One thing I have desired of the Lord, that I will seek after, that I may dwell in the house of the Lord all the days of my life, except in August."

"Beautiful for situation, the joy of the whole earth is Mount Zion, except in August."

"God is known in her palaces for a refuge, except in August."

"I will abide in Thy tabernacle forever, except in August."

"Praise waiteth for Thee, O God, in Zion, except in August."

"We shall be satisfied with the goodness of Thy house, even of Thy holy temple, except in August."

"How amiable are Thy tabernacles, except in August."

"My soul longeth, yea, even fainteth, for the courts of the Lord, except in August."

"The Lord loveth the gates of Zion more than all the dwellings of Jacob, except in August."

"Strength and beauty are in Thy sanctuary, except in August."

"I was glad, except in August, when they said unto me, let us go into the house of the Lord."

"Our feet shall stand within Thy gates, O Jerusalem, except in August."

"Where two or three are gathered together in My name, there am I in the midst of them, except in August."

"Preach the gospel to every creature, except in August."

"Preach the Word, be instant in season, out of season, except in August."

"Not forsaking the assembling of yourselves together, except in August."

"To the poor is the gospel preached, except in August. This day is this Scripture fulfilled in your ears."

"They continued steadfastly in the apostles' doctrine and fellowship and in breaking of bread and in prayers, except in August."

Application:—"Well done, ye good and faithful summerers, for ye have closed the house of God in August, and have taken away the key thereof; ye entered not in yourselves, and them that were entering in ye hindered."

Rogers Amero, the alleged murderer of Mrs. Etta G. Carlton at Watertown, Mass., was on the 4th inst. taken from Digby, N. S., to St. John, N. B., in custody of Detective Wiggin, and on the 6th took passage for Boston in the Flying Yankee express train over the Maine Central and Eastern railroads, passing through this city at a late hour in the evening. The train, which was due in Boston at ten o'clock Monday night, did not arrive there until after one o'clock Tuesday morning, having been delayed by a derailed freight train near Eliot, Maine. Late as was the hour, many people lingered around the stations at Newburyport, Salem, Lynn and Boston until the train arrived, eager to see the suspected murderer.

Mr. E. J. Goodwin of this city has withdrawn his name as a candidate for principal of the high school of Malden, Mass., but his supporters refuse to vote for C. A. Daniels, the former principal, so the deadlock continues.

If you suffer with Sick Headache, Constipation, Sour Stomach, or Bilious attacks, **Emery's Little Cathartic Pills** will relieve you. 25 cts.

Of the many remedies before the public for Nervous Debility and Weakness of Generative Organs, there is none equal to Allen's Brain Food, which promptly and permanently restores all lost vigor; it never fails. $1 pkg., 6 for $5. At druggists.

The Lucky Man—Raleigh Again Gets a Big Prize.

In the Drawing of The Louisiana State Lottery, June 12th, one-tenth of the grand prize of $150,000 was won by a Raleigh man, Mr. Gustave Rosenthal, who deserves every smile fortune may give. He sent through the express, and received the drafts on New York for the $15,000. The transaction was a prompt one. Mr. R. has long been recognized as one of the brightest of our business men. He was born in Germany and came to this state in 1859. In the spring of 1861 he came to Raleigh; has twice been a member of the board of aldermen, being chairman of the most important committee. He has for years been secretary of the Falls of Neuse Manufacturing Company.—*Raleigh (N. C.) News and Observer, June 24th.*

BUY AT HOME!

Sch C H Trickey, Kelley, from Tennant's Harbor, Me, for Georgetown, D C, ckd from Hyannis 4th.

Sch C H Foster, Coombs, arr at Bangor 3d, hence.

A Sufficient Reason.

"Is yerself the man that grants pardon," asked a colored preacher of the attorney-general of Arkansas.

"What do you want with a pardon?" replied the official.

"It is necessary, sah, afore I ken assume de sponsible duties ob my profession."

"Why is it necessary?"

"Wall, yer see, I's a preacher, an' my congregation turned me outen de church, an' I wants a pardon to show 'em dat I is sustained by the gubenment. Den I ken git my pulpit back ag'in."

"What caused them to turn you out?"

"Caused I missed an appointment, sah."

"Very meagre grounds on which to expel you."

"Yes sah, 'specially when I couldn't get dar."

"What kept you away?"

"I was in jail, sah."

—"Ah! going to take a vacation at the beach?" said one man to another, as the two met on a boat going down the harbor. "No, I'm merely going down to have my name registered at one of the beach hotels, so that it may be published in the guests' lists. There is nothing like putting on style, you know."

STATED MEETINGS.

CITY GOVERNMENT.

Reading Room free to members and strangers visiting the city. Quarterly Meetings the First Tuesday evenings in November, February, May and August. Election of officers at November meeting.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars. Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH

ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER.

Is not a liquid or snuff.

HAY-FEVER Apply by the finger into the nostrils.

When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays Inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

MEDICAL.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

THE ELECTION.

Tuesday, Aug. 7th, the day of the municipal election, was as beautiful a day as could be desired—neither too hot nor too cold, with the sun cheery but not oppressive, and a gentle breeze blowing, enough to refresh the pedestrian, but not enough to raise a dust.

The election itself was a rather dead affair. Nobody seemed to care much who should be elected or who defeated. It appeared early in the day to be regarded as a foregone conclusion that Mayor Treat, whose course as mayor the previous year had satisfied the leading democrats and very many of the republicans, was to be re-elected; and though "stickers" in favor of John E. Locke for alderman from ward one were on hand for the use of any republicans willing to use them, and there was a slight democratic "kick" about the assessors' ticket in ward four, there was no excitement at all, no disturbance worth mentioning, but little drunkenness, and no change effected in the political complexion of the city government from that of the previous administration. In ward four one of the democratic caucus nominees for assessors was defeated, Mr. Wendell getting seventy-eight votes to seventy-four for Mr. C. W. Norton, and winning the election, the highest vote for assessor on the republican side being sixty-three. Mr. Norton regarded the bolt very philosophically, and declined to allow his friends to put in any special work in his behalf, trusting entirely to the fact that his nomination was regularly made in a fairly-conducted caucus.

The board of aldermen will stand six republicans to three democrats, and the common council twelve republicans to six democrats; the overseers of the poor are equally divided between the parties—two democrats and two republicans; and the board of assessors will include six republicans and three democrats.

The total vote of the city, for mayor, was 389 less than last year, the democratic vote falling off 117, the republican vote 212, and the scattering vote ten.

We tender our thanks to Messrs. William S. Hazel, Ira G. Eastman, James A. N. Rugg and Samuel *H.* Kingsbury, ward clerks, for prompt returns of the voting in their respective wards.

CITY OFFICERS ELECT.

Mayor—John S. Treat, democrat.

Aldermen—William R. Martin, Geo. W. Green, Willard J. Sampson, ward one; Alfred Stavers, W. *H. Hackett*, Albert C. Anderson, ward two—six republicans. John W. Caswell, ward three; Benjamin Atwell, James Janvrin, ward four—three democrats.

Common Councilmen—Charles *H.* Clough, John *H.* Ross, Charles W. Dennett, Joshua M. Bickford, Wilbur L. Davis, Willis B. *Hodgdon*, ward one; James M. Jarvis, Moses Plummer, William G. Billings, Albert R. Junkins, Frank W. Grogan, Arthur L. *Hersey*, ward two; twelve republicans. George A. Blaisdell, John *Hand*, ward three; Oliver *H.* Cook, *Horace* W. Gray, James Cunningham, George A. Trafton, ward four—six democrats.

Overseer of the Poor—Charles F. Wells, ward one; George *H.* Abbott, ward two; David J. Norton, ward three; Augustus Walden, ward four. Two republicans and two democrats.

Assessors of Taxes—George W. Pendexter, Joseph *H.* Berry, William D. Fernald, ward one; Joseph *H.* Gardiner, John W. Prior, Samuel S. Green, ward two—six republicans. Daniel F. Akerman, ward; three William P. Bennett, *Henry* F. Wendell, ward four—three democrats.

A NOTED SCOUNDREL CAUGHT.

Officers in Gloucester, Mass., on the 6th inst. arrested Henry F. Beckman, alias Edgar Beckman Worthy, alias Edgar Barker, who is wanted in various places in Essex county, Mass., and New *Hampshire*, for horse stealing. Beckman belongs in Seabrook, and is only twenty-six years of age, but has served several terms in prison. In 1876 he was sentenced for obstructing the Eastern railroad track at Salisbury. In 1879 he hired a crew, stole a vessel at Gloucester and carried her to Newburyport, where he dismantled her and sold the rigging, etc., etc. When arrested he had just returned from a fishing trip in the schooner M. L. Wetherell.

Beckman was brought to this city on Monday and lodged in jail; he accompanied the sheriff willingly, apparently thinking he would fare better in New *Hampshire* than in Massachusetts. *His* first recorded crime was the stealing of a team in 1873, from the stable of the late Greenleaf Boardman in Newburyport. The crime for which he was brought here was the stealing of a team in Newton last April, for which he was followed up closely by the officers, and came near being caught by them at Kensington, but by boldness and cunning escaped. At that time the scamp was but a few days out of prison, having been sent up in April, 1880, for three years, for selling to a man in Exeter a team hired in Gloucester.

THE FIREMEN'S MUSTER.

It is thought likely that the fleet of the New York yacht club, now on its eastern cruise, will rendezvous in this harbor during the muster.

Masten & Wells, pyrotechnists, of Boston, have given twenty-five dollars as a special prize to the fire company making the best display of fire-works during the torchlight procession.

Two thousand full-sheet posters, giving details of the muster, have been sent out this week. They are to be posted in all the stations of the Eastern and Maine Central railroads, the Concord & Portsmouth, the Boston & Maine and other roads.

All citizens who can take boarders or lodgers, outside of firemen, are requested to notify the Committee of Arrangements by a postal card, giving prices. No one except respectable people will be sent to any house whose occupants send such cards.

FRED B. HARADEN, *Asst. C. S.*

Mr. John Stone, proprietor of the restaurant on Ladd street, died on the morning of the 7th inst. after an illness of only a few days, in the 71st year of his age.

Charles A. Clark, clerk for the Portsmouth Brewing Co., has resigned, to accept a position abroad.

A lad named Phinney, a bell-boy at the Appledore house, in jumping over a railing on the 6th inst, fell and broke one of his arms. He was properly attended to by the surgeon at the hotel, and came to his home in this city on the steamer's afternoon trip from the islands.

A freight train from Conway jumped the track between Conway junction and Eliot depot, Monday evening. The "Flying Yankee," due here at about eight o'clock, did not get in until a quarter past eleven; and the eastward bound Pullman was delayed over two hours. A wrecking train was sent from this city to aid in clearing the track.

The word "Portsmouth" has been painted in large letters on the fence to the westward of the Eastern railroad station in this city, so that passengers in the rear cars of trains from Boston will be able to tell what station this is, without enquiring of the conductor or brakeman.

Two locomotives in the Eastern railroad yard in this city attempted to pass each other on the same track, Tuesday, but failed; they did not try very hard, so the damage was very slight.

The Boston *Traveller* of Tuesday says: "The Iron Steamboat company is soon to add another of its fine steamers on the line between Portsmouth and Boston, the steamer Sirius being about ready to leave New York for this port to go on the route. The Taurus will then be run between Boston and Provincetown."

Two horses, one belonging to the city and the other to O. H. Cook, which have been pastured in Yeaton's field on Richards avenue, were found Saturday morning with severe cuts on their legs, apparently the work of mischievous boys. The mayor offers a reward of $25 for any information which may lead to the detection of the scoundrels.

Portsmouth Prices.

Wood per cord, Hard $7; Pine $5.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

HAIR WORK!

I MANUFACTURE **Invisible Hair and Cap Nets**, made of **good strong hair** prepared by me especially for that purpose, and **never** use any refined or rotten hair. Prices from **5 cents** upward.

SKIN HUMORS

Wonderful Cure of a Lad 12 years old, who for 8 years, from the top of his head to his ankles, was One Mass of Scabs.

MY SON, a lad twelve years of age, was afflicted with the worst form of Eczema for a period of eight years. So virulent was it that from the top of his head to within a few inches of his ankles he was one mass of scabs, which refused to yield to any treatment that was attempted. Every remedy that was suggested by friends or physicians was tried in vain. Allopathy, homeopathy, herbs, roots, salt-water baths, flaxseed poultices, soaps, ointments, and in short every thing that could be done to eradicate the disorder seemed only to aggravate it, and the child's life became a burden to him, and the expense of the various experiments was a constant drain upon our resources.

My wife, reading the advertisement of the CUTICURA REMEDIES in one of the daily papers, resolved to make one more attempt at a cure. (The disease was now encroaching upon his face, and seemed incurable.) I gave a reluctant consent to the proposal, and an interview was sought with a famous lady physician of New York, who made a most thorough examination of the case, and promised a cure without the least hesitation by the use of your CUTICURA REMEDIES. In one WEEK there was a marked change; the raw and angry sores began to grow pale and along the outlines commenced to dry and scale off, and as time wore on they began to disappear entirely, until at the present writing the only vestage is one small spot upon the forearm, scarcely visible and fast disappearing.

Thus after eight years of expense and anxiety, we have the intense satisfaction of seeing the child's skin as fair and smooth as it was before this dreadful cutaneous disorder attacked him.

Sincerely yours,
CHAS. EAYRE HINKLE.

249 FAIRMOUNT AVE.,
JERSEY CITY HEIGHTS, N. J.

CHILDHOOD and youth are the periods when such diseases yield most readily to those unfailing Skin and Blood Specifics, CUTICURA RESOLVENT, the new Blood Purifier, and CUTICURA and CUTICURA SOAP the great Skin Cures. THE WENTWORTH,

NEWCASTLE, N. H.

THIS HOTEL has accommodations for 450 guests, and offers more attractions for the pleasure and comfort of its patrons than any other seaside resort on the Atlantic coast. Its high elevation affords beautiful views both inland and seaward; its healthful atmosphere, the easy manner by which it can be reached, its advantages for boating, fishing and bathing, excellent drives and attractive walks, all combine to make it one of the most charming places on the New England coast. The house contains every modern appliance. It has spacious and well ventilated rooms, furnished in black walnut, **with the best of beds,** large parlors, halls and rooms for social enjoyment, passenger elevator operated by steam, Music Hall for dancing and theatricals.

An Orchestra of twenty members of acknowledge professional ability, under the direction of Mr. Henry L. Harlow, will furnish music for the season.

At the station in Portsmouth the coaches of the Hotel will always in waiting. Address, Portsmouth, N. H.

DESIRABLE ESTATE FOR SALE.

THE undersigned is authorized to offer for sale upon favorable terms, the House and Land of WILLIAM H. LOVELL, formerly of A. Coburn Hoyt, on North-West Street, at Pleasant Point on the Piscataqua River. The house is of modern build, has parlors, dining room, kitchen, etc., on the first floor, with five sleeping rooms. The cellar is high and unusually dry and well ventilated. It has a Mager furnace, heating two stoves, and cistern from which water is supplied for the bath room. Hot water is carried by pipe to this room from the kitchen. Facilities for salt water bathing are at hand. The house is situated on a high elevation, and is in excellent repair. Every room commands a fine prospect, while the tide renders the situation in summer both cool and healthful. The drainage is perfect. The lot measures 142 feet on the river in front, inside of fences, and 225 feet on the west side. There is a large variety of choice fruit trees in bearing condition, with grape vines, strawberry beds, &c. A convenient stable and carriage house is also on the premises. Telephone in the house. The sale is made solely because the owner has accepted a position in another city, to which he is to remove. The terms of payment will be satisfactory to the purchaser. May be seen at any time upon application to WILLIAM H. HACKETT.

MANHOOD

KNOW THYSELF.

A Book for Every Man!
Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the best medical work on Physiology ever published. There is nothing what ever that the married or single either require or wish to know but what is explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

HEART DISEASE
IS YOUR HEART SOUND?

Now *Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is in the heart. The renowned Dr. Clendinning, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet beats twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention. Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as* **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

Cholera.

One hundred and ten British soldiers have died in Egypt from cholera since the late outbreak of the disease. The scourge is abating since the English authorities have been dealing with it; it is said there is little doubt that it was of local origin, and caused by the total absence of sanitary precautions after the war. There is now much less alarm in Europe on its account than there was at first.

Consumption.

To prevent night sweats, to ease the cough and arrest emaciation and decline, no other form of malt or medicine can possibly equal Malt Bitters. This original Nutrient and Tonic is rich in nourishment and strength. It tides the patient over the most critical stages of the disease, digests and assimilates food, enriches and purifies the blood. It builds up the system by stimulating into new life the entire process of digestion.

Eleven of the persons left at Havana by the steamer City of Merida, sick with yellow fever, sailed for New York on the 4th inst. by the steamer British Empire. Mr. West, chief engineer of the City of Merida, was the only patient who died.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

George Engle, a Philadelphia barber, hung himself because his wife loaned her mother forty cents.

Dr. E. H. Babbitt, Hickory, N. C., says "Brown's Iron Bitters give great satisfaction."

Andrew J. Harris and Calvin A. Johnson, two boys, were arrested at Coney island Aug. 5th, having more money in there possession than boys usually carry. They confessed to stealing $500 on the 4th from Winslow & Co. of Charlestown, Mass., and $400 was taken from them.

It's hard to believe Miss Whittier was cured of such terrible sores by Hood's Sarsaparilla, but reliable people prove it.

The Boston papers report that a duel was fought recently with small-swords by Hawthorne G. Wheeler, salesman in a Boston clothing house, and George B. Griffin, the New England representative of a New York firm. Neither fool was seriously injured.

LONE JACK, MO., Sept. 14, 1880.
I have been uling Hop Bitters, and have received great benefit from them for liver complaint and malarial fever. They are superior to all other medicines.
P. M. BARNES.

Hanlan having challenged Courtney to row six races, one each against Ross, Hosmer, Lee, Conley, Hamm and Gaudaur, for $1000 a side in each race, the challenge has been taken on Courtney's behalf by John Cree, who has deposited $1500 forfeit with the New York *Clipper.*

From Biddeford, Maine, Mr. Wm. Brackett writes as follows: "Ellis's Spavin Cure has cured my horse of Bone Spavin. It's all you claim it to be." That's true.

Two American fishermen, named Chas. Taylor and Edward Landry, belonging to schooner Challenge of Gloucester, got astray from the vessel on the Grand Banks, and landed at Dropassey, after five days and nights without food or water. The men were terribly exhausted.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichter, of Baltimore.

On Saturday, Aug. 4th, Mrs. Lucy Pyer of Salem, Mass., who keeps a boading house at No. 48 Charles street, took a red hot poker from a stove and burned the arm of Jennie Harding, a little girl of fifteen years, in some half dozen places. The girl was taken from the Wanderers' home about eight years ago by Mrs. Pyer, and at times has been brutally treated. The woman has been arrested.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

—Men care comparatively little for erudition in women, but very much for physical health, good nature, and sound sense.

Vital Questions!!

Ask the most eminent physician
Of any school, what is the best thing in the world for quieting and allaying all irritation of the nerves and curing all forms of nervous complaints, giving natural, childlike refreshing sleep always?
And they will tell you unhesitatingly "Some form of Hops!"

CHAPTER I.

Ask any or all of the most eminent physicians:
"What is the best and only remedy that can be relied on to cure all diseases of the kidneys and urinary organs; such as Bright's disease, diabetes, retention or inability to retain urine, and all the diseases and ailments peculiar to Women?—
And they will tell you explicitly and emphatically "Buchu."
Ask the same physicians
"What is the most reliable and surest cure for all liver diseases or dyspepsia; constipation, indigestion, biliousness, malarial fever, ague, &c.,"
and they will tell you:
"Mandrake! or Dandelion!"
Hence, when these remedies are combined with others equally valuable
And compounded into Hop Bitters, such a

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

Why suffer with Dyspepsia, Headache, Biliousness, Constipation and all Kidney Troubles, when SULPHUR BITTERS will cure you? Why suffer with Rheumatism? Why let your blood get poisoned? Your system is weakening and being poisoned daily by the decomposition of the blood. Sulphur Bitters will quickly drive it out of the system and make it as pure as a child's. Do you want a good appetite? Do you want to be free from Headache? Do you want to be free from Dyspepsia? Do you want to be free from Biliousness? Do you want to be free from Constipation? Do you want to be free from Kidney Troubles? Do you want to be free from Rheumatism? Do you want to be free from Nervous Troubles? Do you want to be free from Sleeplessness? Do you want to be free from Pimples? Do you want to be free from Blotches? Do you want to be free from Boils? Do you want to be free from Pain? Do you want to be free from Sickness? Do you want to be free from Misery? Do you want to be free from Ill Health? Do you want to be free from Death? Do you want to be free from Hell? Do you want to be free from Sin? Do you want to be free from Hell? Do you want to be free from Sin? Do you want to be free from Hell? Do you want to be free from Sin

Fright In the Farm House.

Family all taken sick at night. Unusual symptoms. Seemed like poisoning. What could it be? What had they eaten? Was it arsenic in the soup? Was it strychnine in the coffee? Was it rats'-bane in the pie? None of these. The cistern had not been cleaned for a long time. The family had been drinking impure water. They might have died, only that they took Perry Davis's Pain Killer. Family well. Farm-house happy. Everybody pleased.

The German residents of Carleton, N. Y., on Saturday night, Aug. 4th, tarred and feathered Albert Voss for alleged intimacy with a Mrs. Hoffman. After coating him he was marched two miles out of the village, and warned never to return. The next morning he was assisted to rid himself of the tar by Mr. and Mrs. Hoffman, and now proposes to prosecute his persecutors.

"Rev. G. W. Offley, New Bern, S. C., says "I have taken Brown's Iron Bitters and consider it one of the best medicines known."

In New York, Aug. 7th, Charles Wolff, a gas-fitter aged twenty-three years, caught his wife, aged seventeen, in company with an unknown man, and stabbed them both with a pocket knife. The woman will die from her wounds.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling, irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

Pennsylvania "Check."

Among the many notices in the papers throughout the country, written in regard to the recent senatorial election, we select the following, headed "The Bosses Overthrown," from the Philadelphia *Times:*

The senatorial deadlock in New Hampshire was brought to a close by the election of Austin F. Pike on the forty-first joint ballot. While he has achieved no marked distinction, he has had a fair amount of experience in public life. He is a prominent and successful lawyer, and stands some chance at least of making a fairly creditable record. His election signalizes the overthrow of the little bosses of the Rollins-Chandler stripe, and opens the way for the development of some real statesmen in New Hampshire, if the state has any material left out of which statesmen can be made.

The Philadelphia editor perhaps does not remember that in a state where parties are so nearly balanced as in New Hampshire, that nothing but a perfect organization, accurate canvassing and systematic political work has enabled the republicans to keep the state in line; and it has been the rule to permit those who expended their time and talents in this behalf, to steer the ship to no little extent. From what we know of the "little bosses," if the state is to remain republican the aid and counsel of the aforesaid "L. B.'s" will be in requisition. Mr. Rollins was the best man for the place who has ever been at the head of the state committee, and Mr. Chandler's knowledge and skill in politics are known far and wide.

The suggestion of the possibility of the state having any material for statesmen left, comes in good grace from the commonwealth represented in the United States senate by Don Cameron, who was elected and is endured by reason of his father's ability!

New Hampshire has been drawn upon largely to supply the statesmanship of other states; but notwithstanding the drain, there remains an abundant material for future statesmen who will prove at least the peers of any whom the Keystone state has at present in Congress.

Boston opened a new drinking place in Washington street on Wednesday evening of this week. Mr. Sullivan, the fighting man, is the proprietor. The crowd in attendance exceeded that of all the city churches last Sunday. There is nothing slow about Boston people.

James McDermott was arrested at Liverpool on the 6th inst., on the arrival of a steamer from America; he is charged with being engaged in a conspiracy to murder public officials.

Eugene J. McCarthy of Boston, twenty-six years old, was killed while attempting to steal a ride on top of a Stonington railroad car, on the night of Aug. 6th, by striking a bridge.

James J. Spillaine, twenty-three years old, was mangled to death in the machinery of a paper mill at Holyoke, Mass., Aug 7th.

The fishing schooner Ethel & Addie arrived at Portland, Me., Aug. 6th, with flag at half mast. Sunday, the 15th, while off Mt. Desert rock, Angus Smith fell from the jibboom, and the vessel, which had risen on a wave, struck him and it is supposed killed him instantly. He was about twenty years old, hailed from Cape Sable, and leaves a widow and one child.

William H. Dunning, son of James Dunning of Bangor, Me., who in October last shot Franklin Davis, a desperado, at Cold Springs, California, in self defence, has been pardoned by Governor Stoneman of California. Prominent men of Maine petitioned for the pardon.

Rev. Dr. Gilbert L. De La Matyr, of Indiana, recently a greenback congressman, has returned to the ministry, and will preach in Denver, Col.

At a festival given by the ladies of the Baptist church in Camden, South Carolina, on the evening of the 3d inst., sixty-nine persons were seriously poisoned by eating ice cream. The symptoms resemble those of arsenical poisoning. Mrs. Schaver died on the 6th, and the lives of twelve other persons are despaired of.

The Providence *Journal* calls the assembling of 15,000 persons in Boston to witness the opening of John L. Sullivan's splendid rum-shop, "the modern Boston tea-party."

A terrible riot between American and Mexican railroad laborers is reported to have occurred at Los Palmos, Mexico, Aug. 6th, in which seven men were killed, three fatally wounded, and ten others badly hurt.

Mrs. Emma Newman of New Albany, Ind., a bride of three days, ran away from her husband to join the Salvation Army.

At Charleston, Ill., a man, his wife and their five children have recently become insane from some unknown cause.

Putting Away.

Putting away and putting out of the way are two totally different processes; they differ in purpose and in method. The former is a process exclusively feminine; the latter is characteristically masculine, although it is not absolutely confined to the male sex.

Man puts thing out of the way whenever the necessity of so doing presents itself to him. For example, he finds that his room is in a disorderly state. Too many pair of boots make themselves plainly obvious; there are more discarded collars on the mantel-piece than propriety would dictate; and the mixture of cigar-ashes, clothes-brushes, books and gloves on his table has reached a stage of confusion which displeases him. He resolves to put things in order, and to put out of the way whatever is plainly adapted to the process. Accordingly he crowds the superfluous boots under the sofa, thrusts smaller articles of personal apparel into the bureau drawers, empties the cigar ashes and bits of waste paper behind his desk, and thus quickly sets the room in order.

Now the result of this process is eminently satisfactory. Not only has he put things out of the way, but he is in a position to find them again as soon as he wants them. The sofa stands faithfully on guard over the boots, and he can at any time poke them out with a cane. The discarded collars, and gloves, the pipes, and the various small articles thrown into the bureau-drawers remain there, and the ashes and waste paper could be exhumed from behind the desk were any possible demand for them to arise. The man who has put things out of the way can always lay his hand upon them. He does not lose track of them. They never pass out of his possession, or, what is virtually the same thing, out of of his memory.

Of course this masculine process of putting things out of the way excites the derision of woman. She claims that it is the worst form and last expression of disorder. She can never be convinced that bureau drawers or the space under the sofa can be properly dealt with by man. And, yet if she is questioned closely and forbidden to take refuge in generalities she will end by confessing that her real complaint against man is that he contents himself with putting things out of the way, and never rises to the feminine height of putting things away.

To put things away, as the art is practiced by woman, is equivalent to concealing them more or less completely. The desire to put things away amounts in in most women to a passion. Curiously enough, it is always the things of other people—her husband or her children—that she puts away. Her own things she wisely keeps where they are handy, and she resents the suggestion that, no matter where they may be, they can ever be regarded as objects out of place. All other things, on the other hand, are, in her opinion, always out of place, provided they are visible. Her chief object in life is to put them away where no eye can see them, and her greatest happiness is attained when she has put them away so securely that she herself cannot remember where they are.

The most extraordinary results attend this feminine practice of putting things away. A husband on coming home at night carelessly leaves his hat on the piano. His wife instantly improves the opportunity to put it away, not by hanging it on the rack, but by concealing it in some grossly improbable place. Hats thus put away have been found in the dining-room sideboard, in the flour-barrel, in the coal-bin, or in the fourth-story hall closet. When the inevitable search is made for the missing hat in the morning the wife always fails to remember where it is, and often, in perfect good faith, suggests that the husband forgot to bring it home with him; or by some other equally well-meaning suggestion drives him to the borders of madness.

Books and papers of a kind which a husband is apt to need at any moment are always put away by women with eager enthusiasm. In this way they are frequently concealed for years, and finally come to light unexpectedly when some ancient trunk in the garret is opened, or when the key of the disused clothes-press in the basement is accidentally found. Winter clothing is put away in spring with such success that the husband is convinced that it has been stolen, and is hence agreeably disappointed when it is found, toward the end of the next winter, riddled with moths, in an out-of-the-way store-room. In short, there is nothing that women will not gladly and effectually put away if it belong exclusively to a man.

It is useless to fight against this impulse to put things away when once a woman is prey to it. Men should regard it as a form of mental disease, and deal gently with the victim. The only plan for a man to pursue who is in danger of having his things put away is to live in a house without closets or clothes-presses, and to keep everything on chairs. In this way only can he preserve the integrity of his property and his own peace of mind. —*Harper's Bazaar.*

—Bunker Hill monument is a cheap advertising medium. It only costs twenty-five cents to go to the top of the column.

—It is the easiest thing in the world for a father to give his daughter a check for $10,000 on her wedding day, but it is the hardest thing in the world for the bride or any other person to get it cashed.

Peaslee's steam mill in East Canaan was burned on the 8th inst. Loss $5000; insurance $2000.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtjan9,84

Pure Cod-Liver Oil made from selected livers, on the sea-shore, by CASWELL, HAZARD & CO., New York. It is absolutely pure and sweet. Patients who have once taken it prefer it to all others. Physicians have decided it superior to any of the other oils in market. Th2

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists. Price one dollar, or six for five dollars. Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH

ELY'S CREAM BALM has gained an enviable reputation where ever known, displacing all other preparations. An article of undoubted merit.

CURES ROSE COLD Cold in the Head HAY FEVER. *Is not a liquid or snuff.*

HAY-FEVER Apply by the finger into the nostrils. When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of MRS. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

PORTSMOUTH & DOVER RAILROAD.

The annual meeting of the stock-holders of the Portsmouth & Dover railroad was held at the common council room in this city on Wednesday afternoon, the 8th inst. Hon. Frank Jones presided.

There was only about a baker's dozen present, which seemed to show that either the time of the meeting had not been generally known or that the stockholders, had but little interest in the result of the election.

Mayor Treat, and Mayor Lothrop of Dover and Ex-Mayor Foye of that city, were made a committee to receive the votes cast; their report shew that the whole number of votes cast was 2373, and that

Frank Jones had	2373
Daniel Marcy	2368
Joseph A. Walker	2373
John S. Treat	2373
Charles H. Sawyer	2373
Frank A. Christie	2373
James E. Lethrop	2373
James W. Emery	5

and the first-named seven gentlemen were declared elected.

The meeting then dissolved, after a very brief session.

GOSSIPS SAY

That since every member of the board of mayor and aldermen, except one, has been continued in office by the suffrages of the citizens, it was hardly worth while to have held an election.

That, Messrs. Gardiner, Hadley and Sampson, of the legislative delegation, can smile complacently on Major Urch now.

That they laugh best who laugh last.

That the voters of the city on the 7th inst. gave the municipal government a Treat.

That the north pond that evening gave all the people,—government, voters and all,—another kind of a treat.

That Inspector Sides is still on duty in Concord.

That he is greatly interested in the railroad question before the legislature.

That business is booming at the Portsmouth Shoe factory.

That the lumber for the Stedman cottage was discharged from the Mary Willey at Newcastle on Tuesday afternoon.

That there was a brilliant display of fireworks at Pocahoutas point on the evening of the 7th inst.

That the steamer James Sampson was an hour late in making her morning trip from Kittery Point on Wednesday of this week, causing considerable grumbling among the patrons of the line.

That the officers of the Portsmouth & Dover railroad dined at the Hotel Wentworth on the 8th inst.

That Inspector Pender went to Boston on the 8th inst. to consult a physician with reference to injuries received from a fall on board the new schooner Alice B. Phillips, while masuring that vessel a few days since.

That seven hundred republicans failed to vote at the late municipal election.

MINIATURE GUINEA HENS.

We were recently shown a sprig taken from a Roxbury waxwork vine in the garden of Mrs. Isaac Dow's residence on Hanover street, which was quite a curiosity. The sprig itself was not particularly noticeable, but upon it were numbers of insects, or birds, the like of which we never before saw nor heard of. The largest of these creatures were about the size of a house-fly, and they varied from that down to mere specks; but all were shaped exactly like the Guinea fowl, so far as the unaided eye could discern, the only perceptible difference being that each of the little creatures had six legs, an eccentricity which no reputable Guinea hen would think of imitating. When touched with the finger these new-fangled birds would stretch up their long necks and look around, very much after the fashion of the larger fowl, and,if further disturbed would scamper along the branches and leaves of the sprig, their motion in running, notwithstanding their six legs, being very similar to those of the Guinea hen. If further annoyed the birds would jump into the air and fly away with a zigzag movement too rapid to be successfully followed by the eye.

We showed the sprig, and have described the insects, to many persons; but none have been able to give us any information in the premises. The vine from which the sprig was taken we are informed swarms with them, but they seem to do it no injury whatever, all the leaves appearing to be whole and healthy. Possibly they may live upon other parasites; their long necks and the shape of their heads would seem to be well adapted for pecking tiny eggs from crevices in bark, or giving a fat caterpillar a dig in the ribs.

RAILROAD NOTES.

The directors of the Eastern railroad have instructed the trustees of the road not to take action in opposition to the lease of the Eastern to the Boston & Maine railroad. Directors may direct, but whether trustees trust in their direction depends upon how the trustees regard their path of duty.

The Boston & Maine railroad's double track is being rapidly extended from Portland to Old Orchard.

Twenty new passenger cars will be turned out of the Eastern railroad shops in time for next winter's work.

The Boston *Advertiser* says the outcome of the Colby (railroad) bill in the New Hampshire legislature is still a problem open to conjecture. The Boston & Maine officials think there is no doubt of its early passage, while some of the Eastern railroad people opposed to the consolidation think the measure as good as dead. A railroad man of experience, and an impartial observer of the contest, says that he considers the result very doubtful. "It is largely a question of dollars and cents," said he, "and it remains to be seen whether the friends of the bill can put forth enough of those potent arguments." As regards the hostility of the Maine Central people it is stated that a large holder of the stock of that road recently said that as things stand now, he would not sell his stock at the market price, or for considerable above that figure; but that if the lease were to be effected, he would sell out for whatever he could get. It is rumored that Mr. Willard P. Phillips was recently consulted by the Boston & Maine management with a view to inducing him to withdraw his equity suit to prevent the consummation of the lease, but that Mr. Phillips refused any such action, and expressed himself confident of success in the suit.

Mr. Goodwin E. Philbrick was kicked in the face by a horse on the 8th inst., and rendered insensible for several hours. He was quite severely cut.

The receipts of the internal revenue office for this district during the month of July were $34,798.67, against $31,838,46 for the month of July last year.

The steamer Sirius, belonging to the Iron Steamboat Co., is said to be a slightly larger and faster boat than the Taurus, being allowed to carry 100 more passengers than the latter, and able to make the trip between Boston and this city in a half hour less time. Capt. Martin, of the Taurus, will command the Sirius, and the pilots and some other of the former's officers will also be transferred to the new boat. It was stated on the 8th inst. that the Sirius will commence running on Tuesday, the 14th.

Mr. Adolph Nelson, late of Portsmouth but now of New York, is spending a brief vacation in this city.

Lizzie Murphy, the deserter from the county farm who a short time ago attempted to poison herself in the police station, but was pumped out and sent back to the farm, again deserted, and was caught by the officers a short distance outside the city on the Eastern railroad track, after a brisk race, on the 8th inst. She was locked up preparatory to being again returned to the farm.

Mr. John Albee delivered his lectures on Norman influences upon the English language and literature, at the School of Philosophy in Concord, Mass., on Monday and Tuesday of this week.

John C. Baker, formerly a well known citizen of Portland, Me., but for the last eleven years proprietor of the Mousam house at Kennebunk, died on the 5th inst. after a brief illness. Mr. Baker was jailer at the old jail which was situated where the Portland city building now stands, from 1845 to 1854; about 1860 he went into the hay and lumber business on Commercial street, Portland, remaining in that occupation until 1870, when he removed to Kennebunk, entering the hotel business, continuing until his death.

SHORE SERVICE IN THE NAVY.

It is stated that the attention of the navy department has been called to the practice of officers residing near stations, or connected with families near navy yards, obtaining an undue share of orders for shore service at stations near their homes. This it is claimed prevents a fair distribution of navy yard orders; in fact there are some officers, it is shown, who seem to have pre-empted certain places, and only leave them for a short sea service, and resume them on their return even if a brother officer has to be "broken out."

It is contended that shore stations should be, in turn, officered by all who are competent to serve on this duty; that because an officer or his family connections happen to live in Boston or New York, he should not therefore be able to use influence, local or political, to enable him to have an undue share of service at the navy yards near these cities, over his fellow officers of a like grade.

The subject we understand will be thoroughly investigated in the coming fall, and perhaps several changes will follow in the detail of officers at several stations.

THE FIREMEN'S MUSTER.

Eagle Hose Co. and Abel Proctor Hook & Ladder Co., of Peabody, Mass., have voted to attend the muster.

Fire King Engine Co. of Chelsea, Mass., Phenix Hose Co. of Keene, N. H., and Piseataqua Engine Co. of South Berwick, Me., entered for the muster on the 7th inst.

The executive committee have voted to decorate Market street, from Market square to Downs' store, for the week of the muster.

All citizens who can take boarders or lodgers, outside of firemen, are requested to notify the Committee of Arrangements by a postal card, giving prices. No one except respectable people will be sent to any house whose occupants send such cards.

FRED B. HARADEN, *Asst. C. S.*

The Iron Steam ship Co. on the 8th inst. extended to the working girls of Boston an invitation to make a free excursion to this city in the steamer Taurus, the excursion to take place on Friday, the 10th, and the number of tickets to be limited to 500, to be given out as long as they last to all applicants of the class mentioned.

Portsmouth Prices.

Wood per cord, Hard $7; Pine $5.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MISCELLANEOUS.

SKIN HUMORS

Wonderful Cure of a Lad 12 years old, who for 8 years, from the top of his head to his ankles, was One Mass of Scabs.

MY SON, a lad twelve years of age, was afflicted with the worst form of Eczema for a period of eight years. So virulent was it that from the top of his head to within a few inches of his ankles he was one mass of scabs, which refused to yield to any treatment that was attempted. Every remedy that was suggested by friends or physicians was tried in vain. Allopathy, homeopathy, herbs, roots, salt-water baths, flaxseed poultices, soaps, ointments, and in short everyt ing that could be done to eradicate the disorder seemed only to aggravate it, and the child's life became a burden to him, and the expense of the various experiments was a constant drain upon our resources.

My wife, reading the advertisement of the CUTICURA REMEDIES in one of the daily papers, resolved to make one more attempt at a cure. (The disease was now encroaching upon his face, and seemed incurable.) I gave a reluctant consent to the proposal, and an interview was sought with a famous lady physician of New York, who made a most thorough examination of the case, and promised a cure without the least hesitation by the use of your CUTICURA REMEDIES. In ONE WEEK there was a marked change; the raw and angry sores began to grow pale and along the outer edges scaled off, and as time wore on they began to disappear entirely, until at the present writing the only vestiges to one small spot upon the forearm, scarcely visible and fast disappearing.

Thus after eight years of expense and anxiety, we have the intense satisfaction of seeing the child's skin as fair and smooth as it was before this dreadful cutaneous disorder attacked him.

Sincerely yours,
CHAS. EAYRE HINKLE.
